BCT aClass

BCT aClass v24R5 (released on 2024-09)

Fixed issues

ID	BCT Call ID	Category	Description
BT-23082	3283605237	SE Integration	(aClass) SE hangs/crashes when using frame component

BCT aClass v24R4 (released on 2024-07)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14273	BCT-109833 2237031271	Search Instances	(aClass) aclass_item search: Search for Item Rev form attributes finds wrong items, when search expression match values of prior revision

BCT aClass v24R3 (released on 2024-05)

Fixed issues

ID	BCT Call ID	Category	Description
BT-23062	2487744151	Portal Integration	Objects cannot be copied in Workflow Designer in TC with BCT Environment

BCT aClass v24R2 (released on 2024-03)

Enhancements

ID	BCT Call ID	Category	Description
BT-22999	2193286735 2163982183 2416288278	Installation	BCT server components + BCT BMIDE (Exits + Inspector) for Linux compatible with Tc2312 and Deployment center 2312

Fixed issues

ID	BCT Call ID	Category	Description
BT-23014	2314971954	Classification Administration	(aClass) Cls0MasterNode not parented in Cls0HierarchyNode
BT-23018	2318416534	NX Integration	(aClass) NX part cloning is not possible for some users

BCT aClass v24R1 (released on 2024-01)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22917	1733513100	GUI	(aClass) Crash - Remove HTML class documentation

BCT aClass v23R6 (released on 2023-11-30)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22915	013121		CLS nodes are not created / visible in AW automaticaly

BCT aClass v23R5 (released on 2023-09-28)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22961	3166484686	GUI	BCT aClass doesn't show units in attribute dialog in TC14.3

BCT aClass v23R4 (released on 2023-08-22 (planned: 2023-07-27))**Fixed issues**

ID	BCT Call ID	Category	Description
BT-23004	1986905180 2143462924	GUI	(aClass) Umlauts in the text of the change description are displayed as "?"
BT-22910	013065	Configuration	aclass_power_user overrides the individual ACL permissions per class

BCT aClass v23R2 (released on 2023-03-30)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-23015	1986905180 2143462924		(aClass) Umlauts in the text of the change description are displayed as "?"

BCT aClass v23R1 (released on 2023-01-26)

Enhancements

ID	BCT Call ID	Category	Description
BT-22574	010904	Installation	UGII_ROOT_DIR obsoleted since NX 11

Fixed issues

ID	BCT Call ID	Category	Description
BT-22808	012412 012423	GUI	Suppress BCT aClass material mapping dialog which comes up for each attribute

BCT aClass v22R6 (released on 2022-11-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-22818		NX Integration	Support new NX Version (NX 2212)

Fixed issues

ID	BCT Call ID	Category	Description
BT-22814	012486	GUI	Comparing two instances in aClass NX will lead to a Crash

BCT aClass v22R5 (released on 2022-09-29)

Enhancements

ID	BCT Call ID	Category	Description
R-1737	007957	IndexerSearch	Add Item and ItemRevision values from Solr to BcToogle in aClass
R-1738	007957	IndexerSearch	Add classification instance values from Solr to BcToogle in aClass
R-1741	007957	IndexerSearch	Use Solr for ACLASS_ADDONS_WSO_ATTR_QUERIES in aClass

Fixed issues

ID	BCT Call ID	Category	Description
BT-22787	012117	Documentation	TC Upgrade unable to locate feature if BCT AW Addons BMIDE is not deployed

BCT aClass v22R4 (released on 2022-07-28)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22696	011719	Material and Semi-Product	BCT aClass fails to load Material Library if Materials Folder is defined in NX

BCT aClass v22R3 (released on 2022-06-02)**Enhancements**

ID	BCT Call ID	Category	Description
BT-22672			Support new NX Version (NX 2206)
BT-22655	011498	Configuration	Configuration in BCT aClass to turn off the refresh of class tree during group/role changes

BCT aClass v22R2 (released on 2022-03-31)**Enhancements**

ID	BCT Call ID	Category	Description
R-1781		Search	Option to remove value previews for reference attributes in search for better performance

Fixed issues

ID	BCT Call ID	Category	Description
BT-22546		GUI	Interdependent LOV values are displayed as key only in instance table
BT-22555		GUI	Opening context menu sometimes hangs in classes with part family

BCT aClass v22R1 (released on 2022-01-27)**Enhancements**

ID	BCT Call ID	Category	Description
BT-22449			Support new NX Version (NX 2007)
BT-22545			Support new SE Version (SE 2022)

BCT aClass v21R4 (released on 2021-11-25)**Enhancements**

ID	BCT Call ID	Category	Description
BT-15595	BCT-117198	GUI	User info in status bar now updates in BCT aClass on switching group and role in TC

Fixed issues

ID	BCT Call ID	Category	Description
BT-22298		Classification Administration	BCT aClass context menu "create class", etc. is inactive - permissions are interpreted incorrectly

BCT aClass v21R3 (released on 2021-09-30)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22194	009599	Documentation	Setting usability status on the forms needs to be replaced in Best Practice part of configuration guide

BCT aClass v21R2 (released on 2021-07-29)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22183		GUI	Send to Teamcenter Clipboard doesn't appear in menu for multiple instances if no other send to is active
BT-22260		Installation	Unpack installer with "/extract" does not copy common files

BCT aClass v21R1 (released on 2021-06-10 (postponed from 2021-05-27))

Enhancements

ID	BCT Call ID	Category	Description
Q-1293		Installation	Apply new release strategy for BCT installer v21R1
R-1679		Web	Create "Web Mode" for BCT aClass 4tier standalone
BT-22021			Support new NX Version (NX 1980)
BT-20787		Installation	Change BCT_EOMS_DIR default value for the BCT Installer v19
BT-20985	005530	Installation	Select target platform version during patch process, in order to not have dlls for all new platforms

Fixed issues

ID	BCT Call ID	Category	Description
BT-22056			BCT aClass Portal doesn't show localized classification tree
BT-22151			Failed: Teamcenter preferences can also be done in .ini file
BT-20046		Web	PDFs not viewable inline in BCT aClass Web
BT-22134	009486	BCT Templates	NX crashes when inserting BCT Template
BT-22016	009085	GUI	BCT aclass freezes when hovering over dropdown menu in instance menu

BCT aClass v19.6 (released on 2021-03-25 (last official v19 version))

Fixed issues

ID	BCT Call ID	Category	Description
BT-21838		Portal Integration	BCT perspectives are not opening in TC 13.1 RAC
BT-21797	008543	Portal Integration	First "Send to BCT aClass" doesn't display instances
BT-22006		Portal Integration	BCT aClass/EasyPlot will repeat last send to when opening via button or menu
BT-22018	009162	ClassifyGUI	When copying classes, the attribute values of instances in subclasses for the subclass attributes are not copied for all instances

BCT aClass v19.4 (released on 2020-11-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-21707			Support new NX Version (NX 1953)
BT-21708			Support new SE Version (SE 2021)

Fixed issues

ID	BCT Call ID	Category	Description
BT-21731		Library & Specification	Library & Specification does not work for TC13
BT-21737	008285 006722	Geolus Search	3D Search result will not show up unless interacting with BCT aClass again
BT-21740	008311		BCT Menu resets after changing group/role

BCT aClass v19.3 (released on 2020-09-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-21623	007840	Search	Negative Float/Real values are not always shown correctly when TRIM_ZEROS_FOR_FLOATS is set to true
BT-21619	007538	autoSync/autoClass	autoClass - same ID already exists Error
BT-21620	007548	Classify	Deleting instance fails and leaves instance without reference to WSO
BT-21667	7974	Documentation	Dokumentation Bug - Customer missing hints to avoid errors during installation
BT-21663	007965	SE Integration	Not possible to add component from BCT aClass SE

BCT aClass v19.2 (released on 2020-08-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-21618			Support TC13

BCT aClass v18.15 (released on 2020-08-04 (last official v18 version))**Enhancements**

ID	BCT Call ID	Category	Description
R-1510	006752	autoSync/autoClass	autoClass should support NX function "Make Unique"
BT-21284	006752	Classify	AutoClass should work with NX function "Set as unique"

Fixed issues

ID	BCT Call ID	Category	Description
BT-21050	005725	Web	Logfiles cannot be saved from BCT EasyPlot Web or BCT aClass Web
BT-21610	007759	GUI	Tooltip Error in German on Count button under Navigator tab

BCT aClass v19.1 (released on 2020-05-28)**Enhancements**

ID	BCT Call ID	Category	Description
BT-21515			Support new NX Version (NX 1926)
BT-21706			Support new NX Version (NX 1926)

BCT aClass v18.14 (released on 2020-05-28)

Enhancements

ID	BCT Call ID	Category	Description
R-1471	006849	BCToogle	Make classification characteristics available in BCToogle instance tab
R-1475	006848	BCToogle	BCToogle Indexer: Option for indexing revision

Fixed issues

ID	BCT Call ID	Category	Description
BT-21456	007115	Portal Integration	Change Usability Status to no format does not update
BT-21433	007084	Portal Integration	"Open External Doc" entry will be shown several times in instance context menu
BT-21498	007384	SearchDocumentation	Runtime properties should not be searchable by users
BT-20557	004108	Search	Cannot search for Boolean attribute

BCT aClass v18.13 (released on 2020-03-26)

Enhancements

ID	BCT Call ID	Category	Description
R-1399		Classify	Generic Item support is deprecated
BT-20430	002779	Geolus Search	BCT aClass 3D Search should honor Teamcenter Standard Rev Rule

Fixed issues

ID	BCT Call ID	Category	Description
BT-21371		Geolus Search	Geolus 3D search fails with error 28
BT-21298		ConfigurationDocumentation	BCT aClass Documentation - 2.2.1 BCT_ADDONS_SERVER is obsolete
BT-20712		Web	Don't require making changes to ActiveX execution settings in Internet Explorer
BT-21038	005689	Classify	Generic assemblies/Items cannot be classified using BCT aClass
BT-21296		Licensing	BCT aClass from Solid Edge tries to checkout license using OS user name
BT-21289	006835	Configuration	BCT aClass does not load attributes from part_request_item_attributes

BCT aClass v18.12 (released on 2020-01-31)

Enhancements

ID	BCT Call ID	Category	Description
BT-21263	006648	GUI	Sending multiple Items to BCT aClass should show multiple items in result
R-1450		GUI	Sending multiple items to BCT aClass should show multiple items in result

Fixed issues

ID	BCT Call ID	Category	Description
BT-20980	005511	Classification Administration	BCT aClass - Classification Mappings created when moving instance
BT-20876	005146	GUI	Error message when Classes are moved
BT-21221	006393	Part FamiliesDocumentation	Clarify that BCT aClass will not create variants during Part Family synchronization

BCT aClass v18.11 (released on 2019-11-28)

Enhancements

ID	BCT Call ID	Category	Description
BT-21172			Support NX 1899

Fixed issues

ID	BCT Call ID	Category	Description
BT-20997	006458	NX Integration	Add UDF does not work in NX 1872 Series
BT-21242		Portal Integration	BCT toolbar icons are disabled in TC 12, even though BCT menu entries work
BT-20205	003027, 006048	Portal Integration	Problem with "Send to Pro/ENGINEER" / Solidworks
BT-21010	005551 005827	Portal Integration	Customize Toolbar button is not clickable anymore when bct_def_dir is set
BT-20883	005135	GUI	Internal Error on aClass add Part with No NX Geometry
BT-21137	006182	SE Integration	SE Addin is blocking 3rd party function

BCT aClass v18.10 (released on 2019-09-26)

Enhancements

ID	BCT Call ID	Category	Description
R-1382		Installation	Update BMIDE Template for BCT software for new BMIDE structure introduced TC11.4
R-1359		Geolus Search	Support Geolus v10.0

BCT aClass v18.9 (released on 2019-07-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20965	005465	GUI	Sort Classes and Navigator Search options are not saved, icon missing in Navigator tab

BCT aClass v18.8 (released on 2019-05-23)

Enhancements

ID	BCT Call ID	Category	Description
BT-20800			Support NX (1872 Series)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20791		Cadenas Classification	CADENAS parts are not classified after creation in NX Reuse library when not working in demo mode
BT-20659	004351 005045		FlexLM named user license checkout always uses the OS user name
BT-20652	004134 004970 004978	GUI	Special characters are displayed incorrectly

BCT aClass v18.7 (released on 2019-03-28)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20702		SE Integration	Get correct Solid Edge language from registry for Solid Edge 2019
BT-20763		Web	File dialogs are not working in BCT aClass Web
BT-19965		Installation	Uncertified BCT installer

BCT aClass v17.0.14 (released on 2019-03-28)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20038	002349	NX Integration	When adding UDF the name in the navigator is User Defined Feature (n) and not the instance ID (occurs only for some UDFs)
BT-20214	004775	BCT TemplatesNX IntegrationConfiguration	BCT UDF feature parameters are always used from the master, not from the variant

BCT aClass v17.0.13 (released on 2019-01-31)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20645	004172	GUI	Issues with file export

BCT aClass v18.5 (released on 2018-11-22)

Enhancements

ID	BCT Call ID	Category	Description
R-1154	003468	Cadenas Classification	Support for automatic classification of CADENAS reuse library parts with BCT aClass and BCT IcoSync

Fixed issues

ID	BCT Call ID	Category	Description
BT-20461		Classification Administration	Log for deleting classes shows incorrect duration

BCT aClass v17.0.12 (released on 2018-11-22)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20465		Portal Integration	Classified item is not shown after first BCT SendTo action from Teamcenter
BT-20437	003759	Geolus Search	3D Search for displayed CAD part not working with Geolus

BCT aClass v18.4 (released on 2018-09-27)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20256		Classification Administration	Attribute search doesn't work if TC_language_search isn't set
BT-20288	003328	GUI	Double Click does not work if Cache Dir is set to an UNC path
BT-20281	003306	Web	BCT aClass Webclient crashes IE on giving false password

BCT aClass v17.0.11 (released on 2018-09-27)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20291		BOM Check	BOM Check never finds triggering parts
BT-20091		Classify	No instance id generated even when ACLASS_ICO_ID_PATTERN preference is set
BT-20267		NX Integration	Issues when adding UDFs with names that partially match other UDF names
BT-20358	003535	Substitute	BCT Substitute: Replaced component is closed in not displayed assembly

BCT aClass v18.3 (released on 2018-07-26)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20040		Part Families	BCT aClass freezes when changing preview option while classifying a part family in NX

BCT aClass v17.0.10 (released on 2018-07-26)

Enhancements

ID	BCT Call ID	Category	Description
R-1030		Classify	Writing of class hierarchy to property as post action in Teamcenter and now also supports alias and custom starting nodes
BT-19417	001639	Web	Change BCT Webclients login Header from PDM Addon to BCT Easyplot/BCT aClass with a BCT logo.
R-1022	002446	NX Integration	Multifield key support for classifying, opening, and adding parts

Fixed issues

ID	BCT Call ID	Category	Description
BT-19355		ConfigurationPart Request Wizard	BCT Web Link cannot be created when using Part request or class docu or instance docu
BT-20212		Part Request Wizard	Part Request does not create item when automatic assignment of item ids is used
BT-20035	002507	Portal Integration	BCT Icons will be displayed multiple times in TC Portal in list of perspectives
BT-20227	003154	Portal Integration	BCT Applications using Hiddenperspective pref comes back after a restart
BT-20196	003001	Search	BCT Search result shows found instances twice in classes with reference attributes and one unit system
BT-19578		Material and Semi-Product	Cannot apply material to geometry when creating a new semi-finished product in a new part

BCT aClass v17.0.9 (released on 2018-05-24)

Fixed issues

ID	BCT Call ID	Category	Description
BT-19588	001870	part2rasterAdministration	The preview picture is not correctly displayed in NX11
BT-19398		Search	BCT aClass crashes when Interdependent LOVs are configured in Teamcenter Classification
BT-19615	001772	Material and Semi-Product	Attaching Instance docs to Material is not possible in TC9
BT-19999	002373	Classify	Character limitation for the instance ID field in BCT aClass does not match TC classification
BT-19776	001988	Search	Results by classes does not reflect on "display collected instances"
BT-19996	002293	Documentation	The Routing parts section of BCT aClass configuration documentation needs update

BCT aClass v18.1 (released on 2018-03-29)

Fixed issues

ID	BCT Call ID	Category	Description
BT-19701			Tooltips not working in Line/Scatter Chart after initial display
BT-20016	002435	Geolus Search	Macro Out of Sync error on JT Export using NX12.0.1
BT-20191	003001	Search	Decimal points in the attribute values are shown as comma and not dot

BCT aClass v17.0.8 (released on 2018-03-29)

Fixed issues

ID	BCT Call ID	Category	Description
BT-19544		GUI	Possible crash during instance comparison
BT-20012		BCToogle	Sorting/searching by instance ID column in BCToogle doesn't work for Autonomy 10 and later
BT-20011		BCToogle	Autocompletion in column in BCToogle doesn't work for Autonomy 10 and later

BCT aClass v18.0 (released on 2018-02-01)

Enhancements

ID	BCT Call ID	Category	Description
I-338		Installation	Support NX 12
I-339		Installation	Support Solid Edge ST 10
BT-19454	001760	Installation	Automatically take care of copying latest jar (deleting old and adding/replacing new) during installation

Fixed issues

ID	BCT Call ID	Category	Description
BT-16188		Installation	BCT aClass setup is asking for BCToogle Webclient Settings
BT-15273	BCT-115421	GUI	BCT aClass tab in TC not active when selecting class / clicking into the aClass tab
BT-16284		Portal Integration	BCT Icons are not visible in toolbar in TC Portal after BCT Patch

BCT aClass v17.0.7 (released on 2018-02-01)

Fixed issues

ID	BCT Call ID	Category	Description
BT-19618		Installation	BCT Plugins are compiled with vc11
BT-19517		BCToogle	Filter out empty/not empty values in BCToogle doesn't work for Autonomy 10 and later
BT-19700		BCToogle	Sorting and searching by column in BCToogle doesn't work for Autonomy 10 and later
BT-19775	001956	GUI	After adding a UDF from BCT aClass into NX, the values on the parameter dialog are not locked
BT-19352	001469	Installation	add_stock_dialog_*.dll & place_part_dialog_*.dll reside in wrong folder

BCT aClass v17.0.6 (released on 2017-11-02)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-19270	001194	GUI	Solid Edge hangs & crashes when BCT aClass dialog at replace part is closed over X.

BCT aClass v16.1.15 (released on 2017-11-02)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-19280	001201	GUI	Solid Edge freezes when a part is added from BCT aClass during SheetMetal editing

BCT aClass v16.1.14 (released on 2017-08-31)**Enhancements**

ID	BCT Call ID	Category	Description
BT-16568	000877	GUI	Support ATTRIBUTE_VALUE_DEPENDENT_DISPLAY in Navigator

Fixed issues

ID	BCT Call ID	Category	Description
BT-16137	000710 , 002292	Web	There's no automatic re-login when REST connection times out in pool manager
BT-16641	001696	GUI	Crash after viewing PDF inline in BCT aClass Web and 32bit Portal

BCT aClass v16.1.13 (released on 2017-06-28)**Enhancements**

ID	BCT Call ID	Category	Description
BT-16469		PDM Interface	Improve performance when retrieving attributes
BT-16470		GUI	Improve performance when collapsing all classes
BT-16459		Common	Improve performance for large class images

Fixed issues

ID	BCT Call ID	Category	Description
BT-16448		PDM Interface	Instances in classes with reference attributes are always displayed as metric
BT-16467		PDM Interface	Fix translation error message
BT-16250	BCT-121935 BCT-123655	CAD Interface NX	Better error handling in case synchronizing a part family does not work correctly if a variant has been deleted from the family
BT-16460	BCT-123056	Web	Login failed if using https URL

BCT aClass v16.1.12 (released on 2017-04-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-16371		3D Search	Use Geolus images as preview images for instances and items

Fixed issues

ID	BCT Call ID	Category	Description
BT-16350		PDM Interface	BCT aClass user display language is not the same as TC
BT-16357		PDM Interface	Last translation cannot be deleted
BT-16439		PDM Interface	tcserver.exe crashes when repeatedly searching in class with reference attributes while global filter is active
BT-16440	BCT-123022	PDM Interface	Search error in classes with reference attributes and mix of metric and non-metric instances
BT-16307	BCT-122455	3D Search	Unable to start 3D search for NX workpart
BT-14908	BCT-113297	GUI	Added option to set TC connection/display language for BCT aClass Web/Portal (standalone) for TC10.1/TC11.2
BT-16365	BCT-122687	Other	Weblinks cannot be deleted if BCT aClass is in the session

BCT aClass v16.1.11 (released on 2017-02-02)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12830		Documentation	Array attribute values cannot be set on instances in views
BT-16193		Portal Integration	Don't overwrite mapped attributes in Portal when editing instances
BT-16285	BCT-122299	PDM Interface	TC query cannot be created if release_status is used in ACLASS_WSO_ATTR_QUERIES
BT-16262	BCT-122162	Search Instances	Repeated errors in log for variants if family master is not on remote site
BT-16256	BCT-122120	PDM Interface	ICO deletion problem when a user has "Role in Group" access in Teamcenter

BCT aClass v17.0.1 (released on 2016-12-01)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-16179		Common	BCT aClass shows no subclass preview images at startup

BCT aClass v16.1.10 (released on 2016-12-01)**Enhancements**

ID	BCT Call ID	Category	Description
BT-16174		Common	Support for exporting instance preview images in .csv search report
BT-11471	BCT-110607	Common	Copy instance attribute values to another instance

Fixed issues

ID	BCT Call ID	Category	Description
BT-16212		Portal Integration	TC/NX Crash when classification of an item fails and default usability status is set
BT-16112	BCT-121530	PDM Interface	Edit Attribute window not resizable
BT-16031	BCT-120690	Common	Unable to set usability status for feature instances without eref info
BT-14383	BCT-110224	Portal Integration	switching on power toolbar suggests there are missing objects

BCT aClass v17.0.0 (released on 2016-10-06)**Enhancements**

ID	BCT Call ID	Category	Description
BT-16090		Compound	Compound import shouldn't apply default instance status
BT-15946	BCT-120209	Installation	BCT Server Components Installer should update the BCT_LICENSE_FILE settings

Fixed issues

ID	BCT Call ID	Category	Description
BT-16103		BCT Templates	BCT Template corrupt if BCT Template ID includes question mark
BT-13645		BCT Templates	Issues with special characters in BCT Template description
BT-14793		BCT Templates	Issues with loading part family templates in BCT Template Assistant

BCT aClass v16.1.9 (released on 2016-10-06)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16122		Client	Defaultfilter can't be set when filter comes from aclass_shared.xml
BT-16102	BCT-121362	PDM Interface	Instance documentation shows up twice if IMAN_specification or IMAN_reference is added to ACLASS_ITEM_PSEUDO_FOLDERS
BT-16087		Common	Crash when failing to load inaccessible objects
BT-16065		GUI	Resetting all search expressions doesn't reset TC LOV filter
BT-16077		GUI	Switching user mode while Navigator is shown clears attribute display
BT-16061		3D Search	Automatic wildcards are not added when combining 3D search and classification search
BT-16083		3D Search	JT creation macro fails for geometry based autoClass triggered during save as while dialog is still open
BT-16057	BCT-120952	3D Search	JT creation macro fails for 3D Geolus Search into paths with special characters
BT-16068	BCT-121255	Common	Performance regression for large BCT aClass caches introduced in v16.1.7/v16.0.14
BT-16081	BCT-116105	3D Search	3D search might hang on second step

BCT aClass v16.1.8 (released on 2016-08-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-15889		BCT aClass ITK	Enhance the Feature External Doc
BT-14769	BCT-112662	Other	Item attribute search now supports visualization of attached Teamcenter LOVs

Fixed issues

ID	BCT Call ID	Category	Description
BT-15846		GUI	Item attributes with attached LOVs show the value, not the display value
BT-15905	BCT-119874	Documentation	Add information about installation steps when version is not in major version installer
BT-15990	BCT-120090	GUI	Crash when reopening BCT aClass in NX
BT-15981	BCT-120412	Common	unable to create default attribute mapping for classes with TC11.2

BCT aClass v16.0.15 (released on 2016-08-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15903		GUI	Type in tooltip for Item Attributes is always String(40)

BCT aClass v16.1.7 (released on 2016-06-09)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15933		Search Class	Removed unnecessary warning message appearing in logfile when searching for classes
BT-15967		PDM Interface	Getting next instance number doesn't work in TC 11.2.2
BT-15865	001724	GUI	"Change Attribute order" ignores actual order of class attributes and shows up the original attribute order
BT-15849	BCT-119610	CAD Interface NX	Closing aClass with many instances loaded makes NX unusable for minutes

BCT aClass v16.0.14 (released on 2016-06-09)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15939		Web	Missing icon for classification LOV button in BCT aClass Web v16.0.13
BT-15960		GUI	Files with uid that only differ in case are incorrectly reused from cache
BT-15661		Compound	LOVs that exist in several attributes are exported more than once
BT-15899	BCT-119853	CAD Interface NX	"Classify Current Part Family/UDF" not available in abstract class menu
BT-15912	BCT-119921	Search Class	Performance for retrieving number of instances in a class
BT-15873	BCT-119647	Other	Include check in Status Migration tool to ignore remote icos
BT-15935	BCT-120126	Search Instances	Instance thumbnail would not show PNG but QAF file

BCT aClass v16.1.6 (released on 2016-04-07)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15869		Installation	BCT aClass installer v16.1.5 does not update bct_aclass.ini file in separate BCT_DEF_DIR
BT-15834		Common	UDF mapping missing when creating UDF based semipart in TC11.2
BT-15906		Web	BCT aClass Web with TC 11.2 requires group to login

BCT aClass v16.0.13 (released on 2016-04-07)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15898	BCT-119748	PDM Interface	Improved performance for resolving relations when retrieving item attribute values
BT-15821	BCT-118703	Documentation	BCT Placing Part and BCT Stock screenshots in English
BT-15808	BCT-118703	Documentation	aClass configuration documentation need to be updated for Routing with BCT aClass
BT-15842	BCT-118949	CAD Interface	Usability Status enforcement question missing for send to Pro/E or CATIA

BCT aClass v16.1.5 (released on 2016-02-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15784		Other	Support for item attribute search in library nodes
BT-15633		Web	BCT aClass Web support for TC 11.2 - requires bct_exits template update deploy
BT-15824		Installation	bct_tc_api_libspec_service_vc11v161.dll missing in tc110002 folder
BT-15737	BCT-118235	Common	Removed incorrect "No response" message from bct_exits during BCT aClass start
BT-15765	BCT-118399	BOM Check	BOMCheck isn't performed on save

BCT aClass v16.0.12 (released on 2016-02-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-15740	BCT-117951	CAD Interface NX	Display message when attempting to add non-routing part in NX Routing application if this is not allowed
BT-15743	BCT-118265	CAD Interface NX	Added configuration setting ADD_NON_ROUTING_PARTS_IN_ROUTING to allow adding non-routing parts in application Routing

Fixed issues

ID	BCT Call ID	Category	Description
BT-15774		GUI	Fixed issues with setting default value in edit attribute dialog after previously changing the format
BT-15767		Common	Number of instances information in class tree on previously copied classes may be incorrect
BT-15793		GUI	Attribute context menu shows "Change order of Attributes..." in navigator
BT-15766		Compound	xsd files for current compound missing and location not documented
BT-15809	BCT-118755	Common	adding UDF with BCT aClass in NX Sheet Metal does not work
BT-15785	BCT-118511	Other	HTML Report Column Headers formatting gets wrong after deleting an attribute
BT-15801	BCT-118664	Common	Attribute value preview does not work with reference attributes
BT-15802	BCT-118665	GUI	Hyperlink from inside an HTML page on documents does not work
BT-15786		3D Search	Start 3D search on displayed part option is also available in BCT aClass SE although that's not supported
BT-15783	BCT-118554	3D Search	Similarity and scale values are incorrect in 3D Search Results in BCT aClass SE
BT-15747	BCT-118263	Search Instances	Item attributes search string limit has been increased from 32767 to system maximum
BT-15788	BCT-118562	Portal Integration	Portal crashes when Classes tab is selected during ongoing Navigator search

BCT aClass v16.1.4 (released on 2015-11-05)

Enhancements

ID	BCT Call ID	Category	Description
R-554		Libraries	Link classification subtree from classification structure to library
R-419		Libraries	Switch from library node to related class node
R-455		Libraries	Delete class must also delete classifying library nodes

Fixed issues

ID	BCT Call ID	Category	Description
BT-15714		Common	Various changes in library handling

BCT aClass v16.0.11 (released on 2015-11-05)

Enhancements

ID	BCT Call ID	Category	Description
BT-15736	BCT-117882	GUI	Make part request label configurable

Fixed issues

ID	BCT Call ID	Category	Description
BT-15735	BCT-118107	Common	Modified classification privilege check to be in line with TC Classification behavior
BT-15734		Common	Deleting branch may be interrupted if a class and its shortcut are in the same branch
BT-15439		GUI	Fixed issues with non-default usability status value in instance menu, CSV report, and chart
BT-15526		GUI	Various improvements in navigation tree
BT-15689	BCT-117857	PDM Interface	Issues with display of forms in Portal after sending item from BCT aClass
BT-15712	BCT-117857	PDM Interface	Fixed issues with setting of usability status (POM not loaded)
BT-15717	BCT-118052	Installation	installation of BCT aClass Web Client fails with error message if older version is installed, already
BT-15608		PDM Interface	Attributes don't support different non-metric LOV
BT-15675	BCT-117831	Common	Modifying Userdata from class with family mapping in Teamcenter Classification causes attribute mappings to get lost

BCT aClass v16.1.3 (released on 2015-09-10)

Enhancements

ID	BCT Call ID	Category	Description
BT-15656		Common	Introduction of Library Management in BCT aClass
R-450		Libraries	Close show stopper to be ready for launch (Library Manager) Prio 1
R-562		Libraries	Switch between several library structures, classification hierarchy and navigator
R-559		Libraries	Library widget browsing
R-550		Libraries	Search for library nodes
R-447		Libraries	Close show stopper issues to be ready for launch (Behaviour no library at all)
R-432		Libraries	Delete ico must also delete Library Elements
R-451		Libraries	Close show stopper to be ready for launch (Library Search and Result Table) Prio 1
R-565		Libraries	Create Membership Rules based on classification attributes
R-564		Libraries	Evaluate Membership Rules interactively
R-560		Libraries	Library widget search
R-557		Libraries	Create documentation for library node
R-556		Libraries	Create icon and image for library node
R-552		Libraries	Library node images for graphical browsing
R-426		Libraries	Show/Hide L&S in UI based on Teamcenter version and bct_aclass.ini
R-418		Libraries	Show Count in Library node hierarchy
R-549		Libraries	Create new library

BCT aClass v16.0.10 (released on 2015-09-10)

Enhancements

ID	BCT Call ID	Category	Description
BT-15631		PDM Interface	Non local objects should be ignored during instance doc retrieval

Fixed issues

ID	BCT Call ID	Category	Description
BT-15641		Common	Search no longer returns 0 results whenever global filter is activated
BT-15658		PDM Interface	Family master info is now retrieved even if only latest rev item attributes are configured
BT-15659		PDM Interface	Item form info is now retrieved for all revisions of an item in a single search result instead of just for one revision
BT-15657		PDM Interface	Issues in search result when item and its revision (latest or configured) are both classified and retrieved in the same call
BT-15647		GUI	Fixed issues with printing color TIFFs
BT-15604	BCT-117468	Client	Fixed issues with release_status keyword for configuration of item attributes or usability status
BT-13764		GUI	BCT aClassifier: move "Classify all" and "Clear list" to top to ensure they're visible even for very large lists
BT-15554	BCT-117100	PDM Interface	Issues when configured item attributes, status, or replaced by value have the same POM class but different form data file class

BCT aClass v16.1.2 (released on 2015-07-09)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15496		CAD Interface SE	Attach as feature doesn't work in Solid Edge
BT-15493		CAD Interface SE	Sheetmetal features are not supported
BT-15497		CAD Interface SE	Solid Edge crashes when deleting or pasting before BCT aClass was started
BT-15528		Other	If BCT aClass is installed, NX crashes when you try to change the object_name while doing a "SaveAs" in NX 10

BCT aClass v16.0.9 (released on 2015-07-09)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15423		Installation	vc_redist_x86.exe missing
BT-15524	BCT-116922	Common	POM not loaded error during retrieval of instance/item documentation info
BT-15517	BCT-116883	BOM Check	BOM Check window disappears during save as with drawing
BT-15525	BCT-116895	Other	Empty values are now supported in combined usability status
BT-15502	BCT-116895	Common	Runtime Properties in ACLASS_WSO_ATTR_QUERIES don't work on items (only revisions)
BT-15445	BCT-116295	GUI	LOVs containing "-" as value and name cause faulty instance search results (fixed for single search expression)
BT-15495	BCT-116787	GUI	Part family template fails to open in NX from within BCT aClass unless previously opened without BCT aClass

BCT aClass v16.1.1 (released on 2015-05-07)

Enhancements

ID	BCT Call ID	Category	Description
BT-15469		CAD Interface	Search expression from work part
BT-15464		CAD Interface SE	Classify features in BCT aClass for Solid Edge
BT-15430		Other	Configurable item type for semi parts creation within NX

BCT aClass v16.0.8 (released on 2015-05-07)

Enhancements

ID	BCT Call ID	Category	Description
BT-15343		Web	BCT aClass Web does not end tcserver process when Internet Explorer window is closed

Fixed issues

ID	BCT Call ID	Category	Description
BT-12909		3D Search	Default Filter won't be applied after item or geometric search
BT-15478	BCT-116644	CAD Interface NX	Avoid error message if adding a variant without family template part on the site

BCT aClass v16.1.0 (released on 2015-03-26)

Enhancements

ID	BCT Call ID	Category	Description
BT-12119		Common	Progress messages during Part Request creation

Fixed issues

ID	BCT Call ID	Category	Description
BT-12817		CAD Interface NX	No feedback for variant creation

BCT aClass v16.0.7 (released on 2015-03-26)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15382		Common	Duplicated attribute columns after creating a search report
BT-15422		GUI	aClass NX - "Part Import Wizard" dialog freezes when mapping attributes
BT-15362	BCT-116116	PDM Interface	Fixed issues with reading ConfiguredRev:Form: and LatestRev:Form: item attributes
BT-15372	BCT-113837	PDM Interface	BCT aClass cannot read info from non-custom form fields during search
BT-15429		Other	Value with pipe is not supported in ACLASS_STATUS_ATTR_RULE
BT-15260	BCT-115218	GUI	Runtime Error performing certain actions in BCT aClass
BT-15344	BCT-115956	GUI	Set replacement fails with not loaded error
BT-15194	BCT-115087	CAD Interface SE	Inch CAD attributes not mapped correctly to class attributes
BT-15426	BCT-116181	Portal Integration	Status migration now attempts to save items whose icos were migrated to ensure they'll be synched in multisite environment

BCT aClass v16.0.6 (released on 2015-02-05)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15313		Common	BCT aClass will no longer attempt to set the status if ENABLE_SETTING_OF_STATUS is set to false
BT-15280	BCT-115487	PDM Interface	Retrieving class information fails if there is no access to ICSCClassFiles datasets
BT-15288	BCT-115320	GUI	Editing mapping recreates all mapping view attributes
BT-15314	BCT-115726	Common	Search report is empty if no search was done prior to creating report
BT-15292		Search Class	Better positioning when locating classes in tree

BCT aClass v15.1.11 (released on 2015-02-05)

Enhancements

ID	BCT Call ID	Category	Description
BT-15334		3D Search	Geolus v8 support
BT-15326	BCT-115557	GUI	allow underscores in class ID

Fixed issues

ID	BCT Call ID	Category	Description
BT-15323		GUI	Instances with status hidden are not hidden for basic users
BT-15160		Portal Integration	In Win8.1 BCT aClass portal is not starting up until a user interaction happens.
BT-15297	BCT-115570	GUI	Auto mapping of single parts and part families is now consistent and only done when clicking automap button
BT-15276	BCT-115459	CAD Interface NX	non-numeric NX expressions cause crash during classification

BCT aClass v16.0.5 (released on 2014-12-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-15164		GUI	Optimization of BCT aClass start up
BT-15242		BCT Exits	Improved performance when searching in classification
BT-15216		Other	Collecting performance statistics in full debug mode
BT-15241		BCT Exits	Performance optimization for classified Items with a lot of datasets

Fixed issues

ID	BCT Call ID	Category	Description
BT-15172		PDM Interface	Usage column in instance table slows down search performance
BT-15308		GUI	Add class image and icon option not available for classes without existing class dataset
BT-12014	20090107	Documentation	Improve Documentation of Material and Semipart
BT-15240	BCT-115257	Installation	BCT v16 status migration for AIX

BCT aClass v15.1.10 (released on 2014-12-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-15175		Portal Integration	Support of Teamcenter command suppression for BCT menu

Fixed issues

ID	BCT Call ID	Category	Description
BT-15195		Common	Edit existing class name is not working properly
BT-15203		CAD Interface NX	When adding NX materials, additional custom material .xml files are ignored
BT-15169	BCT-114910	GUI	bct_exits problems when exits are also configured for TC PowerBox/PLMEasy
BT-15173	BCT-114954	CAD Interface NX	Fixed issues related to custom material libraries

BCT aClass v16.0.4 (released on 2014-10-09)

Enhancements

ID	BCT Call ID	Category	Description
BT-15130	BCT-114609	Client	If linking to item fails during classification, the unlinked instance no longer remains in the class.

Fixed issues

ID	BCT Call ID	Category	Description
BT-14523		PDM Interface	AIWS login with non-default group will lose group on second call
BT-15018		BOM Check	"Substitute with replacement part" fails without warning if Configuration Rule leads to no revision
BT-15107	BCT-114451	Other	Class menu now disables unavailable administration actions.
BT-15148	BCT-114763	Client	Adding attributes to class doesn't work in the edit mapping dialog for part families
BT-15078		Documentation	Highlight ICS_classifiable_Types in documentation

BCT aClass v15.1.9 (released on 2014-10-09)

Enhancements

ID	BCT Call ID	Category	Description
BT-15111		Client	Support for more than one External Doc script

Fixed issues

ID	BCT Call ID	Category	Description
BT-15118		3D Search	Clarify usage of displayed part when doing 3D search
BT-12172		PDM Interface	Search on groups doesn't work if classes directly in groups contain reference attributes
BT-15091		GUI	Option to display class documentation as table is not available for Basic User
BT-12906		Common	Attaching instance docs to material and semi items now works as on other instances
BT-15121	BCT-114840	3D Search	JT creation fails when trying to start a Geolus 3D search
BT-15147	BCT-114764	Compound	Attribute and LOV comparison fails (and causes new attributes to be created) when classification localization is not installed
BT-15117	BCT-114411	Common	BCT aClass GUI crashes if Autonomy Ports are blocked

BCT aClass v16.0.3 (released on 2014-08-07)

Enhancements

ID	BCT Call ID	Category	Description
BT-15015	BCT-113675	Other	Flag to delete invalid views in v8 view migration

Fixed issues

ID	BCT Call ID	Category	Description
BT-14965		Documentation	Compound import Optimize Button functions not documented

BCT aClass v15.1.8 (released on 2014-08-07)

Enhancements

ID	BCT Call ID	Category	Description
BT-14520		Common	Custom label for classes
BT-14521		Portal Integration	Customizable font style and color for class display name
BT-15023	BCT-114026	GUI	Removed restriction that prevents linking to instances with existing link

Fixed issues

ID	BCT Call ID	Category	Description
BT-15017	BCT-113837	Portal Integration	BCT aClass cannot read info from non-custom form fields

BCT aClass v16.0.2 (released on 2014-06-12)

Enhancements

ID	BCT Call ID	Category	Description
BT-14045	BCT-109637	Common	BCT Substitute should work for single parts, also - not only for part-family members

Fixed issues

ID	BCT Call ID	Category	Description
BT-14862		Other	SendTo from Teamcenter to BCT applications outside of Teamcenter (like BCT aClass NX) only works once per session
BT-14814		Installation	bct_aclass_status_migration.bat still contains REPLACE_WITH

BCT aClass v15.1.7 (released on 2014-06-12)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-12327		CAD Interface SE	Cloning variant instances doesn't work in SE
BT-14889	BCT-113391	Portal Integration	TRIM_ZEROS_FOR_FLOATS = true does not cut successive zeroes in German UI
BT-15229	BCT-115122	Common	Crash if documentation info cannot be retrieved
BT-14929	BCT-113568	Common	Non-Metric units not supported in mapping
BT-14938	BCT-113577	Common	Modification date of item and instance did not change after setting usability status on instance

BCT aClass v16.0.1 (released on 2014-04-03)**Enhancements**

ID	BCT Call ID	Category	Description
BT-14827	BCT-113020	GUI	Added option to hide "Usage" column

Fixed issues

ID	BCT Call ID	Category	Description
BT-14815		Installation	Shortcut for legacy migration and migration but not status migration

BCT aClass v15.1.6 (released on 2014-04-03)

Enhancements

ID	BCT Call ID	Category	Description
BT-14437	BCT-110698	BCT Exits	cleanup BCT Exits info logs in CMD

Fixed issues

ID	BCT Call ID	Category	Description
BT-14777		Client	LOV translation is deleted on LOV edit
BT-14867		GUI	Prevent duplication of item attributes in attribute list
BT-14766		PDM Interface	Values can't be written to fields on objects that are configured through relation
BT-14802		GUI	BCT aClass Portal standalone should give error message when exits are not reachable instead of just closing
BT-14372	BCT-110065	Client	not possible to suppress the option of creating a new class in multi classification menu for power user
BT-14725	BCT-112405	CAD Interface NX	Loading part family variant takes up to 5min
BT-14768	BCT-112716	Other	Default Filter is not displayed if set in aclass_shared.xml
BT-14792	BCT-112755	PDM Interface	Multisite: classification of remote items shouldn't be possible
BT-14791	BCT-112755	PDM Interface	Multisite: status of remote icos can be changed
BT-14758	BCT-112202	PDM Interface	Ignore unsupported TC_CHARACTER_ENCODING_SET=UTF8 on Windows
BT-14817	BCT-112932	PDM Interface	cut off group names longer than 32 characters during instance creation
BT-14840	BCT-113041	GUI	Filter by item type does not work correctly
BT-14828	BCT-113012	GUI	reset last action when clearing attribute filter to avoid unexpected behavior with repeated search when switching to subclass

BCT aClass v16.0.0 (released on 2014-02-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-13365		PDM Interface	Instance status should not be stored in Attribute 100
BT-14439		Documentation	editing BCT aClass roles via TC preference
BT-14562		GUI	Add filter and sort capabilities to mapping dialog
BT-13239		GUI	Reset User Interface now resets both Navigator and Class Tree interface at once
BT-14582		Common	Display items from csv file
BT-13838	BCT-106703	Routing	Routing: Add Stock/Part functionality for NX 8.5 and later
BT-13890	BCT-106925	CAD Interface SE	replace components in assembly
BT-14579		GUI	Added date format DD-Mon-YYYY
BT-12990	BCT-102007	CAD Interface NX	applying a Material through aClass against multiple solid bodies at once
BT-14060	BCT-107768	GUI	Diagram: Graphical representation of search results on two

			attributes
--	--	--	------------

Fixed issues

ID	BCT Call ID	Category	Description
BT-14956		GUI	Prevent duplication of item attributes in attribute list
BT-14752		Documentation	No description for SE integration
BT-14571		Documentation	Updated documentation for Part Request Action Handler
BT-14614		Common	Added column for usage count of items which displays the number of assemblies in which an item is used
BT-14543		Documentation	cache dir must have write access
BT-14314		Documentation	BCT aClass SE - Partfamily chapter
BT-14145		Search Class	Display message box if found class is currently not visible in class tree
BT-14790	BCT-112716	Other	Default Filter is not displayed if set in aclass_shared.xml
BT-14381	BCT-110183	Documentation	BCT aClass Help: part attribute modifications in import wizard
BT-14759	BCT-112202	PDM Interface	Ignore unsupported TC_CHARACTER_ENCODING_SET=UTF8 on Windows
BT-14485	BCT-111091	Documentation	Missing note about ACLASS_ITEM_PSEUDO_FOLDERS in Instance Doc Best Practice

BCT aClass v15.1.5 (released on 2014-01-30)

Enhancements

ID	BCT Call ID	Category	Description
BT-14635	BCT-111980	GUI	Point Part Request to a URL instead of opening Standard BCT Part Request Wizard GUI

Fixed issues

ID	BCT Call ID	Category	Description
BT-14670		Installation	Missing msvc11 redistributable packages
BT-14683		PDM Interface	Variants of generic items are not synchronized
BT-14336	BCT-111852	Web	Login doesn't always appear in IE9 and later
BT-14671	BCT-111727	Portal Integration	Deleting class takes a long time
BT-14644	BCT-112096	Client	LOV structure has issues when adding a submenu without options
BT-14716	BCT-112054	UDF Handling	UDF Threaded hole issue IR6932520
BT-14634		autoSync/autoClass	BCT aClass automatic_classification_relation now supports looking for primary objects as well
BT-14669	BCT-112173	CAD Interface NX	aClass NX unresponsive when opening autofilter and Word document
BT-14742	BCT-112291	Portal Integration	modifying attribute order not possible when old order information exists
BT-14735	BCT-112019	BOM Check	BOM Check stops checking on first level if exclusion values are configured to be empty

BCT aClass v15.0.9 (released on 2014-01-30)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14798		Common	Fix high memory usage when displaying TIF
BT-14578	BCT-111782	CAD Interface SE	Switch to Debug Mode is not working
BT-14696	BCT-112348	Common	Incorrect estimated format in the mapping dialog
BT-14653	BCT-111902	CAD Interface NX	Make sure configuration rule of correct scope is used when determining configured revision
BT-14299	BCT-112152	Portal Integration	Item attributes are not localized
BT-14674	BCT-112021	CAD Interface SE	saving part triggers classification dialog

BCT aClass v15.1.4 (released on 2013-11-21)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14583		Common	Switching to debug mode doesn't turn on timestamps
BT-14620	BCT-111803	PDM Interface	Classes are not displayed if they have parent information in a non-standard way
BT-14621	BCT-111986	PDM Interface	Retrieving class information fails if there is no access to ICSCClassFiles datasets
BT-14615	BCT-111879	Other	Attributes are missing in search report if userspecific attribute order is set

BCT aClass v15.0.8 (released on 2013-11-21)

Enhancements

ID	BCT Call ID	Category	Description
BT-14542	BCT-111487	Portal Integration	Attribute unit should be in search report header
BT-14616	BCT-111931	Portal Integration	usability status order

Fixed issues

ID	BCT Call ID	Category	Description
BT-14627	BCT-111849	Other	Crash when QImage to convert from RLC can not be allocated
BT-14561	BCT-111673	CAD Interface SE	Angle Attributes Values are displayed as radians instead of degree
BT-14591	BCT-111722	Portal Integration	Related objects of a specific type aren't always properly resolved in Item Attributes
BT-14592	BCT-111890	Portal Integration	Send to Teamcenter Clipboard does not work for multiple instances
BT-14584	BCT-111845	Portal Integration	not able to add same LOV option name under two different submenus
BT-14541	BCT-111481	Portal Integration	Error when creating LOV with ID longer than -999999

BCT aClass v15.1.3 (released on 2013-09-19)

Enhancements

ID	BCT Call ID	Category	Description
BT-14507		GUI	Alert admin about attribute with same name and formats when trying to create a new attribute
BT-14484		Common	Automatic classification of related items
BT-14536		GUI	Search for LOV during attribute definition

Fixed issues

ID	BCT Call ID	Category	Description
BT-14384		Other	BCT Exits log is not downloaded from server
BT-14212	BCT-108722	Common	Classification via Send To in BCT aClass Portal and BCT aClass NX doesn't work if both are started

BCT aClass v15.0.7 (released on 2013-09-19)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14528	BCT-111099	PDM Interface	Handling for multisite classification migrations with orphaned IMAN_classification relations
BT-14496	BCT-110080	GUI	String 99 format should support 256 characters
BT-14503	BCT-111206	BCT aClass ITK	Error message when closing BCT aClass Portal Standalone
BT-14447		CAD Interface NX	Density cannot be applied to single solid in part with several solids
BT-14483	BCT-111081	Search Instances	Cannot set User Default Search Value for LOV and Date attributes

BCT aClass v15.1.2 (released on 2013-07-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14377		GUI	Updated max length of Node and LOV names to better reflect Teamcenter Portal limits
BT-14422	BCT-110507	CAD Interface NX	BCT Exits aren't properly initialized when saving a part before opening BCT aClass if USER_FILE is active
BT-14417	BCT-110459	Installation	bct_aclass_migration.exe missing

BCT aClass v15.0.6 (released on 2013-07-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-14411		3D Search	Support of Geolus v7

Fixed issues

ID	BCT Call ID	Category	Description
BT-14398	BCT-110327	Portal Integration	Integer range attribute search and edit now allows correct number of digits, not just 3
BT-14380	BCT-109638	CAD Interface SE	BCT aClass doesn't reconnect after server side session timeout
BT-14376	BCT-109860	Web	aClass Web does not work with WebSphere
BT-14206	BCT-109877	autoSync/autoClass	AutoSync doesn't find expressions when saving drawing of master/model item

BCT aClass v15.1.1 (released on 2013-04-25)

Enhancements

ID	BCT Call ID	Category	Description
BT-14304		Other	Global filter should have option to override status without filtering out instances

Fixed issues

ID	BCT Call ID	Category	Description
BT-14350		PDM Interface	BCToogle search attributes are not recognized as such
BT-14366		PDM Interface	Class shortcuts are now deleted when class they link to is deleted and old shortcut views are hidden
BT-14340		Common	WebLink URLs aren't opened
BT-13715		Common	Numeric attribute Min/Max/Default values aren't displayed correctly if format is inconsistent
BT-14176		Portal Integration	Global filter needs to be reset when getting new server session
BT-14305	BCT-109486	Portal Integration	allowing paste of instances with same ID
BT-14344	BCT-109801	Common	Fixed class tree navigation if features were disabled for speed

BCT aClass v15.0.5 (released on 2013-04-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14354		Search Instances	Item attribute search via BCToogle doesn't work
BT-14343	BCT-109832	Portal Integration	BCT aClass ignores BCTOOGLE_SEARCH_ATTRIBUTES setting for display if both ADDONS and WSO queries are set
BT-14349	BCT-109602	CAD Interface NX	replaced_by does not work via BOM Check dialog

BCT aClass v15.1.0 (released on 2013-03-21)

Enhancements

ID	BCT Call ID	Category	Description
BT-14259		Installation	The default "Destination Folder" should include the version string
BT-14264		Installation	Ask for BCT_DEF_DIR location
BT-12331		GUI	"Rebuild Teamcenter Queries" shouldn't be available for Simple and Power Users
BT-13406		Common	Logfile Information on user's role in aClass
BT-13909	BCT-107096	Other	aClass GUI should close after selecting the cancel button while BCT Substitute is running
BT-14234	BCT-108822	Portal Integration	definable directory for log files

Fixed issues

ID	BCT Call ID	Category	Description
BT-14261		Installation	Flexlm link goes to wrong website
BT-14041		Installation	Installer needs to ask for Web Tier URL when installing NX 4tier
BT-14267		GUI	Fixed display of global filter attributes if attribute ID is negative
BT-14260		Portal Integration	Append %BCT_AUX_PATH% to %AUX_PATH% don't overwrite it
BT-13068		Installation	portal.jar may overwrite existing menus
BT-13572		CAD Interface NX	BCT aClass flickers while creating multiple variants
BT-14298	BCT-109022	Documentation	in the aClass documentation, Geolus configuration is incomplete
BT-12709	BCT-100418	Common	When create physical variants the displayed part is changed to nothing
BT-14118		Installation	Tooltip of 'BCT Substitute' NX menu is not translated in german
BT-14214	BCT-109253	autoSync/autoClass	AutoSync writes ICOs even when WRITE_ICOS Privilege is denied
BT-14379	BCT-110170	Web	global filter statuses are not used in instance comparison and display of collected instances
BT-14292	BCT-109371	Common	In certain cases classification is allowed despite ACLs forbidding it

BCT aClass v15.0.3 (released on 2013-01-17)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14190	BCT-108549	3D Search	Cannot find part if export takes longer then 5 seconds
BT-14238	BCT-108249	CAD Interface	Fixed issues with CATIA Integration
BT-14201		Portal Integration	BCT aClass Portal does not start if tcserver process filename is longer than its path

BCT aClass v14.1.7 (released on 2013-01-17)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14174	BCT-108449	Client	array attribute value lost when switching to non-metric

BCT aClass v15.0.2 (released on 2012-10-25)

Enhancements

ID	BCT Call ID	Category	Description
BT-14133		3D Search	3D search now supports display of only the configured/latest revision of an item when revisions are displayed
BT-14132		3D Search	3D search now supports option to check access rights on DirectModel dataset of (configured) revision

Fixed issues

ID	BCT Call ID	Category	Description
BT-14089		PDM Interface	Classes with Web Links can't be deleted without first deleting Web Links
BT-14084		Compound	WebLink support for Compound
BT-14083		PDM Interface	When editing attributes, metric unit is copied to non-metric unit

BCT aClass v14.1.6 (released on 2012-10-25)

Enhancements

ID	BCT Call ID	Category	Description
BT-14136		Other	Added "AClass_HIERARCHY_MAX_LENGTH" to configure a maximum length for class hierarchy that's written into fields

Fixed issues

ID	BCT Call ID	Category	Description
BT-14121		GUI	Global filter should not override status if global filter is skipped to yield results
BT-14124		GUI	Performance and GUI improvements in search report
BT-14163		Other	Various performance improvements
BT-14117		Portal Integration	STARTING_NODE now also works in Portal
BT-14161		PDM Interface	Resetting of global filter now uses correct status and attribute settings after getting new server session
BT-14297	BCT-109423	CAD Interface NX	BCT substitute of an element family variant from NX takes a long time
BT-14122		PDM Interface	Significantly improved initialization speed of global filter with large number of instances
BT-14119		Portal Integration	BCT aClass blocks Portal when login fails

BCT aClass v15.0.1 (released on 2012-08-30)

Enhancements

ID	BCT Call ID	Category	Description
BT-14058		GUI	New table view for all documentation tabs

BCT aClass v14.1.5 (released on 2012-08-30)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14002	BCT-104388	PDM Interface	Migration of material and semi instances has missing reference to item
BT-14003	BCT-107135	CAD Interface NX	UDF instances have no preview images
BT-14066	BCT-107838	GUI	Custom views are not applied
BT-14042	BCT-107600	GUI	inability to maximize the BCT aClass GUI if PDF is displayed inline
BT-14052	BCT-107619	Common	when downloading large files Errorcode: 399 Message: "Data corrupted" appears
BT-13949	BCT-107241	Common	Search report doesn't correctly handle status icon column
BT-12374		Common	Power Users have to be able to classify Items in global filter classes

BCT aClass v15.0.0 (released on 2012-07-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-13840		Compound	Localization support for compound
BT-13839		PDM Interface	Add options for locale aware searching
BT-13795		Portal Integration	BCT aClass Portal does not support 2 Tier Installations without additional Application server
BT-11028		PDM Interface	Date format can now be edited even on used attributes
BT-12069		UDF Handling	Canceling/Back while positioning UDF should return to BCT aClass
BT-13529		Installation	Possibility to centralize configuration files like, xml files, icons, etc. in "share" directory in %BCT_EOMS_DIR%
BT-13098		GUI	Default class image for classes without images
BT-13178		BOM Check	Start substitute directly from BOM Check Dialog
BT-13970		Web	Send to Teamcenter Web
BT-12926	BCT-101629	GUI	Unknown documentation uses file system icons
BT-13094		Client	BCT aClass - Highlight preferred parts in Instances Preview Tab
BT-12632		GUI	Easily add a Url as Instance or Class Documentation
BT-11519		GUI	Scroll to instance preview when selecting instance
BT-12892		Common	Create Web Links as Class documentation
BT-12067		3D Search	Clicking on item in 3D search result does not highlight Geolus preview image
BT-13344	BCT-103957	Common	Allow to expand number of characters for string attributes if attribute is already used
BT-10925		GUI	Configuration of preview images for instances and icons
BT-13732	BCT-106093	Other	Setting for maximum size of icons in class tree

Fixed issues

ID	BCT Call ID	Category	Description
----	-------------	----------	-------------

BT-13684		Installation	Server components installer should also include %BCT_EOMS_DIR%\aclass/resources (BCT aClass Web Client)
BT-14236		GUI	Fixed some display issues with node shortcuts
BT-14116		Portal Integration	STARTING_NODE now also works in Portal
BT-12913		CAD Interface NX	bct_aclass.ini is taken from %TEMP%\bct\bct_def\config\ instead of %BCT_EOMS_DIR%\bct_def\config
BT-11593		PDM Interface	Deleting ACLs from nodes is not 100% complete
BT-13649		Portal Integration	BCT aClass uses settings from bct_aclass.ini instead of TC Preferences based on ini_has_priority
BT-13916		Web	File Upload in Part Request Wizard fails
BT-13926	BCT-107135	CAD Interface NX	UDF instances have no preview images
BT-13515	BCT-104388	PDM Interface	Migration of material and semi instances has missing reference to item
BT-13948	BCT-107241	Common	Search report doesn't correctly handle status icon column
BT-14030		Common	Power Users have to be able to classify Items in global filter classes

BCT aClass v14.1.4 (released on 2012-06-01)

Enhancements

ID	BCT Call ID	Category	Description
BT-13158		Other	BCT Send To menu should be available from search result in Teamcenter Portal
BT-13849	BCT-106781	Common	bct_aclass_exits and bct_exits for RedHat Enterprise Linux 64bit

Fixed issues

ID	BCT Call ID	Category	Description
BT-13837		GUI	Copy selected cells in BCToogle
BT-13894		PDM Interface	Localizations aren't properly handled on non-English server installations
BT-13716		PDM Interface	4-tier file upload doesn't work with NX 8 and NX 7.5.5.4.x86/x64
BT-13911	BCT-107087	PDM Interface	File Upload for class image fails sometimes
BT-13828	BCT-106547	Portal Integration	It is not possible to view instance documentations in Portal and Web Client
BT-13891	BCT-106936	Portal Integration	Classes are not properly refreshed after setting sort order of subclasses
BT-13921	BCT-107030	GUI	BCT aClass doesn't open after closing window as Basic User in 64bit if an instance with PDF doc is selected
BT-13889	BCT-106870	GUI	Tiffs as node images, which are stored as .bin in volume aren't displayed in NX version of BCT aClass
BT-13823	BCT-106474	CAD Interface NX	Class attributes can't be displayed if PLM-Easy is installed
BT-13843	BCT-106720	Common	Item type selection on part import

BCT aClass v14.1.3 (released on 2012-03-22)**Enhancements**

ID	BCT Call ID	Category	Description
BT-13665	BCT-105601	Portal Integration	Copy entire row in BCToogle

Fixed issues

ID	BCT Call ID	Category	Description
BT-13725		Web	Login Screen appears in a seperate window
BT-13755		UDF Handling	Assemble an UDF can lead to a macro error
BT-13652	BCT-106075	GUI	Issues with inline display of PDFs
BT-13793	BCT-106147	PDM Interface	Problems displaying material instances in BCT aClass
BT-13728	BCT-106073	PDM Interface	Instance attribute values can't be edited
BT-13779		Client	Add instance documentation does not work with files from UNC path
BT-13736	BCT-106041	PDM Interface	Default and min/max values on attributes can't be set in Tc8.1

BCT aClass v14.1.2 (released on 2012-01-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-13354		Client	Compare metadata of instances
BT-12891	BCT-105643	Common	Access check for NX work part is done on item or revision depending on classification preference
BT-13698	BCT-105936	GUI	Remember Tree Reorganization Mode between sessions

Fixed issues

ID	BCT Call ID	Category	Description
BT-13677		PDM Interface	Status is reset when editing or creating instances with same ID elsewhere in class tree
BT-13706		Web	PDFs can't be viewed inline in BCT aClass Web
BT-13683		Installation	setup.exe /NCRC doesn't work
BT-13678	BCT-105737	Portal Integration	ICS_unit_active is ignored in BCT aClass Portal
BT-13657	BCT-105502	CAD Interface NX	Folder names in Navigator are missing/incorrect in Tc 8.1

BCT aClass v8.1.6 (released on 2012-01-23)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13527		Portal Integration	BCT aClass Portal can only be started one time within one Teamcenter Portal Session
BT-13903	BCT-107009	3D Search	BCT "Converting Work Part" dialog disappears on 1st try of Geolus aClass search

BCT aClass v14.1.1 (released on 2011-11-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-13452		Portal Integration	Open in Pro/E and Solid Works

Fixed issues

ID	BCT Call ID	Category	Description
BT-13553	BCT-104928	Documentation	BCT Substitute feature isn't described in the aClass documentation

BCT aClass v14.0.5 (released on 2011-11-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-13619	BCT-105312	GUI	Option to configure whether GUI should reopen after placing part

Fixed issues

ID	BCT Call ID	Category	Description
BT-13693	BCT-105894	Search Instances	Search Report shows wrong class

BCT aClass v14.1.0 (released on 2011-11-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-13152		PDM Interface	Support for localizing names and values for Tc 8.3 UA
BT-13261		PDM Interface	Support Alternate IDs
BT-12959		Common	LOV Deprecation
BT-12961		Common	Support of default values and min/max values for attributes.
BT-13394		PDM Interface	Navigator search now uses ACLASS_QUERY_FOR_SEARCH Teamcenter preference
BT-13565		CAD Interface	Configuration option to disable AutoSync and AutoClass on save/save as
BT-12080		PDM Interface	Refresh for folders in Navigator
BT-12998		Installation	Make creation of start menu entries optional
BT-13129		GUI	Replaced By verification
BT-13395		GUI	Navigator options to switch between folder search (recursive or non-recursive) and global Teamcenter search
BT-13392		GUI	Quick inline editing of instances
BT-13516	BCT-104766	Common	Improve log message when Teamcenter preference can't be found
BT-12118		Common	Option to deactivate upload step in Part Request Wizard
BT-12744		GUI	There should be an option for excluding item attributes when setting values as search expressions
BT-13208	BCT-102883	GUI	Option to hide number of instances in class tree
BT-13027		Search Class	Copy values from search result (instance/item display) to clipboard
BT-11801		PDM Interface	Ico change workflow should also start when setting status

BT-12949		Common	Decimal delimiter for attribute values is now localized (comma for German)
BT-11383		GUI	Refresh button should be available in navigation toolbar
BT-13215	BCT-102899	Common	Remember the preview picture selection when classifying part families
BT-13214	BCT-102896	GUI	Option to set the display for "hidden" instances
BT-11639	20080881	Common	Localized decimal delimiter (comma for German)
BT-10944	20091077	GUI	Attribute value dependent instance highlighting

Fixed issues

ID	BCT Call ID	Category	Description
BT-13380		Installation	BCT_PORTAL_ROOT is not set when installing 4-tier
BT-13265		Installation	BMIDE project isn't available without installation.
BT-12220		Common	Part Request Wizard: Logical as checkbox and note as text field
BT-13566	BCT-104966	PDM Interface	Query creation support for "Classification" keyword
BT-12997		Documentation	"BCT aClass classification migration" should also be described in help_BCT_aClass_Configuration pdf
BT-13435		Compound	Suppress error message box about setting status in compound import
BT-13379		Installation	Exits installed via BMIDE won't load without setting TC_customization_libraries
BT-13064		Installation	Check TC_ROOT check - does it work for a over the web installation
BT-13086		Installation	When 32bit and 64bit are installed into same folder, only one can be uninstalled
BT-12117		Portal Integration	Use the class of the instance when starting Part Request Wizard from an instance
BT-13311	BCT-103699	Installation	no shortcut for NX with aClass 4Tier provided
BT-12816	BCT-101117	Common	HTML-Report, numbers should use the "," (comma) as decimal delimiter symbol, not "." (point)
BT-12905		Common	Set Replacement of material icos

BCT aClass v14.0.4 (released on 2011-09-29)

Enhancements

ID	BCT Call ID	Category	Description
BT-13558	BCT-104965	BOM Check	Configuration option to disable BOM Check on save

Fixed issues

ID	BCT Call ID	Category	Description
BT-13530		Portal Integration	Instance docs cannot be added to instances without item
BT-13151		GUI	Maximizing doesn't work on first try
BT-13551	BCT-104857	CAD Interface NX	Classification of UDF fails
BT-13512	BCT-104759	PDM Interface	Fixed issues with ACLASS_REPLACED_BY_QUERY on items

BCT aClass v14.0.3 (released on 2011-07-28)

Enhancements

ID	BCT Call ID	Category	Description
BT-11708	20081278	GUI	BCT aClass should reopen after adding a part to an assembly (like for UDFs and Templates)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13458	BCT-104510	PDM Interface	Workflow after editing instances should not be started for material and semi instances

BCT aClass v8.1.5 (released on 2011-06-16)

Enhancements

ID	BCT Call ID	Category	Description
BT-13367		PDM Interface	Global Teamcenter search with item attributes

Fixed issues

ID	BCT Call ID	Category	Description
BT-13364		3D Search	BCT aClass 3D Search results with 100% similarity are not ordered correctly
BT-13279		3D Search	3D Search on workparts doesn't work first time
BT-13363		3D Search	BCT aClass shows wrong Similarity value for custom search profile
BT-13317		3D Search	Search for geometric identical parts should not be available in NX

BCT aClass v14.0.2 (released on 2011-05-26)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13318		3D Search	BCT aClass 3D Search causes critical error when trying to display preview images
BT-13335		Portal Integration	Flowcurve Search in BCT aClass Portal Plugin doesn't write search result into input_ids.txt
BT-13347	BCT-103960	Compound	Communication with exits fails for data > 1MB
BT-13306	BCT-103644	GUI	Alphabetical sorting in class tree is not locale aware

BCT aClass v14.0.1 (released on 2011-03-31)

Enhancements

ID	BCT Call ID	Category	Description
BT-12537	20100032	Installation	Silent Installer wanted
BT-13270	BCT-103378	Installation	bct_aclass_exits v14 for Linux needed

Fixed issues

ID	BCT Call ID	Category	Description
BT-13286		Common	Favorites are multiplied when adding some in aclass_shared.xml
BT-13266		Installation	Information on BMIDE Templates when upgrading from TcEng to TC UA
BT-13263		CAD Interface SE	NX Snapshot option appears in class documentation menu

BCT aClass v8.1.4 (released on 2011-03-31)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13303		Portal Integration	Possible freezing of Teamcenter Portal on exit (TC 2007.1 and 2007.2 UA only)
BT-13282	BCT-103357	Portal Integration	wrong QAFs are displayed
BT-13245	BCT-103104	Common	Web Server error when classifying items from BCToogle
BT-13320	BCT-103814	Installation	bct_exits for 4tier installation on Solaris needed

BCT aClass v14.0.0 (released on 2011-02-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-12962		Common	Instance Search Display Redesign
BT-12550		UDF Handling	Assign Class ID also works in Feature Import Assistant
BT-12958		Common	Setting of root node (i.e. displaying any class as class tree)
BT-12950		Common	Replace multiple occurrences of same variant
BT-12960		Common	Support for display of localized names and values with TC UA 8.3
BT-13034		Common	bct_aclass.ini setting STATUS_ON_INSTANCE - per default on true
BT-11037		Common	Node deletion log should log everything
BT-13092		GUI	BCT aClass should enforce recommendations for allowed characters in node ID
BT-13084		GUI	LOV manager should remember last search
BT-13197		Installation	only set BCT_EOMS_TMP in eoms_set.cmd if it is not already defined
BT-13097		Installation	aClass Portal + standalone now needs FMS_HOME
BT-13063		Installation	Don't ask for Portal LSE
BT-13066		Installation	Add a hint to post install task on finish page
BT-13065		Installation	Also copy installation docs to install directory

BT-13000		Installation	Create a parent folder for all BCT Startmenus
BT-12937		GUI	Sorting by ID in attribute dictionary and LOV manager now sorts numerically
BT-13099		Portal Integration	Optionally disable storing of last node id for better startup time
BT-12983		Routing	Option to hide routing root when not in routing mode
BT-10928		Common	Replaced by should display last replacement if there are several
BT-11130	20061935	GUI	Improvements in Copy Class dialog
BT-11057		GUI	Colors should be configurable for Item attribute columns
BT-11472		Search Instances	Expand BCT aClass Search Report to be able to export .csv files
BT-12895		Installation	provide sample file of Teamcenter preferences for BCT aClass to import
BT-11982		Compound	Compound Import should be able to automatically change IDs if they exists
BT-11906	20082155	GUI	Copy of nodes does not support copying of instances

Fixed issues

ID	BCT Call ID	Category	Description
BT-12202		BCT Templates	Classification of single combinations does not work correctly
BT-12167		PDM Interface	Date handling for one of the formats doesn't support foreign locales other than German
BT-12078		UDF Handling	Replacing semiparts won't change the attributes from the classification or the name
BT-13222		Portal Integration	Wrong BCT_DEF_DIR value for NX environment
BT-10971		Compound	Attribute Dictionary Information missing/wrong after deletion of classes or importing compound
BT-12902		Installation	Start Script for Solid Edge doesn't work without changes
BT-13170		Portal Integration	Disable edit and delete of instance if user has no permission
BT-13067		Installation	Cancel installer or uninstall cause error message
BT-13135		GUI	Geometric Search profiles configured for BCT aClass are not available in BCToogle
BT-13136		GUI	Global filter specific status isn't used unless global filter specific attributes are also activated
BT-13103		GUI	Critical error when dropping one pixel below last attribute during mapping
BT-12505	20092249	Common	Disabled format change of unused class attribute to range format
BT-12502	20092249	GUI	Improvements in handling of range attributes
BT-13026		Other	Searchreport in BCT aClass does not contain 'Class' and 'Replaced by' column
BT-12094		CAD Interface NX	Partfamilies with variantnames longer than 31 chars are not supported (Tc Pref ICS_useLongId now applies)
BT-13250	BCT-103130	Installation	Special Characters in INI and java script files
BT-11382		PDM Interface	Refresh in Attributes dictionary

BT-13134	BCT-102528	GUI	Renamed configuration option for trimming zeros for more consistency
BT-11615	20080712	GUI	Add warning when editing format of used attributes

BCT aClass v8.1.3 (released on 2011-01-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-13090	BCT-102338	Portal Integration	"Open part" via revision selection -> Add a status column to revision selection.
BT-13201		GUI	Show Teamcenter release status in revision selection dialog

Fixed issues

ID	BCT Call ID	Category	Description
BT-13224		Installation	BCT aClass Migration tools are not installed for Tc 8.3
BT-13138		Portal Integration	Additional BCT Applications can not be removed from the BCT Menu in Tc Portal
BT-12023	20090269	BCT aClass ITK	One instance ID can be assigned several times in different classes without any warning
BT-13187	BCT-102786	UDF Handling	only one UDF can be added if a sub folder of UGII_UDF_IMAN_TOP_LEVEL_FOLDER contains a slash
BT-13200		Routing	Error in characterisitc match causes stock dialog to be set to incorrect last stock

BCT aClass v8.1.2 (released on 2010-11-09)

Enhancements

ID	BCT Call ID	Category	Description
BT-13030		Installation	Installation .zip should include Configuration Guide PDF

Fixed issues

ID	BCT Call ID	Category	Description
BT-12897		Portal Integration	Portal Plugin does not work in TCX 5
BT-12978		Common	Copying of instances searched in classes without all attributes does not copy missing attributes
BT-13102		GUI	LOV arrays cannot be edited properly
BT-13089		PDM Interface	Just created attribute cannot be added to class (Tc 8.3)
BT-12914		Portal Integration	Teamcenter.exe is still running after it was closed
BT-13040		Portal Integration	Webservice Timeout leads to lost data while editing LOVs
BT-12678	BCT-101796	UDF Handling	Semi Part: Dialog for selection of template part cannot be confirmed
BT-12970	BCT-101854	GUI	Display problems in class tree with large node icons
BT-12884		Portal Integration	PDFs aren't displayed in BCT aClass Web and BCT Portal
BT-13100	BCT-102389	Common	When several revisions of the same item are related to an item only one is checked for documentation
BT-13085		Other	as2os mapping cause internal error

BCT aClass v8.1.1 (released on 2010-09-23)

Enhancements

ID	BCT Call ID	Category	Description
BT-12854		Routing	Allow unsetting of specification
BT-12308		GUI	Dynamic Instance value preview
BT-12903		Common	Hide TC attributes in attribute area when DISABLE_SEARCH_FOR_ITEMATTRIBUTES = ALWAYS
BT-11984		Routing	Routing should use placement dialog
BT-12618	20100266	Routing	File Select option for place part
BT-12952		Common	Possibility to copy related documentation with BCT Part Request Wizard

Fixed issues

ID	BCT Call ID	Category	Description
BT-12867		Routing	Routing integration does not work with NX 7.5 (fixed for NX 7.5.2)
BT-12911		Installation	BCT aClass NX 32bit does not start with NX7.5 from Portal
BT-11837		Documentation	Screenshots of Routing Integration are German
BT-12943		GUI	Cannot set status on multiple instances
BT-12910		3D Search	autoClass for 3D Search displays class selection dialog even for one or zero classes
BT-12832		Routing	Wiring and Discipline information is now added as Routing Attribute
BT-12904		Common	Search in navigator tab doesn't show revisions
BT-12946		CAD Interface SE	Instance previews aren't displayed for SE Assembly, Sheet Metal, Weldment and Draft
BT-12933		Web	BCT aClass 3D Search is slow
BT-12955		Portal Integration	Geolus Search result displays ico ids and Thumbnail of Items without Teamcenter permission

BCT aClass v8.1.0 (released on 2010-08-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-12009		Search Class	AutoFilter "empty" option should be at the top like select all
BT-12325		BCT Templates	Template Assistant does not work with Positioning Constraints
BT-12786		Installation	GUI-option needed for installation of BCT-Software (for all TC-versions)
BT-12307		Common	Deleting many instances takes longer than it should
BT-12074		BCT Templates	Remove cloning of BCT Template instance
BT-12878		Installation	Be able to install x64 version in existing x32 BCT_EOMS_DIR (and other way around)
BT-12578		GUI	View support should be switched off by default
BT-11980		GUI	Improved information in Info log
BT-11786		Portal Integration	Ability to download serverlog
BT-12787	20091676	PDM Interface	User Defined Completion for Instance values
BT-11871	20082134	GUI	inline Viewing of PDFs with Adobe Reader 9
BT-12248		GUI	PR "Display Name" für Attribut einführen

Fixed issues

ID	BCT Call ID	Category	Description
BT-12764		PDM Interface	In 4tier mode, class image is not added in family import wizard when creating new class
BT-12848		PDM Interface	fixed setting of attribute colors for 4tier
BT-12846		Compound	Problem when exporting compound of class with slash in ID
BT-12847		GUI	Hide empty columns now works with arrays
BT-12071		GUI	Shortcut Del/Entf for deleting classes doesn't work
BT-12889	BCT-101463	Compound	Compound export triggers confirm dialog for closing modified parts
BT-11276		Documentation	Instance icons aren't documented (specifically special symbols and overlays)
BT-11995		GUI	Adobe Acrobat Reader 9 is not supported
BT-12868	BCT-101189	Portal Integration	Icon for EngChange Revision not available in aClass Portal
BT-12872	BCT-101354	Portal Integration	Filter on Itemtyp excludes classified Revisions
BT-12772		PDM Interface	Unable to get new created items from selected Folder in aClass Navigator
BT-12781	BCT-100848	Common	Can't delete class documentation with Umlauts
BT-12783		Portal Integration	Umlauts are not supported

BCT aClass v8.0.3 (released on 2010-07-29)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12837		PDM Interface	bct_aclass_exits.dll crashes when accessing migrated instances with no unit information for non-metric display
BT-13007	BCT-102062	GUI	Tiff class images are not displayed
BT-12809		Portal Integration	Send to from Teamcenter to BCT aClass doesn't work

BCT aClass v8.0.0 (released on 2010-05-25)

Enhancements

ID	BCT Call ID	Category	Description
BT-12072		GUI	Import Parts should work in groups
BT-12249		PDM Interface	Only one unit and format field is supported
BT-12302		UDF Handling	UDF Handling => Multisite Support
BT-12181		GUI	Dragging to top in Favorites dialog doesn't scroll
BT-12414		GUI	Double-click in Navigator should add item
BT-11985		GUI	Mapping for new materials/semis should have existing mapping by default
BT-11668		UDF Handling	Button "Add Class Attribute" for UDF import wizard
BT-12098		Common	Reuse class attribute value of selected instance in search attribute
BT-10613		Common	automatic generation of class ids
BT-12601	20100320	Documentation	Documentation of NX environment variables used by BCT
BT-10673		Common	map a CAD attribute on two class attributes
BT-12221		Common	PartRequest Wizard Action Handler => new handler option - classify item or revision
BT-12222		Common	Part Request Wizard: new setting Part_Request_Classify_Revision=true
BT-10914		Common	Substitute parts via BCT aClass
BT-12568	20100183	Documentation	additional information should be available before Installation

Fixed issues

ID	BCT Call ID	Category	Description
BT-12554		Installation	Make installer 4tier compliant
BT-12565	20100149	Common	Attach or Detach standalone ICO, Item Revision not Owned by User
BT-11450		Common	BCT specific relations does not work with multisite (materials)
BT-12397		Documentation	Customization Guide isn't fully translated into English
BT-12485		Documentation	help_BCT_aClass_Configuration_de.pdf and help_BCT_aClass_Configuration_en.pdf have different chapters
BT-12548		GUI	Edit value of array attribute shows text "add new value"
BT-12564	20100148	Common	Restricted Delete action deletes relation between ICO and Item

			Revision
BT-12232		Common	Part Request Wizard doesn't work with item type with special characters
BT-12243	20091027	Common	Removing mapping of individual attributes for generic items is not possible
BT-12033		GUI	Class tree doesn't correctly show if class has children (plus sign appears even though there are not child classes)
BT-12483		BOM Check	REPLACED_BY_UGATTR should behave as STATUS_UGATTR and EXCLUSION_UGATTR
BT-12418		GUI	Part Request Wizard is aborted when configured with a spacer

BCT aClass v8.0.2 (released on 2010-05-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-12646		PDM Interface	Way to switch on debug logging in exits and to download the log file

Fixed issues

ID	BCT Call ID	Category	Description
BT-12274		Common	Sync of Part Families in aClass SE doesn't work if item id and name is different of variants
BT-12738		Other	Part Request Wizard configuration file (part_request_item_attributes.xml) still has old syntax
BT-12753		Web	Search report can't be written
BT-12747		PDM Interface	Material can't be added if other user has already added it and their session is still active (TC 8 UA and higher)
BT-12626		PDM Interface	4Tier Upload doesn't work for NX7
BT-12749	BCT-100620	GUI	Message appears when Item is linked to Dataset with no read access
BT-12881	BCT-101361	GUI	aClass favorites will be lost
BT-12733	BCT-100599	Portal Integration	aclass.exe process still running after closing Teamcenter Rich Client

BCT aClass v8.0.1 (released on 2010-04-16)

Enhancements

ID	BCT Call ID	Category	Description
BT-12676		GUI	Setting to switch exits to debug mode and to collect all logfiles for NX Manager
BT-11380		CAD Interface	Solid Edge Assemblies klassifizieren
BT-12596	20100296	Common	Attribute values preview should be sorted

Fixed issues

ID	BCT Call ID	Category	Description
BT-12680		Search Instances	Instance search crashes in TC 8 UA and higher if legacy icos are found
BT-11097		BCT Templates	Translations for mating conditions missing in BCT Template Assistant
BT-12651	20100574	PDM Interface	Instance documentation is not added
BT-12696		PDM Interface	BCT aClass stops working after file upload in 4-tier
BT-12628		Documentation	German Configuration documentation has layout error
BT-12699		GUI	Possible error message when previewing or creating LOV
BT-12654		GUI	OS name and version missing in info log
BT-12657		GUI	WebLink instance docs don't work in 4tier
BT-12655		GUI	Help does not open from unc path

BT-12620		GUI	Favorites in folder are duplicated on the top level
BT-12622		GUI	BCT aClass can't classify part that was open before starting BCT aClass
BT-12623		GUI	BCT Substitute has no icon in NX Toolbar
BT-12627		Portal Integration	Web Service: custom Teamcenter and status icons aren't synchronized from server
BT-12619		CAD Interface NX	Substitute component arrays and multiple instances
BT-12660	BCT-100055	Other	Some NX depending .dlls were not signed and needed a CPP author license
BT-12652	BCT-100096	GUI	Documentation in 4tier can't always be opened correctly
BT-12650	20100471	Common	ICO created when Write privilege denied

BCT aClass v7.1.1 (released on 2009-10-01)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12399		PDM Interface	Revision rule isn't read for TC UA
BT-12413		GUI	Crash when doing a search report after search on ICM
BT-12401		CAD Interface NX	Communication with bct_aclass_exits.dll fails on Vista with Teamcenter Engineering
BT-12417		Compound	Compound Export crashes on Windows Vista 64bit
BT-12383		UDF Handling	Locked features should be recognized and trigger BOM Check
BT-12424	20091764	GUI	BCT aClass crashes when hovering over column headers in a horizontally scrolled Instance display on 64bit
BT-12416		UDF Handling	Semi part doesn't apply original layer
BT-12404	20091578	Installation	BCT aClass 4Tier API doesn't work correctly with Tc Unified Architecture

BCT aClass v7.0.0 (released on 2009-06-09)

Enhancements

ID	BCT Call ID	Category	Description
BT-11731		Documentation	Create Configuration changelog to log changes in TcEng Options and .ini files
BT-11971		Web	Handling of "Set Replacement"
BT-10887		GUI	Array handling in the auto filter
BT-11327		3D Search	Support for all search strategies which are used in Geolus
BT-11027		GUI	Validator for ID search
BT-11030		GUI	"Select Class" loses Instance
BT-11709	20081278	BCT Templates	Mapping von IDs der verwendeten Teile sollte direkt möglich sein.
BT-11719		Common	"Replaced by" should stay in local class
BT-11671		Common	Display of Teamcenter user, group and role
BT-11672		Common	Support of the class specific attribute formatting like in inclass
BT-11673		Common	Copy instances -> multiple classification
BT-11435		Common	Globaler Filter
BT-10930		PDM Interface	Use QAF optional from family template
BT-11666	20081063	GUI	Storage classes should be sortable
BT-12251	20091056	GUI	use Enter key hit to display popup LOVs dialog
BT-11653		GUI	Improve display of Array Attributes in aClass
BT-11654		Search Instances	improve performance of Teamcenter Attribut search in BCT aClass attribute window

Fixed issues

ID	BCT Call ID	Category	Description
BT-11362		Common	files are not exported from TcEng if aClass runs in 4-Tier

			environment
BT-11970		Documentation	Add description in the Readme
BT-11729		Installation	Adjustment of the ini-files is very time-consuming
BT-11981		GUI	BCT aClass - endless loop on Windows Vista 64 bit
BT-11830	20081820	GUI	Display of multiple PDFs in a class
BT-11844		Installation	Unable to Install aClass x64 on windows64
BT-11953		GUI	Status icons are displayed semi transparent

BCT aClass v7.0.2 (released on 2009-05-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-11836		Search Instances	Item search uses two queries, one for items and one for revisions (even when only items or revisions are classified)
BT-12211	210090868	Search Instances	Wildcard should not be added automatic to instance search

Fixed issues

ID	BCT Call ID	Category	Description
BT-11834		GUI	aClass NX Crash after concurrent UGMGR Calls were triggered
BT-12171		PDM Interface	Mapping views can't be read correctly in TC 2007 UA (TCX4)
BT-12196		PDM Interface	Setting array after deleting and recreating class fails
BT-12169		CAD Interface NX	BCT aClass crashes if part should be added without geometry
BT-12157		PDM Interface	Registering bct_aclass_exits.dll from Business Modeler doesn't work
BT-12203	20090910	Common	When adding material attributes with LOV the LOV ID is used instead of the LOV name
BT-12207	20090868	PDM Interface	We don't support queries that refer to superclasses in the POM hierarchy
BT-12205	20090868	Search Instances	LOV values aren't shown for instance search if LOV has only ID and no name
BT-12210	20090868	Search Instances	If .qaf for instance preview isn't accessible nothing is shown in instances preview
BT-12206	20090868	PDM Interface	Special WSO aren't supported
BT-12138		PDM Interface	Values "switch" columns after removing or adding attributes
BT-12149		Installation	Workflow handlers aren't available anymore after the integration of the aclass_exits.dll
BT-12150		CAD Interface NX	Kommunikation NX<->TcEng

BCT aClass v7.0.1 (released on 2009-03-29)

Enhancements

ID	BCT Call ID	Category	Description
BT-12120		Common	Part Request: Support of change management types
BT-12100		Common	Part Request Handler Option (ICO reallocate or copy)
BT-12101		PDM Interface	Part request wizard doesn't initiate a workflow

Fixed issues

ID	BCT Call ID	Category	Description
BT-12076		CAD Interface NX	Behavior when adding semiparts without UDF (adding part attributes by type)
BT-11766		Search Instances	aClass - Window covers popup and blocks NX
BT-12015		Compound	Classimages lose extension when exporting compound
BT-12090	20090445	PDM Interface	Class images added in BCT aClass can't be displayed in inClass
BT-12084	20090409	PDM Interface	Configured variants can't be synchronized correctly

BCT aClass v6.1.3 (released on 2009-01-27)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11993		GUI	Category Browser in combination with BCToogle takes very very long
BT-12007		Documentation	install_en.pdf: Customizing page 5 is too old
BT-11977		Common	Array fields can't be changed for multiple instances
BT-12260	20091090	BCT aClass ITK	Link to part fam. is lost when renaming classes

BCT aClass v6.1.2 (released on 2008-12-17)**Enhancements**

ID	BCT Call ID	Category	Description
BT-11946		Common	Setting to disable loading of items in NX during classification

Fixed issues

ID	BCT Call ID	Category	Description
BT-11857		Compound	Class Alias not imported
BT-11864		CAD Interface NX	GCS Connection Point Definitions seems to be missing in German aClass
BT-11966		Portal Integration	After the disconnection of the item and following deletion of an icon, aClass crashes
BT-11745		Portal Integration	Autologin for BCT applications doesn't work without previously entered UserId/Password
BT-11967		Portal Integration	TC Portal send to aClass Portal does not work if Web Service session is inactive
BT-12045		CAD Interface	Connection to part family will be deleted if class alias is changed
BT-11848	20081937	PDM Interface	Instance documentation isn't displayed in TcEng 913.

BCT aClass v6.1.1 (released on 2008-10-17)

Enhancements

ID	BCT Call ID	Category	Description
BT-11475		Common	Support for Multisite in classification
BT-11805		PDM Interface	Extended status isn't possible if values contain spaces

Fixed issues

ID	BCT Call ID	Category	Description
BT-11829		Documentation	%bct_eoms_dir%\bin\portal\doc\install_en.pdf is faulty
BT-11790		GUI	Caption shows [administrator] for simple user in Navigator view
BT-11811		Portal Integration	aClass Portal won't be closed if a page is closed in the portal
BT-11770		Portal Integration	Missing implementation of linked attributes plus Materia Mapping in WebService
BT-11792		GUI	NX crashes when displaying PDF
BT-11798		Portal Integration	Instance documention isn't displayed
BT-11806		Portal Integration	Missing icon for instances with linked item
BT-11788		GUI	Preview Instances shows picture an name of hidden instance
BT-11852	20081995	CAD Interface NX	Instead of "item/revision" the item "revision/revision" is loaded if it exists.
BT-11839		Portal Integration	Sending to Teamcenter Portal doesn't work
BT-11782		PDM Interface	Wrong "No write access" message (at adding of instance documentation)
BT-11785		Portal Integration	Attribute type range can't be applied
BT-11744		Portal Integration	TcPortal Dokumentation
BT-11535		Common	A class which was synchronised over Multisite can't be deleted

BCT aClass v6.0.0 (released on 2008-10-16)

Enhancements

ID	BCT Call ID	Category	Description
BT-11091		GUI	Revision selection: preselect latest (not first)
BT-11103	20061769	Compound	Default view support in compound
BT-11307	20071002	CAD Interface	Selection of the preview image during the classification
BT-11150		Common	Teamcenter Item Id - during the import of part families with the BCT Portal Wizard
BT-11005		BCT aClass ITK	Possibility to check if the ActiveX is successfully registered
BT-11154		GUI	Custom attribute order
BT-11013	20061540	GUI	Columns in instance view
BT-11384		CAD Interface	aClass window should only be opened in the Teamcenter mode.
BT-11108	20061845	GUI	Mask attributes (blue) in the attribute window on the lower left side

Fixed issues

ID	BCT Call ID	Category	Description
BT-11343		Web	Class Node Icons aren't displayed in aClass Web
BT-11498		Web	If BCT_EOMS_DIR is set on local machine, Splash Image is not displayed
BT-11389		Installation	Install VC Redist. Package before ActiveX Reg.
BT-10994		Common	Portal Wizard is blocked after error
BT-11334	20071289	Compound	Compound-Export not possible if there are special characters in the Class-ID
BT-11388		BCT aClass ITK	Crash if no valid license can be checked out.
BT-11438		GUI	Changing the column width causes display errors
BT-11336		GUI	ID can't be masked
BT-11522		Installation	aClass can't be registered

BCT aClass v5.1.1 (released on 2008-10-16)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11404		BOM Check	If user uses "close and save" BOM check produces a memory access violation
BT-11364		Web	Item type dependent icons aren't displayed correctly in aClass Web / aClass SE
BT-11309		Web	External Doc is not available in aClass Web ActiveX
BT-11403		GUI	Linked attributes from edit/create instance pops up Find Class behind modal window
BT-11361		Common	If many different classes from the buffer are classified, BCT aClass crashes after 5 - 10 times.
BT-11396	20071480	Common	Error at LOV-Mapping aClass

BCT aClass v6.1.0 (released on 2008-08-26)

Enhancements

ID	BCT Call ID	Category	Description
BT-11511		3D Search	3D query combinable with item attributes or class structure
BT-11026		GUI	Cut Instances aren't displayed as such
BT-11031		GUI	Import wizard checks for node
BT-11036		GUI	Color-code attributes in Node Properties
BT-11479		GUI	Refresh of the class folder
BT-11034		GUI	Disable "classified in..." entries if there is no workpart
BT-11025		GUI	Paste Instances should be available in Instance Display context menu
BT-11061		GUI	Wizards have Help button in Title bar
BT-11287		3D Search	3D search result should be processed over aClass full text search
BT-11323		Common	set Replaced By out of BCT aClass
BT-11557		GUI	3D-Search and BOM Check before autoClass and autoSync
BT-11670		Common	It should be possible to let the Key/ID be displayed additionally in value lists
BT-11299	20070927	UDF Handling	Storage of newly created semi-finished products should be controllable via variable/function
BT-11019	20061546	GUI	Alias Name of a new class should be definable at creation
BT-10898		GUI	Count should display results per class
BT-11363		Installation	bct_aclass_exits Installation
BT-11520		Common	Instance Doc for materials which have no item
BT-10960		Common	Items without NX datasets can't be linked to an existing instance
BT-11597		Common	Combination of status and custom filed as usability status
BT-10955		PDM Interface	"Send to TcEng Portal" should be called "Send to Navigator"
BT-11011	20061538	PDM Interface	Status should (if so configured) be taken from the instance even if it

			is connected with the item
--	--	--	----------------------------

Fixed issues

ID	BCT Call ID	Category	Description
BT-11686		Installation	plugins directory is missing after the installation
BT-11643		Installation	template_startup.dll etc. won't be updated at older/wrong files
BT-11787		Installation	BCT Customizing Setup für UA
BT-11267		3D Search	3D Search from CAD doesn't work if %TEMP% was set to a directory that contains spaces
BT-11627		Portal Integration	ActiveX registration doesn't work as Windows main user
BT-11325		Common	JT2Go Viewer shows no jts
BT-11284		Common	Subclasses of a class masked with ACLs are still not visible
BT-11328		Documentation	Release Status in ACLASS_WSO_ATTR_QUERIES is not documented
BT-11636		Compound	Compound Import with Shortcut fails
BT-11669		Common	The popup menus are unclear and can display only a limited amount of values
BT-11660		Common	Search delivers apparently wrong results
BT-11715	20081336	CAD Interface NX	Portal Wizard: Part d982 of the Portal can't be imported.
BT-11784		Portal Integration	Attribute order can't be changed
BT-11698		PDM Interface	Instance values can't be reset
BT-11514		3D Search	3D search with NX Workpart via aClass button outputs a faulty result
BT-11428		GUI	Autofilter Button cuts titel text off in column head
BT-11338		Documentation	Syntax for attribute statement in .iman_env isn't clearly documented
BT-11449		GUI	At masked column ID the icon can't be seen.
BT-11631		GUI	no reaction after deletion of class attributes
BT-11702	20081250	CAD Interface	aClass changes NX default settings for assembly
BT-10962		GUI	losing of GUI when canceling login in Portal
BT-11707		Search Instances	Search with Attribute (LOV Array) Values does not find a result

BCT aClass v6.0.2 (released on 2008-06-10)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-11644		Common	AClass_STATUS_QUERY=Item:.... doesn't work
BT-10257		PDM Interface	Crash after deleting nodes
BT-11337		GUI	Search in BCT aClass Navigator crashes

BCT aClass v6.0.1 (released on 2008-03-31)**Enhancements**

ID	BCT Call ID	Category	Description
BT-11585		CAD Interface NX	Simultaneous changing of multiple UDFs - time saving

Fixed issues

ID	BCT Call ID	Category	Description
BT-11567		GUI	"Save as" of Info & Info++ doesn't work
BT-11517		Search Instances	Not all linked attributes have values in the instance table

BCT aClass v5.1.5 (released on 2008-01-30)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11550		PDM Interface	After a change at a class the Date last modified isn't adjusted
BT-11469		Compound	Compound Export aborts if classes have no read access
BT-11598		Documentation	Images in HTML-Doc aren't embedded
BT-11515		3D Search	Geolus result in aClass => faulty
BT-11516		3D Search	Autoclass based on Geometrie => NX crashes if no class is marked
BT-11590		UDF Handling	Sometimes add must be selected several times

BCT aClass v5.1.2 (released on 2007-12-06)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11460		Common	aClass Portal Plugin shows no status bar
BT-11476		Common	No item preview after filtering with Autofilter
BT-11379		BCT aClass ITK	Status bar isn't displayed in the ActiveX version
BT-11427		GUI	Tooltips in the Filter Dialog aren't displayed
BT-11470		Common	Class/instance documentation => no display in aClass (Active X) of PDF, Word

BCT aClass v5.1.0 (released on 2007-09-03)

Enhancements

ID	BCT Call ID	Category	Description
BT-11099		BCT Templates	Possibility that not all components of a template must occur in each combination (FREE)
BT-11199		Web	BCT aClass Web should suggest an update if Web Service Version is too old
BT-11256		Documentation	Configuration
BT-11096		BCT Templates	PowerUser must have authorization for BCT Template attachment (analog admin)
BT-11112		autoSync/autoClass	use IMAN_BASED_ON instead of "part history hack"
BT-11051		Installation	The BCT aClass installation alone needs 990 MB!!!!
BT-11055	20061644	autoSync/autoClass	Automatic synchronisation between part-expressions und aClass-expressions
BT-10897		PDM Interface	Search for item attributes and ID should be available everywhere
BT-11052		Common	Create the complete cache at once
BT-10913		GUI	Multiple selection in the auto filter
BT-10876		GUI	Display of the units of class attributes
BT-10742		Common	define a standard status for each creation of a instance
BT-11156		BOM Check	Flag to reduce the BOM Check to first level

BT-10912		Common	Global search for instance-ID
BT-11048		Web	Web Service should support multiple environments
BT-10904		GUI	Display of the result over the whole window width, hide search field
BT-11155		Common	"Google" Search
BT-11295	20070884	Installation	Installation of Teamcenter 2005 SR1 and BCT aClass 4.1 in a 4Tier environment

Fixed issues

ID	BCT Call ID	Category	Description
BT-11285		BCT aClass ITK	aClass ITK crashes during the instance search when a sub-class was masked via ACL
BT-11318		Installation	Welcome-text in the installation wizard is partly covered
BT-11322		Common	ActiveX Tiff Viewer
BT-10748		GUI	No duplicate warning at autoSync, clone and editing...
BT-10836		Installation	the queries templates should fit to the suggested .iman_env template
BT-10761		GUI	TIFF is not displayed as instance doc
BT-10700		GUI	PDF is not displayed as Instance DOC in the TcEng Portal integrated Version

BCT aClass v5.0.2 (released on 2007-03-26)

Enhancements

ID	BCT Call ID	Category	Description
BT-11261		3D Search	Thumbnail server have to be configured

Fixed issues

ID	BCT Call ID	Category	Description
BT-11310		Web	BCT aClass Web (running in Portal)
BT-11262		3D Search	3D Search License check should be done while starting up
BT-11263	20070389	PDM Interface	Form masters aren't checked in ACLASS_WSO_ATTR_QUERIES

BCT aClass v5.0.1 (released on 2007-03-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11264		Web	BCT aClass Web standalone does not start up in german if BCT_EOMS_LANG=de
BT-11257	20070435	Common	License check-in at autoclass/autosync
BT-11222		GUI	Editing of array fields is too complicated
BT-11225	20070218	PDM Interface	Field class alias can take more characters than TcEng allows

BCT aClass v5.0.0 (released on 2007-02-13)

Enhancements

ID	BCT Call ID	Category	Description
BT-10902		GUI	Instances from different classes should be displayed in first common ancestor class
BT-10877		GUI	Make Doc Label more visible
BT-10890		GUI	Removable "Replaced by" column
BT-10892		GUI	Allow editing after adding attributes to classes
BT-10838		Documentation	make all bct_xxx.ini files for all users available in central location
BT-10741		Search Instances	save a search like the favorites for each class
BT-11059		Documentation	Menu entry "Tree Reorganization Mode" can't be found in the help
BT-11053		GUI	Hide the default attribute "ID"
BT-10720		GUI	Option to set status rights for admins only
BT-10918		Common	Show only short names of class attributes
BT-10669		Installation	create queries
BT-10922		UDF Handling	Semi-part attributes to Solids
BT-10851	20060987	Common	Instance-status rules
BT-10861	20061037	GUI	HTML report with comment and short name
BT-10868	20061044	Common	Move instance to other views
BT-10859	20061035	GUI	Text of a view ID contains too much information
BT-10862	20061038	GUI	HTML report should contain the identifier "Model available".

BT-10867	20061043	GUI	Colors of attributes (columns) should have priority
BT-10850	20060986	GUI	Copy instance ID into the Windows clipboard
BT-10899		GUI	Display number of Instances after class (like in in-Class)
BT-10511		GUI	Save column order for every class node
BT-10703		(No Category)	Instance collection
BT-10717		Common	Synchronize one variant
BT-10927		UDF Handling	Show UDF Expression in Mapping instead of CAD expression
BT-10980	20061349	UDF Handling	UDF should get the name from the instance list during the building
BT-10842		Common	Support for reference attributes

Fixed issues

ID	BCT Call ID	Category	Description
BT-11107		Documentation	Documentation for Portal Wizard
BT-11024		Documentation	Help for the moving of classes is missing
BT-11032		Installation	Environment variable BCT_EOMS_DIR isn't considered for the target directory
BT-11029		GUI	Clicking on date will also click on attribute below
BT-11162		CAD Interface	Assigning of materials - Problem: class attributes with equal names
BT-10835		Installation	%BCT_EOMS_DIR%\bct_aclass\custom\iman\iman912/3\update_dataset.bat does not work
BT-11163		CAD Interface	Order of the "Parents" is different in the BCT UDF dialog
BT-11117	20061922	PDM Interface	Attributes with format "Range" allow only the internal format FLOAT 6.2
BT-11118	20061923	PDM Interface	Attributes with integer range can't be created
BT-11125	20061930	PDM Interface	Attributes that have been added to a view, aren't displayed in the view.
BT-11120	20061925	GUI	In the attribute display only the short name or the annotation can be displayed
BT-11121	20061926	GUI	Attribute order can't be changed
BT-11129	20061934	GUI	Warning during deletion of linked instances
BT-11160	20070029	Search Instances	Attribute at an existing class delivers no result
BT-10774	20060534	Common	PDM Add-Ons and FlexLM installation
BT-11022		Installation	To a newly created target directory "\BCT" is added
BT-11023		Installation	Registration isn't carried out (application.exe -regserver)
BT-11629		GUI	Views disappear from bookmarks / View search doesn't work

BCT aClass v4.1.0 (released on 2006-09-21)

Enhancements

ID	BCT Call ID	Category	Description
BT-10648		GUI	show class tree of the selected instance
BT-10647		Search Class	search in class without subclasses
BT-10779		Common	Send to from NX with aClass doesn't work
BT-10068		GUI	message for empty part families
BT-10186		PDM Interface	[Task V4.1] Copy the other data when cloning an instance
BT-10698		GUI	Help is not in the bct_help directory
BT-10663		GUI	Edit Options of KeyLOVs
BT-10662		GUI	[Task V4.1] remove attributes from classes
BT-10664		GUI	properties window of class
BT-10702		GUI	External doc supports more than image files
BT-10618		GUI	support for URL in TCEng for instance doc
BT-10616		Search Instances	setting for search preferred parts only
BT-10619		Search Instances	see allways the preferred parts as on top sorted
BT-10432	20050222	UDF Handling	Access to part attributes for classification
BT-10551		Common	[Task V4.1] sync of UDFs
BT-10645		Search Instances	show only the latest revision (if revisions are classified)
BT-10716		Common	Recall the search criterion in Search Class tool
BT-10445		Common	Support for routing parts as in BCT 3D-Pool
BT-10787		Common	The order of the references when adding a UDF is not always the same
BT-10834		Common	handling of single and multiple semi finished parts
BT-10531		Common	F: Support RuntimeProperties
BT-10264		Common	Assign ACL to nodes
BT-10670		Common	[Task V4.1] make BCT Portal Import work with other item types
BT-10579		GUI	displaying ranges in result window
BT-10608	20051701	GUI	Attribute mapping during classification of part families
BT-10615		Common	use BCT-CUSTOM attribute
BT-10820		Common	URL for class doc external

Fixed issues

ID	BCT Call ID	Category	Description
BT-10950		Web	aClass SE: No data base attributes are read out
BT-10970		Compound	Optimize Compound Error
BT-10780		Common	[V4.1] Create variant
BT-10810		Common	[V4.1] function "is classified in" does not work for classified assemblies
BT-10804		UDF Handling	NX snapshot is not available for UDF workpart

BT-10712		BCT Templates	[V4.1] Searching in BCT Templates Manager doesn't work with wildcard in the middle of the search expression
BT-10792		Common	If starting node is set to SAM, selecting classes in find class doesn't work anymore
BT-10856		Compound	Compound does not support alias
BT-10801		GUI	[Task V4.1] Class in favorites is deleted if the class doesn't exist.
BT-10730		GUI	[V4.1] Logging of the role handling
BT-10711		BCT Templates	BCT Templates mating does not work when adding to Parts instead of Assemblies
BT-11045	20061585	GUI	attribute is always renamed, when clicking "OK" and when clicking "Cancel"
BT-10989		Common	Version V4.1 - final: Installation routine is faulty during the check of the NX version
BT-11089		Common	Fatal error when trying to change values in multiple instances coming from several classes
BT-11008	20061530	BOM Check	BOM Check doesn't work with partial loading
BT-10766		PDM Interface	Attribute search is very slow
BT-11006	20061512	GUI	Version 4.0.0.8 : Column headers of the instance table don't follow the columns of the table during scrolling right/left
BT-10839		Common	substitutue all variables with %INSTALLATIONSVERZEICHNIS% %IMANVERSION% with real variables
BT-10783		Common	Installation BCT aClass EXE in an existing BCT Products directory
BT-10788		UDF Handling	[V4.1] the layer option "ORIGINAL" isn't available when adding a UDF
BT-11158		CAD Interface	Internal error when user cancels "Component is classified in"
BT-10831		GUI	no help available for "hide empty attributes" menu
BT-10743		autoSync/autoClass	[V4.1] no autosync prompt with the setting BCT_ACLASS_AUTOSYNC_PROMPT = 1
BT-10759		Common	[V4.1] editing class doc and class image are not the same for power_users
BT-11058		GUI	Help button in "Create Class" menu has no function
BT-11128	20061933	GUI	instance link isn't displayed
BT-11038		PDM Interface	attribute not in use is displayed as being in use
BT-11054		GUI	Menu "Edit attribute" can be selected for attribute "ID"
BT-10931		Compound	Range Attributes aren't available in the compound
BT-11016	20061543	PDM Interface	Status of an instance-ID through synchronisation
BT-10701		PDM Interface	[V4.1] LOVs suggested ID is already in use
BT-11106	20061769	Compound	defaultView Views (from older exports) should be imported as defaultView
BT-11164		Common	linking LOV attributes
BT-10992	20061419	Common	starting BCT aClass 4.1. fails when installed on top of BCT V9.1

BT-10975	20061311	Common	NX crashes when a UDF from aClass is used
----------	----------	--------	---

BCT aClass v4.0.0 (released on 2006-04-19)

Enhancements

ID	BCT Call ID	Category	Description
BT-10860	20061036	Common	Automatic assignment of option IDs

Fixed issues

ID	BCT Call ID	Category	Description
BT-10344		Common	V4??: Add an item of a BGR-variant to an instance ..
BT-10961		GUI	aClass can stop working in NX - in addition with a NX modal window
BT-10937	20061169	PDM Interface	After "Save as" of a classified item with aClass the ItemRevMasterForm is cleared
BT-10906		PDM Interface	Error during the cloning of instances of a part family
BT-10963		Common	NX application stops
BT-10713		GUI	Edit instance - Reset LOV attribute value
BT-10864	20061040	Compound	Search for imported LOVs not possible
BT-10958		Common	.ini entry for multiple_classification is ignored
BT-10982	20061352	GUI	Editing of an instance with the status "locked" is not possible as Admin/Power User
BT-10758		Common	aClass takes 100% resources if the config rule is set not correct in the TcEng
BT-10956		Common	When editing multiple instances, a new workflow is initiated for every single instance
BT-10736		BOM Check	BOM Check does not work with Save As
BT-10819		Common	delete mapping of single parts

BCT aClass v8.2.5 (released on 2006-04-18)

Fixed issues

ID	BCT Call ID	Category	Description
BT-10456	20050495	Search Instances	MEIKO:bct_log.html; aclass zeigt in v8.0.1 nach Testinstallation von V8.2 keine Instancen (Artikel zu Klassen) mehr an

BCT aClass v7.1.2 (released on 2006-04-18)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12432		Common	Hidden attributes visible in Part Request Wizard for simple user
BT-12506		Common	Status doesn't work correctly if value contains special characters like "-"
BT-12448	20091877	PDM Interface	Classification doesn't work with TC 2007 UA in some cases
BT-12510	20092354	Common	Range attribute is not mapped correctly for part families
BT-12447		GUI	Item docs linked via pseudo folders don't work if link goes to ItemRevision
BT-12504	20091969	PDM Interface	Error can occur when trying to edit instances of items with a configured Workflow after instance modifications
BT-12503	20092252	PDM Interface	Class icons and images cannot be added to groups without pre-existing ICSCClassFiles dataset
BT-12452	20092038	UDF Handling	UGII_UDF_IMAN_TOP_LEVEL_FOLDER with full path is not supported
BT-12497		UDF Handling	Adding UDFs that are members of large UDF families takes very long

BCT aClass v7.0.3 (released on 2006-04-18)

Enhancements

ID	BCT Call ID	Category	Description
BT-12245	20091024	Common	Attribute values should not be kept in Search Field when switching to an other class

Fixed issues

ID	BCT Call ID	Category	Description
BT-12297		GUI	Hitting "Delete" in GCS Connectio Point Definition dialog causes internal error
BT-12296		GUI	Class with GCS Connectionpointdefinition can not be deleted
BT-12272		Common	Deleting many instances at once crashes BCT aClass and NX
BT-11846		Routing	NX is blocked when closing aClass (routing mode)
BT-12252	20091064	Search Instances	Crash when searching instances in Routing (with wrong configuration)
BT-12179	20090478	Search Instances	Clear all Filters does not work right when clicked direct after performing a search for instances
BT-12284	20091176	Search Class	Search Result shows Items that are not accessible by user
BT-12283		Common	LOVs can't be edited
BT-12234	20091008	PDM Interface	Search in Navigator does not work
BT-11297	20091065	Common	SendTo makes classificaton of items possible although only revisions are allowed to be classified.
BT-12096	20091007	Portal Integration	Revisions can't be classified
BT-12174		Web	Autologin doesn't work
BT-12259	20091088	CAD Interface NX	Set Replacement is not shown if setting Status is disabled in bct_aclass.ini
BT-12288	20091219	Common	cannot open instance with backslash in instance name
BT-12004		Common	Count doesn't work after LOV attribute was selected

BCT aClass v7.1.0 (released on 2006-04-18)

Enhancements

ID	BCT Call ID	Category	Description
BT-12128		Installation	BCTInstanceDoc Dataset is not part of the BCT TC Customizations Installer
BT-11994		GUI	Delete in edit multiple instances
BT-11978		GUI	Deleting from collection still displays them
BT-11843		GUI	Tool settings separated for Portal/Web/NX
BT-11049		GUI	decimal places are shown even if the are zero
BT-12242	20091025	Common	dynamic filtering of classification attribute values is not available in BCT
BT-10926		Web	Export of named references via .ini-rules
BT-11288	20070822	autoSync/autoClass	autoSync performs no action at parts classified by inClass

Fixed issues

ID	BCT Call ID	Category	Description
BT-11944		Web	Error message not translated (aClass Web DE, connection to Webservice lost)
BT-12018		Documentation	NX exit dispatcher is not documented
BT-12375		Web	.xml Files werden nicht auf Web Client verwendet (z.B. part_request_item_attributes.xml)
BT-12075		UDF Handling	The Standard Enforcement dialog shows an incorrect "BCT Spreadsheet" button for BCT Template UDFs
BT-12077		GUI	GUI of ACLs has incorrect tooltips
BT-12083		Portal Integration	Views aren't always correctly handled
BT-12082		Common	Multiple instances cannot be set to unique usability status when current status isn't the same for both
BT-12122		Documentation	addons.ini instead of aclass.ini in Configuration_de.pdf
BT-12163		Portal Integration	Portal Version won't check if suggested Attribute ID is greater than 1000
BT-12218	20090962	Installation	Installation not possible if BCToogle entries are empty
BT-12235		PDM Interface	Teamcenter crashes if USER_init_module is set in libuser_exits.ini
BT-12286		Common	Searching approx. 70 attributes in a class causes performance problems
BT-12395		Web	Unable to install aClass Web if the latest redist is not installed
BT-12208		Portal Integration	Send to von TC PSE nach aClass Portal geht nicht, wenn das Item klassifiziert ist
BT-12275		PDM Interface	Editing instances doesn't change modified date of items

BCT aClass v3.2.0 (released on 2005-10-14)**Enhancements**

ID	BCT Call ID	Category	Description
BT-10858	20061034	GUI	Short name / comment aren't passed to the columns

Fixed issues

ID	BCT Call ID	Category	Description
BT-10600	20051628	BCT Templates	V3!: Crash with activated autoSync

BCT aClass v3.0.0 (released on 2005-04-07)**Enhancements**

ID	BCT Call ID	Category	Description
BT-10434		GUI	tree sorting
BT-10055		PDM Interface	PDF support for nodes

Fixed issues

ID	BCT Call ID	Category	Description
BT-10472		GUI	aClass ITK crash on instance search

BCT aClass v2.2.0 (released on 2004-12-17)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-10426		Search Instances	sorting class attributes do not apply

BCT aClass v2.0.2 (released on 2004-10-19)

Enhancements

ID	BCT Call ID	Category	Description
BT-10260		(No Category)	KBA Import Tool (first import problem)

Fixed issues

ID	BCT Call ID	Category	Description
BT-10319		Common	no external doc could be deleted and inserted
BT-10327		Common	color definition does not work

BCT aClass - Known Issues and Limitations

ID	BCT Call ID	Category	Description
BT-19402		Compound	GCS, ACLs and search expression from active part are not supported in the compound.
BT-19403		Configuration	Multiple values for multi status queries are not supported
BT-19404		Configuration	Classifying Variant Items only works if "disabled features for speed" is off
BT-19406		GUI	If a class has both views and classes as subclasses, only the node images of one type will be displayed
BT-19410		Portal Integration	Shortcuts like e.g. "F2" or "F5" are not supported in BCT aClass Portal and BCT aClass Web
BT-19411		SE Integration	In BCT aClass SE autoClass will only work correctly, if the Teamcenter preference ICS_ico_action_after_saveas is set to delete
BT-19409		Classify	Instance can only be copied to other class if ID is unique there
BT-19407		Classify	Copying of material and semipart instances doesn't work if attributes are not in target class
BT-19889		Classify	Array attribute values cannot be set on instances in views (relates to Siemens PR: 1796778 / 7658612, fixed in TC 10.1.7 / TC 11.2.3)
BT-19890		Classification Administration	Moving classes into classes with existing attributes will result in displaced attribute values (relates to Siemens PR: 1825823, fixed in TC 9.1 Phase 20111128)
BT-19891		Classification Administration	When a numeric attribute definition has only min or max defined, setting an attribute value will interpret the not set max or min as zero (relates to Siemens PR: 1973230, fixed in TC 10.1.2 / TC 11.1)
BT-19892		Classification Administration	Updating GCS connection types or definitions will lead to a general fault exception in TC 10.1 (relates to Siemens PR: 1973240, fixed in TC 11.3)
BT-19829		Multi Unit Support	Editing multiple instances will not convert numeric attribute values according to instance unit, but set the value as given in dialog.
BT-19828		Multi Unit Support	When attaching an item or revision to an existing instance, the unit of the instance is set to the current unit without updating the instance value.

BT-19827		Multi Unit Support	In the attribute dictionary the search by second unit is not possible
BT-19833		Multi Unit Support	Copied instances don't keep their unit, nevertheless changed value was correctly calculated
BT-19832		Multi Unit Support	After changing the display unit and losing connection to the Server (or starting NX again from the Portal), the display unit needs to be set again.
BT-19831		Multi Unit Support	Copy/Cut and Paste behavior between classes with different allowed units is undefined
BT-19830		Multi Unit Support	Switching the allowed units in a class will not check if existing instances contradict setting.
BT-20112			Interdependent LOVs are not supported
BT-20773	002996	BCT Templates	Attribute mapping doesn't work in the BCT Templates Dialog
BT-15885		Search	Item attribute search expressions are ignored in class with reference attribute
BT-19826	013329	Multi Unit Support	Conversion of units is not supported for classes with reference attributes

BCT Inspector Suite

BCT Inspector Suite v25R2 (released on 2025-03-27)

Fixed issues

ID	BCT Call ID	Category	Description
Q-2344	3689519316	DXF / CAD Connector Tool	Inspector DXF creates as many balloons for a feature as there are sheets in the DXF
Q-2425	16666491082 74107264235	Neutral	A "space" in the inspector's installation path causes the OCR to fail to start
Q-2504		NX Integration	Inspector is unable to open the associated project (UG Master or UG Part) on Master Model data from TC
Q-2399	44429996237, 51010565344, 95959911639	NX Integration	Surface Finish Symbols cannot be ballooned

BT-22648	011438	NX Integration	PMI Balloons are wrongly invisible in the case of IdLayerVisible="1" and "2"
BT-22445	010988	NX Integration	Hole Callout parameters with ISO tolerances has wrong tolerance values
BT-22698		ConfigurationSE Integration	Environment values of BCT Inspector configuration files are ignored in SE
BT-22748	012012	NeutralCompare	New Added CNs are marked as deleted in BCT Inspector Table during Compare
BT-22733	011940	SE IntegrationBallooning	Balloons are not blanked during Inspector SE project export

BCT Inspector Suite v22R3 (released on 2022-06-02)

Enhancements

ID	BCT Call ID	Category	Description
Q-1442		SE Integration	Store project data in AddInsStorage
BT-22672			Support new NX Version (NX 2206)
BT-22420		NX Integration	Create FLLs during automatic ballooning
BT-22341		NX Integration	Support of grouped faces with FLLs
Q-1370		NX Integration	Create FLLs during ballooning

Fixed issues

ID	BCT Call ID	Category	Description
BT-22594	011134	BallooningSE Integration	Permanent move CN does not work in SE (replaced to the old location after update)
BT-22577	010885 011003	NX Integration	NX Drawing Object can be double stamped after saving NX part
BT-22623		Neutral	Potential memory leaks during the creation of compare projects
BT-22638		NX Integration	FLL number isn't updated automatically when FLL is removed
BT-22597	011135	BallooningSE Integration	User defined Class are not recognized during ballooning process
BT-22593	011133	BallooningConfigurationSE Integration	Threads are not ballooned (automatic/manual) from Inspector
BT-22650		NX Integration	Inside assemblies, PMI FLL Balloons are created in the wrong view
BT-22640		Neutral	Missing timeout in "Save project..." message
BT-22557	010897	NX Integration	PMI custom symbols cannot be deleted once they have been stamped
BT-22663		SE Integration	BCT Inspector SE doesn't stamp some objects on a drawing
BT-22339		DXF / CAD Connector ToolNX Integration	Error while opening file if filename is not Latin1
BT-22591	010998	NX Integration	PMI FLLs are sometimes not properly attached
BT-22204	009624	NX Integration	PMIs cannot be numbered in a 2 byte character file name
BT-22235	009791	NX Integration	Japanese (UTF-8) for NX sheet name not working in AutoCreate

BCT Inspector Suite v22R2 (released on 2022-03-31)

Enhancements

ID	BCT Call ID	Category	Description
Q-1382		NX Integration	Support of grouped faces with FLLs

Fixed issues

ID	BCT Call ID	Category	Description
BT-22507		JT Viewer	JT viewer in RAC does not publish notes in tables with the border set to blank
BT-22551	010872	SE Integration	Ballooning FLL does not work in v21R4 SE
BT-22552	010871	Ballooning SE Integration	CID does not work in v21R4 SE
BT-21801	008606 010338	NX Integration	PMI moves to another view (only if there is a PMI Query Result view)
BT-22586		NX Integration	PMI Balloons (CNs) are only applied to the PMI instance (CHX) of the current view in case the PMI is displayed in all views
BT-22554	010825	NX Integration	Table CNs are set to "deleted" on update even though they have only been changed
BT-22588	010967	NX Integration	Wrong UTF-8 encoding after reading the UDO data
BT-22434		Documentation	Missing documentation for prefix rule for CNs of each drawing sheet
BT-22582	011092	Ballooning Neutral DXF / CAD Connector Tool	Annotation Splitter does not work in BCT Inspector Neutral with DXF imported data
BT-22607		Ballooning NX Integration	Inspector Batch - Return Value changed from bct_inspector_nx_batch_library.dll v19.4 -> R22.1
BT-22605	011140	NX Integration	BCT Inspector NX - Critical Error after Update CN List (FLL Leader Update)
BT-22567	010900	NX Integration	0 dimensions of PMI will be always ballooned
BT-22579	011015	Neutral NX Integration	Inspector - export project file via VPN is extremely slow

BCT Inspector Suite v22R1 (released on 2022-01-27)

Enhancements

ID	BCT Call ID	Category	Description
Q-1367		NX Integration	Stacked Balloon Notes taking associated objects from PMI
Q-1335		Active Workspace	Support of PMI View selection in Active Workspace
Q-1379	009942	NX Integration	Support of specialized PMI Notes in NX
BT-22300	009942	NX Integration	NX Process Specification Notes not recognized
Q-1385		NX Integration	Automatic FLL creation dependent on characteristic
BT-21975	009047	SE Integration	It should be possible to stamp "Edge Condition" (Kantenbruch) symbols
BT-22449			Support new NX Version (NX 2007)

Q-1387	007981, 009768, 010408	NX Integration	Filter NX object to balloon by object layer
BT-19372	007981, 009768, 010408	NX Integration	Filter NX object to balloons by object name or object layer
BT-22545			Support new SE Version (SE 2022)
BT-22306		NX Integration	Stacked Balloon Notes taking associated objects from PMI

Fixed issues

ID	BCT Call ID	Category	Description
BT-22479		SE Integration	SE crashes if the SE drawing has a custom attribute of an unsupported type. e.g. BSTR
BT-22462	010485	BallooningSE Integration	Sort of manually selected objects are ballooned in opposite direction
BT-22290		NX Integration	"Create CN" and "Create/Update CN List" resets the NX view
BT-22492	010560	BallooningNX Integration	NX Crash on NX table ballooning
BT-22463	010513	Neutral	cgm can not be opened with inspector
BT-22304		NX Integration	Dimension of preview rectangle during "Move CN" not correct
BT-22477	010524	SE IntegrationBallooning	Inspector "jump" to the next drawing offset during auto ballooning
BT-22510	010609	Documentation	Enhance the description of the filter "exceptions"
BT-22530	010756	Neutral	Start script does not work if BCT_EOMS_DIR contains spaces
BT-22198		SE Integration	Crash when stamping an SE drawing with over 700 objects
BT-22531		BallooningSE Integration	It should be possible to stamp all "Edge Condition" (Kantenbruch) symbols (SE2020)
BT-22509		ReportsBallooningNX IntegrationNeutral	FLLs in Excel Report are sorted in opposite order

BCT Inspector Suite v21R4 (released on 2021-11-25)

Enhancements

ID	BCT Call ID	Category	Description
Q-1342		NX Integration	Handling of reference & measuring faces with FLL
Q-1343		NX Integration	Handling of reference & measuring faces with two FLL balloons
Q-1355		SE Integration	Load project files automatically from previous item revision in BCT Inspector SE
BT-22447		Neutral	Open a new DXF/DWG project via command line in BCT Inspector
BT-22241		SE IntegrationPortal Integration	Inspector SE Teamcenter Integration with external Project Files
Q-1353		NX Integration	Show number of FLLs in Balloon
Q-1365	007981, 009768, 010408	NX Integration	Filter NX-Objects to balloon by their object name
Q-1336		Active Workspace	Support of 3D chx data in AW AddOns
Q-1350		NeutralNX IntegrationSE Integration	Allow context-related table popups (ALL. CHX, CID, FLL)

Fixed issues

ID	BCT Call ID	Category	Description
BT-22318	009969	NX Integration	Filter are not applied if balloon would be created outside the grid.
BT-22436		NX Integration	Crash if inherited PMIs are ballooned for a not fully loaded part
BT-22425		NX Integration	Double creation of Balloons if Pre-PostControl is used
BT-22289	009920	NeutralJT Viewer	If "Show CN" is inactive, the view is no longer centered when switching to CNs in another view. (Neutral JT)
BT-22288	009920	NX Integration	Included tessUG.config is deprecated
BT-22352	010209	Reports	BctInspectorExcelReport.exe generator do not change regional number setting ("," -> ".")
BT-22348		NX Integration	Call of bct_inspector_nx_batch.exe in a cmd shell create error if parameter are missing
BT-22351	010166	SE Integration	SE should recognize the Project tolerance also for projects before v19.6
BT-22126	009413	SE Integration	Solid Edge object types as a block - ballooning behavior
BT-22483	010533	Portal Integration	Deployment center 4.2 - BCT installation failure BCT_EOMS_Artifact.zip doesn't exist
BT-22336		DXF / CAD Connector Tool	Created PDF file contains "?" due missing installed font

BCT Inspector Suite v21R3 (released on 2021-09-30)**Enhancements**

ID	BCT Call ID	Category	Description
Q-1330		Active WorkspaceBallooning	Provide basic JT PMI ballooning workflow to TCQ CP/IP
Q-1329		Active WorkspaceBallooning	Implementation of JT PMI reader (based on JTK 10.8)

Fixed issues

ID	BCT Call ID	Category	Description
BT-22299		NX Integration	Wrong stub size for PMI FLLs with a leader line in inch parts
BT-22270		NX Integration	CAQ Item Export does not work in Batch mode
BT-22237	009904	Neutral	Values of header columns "K1001, K1002, K1004" are overwritten independent of the configuration
BT-22020	009058 009953	NX Integration	UG Error Locale data detected when UTF8 data was expected - Move CN
BT-22286	009910	Portal Integration	Siemens IEC Project - TC Server components v21R1 Linux package

BCT Inspector Suite v21R2 (released on 2021-07-29)

Enhancements

ID	BCT Call ID	Category	Description
Q-1298		Active Workspace	Show differences in context of drawing
Q-1310		Active Workspace	Improvement of balloon positioning in JT Viewer web
Q-1302		DXF / CAD Connector Tool	Clockwise ballooning of DXF drawings
Q-1309		Active Workspace	Support compare of multisheets

Fixed issues

ID	BCT Call ID	Category	Description
BT-22150	009471	NX Integration	Sub-CNs set to "deleted" during "Update CN" even when the CN is NOT a "manual sub type"
BT-21247	006585, 008541, 009543	SE IntegrationNX Integration	Chamfer dimension (Angle value) not caught
BT-22212	001245	NX Integration	After importing a project file, the CNs are not displayed when ShowHideLayers="1"
BT-22200	009627	NeutralPortal IntegrationConfiguration	default setting of AdminAccessControl setup does not work on Teamcenter integration
BT-22260		Installation	Unpack installer with "/extract" does not copy common files
BT-22211	009815 009952		Cns colored red when opening an existing Inspector project with neutral or NX (version v19.5 - v21R1)
BT-22227	010117	NX Integration	Clear also the names of the PMI instances if the characteristic gets removed from the table
BT-22206	009641	ConfigurationNX Integration	In Inspector Batch (running in TC or not). the exported image is only a tiff
BT-22154	009496	SE Integration	FCFs on sheets SE drawing get the CN number from the setting "ItemOffset"/"Draw"
BT-22201	010741	NX Integration	PMI balloon positions wrong after ballooning
BT-22215		NX Integration	PMI balloons do not take the individual PMI font size into account during the creation

BCT Inspector Suite v21R1 (released on 2021-06-10 (postponed from 2021-05-27))

Enhancements

ID	BCT Call ID	Category	Description
Q-1291		Active Workspace	Ship inspector AW bindings as a NPM package
Q-1182		Active Workspace	Move inspector-viewer-2d rendering control to Wasm.
Q-1287		Active WorkspaceNeutralWeb	RLCViewer Wasm - revision compare
Q-1301		DXF / CAD Connector Tool	Indication of manual overwritten dimensions on DXF drawings
Q-1293		Installation	Apply new release strategy for BCT installer v21R1

Q-1306		Web	Provide set focus for BCT table API in ActiveX
Q-1300		Neutral	Retrieve BCT Inspector version from ActiveX
BT-22021			Support new NX Version (NX 1980)
BT-20787		Installation	Change BCT_EOMS_DIR default value for the BCT Installer v19
BT-20985	005530	Installation	Select target platform version during patch process, in order to not have dlls for all new platforms

Fixed issues

ID	BCT Call ID	Category	Description
BT-21823	008768	NX Integration	BCT Inspector NX logfile entry "+++ Cannot find method ufsta in image"
BT-22039	009184	NX Integration	Calculation of tolerances for tolerance modified "UZ" not correct
BT-21818	008746	Documentation	Add description for "batch_process_timeout" variable in Documentation
BT-21578		Documentation	Extend Config Guide with a full Description to create a customer Excel Report
BT-21060	005761	DXF / CAD Connector Tool	Auto arrange CN gives error in K2246 ref point Z
BT-21052	005733	DXF / CAD Connector Tool	DXF: Dimension with appended Text is not getting ballooned
BT-21014	005617	DXF / CAD Connector Tool	DXF - "Kettenmaße" are scanned with "Zero" nominal value and wrong tolerance
BT-20972		NeutralDXF / CAD Connector Tool	After the project creation of a dxf file with the unit inch, "center on balloon" does not work anymore
BT-20463		DXF / CAD Connector Tool	DXF Ballooning does not recognize Tolerance information
BT-20166		NeutralDXF / CAD Connector Tool	CN position is outside of the sheet for specific DXF
BT-22034	009235	Portal Integration	Automatic open of an Master Model Drawing project of an previous ItemRev using %DNN parameter does not work anymore
BT-22114	009155	NX Integration	During the stamping process Inspector sets Layer Setting from "global" to "specific" for Views
BT-22159		DXF / CAD Connector Tool	BCT Indexer crash
BT-22185		NX Integration	Hole-Callouts of type linear are stamped as linear dimension
BT-22184		NeutralNX Integration	Inspector Excel Report doesn't work
BT-22130	009468	NX Integration	NX Crash with customer configuration
BT-22180			Failed: File encoding is broken after "save as default"
BT-22121		DXF / CAD Connector Tool	Encoding issues with BCT DXF Indexer for dimensions like " 74,5"

BCT Inspector Suite v19.7 (released on 2021-05-27 (never released))

Enhancements

ID	BCT Call ID	Category	Description
Q-1278		Active Workspace	Custom zoom level

Fixed issues

ID	BCT Call ID	Category	Description
BT-22002		GUI	Undocked windows are cut off outside of the QMS application (Citrix only)

BCT Inspector Suite v19.6 (released on 2021-03-25 (last official v19 version))

Enhancements

ID	BCT Call ID	Category	Description
Q-1256		SE IntegrationNX IntegrationNeutral	Enable translate option for HDR attributes
BT-21327	007122	GUI	Pull down Menu for HDR Data (property Attributes) like Table Pull down
Q-1253		Active Workspace	Create API for inspector-viewer-3d
Q-1254		Active Workspace	Read jt files directly with PLMVisWeb
Q-1283		Active Workspace	Bundle PLMVisWeb in AW bindings package
Q-1067		NeutralPortal Integration	Open DXF/DWG from Teamcenter in BCT Inspector Neutral
Q-1275		Neutral	Support of DWG drawings
Q-1192		Neutral	Create PDF on-the-fly for DXF/DWG drawings
BT-21204		Neutral	Open DXF from Teamcenter

Fixed issues

ID	BCT Call ID	Category	Description
BT-21912	008972	Compare	BCT Inspector Compare crashes Teamcenter
BT-21838		Portal Integration	BCT perspectives are not opening in TC 13.1 RAC
BT-21730	008258	NX Integration	After running checkmate Inspector NX will start as Inspector NX Batch
BT-21796		NeutralNX Integration	Changed Default Tolerance in Project file by BCT Inspector Neutral does not update the tolerance values of table entries during BCT Inspector NX Batch executable
BT-21817	008717	NX Integration	Update CN sets the Reference Dimension to Deleted
BT-21446	007064	NX IntegrationBallooning	"IDFactor" is not working for PMI Fills & PMI HoleCallouts
BT-22005	009156	NX Integration	NX Object Attributes (UGOBJ&...) are not stored in Spreadsheet anymore
BT-22067	009303	NX Integration	Content of K2900 Remark will be removed after "Update CN"
BT-21837			Support DXF drawings in Japanese OS environment
BT-21861		BallooningNX	Very small balloons in NX parts with INCH unit

		Integration	
BT-21916		BallooningNX Integration	All opened NX sub components are ballooned in an assembly
BT-21834	008803	NX Integration	The current VMWare Tools 11.2 and higher prevent the "bct_inspector_nx_batch.exe" from exiting correctly

BCT Inspector Suite v19.5 (released on 2021-01-28)

Enhancements

ID	BCT Call ID	Category	Description
Q-1232		NX Integration	Export to more than one ItemType and to more than one Dataset Relation
Q-1169		DXF / CAD Connector Tool	Support all installed fonts in BCT Inspector spreadsheet
BT-21673	007624	Portal Integration	Export to more than one ItemType and to more than one Dataset Relation

Fixed issues

ID	BCT Call ID	Category	Description
BT-21725		Documentation	PmiName & PmiNameSeparator setting not fully described in BCT Inspector Configuration Guide
BT-21780	008512	BallooningSE Integration	Tolerance of Angle dimension is not scanned correctly
BT-21781		SE Integration	FLL does not work in SE
BT-21803	008630	SpreadsheetNX Integration	Exact Filter does not work in BCT Inspector Spreadsheet
BT-21764	008452	BallooningSE Integration	Grid of exported SE Project is not correct scanned in Inspector Neutral
BT-21715	008209	Portal IntegrationNX Integration	Inspector Export of PMI use wrong ItemId/ItemRev if Work part and Display part are different
BT-21833		DXF / CAD Connector Tool	Crash when updating a DXF drawing
BT-21160	006265	NX Integration	Deselection of Ignored Characteristics in a PMI environment
BT-21641	007889	NX Integration	Each stamped PMIs cause EXCEPTION: Error code 3100000 in the NX syslog

BCT Inspector Suite v19.4 (released on 2020-11-27)

Enhancements

ID	BCT Call ID	Category	Description
Q-1207		Web	Demo sample how to integrate BCT Inspector Web based on Angular8
Q-1206		BallooningNX Integration	"Highlight Unused Objects" in NX lets the objects blink
Q-1216		Active Workspace	Merge imports into one main package
BT-21707			Support new NX Version (NX 1953)
BT-21708			Support new SE Version (SE 2021)
Q-1110		Active WorkspaceNeutralWeb	RLCViewer Wasm - more image formats
Q-1213		NX Integration	PMI entity should show all characteristics that are assigned
Q-1161		Active Workspace	Filter characteristics table entries
Q-1214		NX Integration	Support ballooning of PMI Table
BT-20946	005426, 005555, 006470, 008391	Ballooning	Support ballooning of PMI Table
Q-1215		Active Workspace	Show alternative view state (camera position) for chx on drawings

Fixed issues

ID	BCT Call ID	Category	Description
BT-21684	008018	SE Integration	SE export does not support SE2020 "Solid Edge PS Printer 3.0"
BT-21697		NX Integration	For some CHX types, no references are shown in the table
BT-21612	007634	NX Integration	RegEx ".{0}" for ignoring empty table cells are not taken into account in bct_tables_cfg.xml
BT-21722	008220	Ballooning	IPXML created from BCT Inspector SE has balloons not in order
BT-21585		Documentation	Add a hint that in bct_toltab.xml is for radius and chamfer
BT-20813	004741	NX Integration	"Update CN" of a stamped table is not recognizing which row was deleted
BT-21305	006596	Portal Integration	Sometimes native dialogs immediately disappear in BCT Inspector Neutral/TC

BCT Inspector Suite v19.3 (released on 2020-09-25)

Enhancements

ID	BCT Call ID	Category	Description
BT-20466	002977,004361,007248	Portal Integration	Start BCT Inspector Compare with 2 datasets selected using sendTo BCT Inspector Compare
Q-1181		Active Workspace	Reimplement the rendering layer of inspector-viewer-2d to use the WASM tilestore

Fixed issues

ID	BCT Call ID	Category	Description
BT-21614		SE Integration	Sub-balloons overlap the main balloon
BT-21625	007692	NX Integration	Export JT with "Dotted Number" in %PN or %PR does not work
BT-21615		SE Integration	Read SE Reference Attributes like Mass or Volume and write these to BCT Inspector Header entries
BT-21572	007655	Ballooning	Manual edit nominal value are not identified in BCT Inspector table
BT-21665	007963 007925	Installation	redist-msvc16 missing in v19.2 installers
BT-21670	007973	NX Integration	Override dimension text will only use standard tolerances
BT-21658	007920	Portal IntegrationLicensing	TC crash when no more license is found
BT-19822		SE Integration	FLLs are always created on drawing origin (BCT Inspector SE)
BT-21604	007740	SE Integration	Content of K2142 is always MM or INCH even if it is a Angle dimension which should show then GRAD or DEG
BT-21685	008086	Configuration	CN Type Chamfer not defined in bct_manual_datatype_cfg.xml
BT-21686		NX Integration	GD&T Symbols with comma and 3 digits behind are not scanned correctly
BT-21513	007536	GUINX IntegrationNeutralSE Integration	BCT Inspector GUI does not remember windows settings. Independent if BCT runs on/in Windows, NX or TC

BCT Inspector Suite v19.2 (released on 2020-08-04)

Enhancements

ID	BCT Call ID	Category	Description
Q-1179			Support of Active Workspace 5.0
BT-21618			Support TC13
Q-1195		Active Workspace	TCQ: Remove dependency to microservice

Fixed issues

ID	BCT Call ID	Category	Description
BT-21314		NX Integration	Export Step doesn't work

BCT Inspector Suite v18.15 (released on 2020-08-04 (last official v18 version))

Enhancements

ID	BCT Call ID	Category	Description
Q-1040		Active WorkspaceNeutralWeb	BCT Inspector Web NG - RLCViewer (non-interactive)
Q-1167		Web	Inspector Web – viewer 2d multisheet
Q-911			Touchscreen support
BT-21281	006720	NX Integration	PMI entity should show all characteristics that are assigned
Q-1163		Active Workspace	Changing color of balloons

Fixed issues

ID	BCT Call ID	Category	Description
BT-21099	005953	Neutral	Opening a new DXF or PDF file with spaces or commas in the file path does not work
BT-21507	007470	Neutral	Asymmetric tolerances are not overtaken from Input Dialog correctly into spreadsheet
BT-21201	006371	NX Integration	Re-Assign a deleted Feature Control to new PMI entity
BT-21252		Portal Integration	Switching to BCT application does not change the context in Teamcenter rich client
BT-21602		NX Integration	It's not possible to stamp FCF's with more than two frames
BT-21575		NX Integration	Export JT with naming convention like %PN-%PR does not work
BT-21543	007580	NX Integration	NX Custom-Symbol should have the same presentation no matter from which TYPE it is extracted
BT-21621			Do a may checkout for BCT_JT_OPTION and BCT_DXF_OPTION
BT-21613		SE Integration	Note text (before behind above below) are not read and stored into the BCT Table
BT-21616		SE Integration	Empty Dimensions are not ignored, Balloons are placed on left button corner, Table lines are "red"
BT-21594	007719	SE Integration	It's not possible to stamp FCF's with Inspector SE
BT-21598	007673	NX Integration	tessUG.config template included in the BCT installation folder is

			not working with current NX1899
BT-21622		NX Integration	Automatic feature location label creation with leader doesn't work
BT-20151	002891	GUI	Deleted CNs from older version can not be reactivated
BT-20674	004379	NX Integration	"Move CN" shows the white placeholder Box at vertical dimensions wrong
BT-20906	005237	NX Integration	NX Check-Mate: Empty drawing window after running BCT Inspector check for multiple parts in one call
BT-21425	007067	NX Integration	Filter Setting: exceptions="NOTES_WITH_LEADER" is not taken into account
Q-1616		BallooningNX IntegrationSpreadsheet	Manual edit nominal value are not identified in BCT Inspector table
Q-1648	012593	NX Integration	backport: Overwritten nominal values incorrectly take the general tolerance

BCT Inspector Suite v19.1 (released on 2020-05-28)

Enhancements

ID	BCT Call ID	Category	Description
BT-21515			Support new NX Version (NX 1926)
BT-21706			Support new NX Version (NX 1926)

BCT Inspector Suite v18.14 (released on 2020-05-28)

Enhancements

ID	BCT Call ID	Category	Description
Q-1135		LicensingDXF / CAD Connector Tool	License check in BCT DXF Indexer
Q-851		Active Workspace	I want JniFlexlm.checkOut to support named user licenses
Q-1078		Web	Render balloons in JtViewer.js
R-1466		Active Workspace	Support Active Workspace 4.3
Q-1132		DXF / CAD Connector Tool	Replace CAD Connector by new DXF library
Q-306		JT Viewer	Rotate around center of gravity
Q-1095	006070	Portal IntegrationNeutral	Automatic Part number Update for Report Dialog
BT-21183	006070	Portal IntegrationNeutral	Automatic Part number Update for Report Dialog
Q-1032		NX Integration	Support of PMI Note as balloons
BT-20994		NX Integration	Support of PMI Note as balloons

Fixed issues

ID	BCT Call ID	Category	Description
BT-21495			Selection in Inspector Web for TC Quality does not work correctly after switching drawings
BT-21470		Ballooning	Calculation of grid location does not work with more then 101 fields
BT-20970	005451 006803	NX Integration	FLL Balloons are enlarged after doing an update in modeling
BT-21464	007132	NX Integration	FLLs will lose their reference when sheet name is changed
BT-21447	006818, 007199	NX Integration	After "Update CN List" it is not possible to delete ballooned NX dimensions
BT-21158	006256	Portal Integration	BCT Inspector - Named References are not changed when changing ownership
BT-21488	007351	NX Integration	NX Part List cannot be stamped
BT-21504	007430	Ballooning	When creating balloons for some PMIs, NX 11 crashes when reading PMI attributes
BT-21473	007254	NX Integration	The second tolerance values (K2112B, K2113B) are displayed as errors after the update

BT-21483	007292	NX Integration	Crash during Export/Update with some customer NX Drawings
BT-21277	006709	NX Integration	Naming of PMI entity still exists even when the CN has been 'Removed'

BCT Inspector Suite v18.13 (released on 2020-03-26)

Enhancements

ID	BCT Call ID	Category	Description
Q-1133		Active Workspace	Integrate updated requirements from Siemens TC Quality team
Q-1094		Active Workspace	Upgrade AW module management to ES6 modules
Q-1076		Web	Rendering geometry in JtViewer
BT-21122	004649	Spreadsheet	When stamping GD&T frames, the tolerance value of K2113 (upper dimension) should also be transferred to K2111 (upper specification limit)
Q-1077		Web	Render PMI data in JtViewer.js
Q-1096	006522	Neutral	Get tolerance information from JT model
Q-978	BCT-122708 001327 005889	NX Integration	Treat feature control frame including all related texts as pure feature control frame
BT-21381		NeutralNX IntegrationSE Integration	Avoids freezing UI during long term processes
BT-20734	004549	NX IntegrationSE Integration	Correct interpretation of Surface Profile Tolerances
BT-20541	003922, 004207, 004649	Spreadsheet	When stamping GD&T frames, the tolerance value of K2113 (upper dimension) should also be transferred to K2111 (upper specification limit)
BT-16124	BCT-121567	NX Integration	Tolerance Modifier "UZ" is not evaluated correctly
Q-1033	004649	Spreadsheet	When stamping GD&T (aka FCF) frames, the tolerance value of K2113 (upper dimension) should also be transferred to K2111 (upper specification limit)

Fixed issues

ID	BCT Call ID	Category	Description
BT-21272		Neutral	Balloon highlight is broken for hybrid (3D and 2D) projects
BT-20819		NX Integration	Exceptions in object_filter for "Note 2D" influence behavior of filter for "Note 3D"
BT-19565		Neutral	IdFontFactor setting does not work
BT-21361		NeutralDXF / CAD Connector Tool	Reassigning of deleted CNs locks BCT Inspector UI (DXF Projects)
BT-21232	006522	Neutral	Default tolerances are not applied correctly to .jt files
BT-20812		Neutral	Turning off the save current view state functionality does bring not "immediately" back the default behavior
BT-21376		Ballooning	Sheet name of drawing objects placed directly on drawing are not captured
BT-20718		SE Integration	Capturing nominal value of modified object get wrong value
BT-20717		SE Integration	Tolerance values with "," "comma" instead of "." "dot" are not read correctly.

BT-21271	006738	Neutral	BCT Inspector fail to open PDF if there is \$ sign in the file name when file is loaded from filesystem
BT-16488		NeutralNX IntegrationSE Integration	Column DEFTOL is not filled with name of current default tolerance table when ballooning the 2nd time a JT file
BT-21288	006824, 006818	NX Integration	"Update CN List" leads to a crash if the project contains reference dimensions or tables
BT-21238	006558	NX Integration	Feature Control Frame "Axis Intersection" is incorrectly identified as "Note"
BT-20309	BCT-122708 001327 005889	NX Integration	Drafting Feature Control Frames are handled as Notes

BCT Inspector Suite v18.12 (released on 2020-01-31)

Enhancements

ID	BCT Call ID	Category	Description
Q-1059		Active Workspace	Highlight balloon with custom colors
Q-1057		Active Workspace	Create PMI Objects in TC based on selection in TC Quality
Q-1058			Cancel of createChx()
Q-1007			Keep colors of drawing in 2D viewer
Q-1006			Keep original drawing files in project file

Fixed issues

ID	BCT Call ID	Category	Description
BT-21216		Documentation	BCT AW Addons Documentation
BT-21023		Active Workspace	Configuration issue when comparing PDF files in AW
BT-21243		NX Integration	Filter for custom column not working for Notes
BT-20574		Neutral	Drag & drop of Tiffs does not work
BT-20258	002850	SE Integration	Capturing threaded hole characteristic (created with suffix) in SE only partially possible
BT-20218	002850	SE Integration	capturing threaded holes (with function quick diameter) in SE only partially possible
BT-21261	006504	NX Integration	Inspector Checkmate Batch-Call leads to a General Fault Exception
BT-20991		NX Integration	When bct_inspector_server.bat is called from ITK executable file it crashes.
BT-21179		Neutral	Balloons which are created via CreateCHX() are always placed at bottom left not at the selected position
BT-20890	005188	Documentation	Improve chapter 2.12.6 Automatic Tolerance Table Settings
BT-20846	006111 006108	NX Integration	Auto Arrange does not work
BT-16016		GUI	CN with FLL could not assigned as a CRITICAL (or other Popup) CHX
BT-20412	003640	NX Integration	Unpredictable behavior when updating a GD&T
BT-21226	006503	NX Integration	Selecting a surface creates always a FLL without Leader in MasterModell Drawings
BT-20442	003703	NX Integration	Sub-CN exists without Main CN
BT-20794	004733	BallooningNX Integration	BCT Inspector does not interprets tolerance values in the CN table correctly related to PMI FCF
BT-20842		Neutral	JT Compare view does not show the current selected CN
BT-21248	006586	BallooningSE Integration	Tolerance for dimension with decimal place (Ex. 68.00) are not identified

BCT Inspector Suite v18.11 (released on 2019-11-28)

Enhancements

ID	BCT Call ID	Category	Description
Q-1037		NeutralWeb	BCT Inspector Web NG - RLCViewer - TIFF.js proof-of-concept
Q-1009		Active Workspace	Support of AW 4.2 with Inspector Web (RevCompare / Project Viewer)
Q-1051		Active Workspace	Multi-Selection of characteristics
BT-21172			Support NX 1899
BT-20458	003871 004293	NX Integration	JT Export in BCT Inspector NX Batch mode
Q-767		Neutral	Support of Group Chx
BT-21098	005954	Configuration	FFL Count (Subnumbers) are not reset to 1 for next CN Number
BT-19608	001897	NX Integration	Use spreadsheet filter in BCT Inspector batch mode
Q-824			Export JT file in Batch mode if PMI has been ballooned
BT-21157		Neutral	Maximize button in dockable window title bar
Q-826	001897	NX IntegrationNeutral	Use spreadsheet filter in BCT Inspector batch mode
Q-766		Neutral	Support custom balloon shapes (ice cone) in Neutral
Q-1053		NX Integration	Extend the BCT Inspector NX batch with a parameter to export the JT to a target directory

Fixed issues

ID	BCT Call ID	Category	Description
BT-20757		Neutral	PDF to Tiff conversion (ps2tiff.bat) doesn't work if BCT_DEF_DIR is a UNC path
BT-21155			Black areas for transparent overlapped balloons on exported TIFFs
BT-21167	006187	NX Integration	Weld symbol can not be balloned
BT-21242		Portal Integration	BCT toolbar icons are disabled in TC 12, even though BCT menu entries work
BT-21185	006334	Neutral	Number block comma can't be used to enter floating-point values at the neutral ballooning process
BT-20961	005452	NX Integration	BCT Inspector does not update CAQ Item Id, CAQ Item Rev, CAQ Item Name if Inspector Window is closed.
BT-20944	005410	GUI	BCT Compare values dialog will not appear anymore
BT-21180	006404	Neutral	Balloons not created with manual CN in BCT latest version for INCH drawings
BT-21010	005551 005827	Portal Integration	Customize Toolbar button is not clickable anymore when bct_def_dir is set
BT-21080	005851	NX IntegrationDocumentation	CMM Inspection paths aren't exported from BCT Inspector
BT-20843	005007	Documentation	"H7" ISO Limit is not correct recognized by the OCR even

			when the pdf has a good quality
BT-21229		Neutral	BCT Inspector does not open/display all drawings of an existing project file (IPXML)
BT-21223	6526	Neutral	Crash when comparing 2 projects and clicking on spreadsheet new CN
BT-21070	005775	Neutral	QMS is forced to end abnormally if license server access is lost from BCT Inspector
BT-21021	005620	NX Integration	NX is forced to end abnormally if license server access is lost from BCT Inspector
BT-21138	006182	SE Integration	The BCT aClass icon is also in the BCT menu when only BCT Inspector SE is installed
BT-21191	006353	SE Integration	CN Table is not visible in ST10 MP13 after reopen a saved drawing
BT-20887	004943	Neutral	Flashing of input cursor in CN Create Dialog

BCT Inspector Suite v18.10 (released on 2019-09-26)

Enhancements

ID	BCT Call ID	Category	Description
Q-844		Active Workspace	AW Inspector encounters timeouts waiting for confirmation when viewing large files
R-1382		Installation	Update BMIDE Template for BCT software for new BMIDE structure introduced TC11.4
Q-832			Handle restored characteristics on DXF drawings
Q-616			Deselection of already selected chx in Inspector Table for PMI import should be possible
Q-277		Ballooning	Margins in grid configuration
Q-636			Apply angle of characteristic on 2D drawing balloon
Q-925			Create Sub-Chx for Hole Callouts
Q-920			Rename unmapped pages
Q-1011	005801	SE Integration	Appended Text on "Critical mark" balloons should also work in Solid Edge
BT-20974	005801	SE Integration	Appended Text on "Critical mark" balloons should also work in Solid Edge
BT-19859	004903	NX Integration	Hole callouts must be properly identified in NX

Fixed issues

ID	BCT Call ID	Category	Description
BT-20823		Active Workspace	Inspector Web Demo Client breaks with 'Error during drawing preparation' for huge images
BT-21065		Ballooning	Balloon becomes solid color when export as a tiff file
BT-19315	001317	NX Integration	Nominal values of hole callout on threaded holes are not recognized
BT-20978	005497	BallooningNX Integration	BCT Inspector NX does not use the Work Layer for balloons if IdLayer=0 is set
BT-21036	005681	Documentation	Add new feature "Background color with transparency #AARRGGBB" to config guide
BT-21102	005958	Installation	eoms_start.bat does not contain entry for NX 1872 Series
BT-20627	004265	Portal Integration	BCT Inspector fail to open PDF if there is \$ sign in the file name & crashes Teamcenter
BT-20805		Neutral	Save current view state behaves differently for old/existing projects
BT-20762	004667	NX Integration	A subdivided (sections) tabular note in NX is recognized as a new table
BT-20948	005428	Ballooning	PMI Custom Symbol Type is not scanned from appended Text
BT-20415	003637	NX Integration	Filter for custom column not working
BT-19961	002238	Ballooning	Tolerance detection problem on hole callout
BT-20434	003720	Reports	Output report produces no output pdf or tiff file
BT-16370		NX Integration	Callout of PMI values are not properly identified in NX

BT-16600		NX Integration	Nominal value of "PMI Radial Dimensions" are not recognized
BT-21011	005611	Documentation	Installation of extended OCR not documented

BCT Inspector Suite v18.9 (released on 2019-07-25)

Enhancements

ID	BCT Call ID	Category	Description
Q-595		NX Integration	Support "NX Text Control Characters" for critical marked balloons
Q-924		NX Integration	Ballooning Hole Callouts in NX as one Chx
Q-906			Create attributive CN via ActiveX API for 2D Drawings
Q-923		NX Integration	Hole Callouts in NX - NX Base Implementation
Q-970	BCT-120082 004116	Configuration	Support wildcards in CID configuration
Q-880			Save current "ViewState / Cameraposition" (3D + Bounding Box) for a CHX

Fixed issues

ID	BCT Call ID	Category	Description
BT-20880		NX Integration	The tolerance values of table don't match displayed values of drawing in corner cases when more decimal places are given than configured
BT-20891		Active Workspace	BCT Inspector for Active Workspace does not support IPXML files in INCHES
BT-20283	003320	JT Viewer	JT Compare is not possible, the viewer remains black
BT-20893	005133	NX Integration	Problem with hole callout from holes that are created with a NX feature pattern
BT-20614	004194	NX Integration	NX crash when updating CNs and exporting XML/project files
BT-20501	003869	GUI	QT-Message in bct_inspector_nx_log
BT-20651	004337, 006561	NX Integration	UG Error Locale data detected when UTF8 data was expected

BCT Inspector Suite v18.8 (released on 2019-05-23)

Enhancements

ID	BCT Call ID	Category	Description
BT-20800			Support NX (1872 Series)
Q-968		Active Workspace	Developer API for Inspector Web Component

Fixed issues

ID	BCT Call ID	Category	Description
BT-20826		Active Workspace	ipxmlconvert is raising an error if no characteristics data is found
BT-20851		Active Workspace	Microservices BaseStorage - Locking Issue
BT-20837	004973	Neutral	Balloon size varies in width between v16 to v18
BT-20065	002586	GUINX Integration	Specification limits not correctly calculated for object type 501 / 502 / 503 / 504 / 506
BT-20659	004351 005045		FlexLM named user license checkout always uses the OS user name
BT-20433	003724	NX Integration	NX Attribute in NX Text Note will not be shown in Spreadsheet when Text Note has a leader
BT-20432	003702	Neutral	ipxml export from NX shows the balloons on a different position
BT-20774	004752, 004913	Neutral	Size of Balloon is changing when clicking "Show CN"
BT-20456		Neutral	JT Compare view does not move/zoom to the table selected CN

BCT Inspector Suite v18.7 (released on 2019-03-28)

Enhancements

ID	BCT Call ID	Category	Description
Q-910		Active Workspace	AW microservices should be deployable via WAR file on the Teamcenter application server
Q-198		Active Workspace	Chx Compare in AWC
I-580		Portal Integration	Support Teamcenter 10.1 32-bits in v1800
Q-886	004425	Neutral	Streamline experience when opening multipage drawings with XML projects
Q-879			Save current "ViewState / Cameraposition" (2D + Bounding Box) for selected CHX

Fixed issues

ID	BCT Call ID	Category	Description
BT-20758		Neutral	Loading drawings with naming rule including sheetnames will only load one drawing
BT-20637		Licensing	BCT License - Solid Edge version license increment for SE 2019
BT-19965		Installation	Uncertified BCT installer
BT-20694	004425	Neutral	Problems / Exceptions when Opening Multipage Drawings
BT-20413	003664	Portal Integration	TC crash on sending multiple page PDF to BCT Inspector
BT-20135	002969, 004361, 004645, 004767	Portal Integration	Send to BCT Inspector Perspective only works on second try
BT-20345	003473	NX Integration	Title of create cn dialog box inappropriate
BT-20749	004368	NX Integration	Support for double-byte characters in the BCT inspector

BCT Inspector Suite v17.0.14 (released on 2019-03-28)**Enhancements**

ID	BCT Call ID	Category	Description
Q-861		Active Workspace	Support Active Workspace 4.1

Fixed issues

ID	BCT Call ID	Category	Description
BT-19992	002280	NX Integration	Exporting STEP in NX TC Managed mode is not possible
BT-19903	002076	NX Integration	Drawing dependend grid settings are not taken into account
BT-15964	BCT-120309	CAD Interface NX	Characteristics ignore list is not correctly stored inside the part file
BT-20025	002485	NX Integration	Inverted surface finish symbol inverts CN
BT-20554	004107	NX Integration	Calculation error when using limit information of angles
BT-20594	004195	Licensing	Licenses are not released after a disconnect from the license server

BCT Inspector Suite v18.6 (released on 2019-01-31)

Enhancements

ID	BCT Call ID	Category	Description
Q-881		Installation	BCT Inspector - Deployment Server Support
BT-19311	001307	Neutral	Improve usability when opening multisheet tiff/pdf
Q-810			Switch between opened projects

Fixed issues

ID	BCT Call ID	Category	Description
BT-20250	003224	NX Integration	BCT Inspector fails to export IPXML on 2nd attempt
BT-20681	004417	NX Integration	Wrong presentation for special character (e.g. °) in Inspector table
BT-20603		Neutral	Crash during revise process
BT-20468	003898	SE Integration	Solid Edge 2019 does not store Inspector Project table in drawing file
BT-20266	003572	NX Integration	Setting "OpenProject" is not working as expected
BT-20544	004046 003885	NX Integration	bct_inspector_nx_batch_library crash in BCT_Inspector_initialize
BT-20610	004415 004232 004475	Compare	Compare Revisions have wrong mapping
BT-20492			Zoom to PMI not working with IPXML coming from NX
BT-20502		Neutral	PMI balloons not shown if IPXML was created in NX
BT-20487	003941	NX Integration	Wrong Charset for umlauts (e.g. ä,ü,ö) in Inspector Properties

BCT Inspector Suite v17.0.13 (released on 2019-01-31)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20488	003943 004079	Spreadsheet	BCT Inspector Spreadsheet jump to left top position on each pulldown table entry
BT-20535		Documentation	IdDensity can have more than the 3 mentioned values in Inspector Neutral
BT-20365	003558	NX Integration	IdTextSize and PMIIdTextSize is not taken into account for PMIView balloons
BT-20526	004037	Installation	Add support for RHEL7 to BCT TcServerComponents on Linux
BT-20550	004035	NX IntegrationSE Integration	BCT Inspector is not able to export Inspectorproject when using MFK enabled Item Types

BCT Inspector Suite v18.5 (released on 2018-11-22)

Enhancements

ID	BCT Call ID	Category	Description
BT-20226	003189	JT Viewer	Section View of JT file not displayed

Fixed issues

ID	BCT Call ID	Category	Description
BT-20426	003712	Neutral	noticeable performance losses in the v18 compared to the v17
BT-20068	002625	Installation	BCT Silent installation does not consider selected features
BT-20419	003888	InstallationActive Workspace	TC12-microservices and AW40 files missing in BCT patch installer

BCT Inspector Suite v17.0.12 (released on 2018-11-22)

Enhancements

ID	BCT Call ID	Category	Description
N-397		Compare	Provide feedback to the user when drawing comparison is finished
Q-821			Support DXF replace with different drawing filenames

BCT Inspector Suite v18.4 (released on 2018-09-27)**Enhancements**

ID	BCT Call ID	Category	Description
Q-280			Associate FCF to a view, when its leader line points to an other leader line
Q-622		BallooningGUINeutral	Project support for more than one DXF single sheet files
BT-20161	002919	NX Integration	Updating removes balloons from Sub-CN's where Main CN is deleted
BT-15959	BCT-120217	CAD Interface NX	Associate FCF to a view, when its leader line points to another leader line

Fixed issues

ID	BCT Call ID	Category	Description
BT-20248		Documentation	Identical chapter titles in Inspector Help
BT-20384			Double Click in Spreadsheet crashed the application
BT-19853		JT Viewer	JT Model not properly displayed
BT-20292			JT PMI Balloon (created by NX) not highlighted on characteristic selection

BCT Inspector Suite v17.0.11 (released on 2018-09-27)

Enhancements

ID	BCT Call ID	Category	Description
N-455		Active Workspace	Support Active Workspace 4.0
Q-792		Neutral	Change CN positions groupwise

Fixed issues

ID	BCT Call ID	Category	Description
BT-20147	002637	NX Integration	Wrong red lines in spreadsheet
BT-20080	002674	GUINX Integration	Reference Dimension not recognized when angle given in degrees, minutes, seconds
BT-19995	002268	NX Integration	Multiple FLL Rename is not consistent
BT-15956	001809	CAD Interface NX	CN Position is not correct when "note" is used as the balloon
BT-19902	002074	GUI	FLL with leader will loose reference after change of NX feature
BT-19923	002098	NX Integration	FLL with Leader moves outside of drawing
BT-20099	002732	GUINX Integration	No autoCad drawing found with name "SH01" & QGraphicsScene::removeItem: item 0x2e4faea0's..... error on Export
BT-20169	002935	NX Integration	Inherited PMI balloon in master model drawing has wrong size

BCT Inspector Suite v18.3 (released on 2018-07-26)

Enhancements

ID	BCT Call ID	Category	Description
Q-638			Improve JT Viewer Performance in Citrix

Fixed issues

ID	BCT Call ID	Category	Description
BT-20076	002659	GUI	Saved filter for exact match not working

BCT Inspector Suite v17.0.10 (released on 2018-07-26)

Enhancements

ID	BCT Call ID	Category	Description
Q-745		Neutral	Auto balloon "Edge Symbols" from DXF files
Q-597			Set default tolerance table from QMS side
Q-744			New AX method, to mark several CNs as deleted
Q-746			Apply zero tolerance value, if only single tolerance is given
Q-759	001358	NX Integration	Empty datum letter should be allowed when adding reference dimensions
Q-591		NX Integration	Include PMI Views on drawing in ballooning process

Fixed issues

ID	BCT Call ID	Category	Description
BT-19989		Documentation	BCT Inspector action handler in Teamcenter is not clearly explained in documentation
BT-20078	002679	NX Integration	FLLs relation from Reference Dimension changes during an "Update"
BT-20035	002507	Portal Integration	BCT Icons will be displayed multiple times in TC Portal in list of perspectives
BT-20227	003154	Portal Integration	BCT Applications using Hiddenperspective pref comes back after a restart
BT-19613	001893	Documentation	Handling of ISO limits not documented
BT-20167		Neutral	Wrong JT revision is loaded when opening a project file
BT-20163	002928	BallooningNX Integration	Multiple balloons are created on update

BCT Inspector Suite v17.0.9 (released on 2018-05-24)

Enhancements

ID	BCT Call ID	Category	Description
Q-605			Get viewer names of all viewers and of active viewer
Q-612			Set multiplier of DXF as left appended text
Q-613			Use PDF drawing as fallback for DXF import if no TIFF is available
Q-444		Neutral	Update of New, Deleted and Moved characteristics of DXF drawings
Q-592		NX Integration	Retrieve BCT Inspector project from Teamcenter according to given naming rule for Master/Model parts

Fixed issues

ID	BCT Call ID	Category	Description
BT-20067		Documentation	Wrong env. variable documented to enable "Send to QMS"
BT-20060		Documentation	switch DefaultExportDir settings not documented
BT-20093		Ballooning	View is renamed to BCT_REF_nnnnn
BT-19973	002214	NX Integration	PMI name is not set when ballooning new characteristics
BT-20052		SE Integration	Create single CN not possible
BT-20044		Neutral	FLL balloon with leader expands to the hole size of the leader
BT-20023	002469	ConfigurationNX Integration	Balloon of critical CN showing wrong sign
BT-20071	002639	Ballooning	Critical Error Message/Error Stack in NX Logs when ballooning
BT-20062	002569	NX Integration	ItemText Postfix & Prefix is missing in CN Balloon of Reference Table Cells
BT-16417	BCT-122708 001327	CAD Interface NX	Dimension with square symbol gets sub balloon after update

BCT Inspector Suite v18.1 (released on 2018-03-29)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20016	002435	Geolus Search	Macro Out of Sync error on JT Export using NX12.0.1
BT-19982	002265	NX Integration	Inspector Batch generates QT Error Message

BCT Inspector Suite v17.0.8 (released on 2018-03-29)

Enhancements

ID	BCT Call ID	Category	Description
BT-19976		Documentation	Replace Support Weblink in all pdf
Q-575			Ability to suppress right click enable toolbars which are hidden
Q-573			Get selected rows in table via ActiveX
Q-576			Show/Hide text of all Toolbar Actions
Q-574			Event on CN selection changed
Q-560			Manual "Blind Inspection" by creating markups over tolerance values

Fixed issues

ID	BCT Call ID	Category	Description
BT-19990		ConfigurationInstallation	Wrong command in bct_inspector_server.bat, needs to be updated
BT-19998		Neutral	Creating new neutral drawing CNs set position of existing balloons to 0;0
BT-19371	001516	NX Integration	Tool Settings XML for BCT Inspector NX Batch is missing
BT-19894	002222	NX Integration	BCT Inspector NX CMM Inspection import does not work in Teamcenter environment
BT-19439	001717	NX Integration	Update CN List deletes Reference Table Cell CNs

BCT Inspector Suite v18.0 (released on 2018-02-01)

Enhancements

ID	BCT Call ID	Category	Description
I-338		Installation	Support NX 12
I-339		Installation	Support Solid Edge ST 10
Q-1145		Web	Inspector Web – characteristic table
BT-19454	001760	Installation	Automatically take care of copying latest jar (deleting old and adding/replacing new) during installation

Fixed issues

ID	BCT Call ID	Category	Description
BT-16284		Portal Integration	BCT Icons are not visible in toolbar in TC Portal after BCT Patch
BT-21497		Web	Selection feedback is inconsistent with actual state

BCT Inspector Suite v17.0.7 (released on 2018-02-01)

Enhancements

ID	BCT Call ID	Category	Description
N-276		Active Workspace	Support both light and dark colour theme in Active Workspace
N-137		Active Workspace	Show drawings and characteristics in Active Workspace
N-135		Active Workspace	Show drawings from BCT Inspector project files in Active Workspace
N-138		Active Workspace	Support of specific DIN balloon shapes in Active Workspace
N-174		Compare	Compare based on revision rule in Active Workspace
N-175		Compare	Compare based on selected revisions in Active Workspace
N-113		Active Workspace	Support configuration of Dataset relation types
N-179		Compare	Drawing compare of multiple sheets in Active Workspace
N-107		Active Workspace	Embed Viewer in Active Workspace
N-346		Active Workspace	Support Active Workspace 3.4 for BCT Inspector
BT-19858	002004	NX Integration	Inspector Batch should update the NX drawing before creating
Q-522		NX Integration	Update drawing views before creating or updating CNs with Inspector Batch by flag
Q-191			Tolerance Operation for each FLL

Fixed issues

ID	BCT Call ID	Category	Description
BT-19422		GUI	Dock state is not saved to the tool settings manager
BT-19618		Installation	BCT Plugins are compiled with vc11
BT-19933	002157	Neutral	External document not shown after hyperlink selection
BT-19254		Neutral	Callout of PMI values are not properly identified in JT PMI Model
BT-19419	001662 , 001731, 001934,	Neutral	Balloon (type 14) size small for containing text

	001938		
BT-19658	001917	NX Integration	Unnecessary BCT Inspector log messages in NX syslog
BT-19418	001661 , 001730	NX Integration	Merge of existing project and new Table configuration not working
BT-19448	001749	Documentation	ImportIntoTC Option missing in Documentation
BT-19527	001798	NX Integration	PMI Custom Symbol with Select List takes all entries to K2900

BCT Inspector Suite v17.0.6 (released on 2017-11-02)

Fixed issues

ID	BCT Call ID	Category	Description
BT-19272		JT Viewer	Jt Viewer crashes when viewing Jt files containing PMI with glyphs but no glyphsets
BT-19278		Ballooning	Balloons for Jt PMIs are sometimes too big in BCT Inspector neutral
BT-16566	PR000867 , PR001100	NX Integration	JT Export via BCT Inspector NX not working
BT-19279		NX Integration	Not able to create project from Inspector batch
BT-19327		NX Integration	Additional Text (Before/After) for "Critical Mark" does not work on PMI
BT-16539	000724	NX Integration	Balloon position for new NX surface symbols is not like it is set in the config
BT-16375	BCT-122762	Neutral	Moving of several balloons/FLLs as a group doesn't work
BT-16637	001045	GUI	Drawing dependend grid settings are not taken into account
BT-16464	BCT-123474	NX Integration	FLL balloon appears outside of drawing at the same position
BT-19294	001245	NX Integration	After importing a project file, the CNs are not displayed
BT-19295	001259	NX Integration	Not able to attache FLL with leader to a surface / plane
BT-19347	001440	NX Integration	FLL Balloons created with Inspector Neutral, are printed on internal project image during Inspector Batch update

BCT Inspector Suite v16.1.15 (released on 2017-11-02)

Enhancements

ID	BCT Call ID	Category	Description
BT-16580	IR000927	Spreadsheet	Hand over CDATA value from CN to related FLLs

Fixed issues

ID	BCT Call ID	Category	Description
BT-19271		JT Viewer	Jt Viewer sometimes displays extra lines in PMI text
BT-19385		Installation	BCTInspectorExcelReport.exe not updated
BT-16533	BCT-123795	CAD Interface NX	Pattern Symbols can not be stamped correctly
BT-19291	001212	Documentation	BCT License Server Support for Windows Server 2012
BT-16521	BCT-123792	NX Integration	Overlapping of table balloons when "mergeRows=1"
BT-16613		NX Integration	Export to NX CMM Inspection part takes also PMI from assembly components into account
BT-16607		GUI	Tool setting configuration not stored on application exit
BT-14449		Neutral	FLL could not be created in JT (PMI) projects
BT-16640		Documentation	Missing %DNN configuration description in "Inspector Configuration Documentation"

BCT Inspector Suite v17.0.5 (released on 2017-08-31)

Enhancements

ID	BCT Call ID	Category	Description
Q-241		JT Viewer	Connect Engineering Notes Tab with CN Table
Q-242		Neutral	Update Engineering Notes dependent on configuration

Fixed issues

ID	BCT Call ID	Category	Description
BT-16588		Installation	Export to TC not working in 2tier environment
BT-16342	BCT-122596	Neutral	JT PMIs are not viewed properly when part is created & exported from NX11

BCT Inspector Suite v16.1.14 (released on 2017-08-31)

Enhancements

ID	BCT Call ID	Category	Description
BT-16494		CAD Interface Neutral	Display Engineering Notes and support automated ballooning of Engineering Notes
BT-16422	BCT-122976	CAD Interface Neutral	Define JT Viewer background color
Q-240		JT Viewer	Manual ballooning of Engineering Notes

Fixed issues

ID	BCT Call ID	Category	Description
BT-16529		CAD Interface NX	"Macro out of sync" error appears when exporting to NX CMM
BT-16577	IR000947	NX Integration	CNs marked as modified because CADReference IDs getting changed by Inspector although the part has not changed at all
BT-16548	PR000811	NX Integration	CAQItem ID and ItemRev not stored in Project-File
BT-16504		Neutral	Doubleclick on PMI in tree does not center the PMI in the 3D graphic view
BT-16567		JT Viewer	Picking of assembly occurrences does not work from the graphics area
BT-16541	IR000746	Neutral	New drawing is not shown after creating new Rev by "Update CN"
BT-15329	BCT-115452	Portal Integration	item revision form attributes are not copied when creating a new revision via BCT Inspector
BT-16507	BCT-122298	Documentation	List of characteristic types is missing in the config guide
BT-16496	BCT-123551	CAD Interface NX	Highlighting of balloon in NX happens several seconds after selecting row in CN Spreadsheet
BT-16481	BCT-123623	NX Integration	AutoAssignToProject extension not called when performing Export from BCT Inspector NX
BT-16524	BCT-123709	NX Integration	"Move To Empty Area" in NX does not work if "IdTextSize" is specified different then 0 (autosize = default)

BCT Inspector Suite v17.0.4 (released on 2017-06-28)

Enhancements

ID	BCT Call ID	Category	Description
Q-310		JT Viewer	Define JT Viewer background color

Fixed issues

ID	BCT Call ID	Category	Description
BT-16451		CAD Interface NX	JT Export via BCT Inspector NX not working

BCT Inspector Suite v16.1.13 (released on 2017-06-28)

Enhancements

ID	BCT Call ID	Category	Description
BT-16411		Admin Mode	BCT Inspector Update will check for legacy balloons (of deleted chx in table)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16456		Installation	Missing files in patch installer
BT-16354		CAD Interface Neutral	Update of JT PMI Models not working
BT-16508		Core	Empty config attribute values are overwritten by default values
BT-16472	BCT-123572	Installation	BCT Inspector Installer missing some Teamcenter dependent DLLs
BT-16251	BCT-122024	Core	Carriage return () is not added to line endings for CSV Export
BT-16366	BCT-122726	Other	BCT Inspector will take off the trailing zeros if dimension is of type limits
BT-16452	BCT-123063	Documentation	Step "Adding BCT Templates in the BMIDE" is missing in documentation
BT-16397	BCT-122759	User Mode	BCT Inspector license checkout behaviour
BT-16441		Documentation	Documentation of possible return values
BT-16401	BCT-122852	CAD Interface NX	Allow reactivating of Sub-CN's which are marked as deleted
BT-16221	BCT-121858	CAD Interface NX	Tolerance fields of FLLs from "manual sub types" are not updated

BCT Inspector Suite v16.1.12 (released on 2017-04-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-16405		CAD Interface NX	Support referenced point features on PMIs
BT-16372		Core	Start QMS Inspection Plan from BCT Inspector
BT-16394		Core	Save current used spreadsheet filter
BT-16303		CAD Interface NX	Export of filtered PMI CNs to NX CMM Inspection Part
BT-16403		CAD Interface NX	Move not referenced CMM feature operations to 'Unused Items' while exporting CNs to NX CMM
BT-15708		CAD Interface NX	Reference Dialog does not show Point Reference Objects

Fixed issues

ID	BCT Call ID	Category	Description
BT-16373		CAD Interface Neutral	Export Project changes the path of the current project file
BT-16438		CAD Interface NX	Wrong 2D CN Balloon position in exported IPXML after show/hide CNs
BT-16298	BCT-122382	CAD Interface Neutral	Drawings are not shown, but toggle button "Show drawings" is checked
BT-16323	BCT-122512	Core	BCT Inspector crash when CNs are deleted, debug level changed & recreated
BT-16376		CAD Interface NX	CMM operations are not shown after creation
BT-16267	BCT-122481	CAD Interface Neutral	OCR does not work when selecting dimension in Raster Data window
BT-15556		CAD Interface NX	Only the last CN subnumber is used as PMI Name
BT-16206	BCT-121807	CAD Interface NX	CN-Balloon Position not correct if dimension is an Inspection dimension
BT-16398	BCT-122836	CAD Interface NX	Avoid reuse of invalid legacy balloons
BT-16340	BCT-122606	CAD Interface NX	Place FLL with leader attached to a point to the correct position
BT-16190	BCT-121658	CAD Interface NX	"IdFontFactor" has no influence on FLLs without Leader
BT-16333	BCT-122551	Documentation	Improve the explanation on BCT_Inspector_nx_batch.exe in Configuration Documentation

BCT Inspector Suite v17.0.2 (released on 2017-02-02)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16274	BCT-122236	CAD Interface Neutral	When opening the raster dialog it will add a "-" in front of the value in the field "lower allowance"
BT-16181	BCT-121658	CAD Interface NX	Partially ballooned tables can not be referenced with "Add Reference Table Cell" anymore

BCT Inspector Suite v16.1.11 (released on 2017-02-02)

Enhancements

ID	BCT Call ID	Category	Description
BT-16277		CAD Interface NX	Partially Export to NX CMM Inspection Part

Fixed issues

ID	BCT Call ID	Category	Description
BT-16132	BCT-121600	CAD Interface Neutral	Open dialog appears when sending a JT with \$ sign in file name
BT-16186	BCT-121698	CAD Interface SE	TIFF file is not generated during the Excel report if there is a comma in the file name
BT-16180	BCT-121647	CAD Interface Neutral	FLLs without Leader have a Line inside the balloon
BT-16178	BCT-121647	CAD Interface NX	Do not show neutral FLLs in NX or SE
BT-16177	BCT-121647	CAD Interface NX	FLLs are displayed with wrong values in K2244 / K2245
BT-16279		Core	pdf is not created by report function
BT-16160		CAD Interface Neutral	ISO Limits in JT PMI models are not taken into account
BT-16176	BCT-121555	CAD Interface NX	incorrect CN numbers on update
BT-16125	BCT-121576	NX Integration	Nominal values of callout measurements are not recognized
BT-16245	BCT-122023	CAD Interface NX	Balloons of Sub CNs, created by Annotation-Splitter, cover the Main CN
BT-16275	BCT-122234	Other	BCT 16.1.10 TC Server Component for Solaris

BCT Inspector Suite v16.1.10 (released on 2016-12-01)

Enhancements

ID	BCT Call ID	Category	Description
BT-16207		CAD Interface NX	PMI Balloon Note Position dependent on leader line
BT-16195		CAD Interface NX	Layer configuration does not work for PMI Balloons

Fixed issues

ID	BCT Call ID	Category	Description
BT-16202		CAD Interface Neutral	Drawing balloons always at lower left corner when the project also contains a Jt
BT-16231		CAD Interface NX	NX CMM Machine Name not found
BT-15762	BCT-118262	Core	Use DefTol Information from IPXML
BT-15985	BCT-120426	CAD Interface NX	Interpret position values with the wrong unit, which creates the PMI balloons far away from the target.
BT-15828	BCT-118767	CAD Interface SE	Tolerances in CN table for Unit Tolerance not shown correctly
BT-16078	BCT-121291	CAD Interface NX	The symbols are overlapping when using Note
BT-16060	BCT-121242	CAD Interface Neutral	Colored Tiff Export in BCT Inspector TC
BT-16029	BCT-120731	CAD Interface NX	CN from "Add Reference Dimensions" is marked as deleted and disappears from the drawing after "update and scan all"
BT-16019	BCT-120677	Core	only first Excel sheet will be renamed in the reports output file
BT-16049	BCT-120891	CAD Interface NX	After opening FLL Dialog, the cursor blinks but dialog does not have the focus
BT-16053	BCT-120892	Core	CNs disappear from FLL Dialog after clicking "Apply"
BT-16196	BCT-121776	CAD Interface NX	BCT Inspector NX will not create a JT file if the .prt has spaces in the name

BCT Inspector Suite v17.0.0 (released on 2016-10-06)**Enhancements**

ID	BCT Call ID	Category	Description
BT-16128		Active Workspace	Revision Compare in Active Workspace

Fixed issues

ID	BCT Call ID	Category	Description
BT-15499		Installation	"Continue" button is disabled in step "Select components"
BT-16036		CAD Interface NX	Rename `bct_inspector_nx_batch_vcXXvYYY.exe` to `bct_inspector_nx_batch.exe`
BT-16015	BCT-120615	Core	formatting of bct_qdas_cfg.xml change when using "Save as Default"

BCT Inspector Suite v16.1.9 (released on 2016-10-06)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15691		Installation	URL in release-installer to BCT Licensing is obsolete
BT-16017		CAD Interface NX	Critical Balloon type (shape, color, ...) not switched on automatic critical selection process
BT-15943		Installation	Patch Installer does not contain Teamcenter libraries
BT-15986	BCT-121337	CAD Interface NX	CAQItem can not be deleted until Teamcenter is restarted
BT-16105	BCT-121519	CAD Interface Neutral	FLL inherits manuel changes value
BT-16071	BCT-121295	Other	BCT Exits crashes the tcserver process in TC11.2 Linux environment
BT-15829	BCT-118709	CAD Interface SE	BCT Inspector Roughness symbol cannot be ballooned automatically
BT-15702		CAD Interface Neutral	Q-DAS Import does not work with minimum required dfd file
BT-15724	BCT-118116	CAD Interface NX	FLL are not assigned to the right 3D view on open Project
BT-15673	BCT-117878	Portal Integration	regsvr32.exe process not getting closed after registering embedded BCT dlls first time
BT-16116		CAD Interface NX	Copy values of customer specific columns while running a Inspector-update
BT-16117		CAD Interface NX	Basic dimension is marked as deleted, after referencing it and running an Inspector-update
BT-16075	BCT-121341	Core	Upper/Lower Specification Limits are not calculated if nominal or tolerance Values are edited with Dialog: Edit cell Manual
BT-16056	BCT-120946	CAD Interface NX	"Create CID" for "True Position" will not show input fields
BT-16047	BCT-120867	CAD Interface NX	NX hangs when trying to move drawing with open select menu in the FLL Dialog

BCT Inspector Suite v16.1.8 (released on 2016-08-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16007	BCT-120601	CAD Interface Neutral	Used NX "DatasetNameRule" and NX "MSNamingRule", "NMNamingRule" not reproducible in Inspector Neutral
BT-15920	BCT-120311	Spreadsheet	View of CN Table jumps to first line after inserting with right-click
BT-15989	BCT-120478	CAD Interface Neutral	"Move CN" for FLL is not working in Inspector Neutral
BT-15944	BCT-120227	CAD Interface Neutral	Update of CN list with FLL will generate FLL with Subnumber
BT-15961	BCT-120295	Core	FLL with leader cannot be created
BT-15950	BCT-120254	CAD Interface NX	Edit of manual cells in Inspector table only works once
BT-15994	BCT-120524	CAD Interface NX	Error Importing JT into Teamcenter
BT-15650	BCT-117640	Other	silent mode for bct_inspector_nx_batch_*.exe wanted
BT-15973		CAD Interface NX	Wrong placement of FLL Balloons with mirrored text
BT-16035		Core	Admin cannot remove CNs that are marked as deleted in table

BCT Inspector Suite v16.1.7 (released on 2016-06-09)

Enhancements

ID	BCT Call ID	Category	Description
BT-15893		CAD Interface NX	Ballooning of dimensioning tables

Fixed issues

ID	BCT Call ID	Category	Description
BT-15840		CAD Interface NX	When deleting the whole CN table, FLL balloons stay on the drawing.
BT-15952		CAD Interface Neutral	New CNs are not marked on drawing during compare process
BT-15848	BCT-118927	CAD Interface NX	After renaming .prt file, existing FLL-balloons cannot be shown after "hide/show"
BT-15978		CAD Interface NX	Hide main window when FLL dialog is open
BT-15819	BCT-118794	CAD Interface NX	Problem with manual subballoning
BT-15927		CAD Interface NX	Updated FCF gets subnumber
BT-15928		CAD Interface NX	Compound Datum are not correctly identified
BT-15825	BCT-118827	CAD Interface NX	Ballooning of tables creates wrong Subnumbers, after an update to 16.1.4

BCT Inspector Suite v16.0.14 (released on 2016-06-09)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11296	BCT-118496	CAD Interface NX	Ignore GAP user symbols on auto create
BT-15924		CAD Interface NX	Not outputting fractional formatted callouts
BT-15923		CAD Interface NX	Incorrectly identifying certain cylindrical radial tolerances as diameters
BT-15754	BCT-118302	CAD Interface NX	NX-"Surface Finish Symbols" are not ballooned, while expected by the current filter

BCT Inspector Suite v16.1.6 (released on 2016-04-07)

Enhancements

ID	BCT Call ID	Category	Description
BT-15815		CAD Interface NX	Get drawing info of the position of a tabular note CN, CID and FLL.
BT-15792		CAD Interface NX	Support Feature Control Frames with referenced Basic Dimension

Fixed issues

ID	BCT Call ID	Category	Description
BT-15831		Installation	Unnecessary bct_aclass_xxx.dll in install package
BT-15870		CAD Interface NX	Disappear of FLL rows while updating the project

BCT Inspector Suite v16.0.13 (released on 2016-04-07)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15883	BCT-119705	CAD Interface NX	Rows of Part List are lost after "Update and Scan All"
BT-15881	BCT-119703	CAD Interface NX	CN from a drawing table shifts each time using "Show CN"
BT-15897	BCT-119805	Documentation	'IdType="1"' has other meaning for BCT Inspector for neutral formats
BT-15711	BCT-117911	CAD Interface NX	Message „failed to load "bct_log4cxx" in log file

BCT Inspector Suite v16.1.5 (released on 2016-02-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-15731		Core	FLL data follow its parent, but could be attached to an other CAD-reference (Neutral: other location)
BT-14222		CAD Interface NX	Reassign of an existing CNs to a new created Drawing Object
BT-15780		Core	Additional placeholders for FLL index number
BT-15763		CAD Interface SE	Export IPXML project file from BCT Inspector SE
BT-15627		CAD Interface NX	Editing characteristic numbers

Fixed issues

ID	BCT Call ID	Category	Description
BT-15781		CAD Interface NX	FLLs cannot be created in NX 10
BT-15752	BCT-118484	CAD Interface Neutral	Update CN doesn't work for neutral formats
BT-15704		CAD Interface NX	Balloon Number starts with wrong Number (PMI Ballooning)
BT-15751		CAD Interface NX	JTs are imported to the wrong "Named Reference"

BCT Inspector Suite v16.0.12 (released on 2016-02-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15660	BCT-117766	Core	idColor in bct_critical_mark.xml not recognized
BT-15732	BCT-118182	Inspector Viewer	BCT Inspector shows error when open a .hpgl with spaces in the filename
BT-15705		CAD Interface Neutral	Apply button are not active during manual ballooning of JT PMI Notes
BT-15703		CAD Interface NX	JT Export failed if export path contains "-" or other special character
BT-15773		CAD Interface NX	Move CN does not work if Inspector runs in German language

BCT Inspector Suite v16.1.4 (released on 2015-11-05)**Enhancements**

ID	BCT Call ID	Category	Description
BT-15583	BCT-117346	CAD Interface NX	Start FLL dialog without a CN selection
BT-15725		Core	Improvements in error handling on import to TC

Fixed issues

ID	BCT Call ID	Category	Description
BT-15719		Core	User defined text fields causes problems inside the raster ballooning window
BT-15688	BCT-117954	Core	Multi Tolerance Function does not work correctly
BT-15682		CAD Interface NX	One existing FLL can't be assigned to characteristics

BCT Inspector Suite v16.0.11 (released on 2015-11-05)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15591	BCT-117611	CAD Interface NX	CheckMate call "UpdateExistingOnly" always returns false
BT-15680	BCT-117850	Other	Error when deleting drafting sheet with BCT reference objects

BCT Inspector Suite v16.1.3 (released on 2015-09-10)

Enhancements

ID	BCT Call ID	Category	Description
BT-15565		CAD Interface NX	Manage feature location labels in additional lines with additional reference information in separate table
BT-15585		CAD Interface NX	Configurable name for references which are referenced by characteristics
BT-15620		Core	New standard MS Excel report: "BCT Excel DPV Engineering Workbook"
BT-15621		Core	Possibility to use reference information in reports
BT-15051		Core	Display current default tolerance table in status bar
BT-14995		CAD Interface NX	Add additional Line in Spreadsheet for FLL entry (instead Number in FLL Column)
BT-15581	BCT-117344	CAD Interface Neutral	Extended FLL handling are not supported in Inspector Neutral
BT-15613		Core	Add new column in table to be able to clearly identify CHXs/CIDs/FLLs and filter those

Fixed issues

ID	BCT Call ID	Category	Description
BT-15642		Core	Exported CSV and DFD files are incomplete
BT-15578		Core	When clicking the 1st time "Create CN", nothing happens.
BT-15580	BCT-117343	CAD Interface NX	Workaround for NX10 to identify added diameter symbols on distance dimensions

BCT Inspector Suite v16.0.10 (released on 2015-09-10)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15589	BCT-117410	CAD Interface Neutral	Assign wrong default tolerance during ballooning process
BT-15639	BCT-117654	Other	BCT Inspector grid estimation failed for NX projects
BT-15573		Documentation	Missing description of available naming rules

BCT Inspector Suite v16.1.2 (released on 2015-07-09)

Enhancements

ID	BCT Call ID	Category	Description
BT-15486		CAD Interface Neutral	Remove external referenced PDF

Fixed issues

ID	BCT Call ID	Category	Description
BT-15531		CAD Interface Neutral	Background image of external document gets selected, when trying to select text.
BT-15546		CAD Interface Neutral	CNs in QDAS XML contain meta data tags which refer to external doc

BCT Inspector Suite v16.0.9 (released on 2015-07-09)

Enhancements

ID	BCT Call ID	Category	Description
BT-15548		CAD Interface Neutral	Create new Subnumbers during Update
BT-15527		User Mode	FLL Improvements (Naming rule; continuous creation; CAD: Selection of CN- and FLL-balloons from Model/Drawing)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15518	BCT-116965	Other	ISO Tolerance will not take effect when added to Right Text.
BT-15482		Documentation	Specific Tolerances description missing in Configuration Documentation
BT-15512		CAD Interface Neutral	"Close" menu entry is disabled when project contains no drawing.
BT-15547		CAD Interface Neutral	FLLs always have leader lines, even when creating them without.
BT-15553		CAD Interface NX	JT export fails
BT-15551	BCT-117169	Other	Support to compare two TIFF files with the same name in a different path, when opening TIFFs via "BCT Send To"
BT-15501	BCT-116902	Documentation	significance of "minor change" etc. not documented
BT-15557		CAD Interface NX	"Import To Teamcenter" always enabled
BT-15481	BCT-116750 012225	CAD Interface NX	PostControl and PreControl lead to huge stamps for PMI in modeling

BCT Inspector Suite v16.1.1 (released on 2015-05-07)

Enhancements

ID	BCT Call ID	Category	Description
BT-15456		CAD Interface Neutral	Highlight occurrences of CNs in tabs of drawings, external documents and referenced drawings by FLLs

BCT Inspector Suite v16.0.8 (released on 2015-05-07)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15477	BCT-116725	CAD Interface NX	existing JT File is not overwritten by second export
BT-15346		CAD Interface Neutral	Size Align Button hide upper left area, selection of drawing frame corner not possible
BT-15474	BCT-116189	Documentation	no Excel Report created when setting up a mix of languages in "language and region"

BCT Inspector Suite v16.1.0 (released on 2015-03-26)

Enhancements

ID	BCT Call ID	Category	Description
BT-15282		CAD Interface Neutral	Real JT Model comparison
BT-15290		CAD Interface Neutral	Add and show external PDF as reference
Q-271			Handling of non critical features in NX CMM Inspection Part
Q-244			Export of PMI characteristics to NX CMM Inspection Part

Fixed issues

ID	BCT Call ID	Category	Description
BT-14981		Inspector Viewer	64 bit version does not show JTs
BT-14953	BCT-113641	Core	NX Graphics Gui freezes during STEP Export if part is modified

BCT Inspector Suite v16.0.7 (released on 2015-03-26)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15405		CAD Interface NX	FLL Numbers are created new for already existing FLL objects

BCT Inspector Suite v16.0.6 (released on 2015-02-05)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15287	BCT-114869	CAD Interface NX	Ballooning of NX Tables does not work correctly for Sub-Balloons
BT-15295		CAD Interface NX	Setting "IdAngle" is not taken into account when creating PMI Balloon Notes
BT-15296		CAD Interface NX	"Critical Error" occurs if PMI Notes contain expressions of types other than "number"

BCT Inspector Suite v16.0.5 (released on 2014-12-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-15215		Portal Integration	JT update via Send To in Teamcenter
BT-15201	BCT-115120	Core	Simplify administration of users/admin access in "bct_inspector_cfg.xml"

Fixed issues

ID	BCT Call ID	Category	Description
BT-15163	BCT-114862	CAD Interface NX	multipage TIFF report export does not work
BT-14881	BCT-113368	CAD Interface NX	Negative tolerances inside notes are not correctly detected
BT-14991	BCT-113868	CAD Interface NX	Allow to insert (automatic assign to tolerance) ISO Limits for CID Balloons
BT-14993	BCT-113866	CAD Interface NX	Position of CID Balloon is not always recalculated
BT-15162	BCT-115237	CAD Interface NX	Parameter list of report export does not contain quotes
BT-15106	BCT-114421	CAD Interface NX	Can not use the configuration from earlier version for stamping NX tables after update to v16.0
BT-15158	BCT-114869	CAD Interface NX	Ballooning of NX Tables does not work correctly
BT-15180	BCT-115201	Inspector Viewer	BCT Inspector in Teamcenter Portal does not release client license after closing the application
BT-15245		CAD Interface NX	Getting NX (dimension) attributes of other formats

BCT Inspector Suite v16.0.4 (released on 2014-10-09)

Enhancements

ID	BCT Call ID	Category	Description
BT-15062		Core	Support different encodings for project files and UDO
BT-15081	BCT-114306	CAD Interface Neutral	Multi Tolerance selection if more than one tolerance table is specified.

Fixed issues

ID	BCT Call ID	Category	Description
BT-15073		CAD Interface Neutral	zoom to PMI when clicking once on the spreadsheet
BT-15013		CAD Interface SE	In case of "Unit Tolerances" default tolerances will be assigned
BT-15108		Other	BCT Excel PMI Compare Report template is missing
BT-15094		CAD Interface Neutral	Drawing view not centered anymore on selection of a CN in the Table
BT-15079	BCT-114305	CAD Interface Neutral	Name of loaded ipxml file (from TC) must be reused for saving back the ipxml file (to TC)
BT-15085	BCT-114308	CAD Interface SE	Multiple FCF Tolerances are not Ballooned completely
BT-15086	BCT-114307	CAD Interface SE	FCF with MMC or Diameter Symbols are not detected correctly
BT-15082	BCT-114312	CAD Interface SE	Moved Balloons are replaced on old origin after update or hide/show
BT-15083	BCT-114310	CAD Interface SE	SE Inspection Dimension are not identified
BT-15084	BCT-114309	CAD Interface SE	Diameters with "Passung mit Toleranz" are not detected as ISO Limit
BT-15149	BCT-114781	CAD Interface NX	Inspector Batch lib: "select existing name for new sketch" dialog

BCT Inspector Suite v15.1.9 (released on 2014-10-09)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15098	BCT-114406	CAD Interface NX	FLLs are broken if sheet name is changed
BT-15080	BCT-114304	RevCompare	Inspector Batch does not create a new Project file if no old revision is found in Teamcenter
BT-14436	BCT-114407	CAD Interface NX	If FLL is moved via NX function the position is not recalculated on Update

BCT Inspector Suite v16.0.3 (released on 2014-08-07)

Enhancements

ID	BCT Call ID	Category	Description
BT-15014		CAD Interface NX	Switch of PMI Views and Drawings
BT-14963		CAD Interface NX	Display Warning Message for Teamcenter Export in case of workflow error

Fixed issues

ID	BCT Call ID	Category	Description
BT-15067		CAD Interface Neutral	If FLL is moved the position is not updated.
BT-14872		Documentation	ShowHideLayer option in bct_inspector_cfg.xml is not documented
BT-14978	BCT-113741	Inspector Viewer	unable to open BCT Inspector in Teamcenter Portal

BCT Inspector Suite v15.1.8 (released on 2014-08-07)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15028		Core	Only one column can be used for critical ballooning
BT-15063	BCT-114252	Portal Integration	Teamcenter crashes when sending 2 Datasets with same name (named references) to Teamcenter
BT-14964	BCT-113680	CAD Interface NX	FLLs are hidden when switching between NX windows

BCT Inspector Suite v16.0.2 (released on 2014-06-12)

Enhancements

ID	BCT Call ID	Category	Description
BT-14927		CAD Interface NX	Balloon Component PMI Weld Symbols
BT-14930		CAD Interface NX	Multiple Default Tolerances per part
BT-14903		CAD Interface NX	Possibility to ignore PMI Balloon Notes.

Fixed issues

ID	BCT Call ID	Category	Description
BT-14914		CAD Interface SE	Coordinate dimensions are identified as Feature Control Frames
BT-14947		Installation	BCT Inspector is not updated
BT-14913		CAD Interface SE	Feature values embedded in Callouts are ignored
BT-14974		CAD Interface SE	Sometimes BCT Inspector SE is out of sync if workpart is changed
BT-14924	BCT-113543	Portal Integration	TC Portal crashes if BCT Inspector is closed while ballooning mode is enabled
BT-14968		CAD Interface Neutral	JT-PMI ballooning generate huge balloons sometimes
BT-14905		CAD Interface NX	Ballooning the PMI weld symbols
BT-14946	BCT-113624	Inspector Viewer	BCT Inspector checks for license increment "BCT_INSPECTOR_NEUTR", only
BT-14962		CAD Interface NX	Component Weld Symbol: position of balloons are not correct
BT-14926		CAD Interface NX	Trigger Teamcenter Workflow after Export
BT-15124	BCT-114473	CAD Interface Neutral	issue with spaces in filepath for Report

BCT Inspector Suite v15.1.7 (released on 2014-06-12)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14849	BCT-112581	CAD Interface Neutral	if multiPage is set to true, report output will take user defined preferences instead of config
BT-14971	BCT-113703	CAD Interface NX	adding an eleventh FLL to one column of a CN table leads to error / red column

BCT Inspector Suite v15.1.6 (released on 2014-04-03)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14852		CAD Interface NX	If (default tolerance) part attribute is empty last used Default Tolerance Table is used
BT-14850		CAD Interface NX	Values of PMI Custom Symbols are not recognized
BT-14851		CAD Interface NX	Types of PMI Surface Symbols are not recognized

BCT Inspector Suite v16.0.0 (released on 2014-02-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-13976	BCT-109191	Inspector Web	Integration of Inspector Web in Teamcenter Web
BT-12984		CAD Interface NX	Multilevel Drop Down Menus
BT-14072	BCT-107880	Inspector Viewer	Get quicker clue about what tabs in Inspector contain differences.
BT-13589		CAD Interface NX	Allow user to specify an Export Folder in his Home Folder to store exported CAQ Items
BT-13372		CAD Interface NX	Ballooning of dimensions with deleted/removed text is not possible.
BT-12535	20100002	CAD Interface NX	CN Balloon and NX Inspection Balloon are overlapping.

Fixed issues

ID	BCT Call ID	Category	Description
BT-14404		Inspector Viewer	Named User License support in BCT Inspector Viewer
BT-14698	BCT-112362	Installation	Installation guide still points on bct_aclass_exits

BCT Inspector Suite v15.1.5 (released on 2014-01-30)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14734	BCT-112543	CAD Interface Neutral	When deplacing one FLL, all of the FLLs plus the CN are being displaced.
BT-14672	BCT-112176	CAD Interface Neutral	Marker does not jump when opening two .xml files at once.
BT-14673	BCT-112176	CAD Interface Neutral	Marker does not (re-) appear when opening two xml files at once.
BT-14641		CAD Interface NX	OCR Plugin cannot be loaded in BCT Inspector NX
BT-14637	BCT-112048	CAD Interface Neutral	Drawing View always jump to the first CN on the balloon process.
BT-14667		CAD Interface Neutral	No Error-MsgBox shown if only one of the selected Export options is failed.
BT-14666		CAD Interface Neutral	Export Naming Rules of Tiff (PDF) are not compatible between NX and Neutral.
BT-14665		CAD Interface Neutral	Export of Tiff (PDF) in Neutral Inspector does not contain Balloons
BT-14664		CAD Interface Neutral	4Tier Login does not work if user has no password

BCT Inspector Suite v15.1.4 (released on 2013-11-21)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14588	BCT-111868	CAD Interface NX	Automatic load of Inspector Project Files during open Partfile does not work if ItemID contains / or \ characters
BT-14548	BCT-111582	CAD Interface Neutral	JT-File is not exported to TC-Dataset if jt-filename already exists in TEMP Folder
BT-14547	BCT-111572	CAD Interface Neutral	Closing BCT Inspector in portal leads to portal crash

BCT Inspector Suite v15.1.3 (released on 2013-09-19)

Enhancements

ID	BCT Call ID	Category	Description
BT-14498	BCT-110762	Other	Set Errorlevel in BCTInspectorExcelReport.exe on exit
BT-14529		CAD Interface Neutral	Not possible to export ballooned JT with Project in BCT Inspector Neutral

Fixed issues

ID	BCT Call ID	Category	Description
BT-14446	BCT-110765	Other	Error message "Failed to get OCR Engine" in logfile
BT-14461	BCT-110911	CAD Interface NX	Ignored GAP-Symbols are ballooned after the first update.
BT-14531		CAD Interface Neutral	Item Revision credentials missing sometimes after Send To Inspector
BT-14530		CAD Interface Neutral	Revision ID won't be used on JT Update
BT-14533		CAD Interface Neutral	Reference and Basic PMI dimensions are not correctly ballooned.
BT-14460	BCT-110899	CAD Interface NX	Object attributes of PMIs are not detected.
BT-14470		CAD Interface NX	Ballooned (PMI-)Note Text doesn't contain "Newline" information
BT-14454		CAD Interface NX	PMIs placed in more than one views and converted to a new display instance are moved on ballooning.
BT-14532		CAD Interface Neutral	Diameter and Radius PMIs are always ballooned as "Dimensions".
BT-14534		CAD Interface Neutral	Selection in table will be removed on right mouse button click (if JT Viewer is active).

BCT Inspector Suite v15.0.7 (released on 2013-09-19)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14489	BCT-111086	RevCompare	The red pixels are not as visible as the green. This appears to be a change from v10, which I have included as a comparison.
BT-14535	BCT-111417	Portal Integration	Second Named Reference in TC Dataset prevents loading the desired image into the BCT Inspector Portal
BT-14516	BCT-111320	Inspector Viewer	Projects (*.xml) with external Tiffs can not open the Tiffs if the path contains spaces.
BT-14494	BCT-111130	Core	log4cxx_vc8.dll missing VCRedist VS 2005 SP1 14.00.50727.762 2.0.50727.5672? 8.0.50727.6195

BCT Inspector Suite v15.1.2 (released on 2013-07-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-14386		CAD Interface Neutral	Editing the rotation angle of the selected ballooning are is uncomfortable.

Fixed issues

ID	BCT Call ID	Category	Description
BT-14424		Installation	Inspector patch 15.1.1.0 does not copy com.bct.Java.externals_v15.1.1.0.jar
BT-14358	BCT-109944	CAD Interface NX	New object filter doesn't cover all the configuration possibilities from the old one.
BT-14408		CAD Interface NX	FLL input filter does not work correctly.
BT-14362	BCT-109840	Other	Excel Report Creator does not rename Excel Tabs and insert count numbers to Tab Names

BCT Inspector Suite v15.0.6 (released on 2013-07-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14365		CAD Interface Neutral	Auto scroll of spreadsheet is broken after leaving compare mode.
BT-14390		CAD Interface NX	Reference dimensions without leading zeros are not correctly exported.
BT-14288	BCT-109363	Inspector Viewer	Creates black tiff files and gives error message on export
BT-14409	BCT-110370	Installation	patch silent install fails

BCT Inspector Suite v15.1.1 (released on 2013-04-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14339	BCT-109901	Installation	Nach der Installation von v15.1 werden in TC 8.3 keine BCT Icons mehr angezeigt
BT-14357		Installation	Direct-Model-Data (jt) TcDatasetReference are not configured in BMIDE Template for BctInspectorProject / BctInspector

BCT Inspector Suite v15.0.5 (released on 2013-04-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14364		CAD Interface NX	Highlight of Ballooned NX Object only works once
BT-14332	BCT-109614	CAD Interface NX	When saving the ipxml with CID balloons, those are being moved.
BT-14331	BCT-109076	Portal Integration	The proxied handler for 'com.bct.tc_portal.copy_attributes.handlers.BctCopyAttributesHandler' could not be loaded
BT-14322	BCT-109599	CAD Interface NX	BCT Inspector Batch is not able to export Data if Item Id/Revision/Name and DatasetName containing special characters like "/" "
BT-14319	BCT-109595	CAD Interface NX	Item Id/Revision/Name and DatasetName containing special characters like "/" "\" are not handled correctly on Export Dataset
BT-14360	BCT-109837	Inspector Viewer	Compare color configuration doesn't work.

BCT Inspector Suite v15.1.0 (released on 2013-03-21)

Enhancements

ID	BCT Call ID	Category	Description
BT-13412		RevCompare	Provide TC Dispatcher Module to generate Inspector Project Files
BT-11172		CAD Interface NX	Allow multiple balloons to be selected for repositioning.
BT-13154		CAD Interface NX	Disable the Teamcenter Export of Project, Tif, Step, Xml, ... if selected BctInspector(Project) Dataset is read only
BT-12151	20090732	Core	Ignore weld symbol on ballooning.
BT-13602	BCT-105249	CAD Interface Neutral	OCR Improvements
BT-11213		CAD Interface NX	Enhanced Filter of selected Objects.
BT-13852		CAD Interface NX	Auto Assign Button for "CAQ" ItemId / ItemRev to store BCT Inspector Data in Teamcenter
BT-14025	BCT-108323	Installation	Support silent uninstall.
BT-13757	BCT-106224	CAD Interface Neutral	The drawing sheet order is messed up after loading a project.

Fixed issues

ID	BCT Call ID	Category	Description
BT-12713		Portal Integration	Missing relation for ItemRevision in BCT Inspector BMIDE Template
BT-14114	BCT-108074	Documentation	Helpfile not complete: 3.1.3 Balloon move [NX, SE, NEUTRAL]
BT-14371	BCT-110060	Other	Teamcenter rich client session hanging issues when connecting to a number of environments

BCT Inspector Suite v14.1.7 (released on 2013-01-17)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14232		Inspector Viewer	PDF Export (Report) does not work on huge DRW size with scale 1:1

BCT Inspector Suite v15.0.2 (released on 2012-10-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14142		Inspector Viewer	Marker Position is always placed on the Bottom Left position (Wrong Calculation)
BT-14112		Installation	Missing 'redist-msvc8' files after installation
BT-14078	BCT-107932	CAD Interface NX	Error during Export CAQ Item Revision
BT-14095	BCT-108008	Inspector Viewer	Inspector Viewer crashes only comparing one sheet pair via commandline
BT-14091	BCT-107982	Other	IPXML file are not generated correctly via Inspector Batch

BCT Inspector Suite v14.1.6 (released on 2012-10-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14172		CAD Interface Neutral	FLL without leader shows leader (to lower left corner) if a BCT Inspector Project coming from NX is loaded.
BT-14106	BCT-108025	Spreadsheet	Changing values inside the spreadsheet doesn't work with the popup menu if more than one cell is selected.
BT-14115	BCT-108075	CAD Interface NX	click on "Balloon -> Move to empty area" causes Critical Error
BT-14134	BCT-108176	CAD Interface Neutral	Table scroll to wrong position.

BCT Inspector Suite v15.0.1 (released on 2012-08-30)

Enhancements

ID	BCT Call ID	Category	Description
BT-14068	BCT-107798	Portal Integration	Add Sheet Dataset definitions to standard bct portal jar

Fixed issues

ID	BCT Call ID	Category	Description
BT-14075		Inspector Viewer	BCT Inspector Viewer starts not with NX environment
BT-14047	BCT-107622	Inspector Viewer	BCT Inspector Viewer/Neutral does not take arguments for the command line.
BT-14079	BCT-107933	CAD Interface NX	Item Name of exported Item is not stored in Teamcenter

BCT Inspector Suite v14.1.5 (released on 2012-08-30)

Enhancements

ID	BCT Call ID	Category	Description
BT-14044	BCT-107648	CAD Interface NX	ISO-Tolerances doesn't get the default ISO-Tolerance values, if appended text fractions are used.
BT-13974	BCT-107367	CAD Interface NX	FLL Symbol Type and Size are not correct if default Balloon is created as text instead NX ID Symbol.

Fixed issues

ID	BCT Call ID	Category	Description
BT-13584		Other	The raster widget size could increase automatically if the spreadsheet is hidden.
BT-13975		Inspector Viewer	multipage compare report does not work
BT-13022		CAD Interface NX	Enable BCT Inspector Batch to export data direct to Teamcenter
BT-14076		Inspector Raster NX	OCR result depends on drawing zoom level
BT-13910	BCT-107049	Other	bct_plot: Cannot open all pages from multi page CGM created out of NX.
BT-13908		CAD Interface NX	Export failed if Teamcenter Dataset Name is more than 32 Characters
BT-14063	BCT-107446	Inspector Viewer	Memory Leaks on close project
BT-14048		Other	CreateExcelReport.exe only create ImageLink instead ImageCopy with Excel 2010
BT-14016	BCT-107485	Inspector Viewer	Header Attribute DEFTOL is not shown / accessible in BCT Inspector Viewer.
BT-14049	BCT-107678	CAD Interface NX	Header attributes of loaded projects aren't imported, if these attributes are not part of the local configuration.
BT-14031	BCT-107451	CAD Interface NX	Updating CNs on large drawings needs a lot of time.
BT-14061	BCT-107798	Portal Integration	comparison of 2 PDF datasets only compares one to itself
BT-13773		CAD Interface Neutral	Balloon style DIN6770 configuration does not work
BT-13854	BCT-106834	CAD Interface NX	Surface symbol cannot delete after creating a stamp

BCT Inspector Suite v15.0.0 (released on 2012-07-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-13544		Inspector Viewer	Inspector Viewer open Sheet with one filter.
BT-12705		Inspector Viewer	Closing of drawing doesn't result in closing the project or actual the drawing
BT-13447		Inspector Viewer	Open more than one Project File in Open Dialog
BT-11882		Inspector Viewer	The marker in the viewer should also show the sub-ballooned item and not just the NX item.
BT-11180		Inspector Viewer	Incorporate JT (comparison) tool in viewer for 3D model

BT-11948		Other	Interact Inspector with Checkmate
BT-13116	BCT-101971	Spreadsheet	Automatic Row Height Resize at commit
BT-13162		CAD Interface Neutral	Progress Bar or better feedback on Excel Report creation
BT-13241	BCT-103065	CAD Interface NX	Specific tolerances doesn't work for diameter-/cylindrical dimensions (bct_specific_tolerances.xml).
BT-13650		CAD Interface Neutral	Display only Balloons which are visible in filtered CN Table
BT-13996	BCT-107367	CAD Interface NX	FLL Symbol Type and Size are not correct if default Balloon is created as text instead NX ID Symbol.

Fixed issues

ID	BCT Call ID	Category	Description
BT-14009		Other	The raster widget size could increase automatically if the spreadsheet is hidden.
BT-13675		Other	One location for all Configfiles (*.cfg) %BCT_DEF_DIR%\config
BT-13581		Core	Loading an external project over an existing project can create legacy balloons.
BT-13997		CAD Interface NX	Enable BCT Inspector Batch to export data direct to Teamcenter
BT-13985		Inspector Viewer	multipage compare report does not work
BT-14018	BCT-107049	Other	bct_plot: Cannot open all pages from multi page CGM created out of NX.
BT-14017		CAD Interface NX	Export failed if Teamcenter Dataset Name is more than 32 Characters
BT-14005		CAD Interface NX	FLL Configuration size and text_size doesn't work.
BT-14019		Inspector Viewer	Header Attribute DEFTOL is not shown / accessible in BCT Inspector Viewer.
BT-14033	BCT-107451	CAD Interface NX	Updating CNs on large drawings needs a lot of time.
BT-13774		Documentation	Balloon Type according to DIN6700 are not documented correctly in "BCT_Inspector_Configuration_xx.pdf"
BT-14024		CAD Interface Neutral	Balloon style DIN6770 configuration does not work
BT-13995	BCT-106834	CAD Interface NX	Surface symbol cannot delete after creating a stamp

BCT Inspector Suite v14.1.4 (released on 2012-06-01)

Enhancements

ID	BCT Call ID	Category	Description
BT-13501	BCT-104962	Portal Integration	in the Application "Organisation" in Teamcenter the BCT Send To is being offered

Fixed issues

ID	BCT Call ID	Category	Description
BT-13834		CAD Interface NX	Inspector is locked if Open Dialog is closed without loading a Project (Cancel Button pressed)
BT-13845	BCT-106769	Portal Integration	Wrong Bundle-Version in MANIFEST.MF of com.bct.java.externals_14.1.x.x.jar
BT-13887		CAD Interface Neutral	Teamcenter 4Tier connection don't work
BT-13902		CAD Interface NX	NX display could be locked (blocked) if configuration of "ShowHideLayers" is missing
BT-13853		CAD Interface Neutral	Appanded Text at Critical Balloons doesn't work.
BT-13835		CAD Interface Neutral	Triangle Balloons too small for 2 or more digit CN Number
BT-13850		CAD Interface NX	Raster Balloons not correctly placed on metric drawings in inch parts
BT-13832		CAD Interface Neutral	Leader Line of CID Balloon are placed to the lower left Corner of the Drawing.
BT-13818	BCT-106556	CAD Interface NX	The PMI type "Ordinate Dimensions" is unknown
BT-13901		CAD Interface NX	Wrong grid calculation.

BCT Inspector Suite v14.1.3 (released on 2012-03-22)

Enhancements

ID	BCT Call ID	Category	Description
BT-13252	BCT-103155	CAD Interface NX	Characteristics/Balloons inside expanded views can't be selected directly.
BT-13595		CAD Interface NX	Allow selection of NX-Pattern for ballooning.

Fixed issues

ID	BCT Call ID	Category	Description
BT-13782	BCT-106333	Inspector Viewer	Compare Report of projects with more than one image pages, only export the actual visible page
BT-13781		Inspector Viewer	Export Report after filter of Spreadsheet on/off is not complete
BT-13727		CAD Interface NX	Some Drawings could not ballooned in agile environment
BT-13724	BCT-106043	CAD Interface NX	Move feature in advanced drawing mode.
BT-13810		CAD Interface NX	No FLL-Symbols if the default CNs are text CNs (no ID-Symbols).

BCT Inspector Suite v14.0.6 (released on 2012-02-22)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13575		Portal Integration	TC Portal crashes - Reason: GDI Objects > 10000

BCT Inspector Suite v14.1.2 (released on 2012-01-27)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13691		Inspector Viewer	Setting of Multipage Report export is not pre settable in configuration file
BT-13704		CAD Interface NX	Field K2502 is not filled out.
BT-13707	BCT-105908	CAD Interface NX	Inspector Error on Startup if NX runs in Agile Environment
BT-13690		Inspector Viewer	Balloons are not visible on exported (report) Multi Page Tiff or PDF files
BT-13692		Inspector Viewer	Settings of "Report Image Type", (All, Current) are not language independent
BT-13708		CAD Interface NX	Inspector cannot create/export a Tiff File, if Environment Variable TEMP is set to c:\temp and c:\ is read only
BT-13555	BCT-105004	Inspector Viewer	Clearness visibility issue in compare mode

BCT Inspector Suite v14.1.1 (released on 2011-11-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-13598		CAD Interface NX	Reload Configuration on InspectorBatch.
BT-13596		CAD Interface NX	Filter to balloon only "Inspection Type" dimensions.

Fixed issues

ID	BCT Call ID	Category	Description
BT-13448		Inspector Viewer	Global Align (View Dependent Align) doesn't work correctly if Foreground/Background is inverted

BCT Inspector Suite v14.1.0 (released on 2011-11-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-12419		Other	Problems with Excel Macros in Office, Version 2007
BT-12538	20092539	Installation	Check if base version is the matching version for the patch
BT-12966		CAD Interface Neutral	Possibility to export Multi Page Tiff or Pdf Files
BT-13161		CAD Interface Neutral	Delete unused Drawing Sheets after load multiple Sheets
BT-13160		CAD Interface Neutral	Effective way to load specific drawing sheets from Multipage PDF
BT-13391		Portal Integration	Remove not used BCT Application from TC Window "Primary/Secondary application buttons"
BT-13425		Installation	BMIDE Projects for BCT_INSPECTOR_CAQ missing
BT-13460		CAD Interface Neutral	User defined Highlight Color for Balloons

Fixed issues

ID	BCT Call ID	Category	Description
BT-13368		CAD Interface NX	Balloons are not moved after "Move View" to another drawing sheet.
BT-13546		CAD Interface NX	Inspector Spreadsheet - "Column selection" Window is wrong sorted
BT-13370		Documentation	No description of possible IdColor values in configuration documentation
BT-13283		Documentation	Fix typo in BCT_Inspector_Configuration_en.pdf
BT-13369		Installation	Installer not able to support 4Tier installation
BT-13371		CAD Interface NX	Wrong sort of Balloons if Dimension are assigned to Centerlines
BT-13482		CAD Interface NX	Limit Calculation of Inch Parts not displayed correctly.
BT-13424		CAD Interface NX	New configuration settings for Teamcenter Dataset Export, not part of the installation
BT-13465		Core	Disable changes in Export Window if user is not in Admin group.

BCT Inspector Suite v14.0.4 (released on 2011-09-29)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-13545		CAD Interface NX	BCT Inspector fails if started before a part is loaded and the default tolerance attribute is set to write at the configuration.
BT-13535		CAD Interface SE	Upper Tol. (K2113) are not filled out if GD&T does not contains Blanks
BT-13536		CAD Interface Neutral	Rotation of Images don't work
BT-13523	BCT-104784	CAD Interface NX	excel report contains duplicate dimension
BT-13511	BCT-104691	Inspector Viewer	Compare not correctly shown after second "Send To Compare"
BT-13541		Inspector Viewer	Buttons on zoom toolbar not working if JT Viewer is active
BT-13493	BCT-104677	CAD Interface NX	Drawing position and grid information of "Manual Sub Items" are not correctly updated
BT-13481		Inspector Viewer	Viewer Crash if Image with FLLs is exported

BCT Inspector Suite v14.0.3 (released on 2011-07-28)

Enhancements

ID	BCT Call ID	Category	Description
BT-13251		CAD Interface NX	Master Model / Non Master Model Naming Convention

Fixed issues

ID	BCT Call ID	Category	Description
BT-13384		Portal Integration	4-Tier Upload does not work!
BT-13461		CAD Interface Neutral	Tolerance calculation only take the first entered digit
BT-13423		CAD Interface Neutral	During Balloon process, OK Button not enabled after all required fields are filled out
BT-13389		CAD Interface NX	NX / TC crashes, on Export Inspector Datasets with Item/ItemRevision with ItemType CAQItem
BT-13388		CAD Interface NX	NX Part Attributes not read correctly as "Naming Rules" of Item / ItemRev /Dataset Names
BT-13462		CAD Interface NX	Wrong grid calculation, if a dimension object is aligned with another dimension object.
BT-13415	BCT-104323	Inspector Viewer	Not possible to scroll attribute list on property dialog in viewer application
BT-13434	BCT-104352	CAD Interface Neutral	Balloon positions are different if a project will be exchanged between BCT Inspector NX and BCT Inspector Viewer.
BT-13467		CAD Interface Neutral	Export not possible (Return Error) on File System

BCT Inspector Suite v14.0.2 (released on 2011-05-26)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13310		CAD Interface NX	Named reference filename includes path after export in NX 4tier env.
BT-13314	BCT-103768	CAD Interface NX	Moving the cn's doesn't place them correctly
BT-13336		CAD Interface Neutral	Header Attributes are overwritten until "Save" or "Save As" of a loaded Project File (v14.0.1)
BT-13337		CAD Interface Neutral	Parametercall -compare not possible on command line

BCT Inspector Suite v13.1.4 (released on 2011-03-31)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13257		CAD Interface Neutral	Ballooning a dimension of three decimal places does not display 3 decimals in the CN data.
BT-13256	BCT-103193	CAD Interface NX	MPOS loses orientation on load
BT-13255	BCT-103192	CAD Interface NX	positioning of FFL with leader
BT-13254	BCT-103191	CAD Interface NX	BCT Inspector does not show MPOS in CN Table (CR9520)

BCT Inspector Suite v14.0.0 (released on 2011-02-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-11890		Core	Default tolerances based on what is displayed in tol. table on part
BT-11800	20081378	Inspector Viewer	Alignment of two drawings
BT-11950		Other	Default table driven by Attribute
BT-12475	20091732	CAD Interface NX	No Champfer Dimension Default Tolerance Table according DIN/ISO 2768
BT-12690		CAD Interface NX	Part Attributes as naming rules for Export (FileSystem)
BT-12112	20090099	CAD Interface NX	At CAD-Drawings the CHX position is stored and at TIFF-Drawings the balloon position is stored
BT-12664		CAD Interface Neutral	Teamcenter interface is missing
BT-12836		Spreadsheet	Allow user to reset the "Drawing change status" K2504/B2504 manually
BT-13023		CAD Interface NX	Possibility to read BCT Inspector Datasets from Teamcenter
BT-11434		Core	Maintain Unique CN on multiple part files
BT-12692		Inspector Viewer	User configuration of Colors and co. in View and Compare modus
BT-11991		Core	Advanced spreadsheet filter - delete and ignore
BT-12996	BCT-101971	CAD Interface NX	Additional Export Button in Toolbar
BT-13021	BCT-102156	CAD Interface NX	Automatic Update on Export Tables / Projects
BT-12987	BCT-102157	CAD Interface NX	Disable the Export of Project, Tif, Step, Xml, ... if part file is not saved
BT-12974		Inspector Viewer	Additional Shortcuts for Rotate Left/Right
BT-11218		CAD Interface NX	Selection of UG Objects which are never ballooned
BT-12899	BCT-101417	CAD Interface NX	User editable CN-Offset in GUI

Fixed issues

ID	BCT Call ID	Category	Description
BT-12924		Inspector Viewer	Comparing PDF with more than 150 pages fails
BT-13153	BCT-102661	Other	Missing description of "How to configure the system to preset user settings"

BT-13236	BCT-103039	CAD Interface Neutral	Wrong balloon sizes are used on Property Dialog if "Use default configuration settings" is enabled
BT-13230	BCT-102981	Other	PDF converter does not support special characters in file name

BCT Inspector Suite v13.1.3 (released on 2011-01-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-13156		CAD Interface Neutral	Header Attribute handling for reuse of Project Files in Inspector NX and Inspector Neutral
BT-13150	BCT-102549	Inspector Viewer	New setting to compare columns numerical or alphanumerical
BT-13155		CAD Interface Neutral	Display Q-DAS Description instead of Attribute Name in Properties Attributes Window

Fixed issues

ID	BCT Call ID	Category	Description
BT-13203		CAD Interface Neutral	Hexagon balloons are not fully displayed in the PDF/TIFF of the report.
BT-13163		CAD Interface Neutral	Leader Lines are not included on PDF or Tiff export
BT-13157		CAD Interface Neutral	Old Table Data not closed on New Project
BT-13148		Other	BCTInspectorExcelReport.exe only supports Excel 2007
BT-13142		CAD Interface NX	Position of Raster Balloons are incorrect if Raster is moved in front of ballooning
BT-13111	BCT-102452	CAD Interface Neutral	Update of Attributs for export to report
BT-13165		Installation	Sometimes the patch does not install correctly (Dlls don't copy)
BT-13117	BCT-101971	Spreadsheet	Wrong line height relatively to the font size.

BCT Inspector Suite v13.1.2 (released on 2010-11-25)

Enhancements

ID	BCT Call ID	Category	Description
BT-13073		CAD Interface NX	Spreadsheet Copy/Paste insert CR/LF at the end of the inserted Text
BT-12965		CAD Interface Neutral	No way to control the labeling of the loaded PDF File (named xxx_ug_(sheetNum)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12985	BCT-101960	CAD Interface Neutral	Inspector crashes when closing with undocked Window
BT-12679	BCT-100264	CAD Interface NX	Drawing field of CID MPOS is not correct
BT-12982	BCT-101892	Inspector Viewer	Multipage PDF report from compare does only contain the first sheet
BT-13107		Inspector Viewer	Opening a XML Table in combination with a multi page TIF (or PDF) asks for all pages and opens the pages twice
BT-12964		CAD Interface Neutral	Drawing Grid calculation of INCH Pdf files does not work correctly
BT-13041	BCT-102108	CAD Interface NX	Inspector Attribut "BCT-INSPECTOR" not created if CN is created manually
BT-13048		Core	Inspector Batch rise up a window and crash if a partfile contains a UDO on "-delete" Option
BT-13106		CAD Interface NX	FLL without leders are moved to the first drw sheet (on update)
BT-13108		CAD Interface NX	Manual balloon number smaller then the configured start number is not possible
BT-13105		CAD Interface NX	No Manual Sub CNs possible on Tabular Notes
BT-13104		CAD Interface NX	Balloon on Tabular Note are deleted on Uptate CNs
BT-13082	BCT-102294	CAD Interface SE	Nominal Value of "modified" Dimension are not captured correctly
BT-12671	BCT-101979	CAD Interface Neutral	Size of Balloon and Text is not configurable

BCT Inspector Suite v13.0.4 (released on 2010-09-23)**Enhancements**

ID	BCT Call ID	Category	Description
BT-12928	BCT-101633	CAD Interface NX	Number of "Manual Sub Balloons" on Whole Number Support could not be entered manually
BT-12839		CAD Interface NX	Part List Tables with automated Sub balloons are ballooned in the opposite direction

Fixed issues

ID	BCT Call ID	Category	Description
BT-12932	BCT-101467	CAD Interface NX	Balloon Numbers of Symbols are not fit into the sort of CNX

BCT Inspector Suite v13.1.1 (released on 2010-09-23)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-12920			Help does not start from UNC path

BCT Inspector Suite v13.1.0 (released on 2010-08-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-12706		CAD Interface Neutral	Project file of first revision shouldn't be rewritable after update CN with a newer revision
BT-12810		CAD Interface NX	Inspector does not recognize the new symbols for surface finish in NX7.5
BT-12103		CAD Interface NX	Layer Settings for Critical Balloons
BT-11941		Core	Improvements on drawing grid system
BT-12670		Core	InspectorBatchLibDll : Function to get the current LogFileName
BT-12695	20100534	Admin Mode	Wrong values in bct_toltabs.xml : according to/nach DIN ISO 2768 (coarse/grob)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12592		Inspector Raster NX	Raster ballooning does not update default tolerances if dimension type is changed
BT-12663		Inspector Viewer	Select of CN in Table or tiff doesn't work correctly if table is filtered and sort by the user
BT-12841	BCT-101240	CAD Interface NX	unable to Balloon PMI Surface Finish Symbols in NX Modelling
BT-12851	BCT-101301	Inspector Viewer	Viewer Crash on load/compare of two big tiff files.
BT-12803		CAD Interface SE	Sort of Balloon on drawing don't work - SE.
BT-12806		CAD Interface SE	Column K2505 (View Name) is not filled out

BCT Inspector Suite v13.0.3 (released on 2010-07-29)

Enhancements

ID	BCT Call ID	Category	Description
BT-12823	BCT-101113	CAD Interface NX	user defined measuring size for surface finish symbols not supported
BT-12840		Core	DIN / ISO 2768 Tolerance Table contains a column error
BT-12804		CAD Interface SE	"Part Attributes" like Author, Company, ... could not captured to Table entries
BT-12805		CAD Interface SE	Allow to use all SE symbol types to use as Balloon types
BT-12790		CAD Interface NX	Balloon Numbers of Symbols are not fit into the sort of CNX

Fixed issues

ID	BCT Call ID	Category	Description
BT-12822	BCT-100999	CAD Interface NX	Incorrectly Identifies 'Folded Radius Dimension' as 'Diameter' in QDAS Table
BT-12858	BCT-101305	Portal Integration	Teamcenter Crash when sending Inspector dataset to Inspector Viewer
BT-12800		CAD Interface SE	"Legendtext" can not be ballooned (no selection)
BT-12801		CAD Interface SE	"Block Text" can not be ballooned
BT-12802		CAD Interface SE	Text color, Text size - Could not configured for SE
BT-12866		CAD Interface NX	Not all configured Q-DAS Spreadsheet columns are filled out (K2862, K2872, ...)
BT-12788		CAD Interface NX	Automatic sort of Q-DAS Table does not work
BT-12666	BCT-100198	Inspector Viewer	Viewer could not load DFD Files

BCT Inspector Suite v13.0.2 (released on 2010-05-20)**Enhancements**

ID	BCT Call ID	Category	Description
BT-12724		CAD Interface NX	Report with empty table is not possible

Fixed issues

ID	BCT Call ID	Category	Description
BT-12691		Inspector Viewer	Definition of Marker (Textcolumn, Colour, ...) doesn't work
BT-12758		Installation	Show shortcuts does not work
BT-12833		Other	BCTInspectorExcelReport crashed on some language settings of Windows and Excel
BT-12723	BCT-100487	CAD Interface NX	Reference Type of NX including Tolerance are not handled in "filter list" (DimensionReference="0")
BT-12735	BCT-100545	CAD Interface NX	Drawing Grid Values are evaluated incorrectly

BCT Inspector Suite v13.0.1 (released on 2010-04-15)

Enhancements

ID	BCT Call ID	Category	Description
BT-12662		Inspector Viewer	TC SendTo Open/Compare used more then one time always show the first compared projects

Fixed issues

ID	BCT Call ID	Category	Description
BT-13939		CAD Interface NX	In 4tier file upload INSPECTOR_DATASET_RELATION_TYPE is ignored
BT-12668		CAD Interface NX	Zero or negative Nominal Values are not assigned by default tolerances
BT-12682		Portal Integration	Repaint of GUI does not work correct with Teamcenter 8.1 Portal
BT-12572		CAD Interface NX	type 506, Square GD&T does not populate table when created with raster balloon interface
BT-12673		CAD Interface SE	Moved Balloon Position is not stored in Inspector
BT-12694		CAD Interface NX	User defined symbols marked as deleted if CN list is updated
BT-12687		CAD Interface NX	Error if DrawingName is not unique
BT-12688		CAD Interface NX	Tolerance display format (K2502) will not updated if tolerance is removed
BT-12689		CAD Interface NX	Value of K2812, K2822, K2832, K2842 will not removed if appended Text of Dimension is removed

BCT Inspector Suite v13.0.0 (released on 2010-02-25)

Enhancements

ID	BCT Call ID	Category	Description
BT-12250		Core	Specific Tolerances - define own short-cuts for tolerances
BT-11913		Core	Snippet compare functionality / improve UI and handling
BT-12225		CAD Interface Neutral	Function to highlight unused NX objects missing
BT-11903		Core	Use Raster "Snippets" to auto compare Raster drawings with Balloons
BT-11176		Inspector Raster NX	Additional extraction of OCR text for before, after text is needed
BT-11177		Inspector Raster NX	When changing type of raster dimension, fields are cleared and not easy to get data back in them

Fixed issues

ID	BCT Call ID	Category	Description
BT-12567		Inspector Viewer	Drag&Drop of xml or ipxml files does not work if the dropped file contains more than one dot
BT-12415		Portal Integration	Portal Plugin doesn't work in Tc8 UA
BT-12409		CAD Interface NX	Reload Configuration does not work correctly on QDAS table settings
BT-12433		CAD Interface NX	Create manual balloon not possible after read a project file from an earlier revision
BT-11178		Inspector Raster NX	Only one raster is displayed in the raster balloon window
BT-12585		Inspector Viewer	Viewer Crash on export compare tiff with Show Outline
BT-12536		Installation	out of the box eoms_set.cmd does not support network configuration of Inspector
BT-12556		CAD Interface NX	manually edited limit dimensions do not get extracted correctly
BT-12466		CAD Interface NX	Rectangle balloon with round ends look like circle for single digits

BCT Inspector Suite v12.1.3 (released on 2010-02-11)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12590		Other	Inspector Batch create a Message Box if default tolerance value is not found in Tolerance Table
BT-12593		Inspector Raster NX	On a mixed NX / Raster drawing in Raster Balloon mode double click on an NX entity locks system
BT-12594		CAD Interface NX	If a column is selected to be shown every update to the table returns the column display to the default
BT-12569		CAD Interface NX	Custom Symbols are not Ballooned (automatic or manual Ballooning)
BT-12582		Installation	Invalid Ghostscript directory after update
BT-12488		Inspector Viewer	Exported Compare Image with displayed outline is wrong colored
BT-12575		CAD Interface NX	Object Attributes, Part Attributes and Expressions are not correct read on Tables and Text
BT-12609		CAD Interface NX	Right appended text on dimensions are always copied to "Remark" column
BT-12586		CAD Interface NX	Inspector Failed on Update Existing CNs (NX ERROR)
BT-12986	BCT-101451	Inspector Raster NX	The "." is not printed at the balloon when you stamp manually
BT-13204	BCT-102809	CAD Interface NX	Wrong Balloon size calculation (Oblong Box-Identification Symbol).

BCT Inspector Suite v12.1.2 (released on 2009-12-03)

Enhancements

ID	BCT Call ID	Category	Description
BT-12435		Inspector Viewer	Make compare of two images more user-friendly
BT-12431	20091864	Inspector Viewer	Direct compare of two specific drawings from commandline

Fixed issues

ID	BCT Call ID	Category	Description
BT-12460		CAD Interface SE	Precision of the Nominal Values are incorrect.
BT-12461		CAD Interface SE	ISO Limits not captured
BT-12434		CAD Interface Neutral	Result of OCR in Inspector Neutral driven by environment variable
BT-12455		CAD Interface SE	Chamfer Dimension is not correct
BT-12456		CAD Interface SE	Threads are not handled correctly
BT-12454		CAD Interface SE	Nominal Value not correct on some CHx Types (Radius)
BT-12457		CAD Interface SE	Drawing Grid is not calculated
BT-12464		CAD Interface NX	The word "Tolerance" is misspelled in the interface (is currently Toleracne)
BT-12500	20092247	CAD Interface NX	"Umlaute" are not exported correctly in the Excel sheet
BT-12459		CAD Interface SE	Scale of exported Tif is not correct; Viewer does not jump to the right position of the balloon
BT-12458		CAD Interface SE	Child part not found and Export STEP dialog is rising up
BT-12462		CAD Interface SE	Gd&T and Thread values not correct
BT-12474		CAD Interface NX	ISO Limits not removed from Q-DAS Spreadsheet (K2103 / K2104)
BT-12498	20092248	CAD Interface NX	Reference Type of NX Angle Reference are not catched correctly
BT-12465		CAD Interface NX	Reference Type of NX Diameter Reference are not detected
BT-12451	20092019	CAD Interface NX	Spreadsheet Edit Dialog is closed on mouse move

BCT Inspector Suite v12.1.1 (released on 2009-10-01)

Enhancements

ID	BCT Call ID	Category	Description
BT-12410		CAD Interface NX	Move CN takes to long
BT-12377		Inspector Viewer	Partname should be included in revision descriptions (Compare Mode)
BT-12389		Core	Default tolerancing for fraction (e.g.: X/X)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12402		Inspector Viewer	Exported Images are not using the right color for Foreground / Background
BT-12405		CAD Interface NX	Translate of Q-DAS Spreadsheet is ignored on second Translate step
BT-12407		CAD Interface NX	Commit of table changes are ignored (overwritten) after Update Table
BT-12388		Core	Manual Ballooning: BCT Inspector suggests the wrong next available number.
BT-12385		CAD Interface NX	Manual sub-balloons on drawing are removed and marked as deleted (in table) on automatic update
BT-12406		CAD Interface NX	Update behavior of table columns have no influence

BCT Inspector Suite v12.1.0 (released on 2009-08-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-11879		Inspector Viewer	Extend zoom capabilities (click & drag zoom area preferred)
BT-11885		Inspector Viewer	Mapping should be remembered
BT-11909		Core	List of previously opened files is strangely sorted ("Open"-dialog)
BT-11912		Core	Allow multiple projects to be opened at the same time
BT-12052		Core	Find characteristics starting from drawing is not available
BT-11943		Inspector Viewer	User should be able to configure if mapping dialog is shown after compare.
BT-11887		Inspector Viewer	When zooming near edge the zoom "center" is not respected and the user has to pan at the end of the zoom
BT-11922		Core	Multiple Dataset Support (TC)
BT-11007		CAD Interface NX	Automatic positioning of balloons in free drawing space
BT-11717		CAD Interface NX	NX Expression werden beim Annotation scanning nicht gelesen

Fixed issues

ID	BCT Call ID	Category	Description
BT-12092		CAD Interface NX	Update procedure for default Q-DAS table entries not correct
BT-12214		CAD Interface NX	Inspection Dimension Type is not identified
BT-12266		CAD Interface NX	Inspector Q-DAS Spreadsheet still open if NX is minimized

BT-12051		Inspector Viewer	Balloons marked as critical are not displayed as critical in BCT Inspector Viewer
BT-12050		Inspector Viewer	Balloon positions with new project files in BCT Inspector Viewer contain an offset
BT-12271		Admin Mode	Error Marker (Red Line in Spreadsheet) not removed when Error reason is fixed and Inspector is updated
BT-11768		Inspector Viewer	Wrong order of Revisions after open and compare
BT-11344		Inspector Viewer	Different DPI versions of compare files creates rasters that will not align.
BT-11861		CAD Interface NX	New GD&T Symbols with appended text identified as note
BT-12379		Core	Font factor does not effects the balloon size
BT-12380		Core	Mark as deleted or remove from list doesn't work if a prefix or postfix text was used
BT-12381		Spreadsheet	After manual ballooning spreadsheet is always set to read only
BT-12378		CAD Interface NX	Problem with hidden GUI and blocked CAD
BT-12161		Inspector Viewer	If Inspector Viewer opens a compare revision with less drawings then the first one, the compared sheets are mixed up.
BT-12265		CAD Interface NX	Q-DAS entries tolerance class and tolerance value (K2103, K2104) are not filled out for ISO Limits.
BT-11961		CAD Interface NX	Auto detect of Surface Finish Symbols
BT-11962		CAD Interface NX	Attached (attached to extension line) Surface finish symbols are not caught
BT-12223		CAD Interface NX	Recreate deleted balloons in NX
BT-12229		CAD Interface NX	Appended text of "Critical" balloons doesn't work correctly.
BT-11243		CAD Interface NX	Support of Inherited PMI on Drawings (solve duplicated balloons of 2D/3D PMI)
BT-12227		CAD Interface NX	TC 4tier - Support export of Inspector data
BT-12264		CAD Interface NX	ISO Limits with two Letters or two Numbers are not handled correctly
BT-11899		Core	Problems with Annotation Grab / Splitter

BCT Inspector Suite v12.0.3 (released on 2009-07-30)**Enhancements**

ID	BCT Call ID	Category	Description
BT-12224		CAD Interface NX	Update Inspector Data on closed Inspector Application

Fixed issues

ID	BCT Call ID	Category	Description
BT-12326		CAD Interface Neutral	New balloon position is not stored in project file after the balloon is moved
BT-12244		Portal Integration	BCT Inspector Viewer Open doesn't open Tiff files

BCT Inspector Suite v12.0.2 (released on 2009-05-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-12177		Other	"Send to Inspector NX" on specific Inspector Dataset
BT-12175	20090805	Core	PDF Export should be re-implemented.

Fixed issues

ID	BCT Call ID	Category	Description
BT-12136		CAD Interface NX	CNs of deleted dimensions are not marked as deleted, and the system produce an internal error (sometimes)
BT-12147		CAD Interface NX	Balloon Size is not configurable
BT-12176		Core	Multiple manual ballooning of one object creates CN-Numbers with n.0 (e.g.: 1.0, 2.0, 3.0, ...).
BT-12105		CAD Interface NX	ISO Limits are not handled correctly on super script or subscript
BT-12047		CAD Interface NX	The behavior when ballooning Smart Model GD&T / PMI is different from earlier BCT Inspector versions
BT-12146		CAD Interface NX	Raster Balloon size on Inch parts not correct
BT-12152	20090716	CAD Interface NX	translating the text in a label that refers to an expression
BT-12143		CAD Interface NX	Handling of Translation in q-das spreadsheet is not correct
BT-12144		CAD Interface NX	Balloon Placement is not correct
BT-12145		CAD Interface NX	Balloon Placement with gap is not correct
BT-12153		Core	Empty characteristics shouldn't be ballooned.
BT-12159		CAD Interface NX	Wrong assigned Balloons on deleted DRW sheet during open Project of older revision.
BT-12160		CAD Interface NX	Notes with GD&T symbols are not handles (scanned) correctly
BT-12178		Core	Export file (with user exits) doesn't work with older TcEng versions
BT-12193		Inspector Viewer	Drawings containing blanks in sheet name are not automatic opened in Inspector Viewer

BCT Inspector Suite v12.0.0 (released on 2009-02-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-11923		Core	Individual configuration of User/Admin Mode
BT-11779		CAD Interface NX	No warning before overwrite existing table (Q-DAS Configuration)
BT-11232		Spreadsheet	Allow multiple row selection to delete a row with a right click
BT-11370		Core	Group Numbers (Honda)
BT-11216		CAD Interface NX	Direct selection of Inspector Projectfiles from TcEng from Inspector
BT-11217		Inspector Viewer	Store Excel Reports inside TcEng
BT-11959		CAD Interface NX	User must select default tolerance
BT-11302	20070940	CAD Interface NX	Deletion of CNs is too difficult

Fixed issues

ID	BCT Call ID	Category	Description
BT-11544		CAD Interface Neutral	Content of the ballooned area is not saved in the chx table.
BT-11898		CAD Interface NX	Part is marked as modified if inspector is started (NX)
BT-11820		Inspector Viewer	Size of widgets can't be changed sometimes.
BT-11918		Core	Focus seems to go away from the current window without selecting something else
BT-11938		Core	When deleting from the chx number list it jumps back to 1
BT-11895		Core	No Modifications on the Teamcenter Database possible
BT-11919		Core	Order of the columns not sorted
BT-11920		Inspector Viewer	Marker of First and Second Revision not placed correctly
BT-11897		Spreadsheet	No table modification are stored in the Inspector Data table
BT-11896		Installation	Install Directory contains Blanks
BT-11797		CAD Interface NX	Balloon positions in "Expanded Mode" are not correctly identified
BT-11461		CAD Interface NX	Wrong position of balloons of PMI Objects on drawings.
BT-10974		CAD Interface NX	Moving of the balloons in the expanded view.
BT-11862		CAD Interface NX	The tolerance values of table don't match displayed values of drawing
BT-11875		Core	Repositioning balloons does not point to the correct item
BT-12024	20090140	CAD Interface NX	Values in Brackets (Standard Dimension / option Reference) aren't read correctly by inspector
BT-11513		Admin Mode	Incorrect CN created

BCT Inspector Suite v11.1.2 (released on 2008-12-17)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11942		Other	Help documentation is not up to date.
BT-11894		Installation	aClass Library not installed during Inspector installation
BT-11872		CAD Interface NX	When using Save As... instead of Save chx isn't shown correctly (non-unified)
BT-11969	20081926	Installation	BCT Inspector DLL (classic) does not work in Windows 64bit
BT-11952	20082191	Inspector Viewer	compare cannot be launched from the commandshell
BT-11924		CAD Interface NX	The increment offset of characteristics is always "1"

BCT Inspector Suite v11.1.1 (released on 2008-10-17)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11780		CAD Interface NX	No translation in head of Spreadsheet
BT-11778		Admin Mode	Änderung an Balloons führt zu Subversion's
BT-11775		Admin Mode	Chx Change shows sometimes wrong perecentage.
BT-11776		Admin Mode	Inspector shows changes where are no changes.
BT-11807		Inspector Viewer	Inspector Viewer hat keine User Setting in bct_inspector_viewer.xml mehr

BCT Inspector Suite v11.1.0 (released on 2008-08-01)

Enhancements

ID	BCT Call ID	Category	Description
BT-11543		Core	If drawing is not ballooned, block report and inform user (message box).
BT-11549		Core	Modify and Finish the table ballooning from Inspector (NX, SE, Catia...)
BT-11540		CAD Interface Neutral	Add the other types of balloons.
BT-11371		Core	Hinweis, wenn vor dem stempeln keine Toleranztabelle ausgewählt wurde
BT-11193		Other	be able to run viewer compare process from UG .prt files
BT-11354		CAD Interface Neutral	Modify Manually Ballooned Value
BT-11289		CAD Interface Neutral	Drag & Drop functionality
BT-11290		CAD Interface Neutral	Process Bar
BT-11237		CAD Interface NX	Define a number format with leading zeros
BT-11298		Core	Put the actual filename in the title bar (like Office) -> It's working, but should be modified for the different CAD versions.

BT-11189		Other	Simple 80% default configuration
BT-11538		CAD Interface Neutral	Support multiple Tiffs (Honda)
BT-11545		CAD Interface NX	Reuse of CNs (Remove CN from List after save)
BT-11215		Inspector Viewer	Better Interface of TcEng
BT-11211		CAD Interface NX	Jump on Drawing Position of selected CN
BT-11279		Inspector Viewer	Comparison: show noticeable alert that differences exist
BT-11281		Inspector Viewer	Align a portion of the raster before comparison
BT-11533		Core	ASCII Werte für CNs anstelle rein Numerischer Werte
BT-11546		CAD Interface NX	Anbringen zusätzlicher "Fehlerort " Stempel
BT-11547		CAD Interface NX	CID Nummbers
BT-11662		CAD Interface Neutral	GUI in Deutscher Sprache

Fixed issues

ID	BCT Call ID	Category	Description
BT-11568		Other	Spreadsheet verhindert das beenden von NX
BT-11196		Inspector Viewer	When aligning rasters, dragging 1 image also drags detail from the 2nd image that falls within the alignment tol. zone
BT-11630	20080636	CAD Interface NX	2 positive limits werden falsch interpretiert
BT-11596	20080574	Inspector Viewer	Inspector Viewer kann nicht ohne bestehende NX Installation installiert werden

BCT Inspector Suite v11.0.1 (released on 2008-04-17)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-11601	20080603	Inspector Viewer	Report generation fails (when %BCT_EOMS_DIR% contains space)
BT-11600	20080602	Inspector Viewer	BCT Help can not be launched (when %BCT_EOMS_DIR% contains space)

BCT Inspector Suite v11.0.0 (released on 2008-02-01)**Enhancements**

ID	BCT Call ID	Category	Description
BT-11521		Core	Using BCT Webservice instead of UG Manager
BT-11182		Installation	Completion of Viewer integration/install for TCEng
BT-11169		CAD Interface NX	Modify menus and interface to reduce confusion for File expor and FAI....

Fixed issues

ID	BCT Call ID	Category	Description
BT-11202		Inspector Viewer	Handling of single file for XML and Tiff

BCT Inspector Suite v10.1.1 (released on 2007-10-05)**Enhancements**

ID	BCT Call ID	Category	Description
BT-11377		CAD Interface NX	Delete Part Attribute "BCT-INSPECTOR" if CnList is deleted

Fixed issues

ID	BCT Call ID	Category	Description
BT-11374		Inspector Viewer	Marker Position on Tiff Image is not correct
BT-11407		Inspector Viewer	TIFF file created with DPCM (Dot Per Centimeter) dos not work
BT-11375		CAD Interface NX	Inspector generates huge balloons on inch drawings
BT-11376		CAD Interface NX	BCT Q-DAS Spreadsheet Column adjustment
BT-11490		Inspector Raster NX	bct_inspector_batch.exe : Balloons are not placed correctly on the Raster image
BT-11485	20071900	CAD Interface NX	Mittels "Edit Cells Manual" geänderte Toleranzwerte werden ignoriert.

BCT Inspector Suite v10.1.0 (released on 2007-06-04)**Enhancements**

ID	BCT Call ID	Category	Description
BT-11194		Other	A list of suspicious chx should be reviewed by user
BT-11234		Spreadsheet	Marker in the spreadsheet and a combo box
BT-11207		CAD Interface NX	Schlüsselweite "SW" als Toleranztable
BT-10943	20061177	CAD Interface NX	Großbuchstaben im Export XML benutzen
BT-11286		CAD Interface NX	ISO Toleranzen bei NICHT Durchmesser/Wellen
BT-11208		CAD Interface NX	Toleranzberechnung bei Gewinden
BT-11301	20070939	CAD Interface NX	Im Menü für "Default Tolranz Einträge fehlt ein "OK" Button
BT-11187		CAD Interface NX	To provide a window to allow a manual data modification

Fixed issues

ID	BCT Call ID	Category	Description
BT-11316		CAD Interface NX	mit neuem Lizenzmodell kann Inspector in NX keine TIFFs erzeugen

BCT Inspector Suite v10.0.0 (released on 2006-09-12)

Enhancements

ID	BCT Call ID	Category	Description
BT-11197		Other	Provide automatic report generation tool
BT-11168		CAD Interface NX	If Inspector is open and .prt is changed the changes to the data table are lost
BT-11171		CAD Interface NX	balloons on a moved view are not updated if a save happens before Inspector is updated
BT-11185		Other	Need a filter to avoid ballooning empty UGS Table cells
BT-11153	20070007	Inspector Viewer	Command Line Arguments for opening 2 CGM Files in BCT Inspector Viewer

Fixed issues

ID	BCT Call ID	Category	Description
BT-11221		CAD Interface NX	Umlaute nach dem Speichern des Spreadsheet sind nicht richtig
BT-11198		CAD Interface NX	Excel Reports don't support Multiple Images
BT-11240		Inspector Viewer	Stored Inspector Datasets inTcEng Reference Pseudo_Folder not found
BT-11080		Other	Excel Reports: Image kann nicht auf "leere" Excel Tabellen Seite erzeugt werden

BCT Inspector Suite v9.1.0 (released on 2006-04-18)

Enhancements

ID	BCT Call ID	Category	Description
BT-11186		Other	Modify look of balloons based on data in a column

Fixed issues

ID	BCT Call ID	Category	Description
BT-11239		CAD Interface NX	Update Tolreranz Table by UG Part Attribut Value switch dose not work correct
BT-11378		CAD Interface NX	BCT Q-DAS Spreadsheet Column default hide dose not work
BT-11081		CAD Interface NX	Umlaute in der Inspector Tabelle sind nicht richtig

BCT Inspector Suite - Known Issues and Limitations

ID	BCT Call ID	Category	Description
BT-16534		NX Integration	"Macro out of sync" appears when exporting CNs to NX CMM. Patch Inspector to v16.1.14/v17.0.5 & NX to NX10.0.3 MP16/NX11.0.1 MP4
BT-19430	001688	Ballooning	"Move to Empty Area" doesn't work for balloon text symbols
BT-21763		BallooningNX Integration	Maybe overlapping Balloons for SubCNs (Tables and HoleCallouts)
BT-19924		NX Integration	Component PMI Weld Symbols are not selectable from top assembly
BT-20165		Neutral	Invalid TIFF drawing generated by AutoVue can't be opened
BT-16540		JT Viewer	some PMIs are hard to read from front perspective in JT Viewer
BT-16587		JT Viewer	Value of an JT property is empty when ballooning it
BT-16139		SE Integration	Missing highlight of ignored objects
BT-19569		Neutral	External Documents feature does not work correctly

BCT 3D-Raster Suite

BCT 3D-Raster Suite v23R6 (released on 2023-11-30)

Fixed issues

ID	BCT Call ID	Category	Description
BT-22919	1735076163		No coloured TIFFs can be created

BCT 3D-Raster Suite v23R1 (released on 2023-01-26)

Enhancements

ID	BCT Call ID	Category	Description
BT-22574	010904	Installation	UGII_ROOT_DIR obsoleted since NX 11

Fixed issues

ID	BCT Call ID	Category	Description
BT-22860	012628		BCT 3D Raster causes significant performance issues in NX

BCT 3D-Raster Suite v22R6 (released on 2022-11-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-22818		NX Integration	Support new NX Version (NX 2212)

BCT 3D-Raster Suite v22R3 (released on 2022-06-02)

Enhancements

ID	BCT Call ID	Category	Description
BT-22672			Support new NX Version (NX 2206)

BCT 3D-Raster Suite v22R2 (released on 2022-03-31)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22519	010667	GUI	NX and BCT 3D Raster crashing when importing a malformed CALS file

BCT 3D-Raster Suite v22R1 (released on 2022-01-27)**Enhancements**

ID	BCT Call ID	Category	Description
BT-22449			Support new NX Version (NX 2007)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20788		APIpart2raster	Fix failing test cases of Part2Raster

BCT 3D-Raster Suite v21R4 (released on 2021-11-25)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22416	012405	Dispatcherpart2raster	Part2Raster Name too long - NX process gets killed and dataset stays checked out

BCT 3D-Raster Suite v21R3 (released on 2021-09-30)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22231	009488	GUI	NX dialogs are not opened in 3D Raster

BCT 3D-Raster Suite v21R2 (released on 2021-07-29)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22165	009547	GUI	Critical error when displaying raster info
BT-22260		Installation	Unpack installer with "/extract" does not copy common files

BCT 3D-Raster Suite v21R1 (released on 2021-06-10 (postponed from 2021-05-27))**Enhancements**

ID	BCT Call ID	Category	Description
Q-1293		Installation	Apply new release strategy for BCT installer v21R1
BT-22021			Support new NX Version (NX 1980)
BT-20787		Installation	Change BCT_EOMS_DIR default value for the BCT Installer v19

Fixed issues

ID	BCT Call ID	Category	Description
BT-21849	008885, 009275	DocumentationInstallation	New NX Versions not installed for BCT 3D-Raster update

BCT 3D-Raster Suite v19.4 (released on 2020-11-27)**Enhancements**

ID	BCT Call ID	Category	Description
BT-21707			Support new NX Version (NX 1953)

BCT 3D-Raster Suite v19.3 (released on 2020-09-25)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-21667	7974	Documentation	Dokumentation Bug - Customer missing hints to avoid errors during installation

BCT 3D-Raster Suite v19.2 (released on 2020-08-04)**Enhancements**

ID	BCT Call ID	Category	Description
BT-21618			Support TC13

BCT 3D-Raster Suite v19.1 (released on 2020-05-28)**Enhancements**

ID	BCT Call ID	Category	Description
BT-21515			Support new NX Version (NX 1926)
BT-21706			Support new NX Version (NX 1926)

BCT 3D-Raster Suite v18.11 (released on 2019-11-28)**Enhancements**

ID	BCT Call ID	Category	Description
BT-21172			Support NX 1899

BCT 3D-Raster Suite v18.10 (released on 2019-09-26)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-21102	005958	Installation	eoms_start.bat does not contain entry for NX 1872 Series

BCT 3D-Raster Suite v18.8 (released on 2019-05-23)**Enhancements**

ID	BCT Call ID	Category	Description
BT-20800			Support NX (1872 Series)

BCT 3D-Raster Suite v18.7 (released on 2019-03-28)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-19965		Installation	Uncertified BCT installer

BCT 3D-Raster Suite v17.0.13 (released on 2019-01-31)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-20450	003831	GUI	Critical Error on undoing deletion of raster after adding new file

BCT 3D-Raster Suite v18.3 (released on 2018-07-26)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-20150		Dispatcherpart2raster	NX Dispatcher Modules don't work with UGMASTER

BCT 3D-Raster Suite v17.0.9 (released on 2018-05-24)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-19588	001870	part2rasterAdministration	The preview picture is not correctly displayed in NX11

BCT 3D-Raster Suite v18.0 (released on 2018-02-01)**Enhancements**

ID	BCT Call ID	Category	Description
I-338		Installation	Support NX 12

BCT 3D-Raster Suite v16.1.14 (released on 2017-08-31)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-16547	PR000805	Raster Vis	No Raster in current model after closing and reopening part.

BCT 3D-Raster Suite v17.0.4 (released on 2017-06-28)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-16436	BCT-122825	3D-Raster Vis	some Raster data in part can not be selected/deleted

BCT 3D-Raster Suite v16.1.13 (released on 2017-06-28)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-16392	BCT-122802	Other	After NX Undo the scale ("Ratio") is no longer processed correctly

BCT 3D-Raster Suite v16.1.12 (released on 2017-04-27)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-16356	BCT-122623	3D-Raster API	C-API compatibility broken

BCT 3D-Raster Suite v16.1.8 (released on 2016-08-04)**Enhancements**

ID	BCT Call ID	Category	Description
BT-15615	BCT-113725	part2raster	add option "-no_drawing_update" to disable automatic drawing update

BCT 3D-Raster Suite v16.1.7 (released on 2016-06-09)

Enhancements

ID	BCT Call ID	Category	Description
BT-15914	BCT-120022	Other	possibility to define a specific NX line width for BCT 3D-Raster content

BCT 3D-Raster Suite v16.1.6 (released on 2016-04-07)

Enhancements

ID	BCT Call ID	Category	Description
BT-15392	BCT-116228	Other	define attribute type for BCT_RASTER_PRESENT Attribute

Fixed issues

ID	BCT Call ID	Category	Description
BT-15876	BCT-118954	part2raster	direct PDF generation doesn't support Custom Width Palette (*.wdf file)
BT-15894	BCT-119627	3D-Raster Editor	Attribute value does not change if attribute for BCT 3D-Raster is mapped to a Teamcenter Boolean Attribute
BT-15753	BCT-118316	Other	BCT 3D-Raster not able to open TIFF with LZW compression
BT-15771	BCT-118438	3D-Raster Editor	NX save process hangs after "Save as" if Raster UDO is loaded

BCT 3D-Raster Suite v16.0.13 (released on 2016-04-07)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15795	BCT-118599	Other	BCT 3D-Ratser UDO is not recognized from refile_part.exe

BCT 3D-Raster Suite v16.1.4 (released on 2015-11-05)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15723	BCT-118083	Other	Opening a PDF file in BCT 3D-Raster NX10 shows error "Failed to convert ... to a monochrome (black/white) Tiff."

BCT 3D-Raster Suite v16.0.11 (released on 2015-11-05)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15678		3D-Raster Editor	Failed to open large highresolution TIF Image (144000 x 36000 at 1000DPI)

BCT 3D-Raster Suite v16.0.10 (released on 2015-09-10)

Enhancements

ID	BCT Call ID	Category	Description
BT-14976	BCT-117279	3D-Raster API	part2raster: add option to update drawing and partslists

Fixed issues

ID	BCT Call ID	Category	Description
BT-15605		part2raster	part2rastrer crashes when USE_NX_PDF_EXPORT: YES is configured

BCT 3D-Raster Suite v16.0.8 (released on 2015-05-07)

Enhancements

ID	BCT Call ID	Category	Description
BT-15024	BCT-114892	BCT Plot	Export PDF using NX functionality

Fixed issues

ID	BCT Call ID	Category	Description
BT-15444	BCT-116427	3D-Raster Editor	Raster info on separated raster causes NX crash

BCT 3D-Raster Suite v16.0.5 (released on 2014-12-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15039	BCT-114102	Installation	Update also install BCT Engineering Package files

BCT 3D-Raster Suite v15.1.10 (released on 2014-12-04)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15040	BCT-114103	Installation	bct_addons.ini missing after installation with Teamcenter support

BCT 3D-Raster Suite v16.0.3 (released on 2014-08-07)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15038	BCT-114101	3D-Raster Editor	C++ Error Message on first start of "File Open" in TC environment

BCT 3D-Raster Suite v15.1.6 (released on 2014-04-03)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-14799	BCT-112803	3D-Raster Vis	Binaries for NX 9 missing in installer

BCT 3D-Raster Suite v16.0.0 (released on 2014-02-27)**Enhancements**

ID	BCT Call ID	Category	Description
BT-14255		3D-Raster Editor	Add a title to NX selection dialogs
BT-14415	BCT-110453	3D-Raster Editor	Write part attribute indicating if 3D-Raster data is in part

BCT 3D-Raster Suite v15.1.4 (released on 2013-11-21)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-14580	BCT-111735	3D-Raster Archiver	Upload of files to Teamcenter fails for TC8.3 the bct_exits is loaded but not used

BCT 3D-Raster Suite v15.1.2 (released on 2013-07-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14406		Installation	Installer BCT v15.1.1 removes %BCT_EOMS_DIR%\bct_plot\bin\windows\gs

BCT 3D-Raster Suite v15.0.6 (released on 2013-07-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14438	BCT-110700	3D-Raster Archiver	in Teamcenter environment: start of BCT 3D-Raster causes NX to freeze

BCT 3D-Raster Suite v15.0.5 (released on 2013-04-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14356	BCT-109886	3D-Raster API	Executing Part2Raster gives the message "Error: couldn't load bct_eoms_plot*.dll"

BCT 3D-Raster Suite v15.1.0 (released on 2013-03-21)

Enhancements

ID	BCT Call ID	Category	Description
BT-13334		Installation	set title of all batch scripts to script file name

BCT 3D-Raster Suite v15.0.2 (released on 2012-10-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14046	BCT-107627	3D-Raster Editor	Certain PDFs become unreadable when importing into NX with BCT 3D-Raster
BT-14077	BCT-108033	3D-Raster Archiver	Upload of files to Teamcenter fails for TC8.3 and TC8.1 (bct_aclass_exits is loaded but not used)

BCT 3D-Raster Suite v14.1.5 (released on 2012-08-30)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-13915	BCT-107121	BCT Plot	CGM is always exported with "Text as Ploylines"

BCT 3D-Raster Suite v15.0.0 (released on 2012-07-20)**Enhancements**

ID	BCT Call ID	Category	Description
BT-13655	BCT-105491	BCT Plot	Configuration files of BCT Plot should be below %BCT_DEF_DIR%
BT-13591		3D-Raster Editor	Add possibility to get Raster Information for all rasters in a part file

Fixed issues

ID	BCT Call ID	Category	Description
BT-13931		BCT Plot	CGM is always exported with "Text as Ploylines"

BCT 3D-Raster Suite v14.1.1 (released on 2011-11-24)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-13590	BCT-105164	3D-Raster Vis	NX crashes when opening specific part with raster content

BCT 3D-Raster Suite v14.0.5 (released on 2011-11-24)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-13588	BCT-105164	3D-Raster Vis	NX crashes when opening specific part with raster content

BCT 3D-Raster Suite v14.1.0 (released on 2011-11-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-13433		BCT Plot	Tiff generation uses session CGM export settings instead of customer defaults
BT-13432	BCT-104318	BCT Plot	CGM export: option if text is exported as text or polylines

Fixed issues

ID	BCT Call ID	Category	Description
BT-13234	BCT-103033	3D-Raster Vis	BCT 3D-Raster Vis relies on EOMS_WORK_DIR or C:\temp
BT-13492	BCT-104626	BCT Plot	settings from UGII_CGM_DEFAULTS are ignored
BT-11410		3D-Raster Archiver	Support Teamcenter 4-Tier environment with BCT 3D-Raster Archiver

BCT 3D-Raster Suite v14.0.3 (released on 2011-07-28)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13457	BCT-104493	BCT Plot	text font is changed when exporting TIFF
BT-13470	BCT-104505	3D-Raster Archiver	With certain drawings in Teamcenter BCT 3D-Raster Archiver for NX6 crashes

BCT 3D-Raster Suite v14.0.0 (released on 2011-02-24)**Enhancements**

ID	BCT Call ID	Category	Description
BT-11657		3D-Raster Editor	"Delete unused Pick Points" deletes some Pick Points that are actually in use
BT-11667	20081065	3D-Raster Editor	Resolution for PDF import should be configurable
BT-12636	20100246	3D-Raster Editor	make standard resolution for PDF import configurable

Fixed issues

ID	BCT Call ID	Category	Description
BT-13140	BCT-102551	Other	The Help-File doesn't explain the different buttons of the SAVE-Dialog
BT-12842		BCT Plot	Line widths in PDFs from 3D-Raster are different to PDFs made with NX

BCT 3D-Raster Suite v13.1.2 (released on 2010-11-25)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-12980	BCT-101904	3D-Raster Editor	long file path name causes failure on importing file

BCT 3D-Raster Suite v13.1.1 (released on 2010-09-23)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-12907		Other	Help does not start from UNC path

BCT 3D-Raster Suite v13.1.0 (released on 2010-08-20)**Enhancements**

ID	BCT Call ID	Category	Description
BT-12834	BCT-101187	BCT Plot	generation of monochrome PDFs (starting with NX7.5)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12591	20100264	3D-Raster Vis	Deadlock while revise (Save As)

BCT 3D-Raster Suite v13.0.3 (released on 2010-07-29)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-12811	BCT-101055	BCT Plot	Import of PDF ignores resolution setting
BT-12838	BCT-101208	Other	BCT Software causes "Nested load" if assembly is loaded with "Structure Only" in NX6

BCT 3D-Raster Suite v13.0.2 (released on 2010-05-20)**Enhancements**

ID	BCT Call ID	Category	Description
BT-12444	20091933	3D-Raster Archiver	CGM export converts text in lines

BCT 3D-Raster Suite v13.0.0 (released on 2010-02-25)

Enhancements

ID	BCT Call ID	Category	Description
BT-12280		Other	variable name "PLATFORM" in eoms_set.cmd is too general

Fixed issues

ID	BCT Call ID	Category	Description
BT-12236	20090704	3D-Raster Vis	NX PDF export is extremely slow plotting full-size sheet with BCT 3D-Raster content
BT-12400		3D-Raster Autoloader	Autoloader still uses IMAN_ROOT and IMAN_DATA instead of TC_ROOT and TC_DATA on UA
BT-12344		3D-Raster Editor	Open from Teamcenter Clipboard does not work
BT-12131		3D-Raster API	German PDF-Dokumentation of BCT 3D-Raster API contains chapter 'Uebersicht' twice
BT-12429		Installation	BCT Inspector Viewer Start script will be overwritten during a BCT 3D-Raster installation
BT-12398	20091593	3D-Raster Archiver	Raster Advance Export generates a 0kb TIFF if Sheetname is "SHT1"
BT-12472	20091878	3D-Raster Archiver	First tiff output fails after loading drawing
BT-12612	20100345	BCT Plot	unable to export TIFF in 64bit environment if SPLM's cgm2tiff is not used

BCT 3D-Raster Suite v12.1.3 (released on 2010-02-11)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12580		Installation	Invalid Ghostscript directory after update
BT-12555		3D-Raster Editor	Export a new tiff file on desktop or userfolder does not work (overwrite an existing works)

BCT 3D-Raster Suite v12.1.1 (released on 2009-10-01)

Enhancements

ID	BCT Call ID	Category	Description
BT-12425		3D-Raster Editor	Restore last save dir and update tiffname to match current filename

Fixed issues

ID	BCT Call ID	Category	Description
BT-12392	20091536	3D-Raster Archiver	Re-opening 3D-Raster Advanced Export does not refresh drawing list
BT-12426		3D-Raster Editor	Saving Raster on Desktop fails with Windows Vista 64bit

BCT 3D-Raster Suite v12.1.0 (released on 2009-08-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-11069		3D-Raster Editor	More raster information

Fixed issues

ID	BCT Call ID	Category	Description
BT-12313		3D-Raster Archiver	Archiver does not start part2doc with correct environment on Teamcenter UA
BT-10929	20061007	BCT Plot	Pen width configuration when plotting by width
BT-12384	20091468	3D-Raster Editor	Deleting raster causes NX crash on saving

BCT 3D-Raster Suite v12.0.3 (released on 2009-07-30)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12312		3D-Raster Archiver	Importing several files into a single dataset fails on 64bit windows

BCT 3D-Raster Suite v12.0.2 (released on 2009-05-20)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12216	20090949	3D-Raster Editor	Error when importing CGMs
BT-12213	20090538	3D-Raster Vis	Random loss of raster content on drawing sheets
BT-12044	20090407	3D-Raster Editor	Raster data is not reachable anymore after renaming drawingsheet in NX

BCT 3D-Raster Suite v12.0.0 (released on 2009-02-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-11070		3D-Raster Editor	Version number display to be improved
BT-11958	20081905	3D-Raster Archiver	CGMs as File type for Archiver
BT-11808	20081728	BCT Plot	Generate colored TIFF from BCT 3D-Raster
BT-11682		3D-Raster Editor	Save should prompt for Filename instead of folder
BT-11975	20090021	3D-Raster Editor	Applying of color should be enabled when BCT_3D_RASTER_FORCECOLOR is set.

Fixed issues

ID	BCT Call ID	Category	Description
BT-12020		3D-Raster API	part2doc: attaches image to wrong dataset (not under given ItemRev)
BT-11809	20081728	BCT Plot	Blanked frames visible in generated TIFFs
BT-11870	20082114	3D-Raster Editor	some JPG files cannot be imported in a new blank NX file
BT-11638		3D-Raster Vis	Flip behaviour changed

BCT 3D-Raster Suite v11.1.2 (released on 2008-12-17)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11863	20082081	3D-Raster Editor	Colored TIFFs can not be opened when BCT_EOMS_DIR contains a space

BCT 3D-Raster Suite v11.1.1 (released on 2008-10-17)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11827		BCT Plot	support of multipage hpgl files missing
BT-11832	20081709	BCT Plot	some drawing sheets of certain NX-Parts could not be exported as TIFFs or PDFs
BT-11822		3D-Raster Vis	Not all rasterdata on the sheet is deleted when the sheet is deleted
BT-11658		3D-Raster Editor	Open a PDF via UNC fails

BCT 3D-Raster Suite v11.1.0 (released on 2008-08-01)

Enhancements

ID	BCT Call ID	Category	Description
BT-11458	20071649	3D-Raster API	Installfiles as .zip

Fixed issues

ID	BCT Call ID	Category	Description
BT-10806	20060660	3D-Raster Editor	internal error when removing PickPoints in Modelling and using 3rd mouse button
BT-11634	20080804	3D-Raster API	raster2part crashes with PDF

BCT 3D-Raster Suite v11.0.2 (released on 2008-06-11)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11650	20081006	3D-Raster Editor	Deleting unused pickpoints failed

BCT 3D-Raster Suite v11.0.1 (released on 2008-04-17)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11610		3D-Raster Archiver	Wrong check-out and check-in of licenses.
BT-11611	20080546	3D-Raster Archiver	Creation of unwanted empty UGPart named "specification" in Teamcenter

BCT 3D-Raster Suite v11.0.0 (released on 2008-02-01)

Enhancements

ID	BCT Call ID	Category	Description
BT-11076		3D-Raster Editor	Show pen size for line erase operations

Fixed issues

ID	BCT Call ID	Category	Description
BT-11409	20071561	3D-Raster Editor	Rasterdaten aus PDF verlieren beim Import Leerzeichen u. Zeichenabstände
BT-11430	20071676	Other	Falsche Umgebungsvariable im Startscript
BT-11251	20070384	3D-Raster API	"Edit - Ungroup raster" locks PC
BT-11419	20071633	3D-Raster Editor	in BCT 3D-Raster fehlt das Menü "Öffnen -> Von TcEng (named refernece)"
BT-11436	20071715	3D-Raster API	Import von TIF Dateien in dpcm im falschen Grössenfaktor
BT-11412	20071605	Other	Performanceprobleme beim Starten von NX4 aus Tceng/Portal

BCT 3D-Raster Suite v10.1.1 (released on 2007-10-05)

Enhancements

ID	BCT Call ID	Category	Description
BT-11340		3D-Raster API	nicht alle lizenzierten Dateierweiterungen werden angezieht

Fixed issues

ID	BCT Call ID	Category	Description
BT-11078		3D-Raster Editor	RASTER_PDF license is required for import of a pdf file

BCT 3D-Raster Suite v10.1.0 (released on 2007-06-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11065		BCT Plot	Pen width conflict between raster data and UG data
BT-11079		3D-Raster Editor	Some german translation mistakes

BCT 3D-Raster Suite v10.0.0 (released on 2006-09-12)

Enhancements

ID	BCT Call ID	Category	Description
BT-10972		3D-Raster API	TcEng PortalIntegraion should allow the selection what file type to generate over the API

Fixed issues

ID	BCT Call ID	Category	Description
BT-11009	20061526	3D-Raster API	Erasing Raster Data from one drawing sheet will erase it on all drawing sheets
BT-11241	20070132	BCT Plot	InspectorViewer can not load hpgl files when BCT software is installed in a read-only file system
BT-11228		3D-Raster Editor	Newest PDF files can not be read

BCT 3D-Raster Suite v9.1.0 (released on 2006-04-18)

Enhancements

ID	BCT Call ID	Category	Description
BT-10932		3D-Raster Editor	something like a rubber to delete raster portions
BT-10290		3D-Raster Editor	Rubber

Fixed issues

ID	BCT Call ID	Category	Description
BT-10726	20060351	3D-Raster API	Icons Kreis löschen (Mittelpunkt und Radius) und Kreis löschen (3 Punkte) vertauscht
BT-10731		3D-Raster Editor	beim ersten Start von BCT 3D-Raster in NX erfolgt immer die Meldung einer angeblich doppelt geladenen Library
BT-10746	20060398	BCT Plot	eliminating the margins of the sheet when generating a TIFF or PDF

BCT 3D-Raster Suite v9.0.0 (released on 2006-04-18)

Fixed issues

ID	BCT Call ID	Category	Description
BT-10487		3D-Raster Editor	missing functions in PDF documentation

BCT 3D-Raster Suite v8.2.5 (released on 2006-04-18)

Fixed issues

ID	BCT Call ID	Category	Description
BT-10566	20051419	3D-Raster Vis	Rasterdata is not displayed

BCT 3D-Raster Suite - Known Issues and Limitations

ID	BCT Call ID	Category	Description
BT-12487	20092155	3D-Raster API	NX sheets are displayed blank at first when importing raster with raster2part
BT-12085		3D-Raster Vis	Split Raster does not work correctly with flipped rasters
BT-14733		3D-Raster Editor	Reversing the direction by flipping does not work if raster direction has been changed by mirroring before.

BCT Engineering Package

BCT Engineering Package v23R6 (released on 2023-11-30)

Fixed issues

ID	BCT Call ID	Category	Description
BT-22729	011908, 012070	Search	Component View search results differs depending on view

BCT Engineering Package v23R1 (released on 2023-01-26)

Enhancements

ID	BCT Call ID	Category	Description
BT-22574	010904	Installation	UGII_ROOT_DIR obsoleted since NX 11

BCT Engineering Package v22R6 (released on 2022-11-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-22818		NX Integration	Support new NX Version (NX 2212)

BCT Engineering Package v22R3 (released on 2022-06-02)

Enhancements

ID	BCT Call ID	Category	Description
BT-22672			Support new NX Version (NX 2206)

BCT Engineering Package v22R2 (released on 2022-03-31)

Fixed issues

ID	BCT Call ID	Category	Description
BT-22677	011634	Installation	Compile bct_skip_udo_warning.dll for NX 2007

BCT Engineering Package v22R1 (released on 2022-01-27)**Enhancements**

ID	BCT Call ID	Category	Description
BT-22449			Support new NX Version (NX 2007)

BCT Engineering Package v21R4 (released on 2021-11-25)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22426	009717	Administration	ZIP import does not work

BCT Engineering Package v21R2 (released on 2021-07-29)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22028	009212	GUI	Filter and search for name in Component View not possible
BT-22046	009137	Configuration	BCT 3D Pool - Attribute prefix for Semipart in semi_pos_3dpool.ini does not work correctly
BT-22260		Installation	Unpack installer with "/extract" does not copy common files

BCT Engineering Package v21R1 (released on 2021-06-10 (postponed from 2021-05-27))**Enhancements**

ID	BCT Call ID	Category	Description
Q-1293		Installation	Apply new release strategy for BCT installer v21R1
BT-22021			Support new NX Version (NX 1980)
BT-20787		Installation	Change BCT_EOMS_DIR default value for the BCT Installer v19

BCT Engineering Package v19.4 (released on 2020-11-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-21707			Support new NX Version (NX 1953)

Fixed issues

ID	BCT Call ID	Category	Description
BT-21782	008532	GUI	Assignment of suppliers - components in BCT 3D Pool is not saved

BCT Engineering Package v19.3 (released on 2020-09-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-21667	7974	Documentation	Dokumentation Bug - Customer missing hints to avoid errors during installation
BT-21170	006231	GUI	The column width in the component view seems to be fixed and can not be changed
BT-21666	007944	GUI	Bad starting performance when using Thumbnail view in BCT 3D Pool

BCT Engineering Package v19.2 (released on 2020-08-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-21618			Support TC13

Fixed issues

ID	BCT Call ID	Category	Description
BT-21569	007599, 007524	Installation	BCT 3D Pool can not be started within NX1899 Series

BCT Engineering Package v18.15 (released on 2020-08-04 (last official v18 version))**Fixed issues**

ID	BCT Call ID	Category	Description
BT-21537	005926	BCT Templates	BCT Templates do not work with UNC paths
BT-20909	005263	GUI	Favorites are deleted when reloading page

BCT Engineering Package v19.1 (released on 2020-05-28)**Enhancements**

ID	BCT Call ID	Category	Description
BT-21515			Support new NX Version (NX 1926)
BT-21706			Support new NX Version (NX 1926)

BCT Engineering Package v18.12 (released on 2020-01-31)**Enhancements**

ID	BCT Call ID	Category	Description
BT-20555	001870	GUI	The preview picture is not correctly displayed in NX11 (fixed for NX1847 and higher)

Fixed issues

ID	BCT Call ID	Category	Description
BT-21214	006459	GUI	Classification of components via "Edit links" not possible
BT-21215	006463	GUI	Insert Semi Product - Default Solid Color wrong
BT-21231	006509	GUI	BCT 3D-Pool - classify object needs to be confirmed

BCT Engineering Package v18.11 (released on 2019-11-28)

Enhancements

ID	BCT Call ID	Category	Description
BT-21172			Support NX 1899

Fixed issues

ID	BCT Call ID	Category	Description
BT-21125		Administration	Delete UDF does not work
BT-20997	006458	NX Integration	Add UDF does not work in NX 1872 Series
BT-21208	006413	GUI	Insert Work Part creates temp folders in part dir
BT-21126	006082, 006310	GUI	BCT 3D-Pool-Window appears before part is assembled and covers menu for adding part to assembly
BT-21121	006112	Substitute	BCT Substitute does not work for parts with spaces in the name (only in TC)
BT-21105	005926	BCT Templates	BCT Templates sometimes does not apply Assembly Constraints correctly

BCT Engineering Package v18.10 (released on 2019-09-26)

Fixed issues

ID	BCT Call ID	Category	Description
BT-21102	005958	Installation	eoms_start.bat does not contain entry for NX 1872 Series
BT-21039		GUI	English text in german environment
BT-20845	005021	GUI	The component view does not display classified NX UDFs

BCT Engineering Package v18.8 (released on 2019-05-23)

Enhancements

ID	BCT Call ID	Category	Description
BT-20800			Support NX (1872 Series)

BCT Engineering Package v18.7 (released on 2019-03-28)

Fixed issues

ID	BCT Call ID	Category	Description
BT-19965		Installation	Uncertified BCT installer

BCT Engineering Package v17.0.13 (released on 2019-01-31)

Enhancements

ID	BCT Call ID	Category	Description
Q-367		GUI	Manage "Favorites" in BCT 3D-Pool

BCT Engineering Package v17.0.12 (released on 2018-11-22)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20360	003487	Spreadsheet	BCT Substitute - Spreadsheet has no formats
BT-20359	003534	GUI	BCT 3D-Pool: SCM Tooltip Images not displayed

BCT Engineering Package v17.0.11 (released on 2018-09-27)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20358	003535	Substitute	BCT Substitute: Replaced component is closed in not displayed assembly
BT-20357	003533	Search	3D-Pool search: no results when searching *

BCT Engineering Package v17.0.9 (released on 2018-05-24)

Fixed issues

ID	BCT Call ID	Category	Description
BT-19587	001868	GUI	Incorrect sort order in classification view
BT-19588	001870	part2rasterAdministration	The preview picture is not correctly displayed in NX11

BCT Engineering Package v18.1 (released on 2018-03-29)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20016	002435	Geolus Search	Macro Out of Sync error on JT Export using NX12.0.1

BCT Engineering Package v17.0.8 (released on 2018-03-29)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16575	000802	Substitute	BCT Substitute - screw diameter not changeable

BCT Engineering Package v18.0 (released on 2018-02-01)

Enhancements

ID	BCT Call ID	Category	Description
I-338		Installation	Support NX 12

BCT Engineering Package v17.0.7 (released on 2018-02-01)

Fixed issues

ID	BCT Call ID	Category	Description
BT-19352	001469	Installation	add_stock_dialog_*.dll & place_part_dialog_*.dll reside in wrong folder

BCT Engineering Package v17.0.6 (released on 2017-11-02)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-16636	001078	GUI	Long titles of components and classes are not displayed completely in Thumbnail View

BCT Engineering Package v16.1.15 (released on 2017-11-02)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-19312		Part Families	Masterparts can not be used as syntax '\$BCT_DEF_DIR' is not supported in "map_parts_def.csv" ('%BCT_DEF_DIR%' works)

BCT Engineering Package v17.0.5 (released on 2017-08-31)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-16635	IR001079	Search	BCT 3D-Pool Search results differs using capital and small letters

BCT Engineering Package v16.1.14 (released on 2017-08-31)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-16535	BCT-123819	3D-Pool	Error message: UDF could not been loaded

BCT Engineering Package v17.0.4 (released on 2017-06-28)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-16465	BCT-123520	3D-Pool Admin	Function "Insert Work Part" leads to error "Macro Out Of Sync"

BCT Engineering Package v16.1.13 (released on 2017-06-28)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-16477	BCT-123573	3D-Pool	NX stack overflow while adding many screw assemblies

BCT Engineering Package v17.0.3 (released on 2017-04-27)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-16406		3D-Pool	Unable to load Source Plugins
BT-16317		SCM	View state is not saved for component view
BT-16349	BCT-122581	BCT Substitute	Only screw is displayed in screw assembly dialog if using BCT Substitute
BT-16348	BCT-122585	Screw Assemblies Editor	Preview images were not shown in Screw Assembly Editor component drop downs

BCT Engineering Package v16.1.12 (released on 2017-04-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-15060	BCT-114207	3D-Pool	Parameter View cannot be saved as displayed

Fixed issues

ID	BCT Call ID	Category	Description
BT-16407		SCM	UDFs not shown in component view
BT-16292	BCT-122292	Screw Assemblies	Positioning constraints not solved correctly for slots
BT-16293	BCT-122296	Screw Assemblies	Positioning constraints are not solved correctly for certain assemblies
BT-15425	BCT-116283	BCT Substitute	BCT Substitute causes NX message to import CSV when running in managed mode
BT-16374	BCT-122714	3D-Pool	Crash on opening a component with empty _def.csv
BT-15669	BCT-117809	3D-Pool	Column size in component view is not restored
BT-15665	BCT-117808	3D-Pool	OK Button in Spreadsheet does not work with Preview Pictures
BT-15667	BCT-117806	BCT Spreadsheet	Option "original size" on preview causes display issue
BT-15668	BCT-117805	BCT Spreadsheet	Column size in embedded spreadsheet view sometimes wrong

BCT Engineering Package v17.0.2 (released on 2017-02-02)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16283		3D-Pool Admin	parts_de.csv is not updated after classifying a part using the UI

BCT Engineering Package v17.0.1 (released on 2016-12-01)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16171		Screw Assemblies	BCT Screw Assembly Check for screw length does not work correctly

BCT Engineering Package v16.1.10 (released on 2016-12-01)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15968	BCT-120264	BCT Toolbox	current NX attribute syntax is not supported
BT-15699		Documentation	UDF inserting is NOT possible if user has no write access to the udf_libraries.txt file
BT-15823	BCT-118821	Screw Assemblies	Threaded hole wizard does not recognize thread size

BCT Engineering Package v16.0.15 (released on 2016-08-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16012	BCT-120610	3D-Pool	Fatal Error is raised if user cancels the UDF dialog

BCT Engineering Package v16.0.13 (released on 2016-04-07)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15727	BCT-118049	3D-Pool	Inserting and replacing Grove based UDF does not work

BCT Engineering Package v16.0.10 (released on 2015-09-10)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15563		3D-Pool Admin	Save part of import pools does not work

BCT Engineering Package v16.0.9 (released on 2015-07-09)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15394		SCM	Disabled Columns of Component View are enabled after restart
BT-15388		SCM	Height of rows in docked spreadsheet some times doubles
BT-15395		Variant Search	Column width controled auto resize to content
BT-15562		3D-Pool	BCT 3D-Pool window closes automatically after assembling a part
BT-15561		BCT Substitute	Component name is overwritten by revision ID after substitute
BT-15567	BCT-110993	BCT Substitute	Spreadsheet of BCT Substitute ignores format setting of *_cst.csv in TC context

BCT Engineering Package v16.0.8 (released on 2015-05-07)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15418		Screw Assemblies	Too many Screw Assemblies are added

BCT Engineering Package v16.1.0 (released on 2015-03-26)

Enhancements

ID	BCT Call ID	Category	Description
BT-12343		SCM	Redesign GUI of classification dialog "Add Link"
BT-12197		3D-Pool	Reset and Reload in toolbar

Fixed issues

ID	BCT Call ID	Category	Description
BT-14054	BCT-115468	Other	NX Stress Wizard does not Work anymore, if BCT DLL is loaded
BT-15223	BCT-115219	Installation	silent installer overwrites existing classification

BCT Engineering Package v16.0.6 (released on 2015-02-05)

Enhancements

ID	BCT Call ID	Category	Description
BT-14660	BCT-112155	3D-Pool	BCT Spreadsheet as additional view in BCT 3D-Pool GUI wanted

Fixed issues

ID	BCT Call ID	Category	Description
BT-14859		Documentation	bct_3dpool.ini is not in documentation

BCT Engineering Package v16.0.5 (released on 2014-12-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-14813	BCT-112600	SCM	Import mode for part library source
BT-14585	BCT-111850	BCT Substitute	Substitute old non Load Alternative Variant with later defined Load Alternative Variant
BT-14586	BCT-111851	BCT Spreadsheet	Preview picture for BCT Spreadsheet wanted

BCT Engineering Package v15.1.10 (released on 2014-12-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15252	BCT-115329	3D-Pool	NX UDF Dialog stays open after adding an UDF

BCT Engineering Package v15.1.9 (released on 2014-10-09)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15046	BCT-114135	3D-Pool Admin	JT creation fails when trying to import a part

BCT Engineering Package v16.0.2 (released on 2014-06-12)

Enhancements

ID	BCT Call ID	Category	Description
BT-14986		BCT Substitute	Substitute of multiple variant instances (of same template)
BT-14761		3D-Pool	Size of parameter view windows should match size of image
BT-14825	BCT-112155	3D-Pool	Changeable fontsize

Fixed issues

ID	BCT Call ID	Category	Description
BT-14795		BCT Spreadsheet Admin	Unable to delete column alias

BCT Engineering Package v15.1.6 (released on 2014-04-03)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14786		BCT Templates	BCT Template spreadsheet documentation is not created
BT-14783		3D-Pool Admin	Duplicate entries in udf_database.txt after deleting UDF
BT-13502		3D-Pool	Do not reopen BCT 3D-Pool window while editing value of deformable part
BT-14126	BCT-108139	Variant Search	store size and position of Variant Search Window
BT-14760	BCT-112675	3D-Pool	store position of Parameterview window

BCT Engineering Package v16.0.0 (released on 2014-02-27)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14662		Documentation	Links are set incorrectly in the online help
BT-14320		Installation	Installer does not create a shortcut "Teamcenter Portal (Standard)"

BCT Engineering Package v15.1.5 (released on 2014-01-30)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14352	BCT-109178	Variant Search	Variant Search does not display all characters correct if the file encoding is UTF-8 without BOM

BCT Engineering Package v15.1.3 (released on 2013-09-19)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14464	BCT-110894	Documentation	Chapter 4 Software Updates

BCT Engineering Package v15.0.7 (released on 2013-09-19)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14472	BCT-110993	BCT Substitute	Spreadsheet of BCT Substitute ignores format setting of *_cst.csv

BCT Engineering Package v15.1.2 (released on 2013-07-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14393	BCT-110295	3D-Pool	Alias names are not recognized anymore
BT-14375	BCT-110000	3D-Pool	Classified components are not shown in component view

BCT Engineering Package v15.0.6 (released on 2013-07-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14421	BCT-110266	3D-Pool	Multiple parts are assembled while assembling a part variant

BCT Engineering Package v15.0.5 (released on 2013-04-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13942		BCT Templates	While assembling a second BCT Template to a single part a not needed "Select Component" NX dialog appears
BT-14337	BCT-109702	Virtual Partfamilies	LOAD_ALTERNATIVE does not work with TC and NX 8.0 NX8.5

BCT Engineering Package v15.1.0 (released on 2013-03-21)

Enhancements

ID	BCT Call ID	Category	Description
BT-13507		3D-Pool Admin	Warning should appear if a part of template is deleted
BT-14000		Installation	Subdirectory for all installer log files
BT-13504		3D-Pool	3D-Pool window appears a few seconds after component is assembled
BT-12669		3D-Pool	Administration should be blocked until Keyword matches exactly

Fixed issues

ID	BCT Call ID	Category	Description
BT-14104		Installation	It should not be possible to install the full installer into a patched BCT_EOMS_DIR

BCT Engineering Package v15.0.3 (released on 2013-01-17)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13968		Screw Assemblies Editor	Could not add part if it has no part .csv created yet via BCT 3D-Pool
BT-14200	BCT-108635	Variant Search	Variant Serach does not generate CSV files

BCT Engineering Package v14.1.7 (released on 2013-01-17)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-14215	BCT-108607	3D-Pool	Error message when cancel UDF Positioning Dialog

BCT Engineering Package v15.0.2 (released on 2012-10-25)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-14103		Installation	64 bit Installer does not update bin/windows directory
BT-13943		BCT Templates	Mapped attributes not updated correctly

BCT Engineering Package v14.1.6 (released on 2012-10-25)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-14111	BCT-108000	SCM	Display error in component view
BT-14125	BCT-108138	SCM	Display as Thumbnails is not stored
BT-14123	BCT-108124	Variant Search	Variant Search causes "Critical Error"

BCT Engineering Package v14.1.5 (released on 2012-08-30)

Enhancements

ID	BCT Call ID	Category	Description
BT-13944		Screw Assemblies Editor	Show message if part family is already member of table
BT-13680	BCT-105759	Variant Search	%PARTNAME%_cst.csv should be recognized for indexing Variant Search

Fixed issues

ID	BCT Call ID	Category	Description
BT-13941		BCT Spreadsheet	Hidden column BCT-CUSTOM also copied while copy spreadsheet row
BT-13940		BCT Spreadsheet	Hidden column BCT-CUSTOM becomes visible for user
BT-13952		3D-Pool Admin	Missing view update after add new class image (thumbnail view only)
BT-13960		3D-Pool Admin	Create Parameter View - Show warning if displayed part is not selected part
BT-13963		3D-Pool Admin	Create Virtual Partfamily - Use selected part for preview / Warn user if part could not be loaded
BT-13950		Screw Assemblies Editor	Copy part does not work by right click a row, if row is not selected before
BT-13679	BCT-105758	BCT Spreadsheet Admin	Spreadsheedadmin and NX Part add different information for BCT_CUSTOM
BT-13685	BCT-105831	BCT Spreadsheet Admin	When select "Copy cell" only the first cell in the row will be copied

BCT Engineering Package v15.0.0 (released on 2012-07-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-12835		Other	Add Windows HOSTNAME and SESSIONNAME to BCT logfile
BT-13453		Other	One location for all Configfiles (*.cfg) %BCT_DEF_DIR%\config
BT-13981		3D-Pool	Faster startup of BCT 3D-Pool
BT-13945		Screw Assemblies Editor	Show message if part family is already member of table
BT-12857	BCT-101144	BCT Spreadsheet	Centralize location of bct_spread.cfg configuration file
BT-11552		Semiparts	Own default masterpart for semiparts

Fixed issues

ID	BCT Call ID	Category	Description
BT-13964		3D-Pool Admin	Create Virtual Partfamily - Use selected part for preview / Warn user if part could not be loaded
BT-13576		Screw Assemblies	New NX8 Pattern Feature is not supported
BT-13648		Documentation	Setting of environment variable BCT_MAP_DIR is not documented
BT-13967		Screw Assemblies Editor	Screw Assemblies Editor should not accept lower case face names
BT-13982		SCM	Duplicate components in SCM after BCT_KATALOG_DIR change
BT-13955		3D-Pool Admin	Missing view update after add new class image (thumbnail view only)
BT-13961		3D-Pool Admin	Create Parameter View - Show warning if displayed part is not selected part
BT-13956		Screw Assemblies Editor	Copy part does not work by right click a row, if row is not selected before
BT-12065	BCT-104321	3D-Pool Admin	Reorder columns in Admin-Spreadsheet

BCT Engineering Package v14.1.4 (released on 2012-06-01)

Enhancements

ID	BCT Call ID	Category	Description
BT-13917	BCT-106995	IPT Features	Assemble UDFs via Load_Alternative (Virtual Parfamily)
BT-13821	BCT-106582	IPT Features	Apply part parameters to UDF while assembling

Fixed issues

ID	BCT Call ID	Category	Description
BT-13946	BCT-107255	Installation	silent installer does not work

BCT Engineering Package v14.1.3 (released on 2012-03-22)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13798		UG Native Positioning	Can't assemble UDF if UGII_UDF_IMAN_WITH_NATIVE_DATABASE=yes

BCT Engineering Package v14.0.6 (released on 2012-02-22)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13006		3D-Pool Admin	Don't trigger Reload after cancel Delete Dialog

BCT Engineering Package v14.1.2 (released on 2012-01-27)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13579		BCT Templates	Min/Max filter only work for the first call of BCT Template Spreadsheet
BT-13682	BCT-109594	3D-Pool	Sometimes it's very slow to assemble a Spreadsheet-Variant

BCT Engineering Package v14.1.1 (released on 2011-11-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-13418	BCT-104327	Variant Search	Consider BCT-CUSTOM formatting in Variant Search

Fixed issues

ID	BCT Call ID	Category	Description
BT-13600	BCT-104858	SCM	Show All Components sometimes very slow

BCT Engineering Package v14.1.0 (released on 2011-11-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-13463		3D-Pool	Change 3D-Pool cache dir from %TEMP%\bct to %APPDATA%\bct
BT-12182		Screw Assemblies	Support ScrewAssemblies without ending component (no nut or no threaded hole)
BT-13466		Screw Assemblies	Customize labels of preview image and configuration widget

Fixed issues

ID	BCT Call ID	Category	Description
BT-13540		Semiparts	Unable to position sketch based semi parts

BCT Engineering Package v14.0.4 (released on 2011-09-29)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13428	BCT-104321	BCT Spreadsheet Admin	Applying a format for a row does not work the first time in Spreadsheet Admin
BT-13554		3D-Pool	UDF Folder converting within Teamcenter UA 8.3

BCT Engineering Package v14.0.3 (released on 2011-07-28)

Enhancements

ID	BCT Call ID	Category	Description
BT-13419	BCT-104322	3D-Pool	Setting to define if BCT 3D-Pool reopens (in bct_3dpool.ini)
BT-13059	BCT-102111	UG Native Positioning	BCT 3D-Pool should reopen after adding a UDF

Fixed issues

ID	BCT Call ID	Category	Description
BT-13456		3D-Pool Admin	Unable to orient and fit part when creating preview images
BT-13401		3D-Pool	Wrong error message "File not found" when assembling an UDF
BT-13417	BCT-104326	Variant Search	Variant Search Index not support attributes containing ";
BT-13446	BCT-104447	BCT Substitute	BCT-Substitute sometimes does not work with circular fields

BCT Engineering Package v14.0.2 (released on 2011-05-26)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13275		Semiparts	No colour and layer option for semi products
BT-13321	BCT-103860	3D-Pool	BCT 3D-Pool create an error in the NX logfile during insert a partfamily member (only within TC environment)
BT-13316	BCT-103790	BCT Spreadsheet	Parameter View from BCT Spreadsheet displays always the same picture during a NX session
BT-12190		Virtual Partfamilies	Default columns/attributes are not created while import of VPFs

BCT Engineering Package v14.0.1 (released on 2011-03-31)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-13274		3D-Pool	spelling mistake
BT-13272		Installation	Spelling mistake
BT-13268	BCT-103343	Screw Assemblies	Using a Threaded-Hole with full-length.thread causes error
BT-13280	BCT-103468	Screw Assemblies	Create wrong constraints for slots

BCT Engineering Package v13.1.4 (released on 2011-03-31)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-13298	BCT-103528	BCT Spreadsheet	Parameter View in BCT Spreadsheet causes the NX session to crash
BT-13267	BCT-103346	Screw Assemblies	Last activated window get focus after a Screw Assembly has been deleted

BCT Engineering Package v14.0.0 (released on 2011-02-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-12818		Screw Assemblies	Crossing for non slots does not make sense
BT-12600		3D-Pool	Variant search switch UDFs or Parts or both
BT-12820		3D-Pool Admin	Direct edit after creation of new class or new supplier
BT-12353		3D-Pool Admin	When deleting multiple components at once, multiple confirmation dialogs appear
BT-10799	20060569	Screw Assemblies	Change number of BCT ScrewAssembly via associated component array
BT-12256		Screw Assemblies	Trigger Screw Assembly Check on Save
BT-12185	BCT-100918	Screw Assemblies	Support Arrays in for Threaded Hole Connections
BT-12528		IPT Parts	Using the BCT NX Exit Dispatcher to "disableAddCompPlmExitOnce"
BT-11524		Semiparts	Don't increment attribute names of feature (semi part)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12468		Screw Assemblies	Measured diameter of threaded hole connections depends on bore hole of upper feature
BT-12008		BCT Templates	TemplateUDO handling on startup is not compatible with BCT aClass and BCT 3D-Pool at the same time
BT-11689		3D-Pool Admin	Support relative file paths in udf_database.txt
BT-13243	BCT-103049	Screw Assemblies	Throughhole Connections some times flipped (wrong matings)
BT-12944	BCT-101649	3D-Pool	Sort of Component View does not work correct
BT-11664		3D-Pool	STD Enforcement: Does not work correctly with multiple semi parts in one part

BCT Engineering Package v13.1.3 (released on 2011-01-27)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11439		Screw Assemblies	deleting two screws of same SA array at same time causes NX error when trying to save
BT-13212		Screw Assemblies	Wrong constraint direction (Co/Contra Align) for lower washer
BT-13124	BCT-102340	SCM	File IO error (MultiByteToWideChar: Cannot convert multibyte text) while reading classification files on a chinese windows
BT-13196	BCT-102859	Other	line breaks in multi-level.xml causes problems in displaying classification tree

BCT Engineering Package v13.1.2 (released on 2010-11-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12875		3D-Pool	Empty entry for SEMIPRODCUT_FOLDER causes internal error
BT-12956		Documentation	Online-Help for managing UDF is not up-to-date
BT-13053		3D-Pool Admin	Import NX Reuse Library Parts does not work
BT-13055		Screw Assemblies	If given reference set of .ini does not exist use reference set in order of current load options
BT-12988		3D-Pool Admin	Selection of Component is lost after filtering
BT-12977	BCT-101901	Semiparts	Seimpart gets cryptical name if add as new part in NX-Teamcenter session

BCT Engineering Package v13.1.1 (released on 2010-09-23)**Enhancements**

ID	BCT Call ID	Category	Description
BT-12734		Screw Assemblies	Support of sketch based slots

Fixed issues

ID	BCT Call ID	Category	Description
BT-12935		Documentation	Table of contents of help as PDF is not complete
BT-12133		Screw Assemblies	Support slots with more than 2 cylindrical faces
BT-12737		Screw Assemblies	Performance while assembling a BCT ScrewAssembly to an array
BT-12921		Documentation	Help does not start from UNC path
BT-12951	BCT-101513	BCT Spreadsheet	No spreadsheet appears to add part (NX 7.5.1.5 only)

BCT Engineering Package v13.1.0 (released on 2010-08-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-12658		3D-Pool Admin	Show warning if all BCT Map - Preferences are unchecked
BT-12779		BCT Templates	Template Assistant does not work with Positioning Constraints
BT-11570		Installation	Add description for all possible commanline parameters
BT-11563	20080342	Installation	Add "Copying an installation" and hint "you must be logged on your PC as local administrator"
BT-12667	BCT-100200	Other	Absence of %TMP%\bct and %TMP%\bct_work upon first BCT tool use causes problems
BT-12717		3D-Pool Admin	Control location of "bct_3dpool" directory via environment variable
BT-12445		Screw Assemblies	Reference set selection in screw assembly wizard
BT-12000		3D-Pool	Substitute parts from VPF

Fixed issues

ID	BCT Call ID	Category	Description
BT-12613		Installation	TcEng registry entries are not readed correctly for x64 installer
BT-12778		BCT Templates	While selecting parts for template assistant wizard NX got locked after middle mouse button was hit
BT-12661		BCT Map	BCT Map - has no default tool settings
BT-12028	20090174	Screw Assemblies	Strength category was also shown if it was disabled in configuration editor
BT-12879	BCT-100828	3D-Pool Admin	Classify part of old BCT Components Structure cause crash

BCT Engineering Package v13.0.3 (released on 2010-07-29)

Enhancements

ID	BCT Call ID	Category	Description
BT-12793		Screw Assemblies	Check for Positioning Conditions - switch Assembly / on 1st level / none

Fixed issues

ID	BCT Call ID	Category	Description
BT-12792		Screw Assemblies	Wrong mating mismatch warning
BT-12794		Screw Assemblies	Substitute of ScrewAssembly mostly crashes for NX 7.5
BT-12829	BCT-101152	Installation	DLLs are not signed for NX7.5
BT-12812	BCT-101067	BCT Spreadsheet	changing alias of column is not possible with BCT Spreadsheet Admin

BCT Engineering Package v13.0.2 (released on 2010-05-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-12727		Screw Assemblies	Check for existing Mating Conditions or Positioning Constraints

Fixed issues

ID	BCT Call ID	Category	Description
BT-12728		3D-Pool Admin	Import UDF form .zip does not work
BT-12607	20100341	3D-Pool	Remove temporary entries from udf_library_file after failed UDF assembling
BT-12719		Screw Assemblies	Wrong screw diameter preselected while substitute BCT ScrewAssembly
BT-12722		Screw Assemblies	Multiplication of ScrewAssembly components while assembling to a hole package of counter bore holes
BT-12715		BCT Spreadsheet	Manipulating multiple lines while exact match filtering is on, only works on second attempt
BT-12716		Screw Assemblies Editor	Cancel does not work in "Save before closing" dialog
BT-12743	BCT-100558	3D-Pool	Try to load non existing .lnk

BCT Engineering Package v13.0.1 (released on 2010-04-15)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-12645	BCT-100055	Other	Some NX depending .dlls were not signed and needed a CPP author license
BT-12656		BCT Map	Changing layer number of layer categories fails
BT-12200		3D-Pool Admin	Admintoolbar is not displayed correctly
BT-12513		3D-Pool	Variant search indexer always looks for "VarSearch" library
BT-12621		BCT Substitute	Substitute of Screw Assemblies doesn't work when BCT aClass is installed

BCT Engineering Package v13.0.0 (released on 2010-02-25)

Enhancements

ID	BCT Call ID	Category	Description
BT-12334		Virtual Partfamilies	VPF Dialog refactoring
BT-12371		3D-Pool	Add sample semi part and sample part combination for high strength fastenings (DIN 6914, DIN 6915, DIN 691 with clamping table)
BT-12130		Screw Assemblies Editor	Add ToolTip or comment to face name column
BT-11086		BCT Spreadsheet	Allow variants coloration (rows of spreadsheet)
BT-11448		Virtual Partfamilies	Virtual Part Family can not be expanded
BT-12598	20100299	Documentation	How to create a VPF in Teamcenter

Fixed issues

ID	BCT Call ID	Category	Description
BT-12352		3D-Pool	Paramerview opens multiple windows; windows not closed after leaving spreadsheet
BT-12358		Screw Assemblies	NX BCT toolbar icon some times don't work after a while
BT-12430		Other	Wrong path to changelog files in readmes
BT-12354		Screw Assemblies Editor	Not all text is translated
BT-12512		Screw Assemblies	Creating UDFs while assemble ScrewAssembly always uses working layer
BT-12282	20091173	Installation	Environment Variable "PLATFORM" should be renamed in "BCT_PLATFORM"
BT-12515	20092405	Documentation	Documentation of bct_nx_exit_dispatcher is missing
BT-12507		Screw Assemblies	Wrong message for high-strength fastenings

BCT Engineering Package v12.1.3 (released on 2010-02-11)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12522	20092432	3D-Pool	Support environment variables for Customer Defaults - UDF Legacy Library File
BT-12599	20100064	IPT Features	Assembling a non family UDF fails (in Teamcenter environment with UGII_UDF_IMAN_WITH_NATIVE_DATABASE=yes)
BT-12527	20092513	IPT Features	Error "Macro sync error" (Makro läuft asynchron) while trying to obstruct a UDF with 3D-Pool
BT-12526	20092405	Other	BCT NX Exit Dispatcher last called Exit dll overwrites output values of previous called Exit dlls
BT-12520	20092443	3D-Pool	NX is blocked, if modified drawing was closed

BCT Engineering Package v12.1.1 (released on 2009-10-01)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12427		Semiparts	Semi part doesn't apply original layer

BCT Engineering Package v12.1.0 (released on 2009-08-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-12316		3D-Pool	Display number of variant search matches
BT-12129		Screw Assemblies Editor	Add Comments to Materials
BT-12310		Installation	bct_lang variable is not useable
BT-12270		UG Native Positioning	Change display part while assemble UDF is annoying
BT-12276		3D-Pool	Dynamic language for BCT Icons in NX Toolbar
BT-11687		3D-Pool	Clear filter on show all components
BT-11997		3D-Pool	Switch "Hide Emtpy Folders" to "Show Emtpy Folders"
BT-11819		Screw Assemblies	Try to assemble a threaded hole connection as thru hole connection close the dialog without notification
BT-12066		3D-Pool	Copy rows/columns/cells from Spreadsheet
BT-11881	20082128	3D-Pool	LOAD_ALTERNATIVE only uses search directories to find the variant
BT-12107		Screw Assemblies	Support of high-strength fastenings
BT-11759		3D-Pool	Confirm BCT Dialogs with middle mouse button
BT-11760		3D-Pool	Use specific attribute for naming UDFs

Fixed issues

ID	BCT Call ID	Category	Description
BT-12357		BCT Templates	If cell of spread sheet was not leaved before saving, the changes

			are lost (Assistant)
BT-12350		Semiparts	Assemble SemiPart without all UDF references cause bloked NX
BT-12368		3D-Pool Admin	Creation of parameter view hangs
BT-11955		3D-Pool Admin	BCT Spreadsheet admin selectable and visible switch
BT-12233		BCT Substitute	No message when BCT Substitute is used for a variant which is not in 3D-Pool
BT-12356		BCT Templates	Assemble BCT Template with non 3D-Pool parts fails
BT-12139		3D-Pool	If spreadsheet filter is used parameter dropdowns not disabled while assemble UDFs
BT-12102		BCT Templates	StdEnforcementViolation does not work for BCT Template / ScrewAssembly UDFs
BT-12037		3D-Pool	Set intent data for assembled Variant only works in NX4
BT-12318		BCT Spreadsheet	Show member name instead of member index for locked varaints
BT-12278		3D-Pool Admin	Create documentation while import part from .zip fails if parts was renamed
BT-12263		3D-Pool Admin	SearchIndexer just use existing .csv files for indexing
BT-12361		3D-Pool Admin	Save part allows creation of BCT Template if no part is displayed
BT-11429		3D-Pool Admin	width definitions in "bct_eoms_plot_en.cfg" are not used
BT-11849		IPT Parts	Assemble Parts with "remember Constraints" on middle axle fails
BT-11840		3D-Pool	Insert UDF at timestamp (make current feature) dont work correct
BT-11659		3D-Pool	Error message at the start of 3D-Pool if only one UDF pool is specified in the source_index.xml.
BT-12254	20091081	3D-Pool	RoutingAdapter does not work with NX3 or greater

BCT Engineering Package v12.0.3 (released on 2009-07-30)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-12305		Screw Assemblies	Connecting subassemblies cause a "Override Position" of existing constraints to top level assembly
BT-12277		3D-Pool	Column 'Name' in Component View not resizable
BT-12219		Screw Assemblies	Using non numeric value for strength category does not work
BT-12273		3D-Pool Admin	While creating parameter view cmd does not close automaticly
BT-12262		3D-Pool Admin	VariantSearch Indexer does not work for some customer parts
BT-12257		BCT Map	Mapping failed in TC environment
BT-12292		Screw Assemblies Editor	Thruholeconnection for 2 Assemblies does not work correct
BT-12279		3D-Pool	VariantSearch result table fill empty fields (non existing attributes) with part name
BT-12246		Screw Assemblies	Select new strength category cause reset of pitch selection
BT-12247		Screw Assemblies	Support also a unpreferred variant state (italic)

BCT Engineering Package v12.0.2 (released on 2009-05-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-11818		Screw Assemblies	Ambiguous error message when select a face of a variant as entry/exit face

Fixed issues

ID	BCT Call ID	Category	Description
BT-12115		Screw Assemblies	Using a VPF in screwassemblies crashes
BT-11508		Screw Assemblies	Assembling threaded hole connection in u-profile does not work
BT-12180		BCT Templates	BCT Template Assistant does not work with '.' in partname
BT-12187		BCT Templates	Naming of listed references are wrong (BCT UDF Dialog)
BT-12132		Screw Assemblies	Validation of screw diameter does not work while substitute
BT-12201		Screw Assemblies	Selection of part variants not correct
BT-12165		3D-Pool Admin	Classification is not preselected while part reimport

BCT Engineering Package v12.0.0 (released on 2009-02-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-11764		3D-Pool	Migrate xess spreadsheet data of BCT 3D-Pool standard parts to excel
BT-11714		BCT Map	Migrate masterparts from UG v13 to NX3
BT-11757		3D-Pool	Allow compact 3D-Pool UI by TAB-Widgets
BT-11754		3D-Pool Admin	Enhance Component View with a column to display the part name
BT-11752		Screw Assemblies Editor	changed Colordefinition in Editor for better readability
BT-11748		Screw Assemblies	Access to Screw Assembly via NX-Toolbar
BT-11749		Screw Assemblies	Screw Assembly "add to favorites" only in adminmode
BT-11750		Screw Assemblies	Missing translations in Screw Assembly dialog
BT-11761		3D-Pool	If available show parameter view for semi products
BT-11753		Screw Assemblies Editor	Hide not needed textbox "Material" in settings for thruhole connections
BT-11711	20081278	BCT Templates	Improve performance for template assistant with many combinations and attributes
BT-11713	20081278	BCT Templates	Create BCT Templates with multiple occs. of the same variant

Fixed issues

ID	BCT Call ID	Category	Description
BT-11735		3D-Pool Admin	.html created by 3D-Pool contains "UG Version" not "NX Version"
BT-11841		3D-Pool	Windowstate 'Fullscreen' is not recreated correct after reopen 3D-Pool
BT-11699		3D-Pool	Preview image will never close when adding an assembly with BCT

			IPT
BT-11734		3D-Pool Admin	Generation of JTs for feature Documentation fails
BT-11680		3D-Pool	Assemble semi part in new part fails with wrong message
BT-11838	20081880	Documentation	Hyperlinks in PDF documentation are broken
BT-11444		Other	UNDO fails in Standard Violation Dialog
BT-11411	20071586	IPT Features	BCT IPT doesn't show error messages of NX
BT-11645	20080947	Paradialog	Paradialog causes error messages in NX log
BT-11443		IPT Features	Set colors with BCT IPT doesn't work correctly

BCT Engineering Package v11.1.2 (released on 2008-12-17)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11926		BCT Map	Mapping layercategories with names or descriptions longer then 30 characters fails
BT-11927		BCT Map	Mapping of attributes fails if line of attribute in .csv ends with ";
BT-11954		3D-Pool Admin	Set >100 variants to invisible in admin spreadsheet takes a very long time
BT-11847	20081949	3D-Pool	Rows are not restored properly in 3DPool

BCT Engineering Package v11.1.1 (released on 2008-10-17)

Enhancements

ID	BCT Call ID	Category	Description
BT-11740		Screw Assemblies Editor	allow to save configuration without any feature

Fixed issues

ID	BCT Call ID	Category	Description
BT-11727		Screw Assemblies Editor	Update ConfigurationEditor after changed settings.
BT-11781		3D-Pool	New parts created by 3D-Pool Semi Parts always have prefixed attributes
BT-11732		3D-Pool Admin	Heading of generated HTML-documentation is wrong in NX-Manager
BT-11733		Screw Assemblies Editor	Add non family part to editor cause memory access violation
BT-11724		BCT Map	Allow to map also description of layer categories
BT-11736		3D-Pool Admin	When creating .JTs with 3D-Pool "-" in partname are converted to " _ "
BT-11794	20081617	BCT Substitute	Substitute of a UDF fails, if UDF partname contains a dot ('.')
BT-11738		3D-Pool Admin	Delete a multilevel class which contains components cause an error

BCT Engineering Package v11.1.0 (released on 2008-08-01)

Enhancements

ID	BCT Call ID	Category	Description
BT-11500		3D-Pool	Support UDFs created with new Borehole Dialog
BT-11531		BCT Substitute	mit BCT Substitute mehrere gleiche Teile austauschen
BT-11492		3D-Pool Admin	Delete BCT-Template via 3D-Pool
BT-11442		Screw Assemblies	Unterstützung von Festigkeitsklassen
BT-11495		Screw Assemblies	Support new Hole concept
BT-11525		BCT Templates	Zusätzliche Attribute sollen automatisch gesetzt werden
BT-11454		Screw Assemblies	Screwassembly auf Schnittachse zweier Langlöcher positionieren
BT-11455		Screw Assemblies	Ausrichtung der Schraubköpfe in einem SA Array
BT-11040	20061562	3D-Pool	3D-Pool Fenster automatisch wieder in den Vordergrund
BT-11528	20080175	3D-Pool	Das %EOMS_WORK_DIR% sollte falls nicht vorhanden durch das Startskript neu angelegt werden

Fixed issues

ID	BCT Call ID	Category	Description
BT-11605	20080632	3D-Pool	Load Alternative mit Teamcenter geht nicht
BT-11625	20080532	3D-Pool	Sonderzeichen im Aliasnamen verursachen Abstürze
BT-11587	20080451	3D-Pool	Makro Fehler - BCT V11.0 mit UG-SAP Integration
BT-11446		Screw Assemblies	NX5 neu Positionszwangsbedingungen (nicht die Alten Verknüpfungsbedingungen)

BCT Engineering Package v11.0.2 (released on 2008-06-11)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11642	20080895	3D-Pool Admin	ZIP-Einlasten funktioniert nicht

BCT Engineering Package v11.0.1 (released on 2008-04-17)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11579		Installation	BCT UDFs library_dir.txt Datei erzeugt Fehler bei NX Standardverbauen

BCT Engineering Package v11.0.0 (released on 2008-02-01)

Enhancements

ID	BCT Call ID	Category	Description
BT-11481		3D-Pool	Import reusable parts from NX Reuse Library
BT-11431		Screw Assemblies	Support of slots in SA
BT-10315	20041394	3D-Pool	Changing attribute via standard violation and spreadsheet
BT-10988		3D-Pool	Support Component Arrays when substituting a Component with BCT Spreadsheet
BT-11274	20070629	3D-Pool	Halbzeuge müssen eine Teilfamilie enthalten, um verbaut werden zukönnen
BT-11422	20071662	Installation	Installation für mehrere NX-Versionen erlauben
BT-11203		Screw Assemblies	Screw Assembly Auto Update needs to also consider diamter of selected cyl face for updates.
BT-11204		Screw Assemblies	Offer SA delete also on delete of cyl face feature
BT-11365	20071261	Paradialog	Parameteransicht ist sehr schlecht
BT-11425		Screw Assemblies	vier "additional Parameters" (zusätzliche Parameter) sind nicht genug
BT-11424		BCT Spreadsheet	Autofilter Usability
BT-11401	20071502	Installation	IMAN_DATA ist hartkodiert
BT-11402	20071501	Installation	Eintrag für custom_dirs.dat um Variable

Fixed issues

ID	BCT Call ID	Category	Description
BT-10141		Documentation	Unzureichende BCT Masterpart Hilfe
BT-11478		3D-Pool Admin	neues UDF einlasten
BT-11507		Screw Assemblies	Misount of features in SA dialog
BT-11504		IPT Features	Cancel IPT while NX positioning dialog is open locks NX
BT-11505		Screw Assemblies	Mapping of PFC_1 for features don't work
BT-11497	20071979; 20071896	3D-Pool	Nach Verbau von UDF wird 3D-POOL Lizenz nicht richtig eingecheckt
BT-10216	Thyssen-Krupp	IPT Parts	Geometrie Importieren

BT-11408		Screw Assemblies	Beim repositionieren einer Bohrung einer ScrewAssy werden Bohrungen falsch gesetzt
BT-11397		IPT Features	Ersetzen von UDF mit freiem Parameter nicht möglich; falsche violation meldung nach substitute
BT-11044	20061567	BCT Spreadsheet	Spreadsheet-Admin aufrufen
BT-11440		BCT Spreadsheet	BCT Spreadsheet Admin locks NX
BT-11417		3D-Pool Admin	3DPool Admin Plot Eingabefelder für freie Eingabe abgeschitten
BT-11426		3D-Pool Admin	thin/thick lines dont differ in created parameter view
BT-11473		Installation	in das Logfile muss immer rein, wie BCT_LICENSE_FILE gesetzt ist
BT-11418		Screw Assemblies	Mating der Beispiel ScrewAssemblies funktioniert in NX4 nicht
BT-11141		Documentation	Aktualisieren der Hilfe - Halbzeug erstellen
BT-11441		BCT Spreadsheet	BCT Spreadsheet Admin Splash can not be closed with click
BT-11483	20071899	3D-Pool	BCT 3D-Pool window becomes bigger
BT-11201	20070095	IPT Features	BCT_PReview wird in Zielpart eingefügt, wenn UDF verbaut werden soll
BT-10998	20061444	IPT Parts	IPT verbaut in "displayed part" statt in "work part"
BT-11147	20061271	3D-Pool	Fehlermeldung bei Verbau von Halbzeug in TcEng-Umgebung, native funktioniert es
BT-11400	20071500	Installation	Falscher Eintrag im Menü
BT-11510	20080043	Other	BCTv10.1.1 UG / Open - Funktion UF_ATTR_ask_part_attrs_in_file

BCT Engineering Package v10.1.1 (released on 2007-10-05)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11395		SCM	shortcuts reset F4 & reload F5 not set correctly
BT-11366		Screw Assemblies	When changing the diameter ('M') of a Screw Assembly the matching nut was not always found correctly
BT-11368		Screw Assemblies	With NX4.0.4.2 when moving a Screw Assembly not all features were moved correctly.
BT-11367		Screw Assemblies	With NX4.0.4.2 the substitute of a BCT Template and a BCT Screw Assembly failed.
BT-11406	20071541	3D-Pool Admin	NX stürzt beim Teile-Einlesen in den BCT 3D-Pool komplett ab
BT-11348	20071350	3D-Pool	Teile mit Datei-Link können in V10.1 nicht mehr verbaut werden
BT-11245		IPT Features	Beim neuen Feature verbau IPT erscheinen nicht die Abfragen die im UDF gespeichert sind
BT-10606	20051586	IPT Features	Referenzen fehlen im IPT
BT-11390	20071465	Installation	bei Installation auf 64bit mit NX5 fehlen DLLs
BT-11372	20071403	UG Native Positioning	Auswahl der UG Native Positionierung bringt Macro-Fehler

BCT Engineering Package v10.1.0 (released on 2007-06-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-11255		Other	viele PATH Einträge durch BCT

Fixed issues

ID	BCT Call ID	Category	Description
BT-10678		Screw Assemblies	User Interface is messed up when pressing the plus button
BT-11294		Installation	Schalter "neues Komponentsverzeichnis anlegen" bringt immer eine Fehlermeldung
BT-11319	20071202	IPT Parts	0194 - BCT - UG - Teilewechsel beim verbauen 3D-Pool
BT-11047	20061610	Installation	EOMS_WORK_DIR durch den Installer so setzen, dass User Schreibzugriff hat

BCT Engineering Package v10.0.1 (released on 2007-03-19)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11278	20070678	3D-Pool	"Load Alternativ" geht in BCT V10.0 nicht, in V9.1 geht aber
BT-11250	20070370	3D-Pool Admin	%bct_eoms_dir%\bin\windows\unzip.exe unterstützt keine Leerzeichen im Pfadname

BCT Engineering Package v10.0.0 (released on 2006-09-12)

Enhancements

ID	BCT Call ID	Category	Description
BT-10389		Installation	Fehlen des "\" am Pfadende der Variable BCT_EOMS_DIR hat katastrophale Auswirkungen
BT-10396		3D-Pool	3D-Pool Default HTML-Editor Windows
BT-11115		BCT Spreadsheet	For manual Selection without filters Full IntentData is applied
BT-10979	20061337	3D-Pool	UDF beim Verbau so umbenennen, dass Name vom Spreadsheet verwendet wird
BT-10314	20041381	Documentation	Hilfe für Spreadsheetadmin

Fixed issues

ID	BCT Call ID	Category	Description
BT-11042	20061565	3D-Pool	BCT-Substitute - Spreadsheet
BT-11151		Other	Env.var. BCT_EOMS_TMP => BCT.log (HTML) bleibt leer
BT-11041	20061564	BCT Spreadsheet	Spreadsheet-Admin Zeileneinstellung
BT-10826		Installation	Fehler in Installationsdoku
BT-11105		Other	Keine Angabe über die BCT Lizenz im BCT Logfile
BT-11043	20061566	3D-Pool	BCT-Substitute
BT-11200		3D-Pool	Supplier Classification displays wrong number in caption: e.g. 57 out of 56
BT-11046	20061608	Screw Assemblies	Screw-Assemblies können IECS_PROFESSIONAL_UPGR nicht auschecken
BT-10993	20061428	3D-Pool	Load alternative - Error beim Verbauen, wenn gleichnamiges Teil bereits geladen ist
BT-11114		BCT Spreadsheet	Autofilters are stored as minimum in Intent Data (should be minimum and maximum)
BT-11116		BCT Spreadsheet	When Filtering with an NX expression the value and not the name of the expression is store in the intent data
BT-10911		BCT Spreadsheet	Fehler in Filterfunktion
BT-11039	20061563	3D-Pool	Internal error beim Verbauen der meisten LA-Teile
BT-11104	20061785	BCT Spreadsheet	In Tceng 9.1.2 und NX4 wird bei BCT Substitute: Fehlermeldung und falsches Spreadsheet
BT-11148	20070001	3D-Pool	skript: 3d_iman_import_all.bat
BT-11220	20070168	Other	sobald Pfad f. BCT Software gesetzt ist gibt es Fehlermeldungen

			bei Ausführung von UG / OPEN Funktion
--	--	--	---------------------------------------

BCT Engineering Package v9.1.0 (released on 2006-04-18)

Enhancements

ID	BCT Call ID	Category	Description
BT-11002		3D-Pool Admin	No warning message if there is no "write acces" for "multi-level.xml"-File
BT-10814		3D-Pool	Teil mit NX verbauen und zu 3D-Pool zurückkehren

Fixed issues

ID	BCT Call ID	Category	Description
BT-10680		Screw Assemblies	length selection "auto", great clamping length
BT-10966		BCT Spreadsheet	Tab also Jumps in "Hidden" Columns.
BT-10967		Screw Assemblies	Std Violation happens when substituting a "Senkung"
BT-10841		3D-Pool	Fehler bei dem Einfügen eines Halbzeugs
BT-10764		3D-Pool Admin	Standardbenutzer in ..\bct_web\def\bct_web_de.cfg wird nicht berücksichtigt
BT-10763		3D-Pool Admin	Dateiname in HTML Doku mit Pfad
BT-10762		3D-Pool Admin	BCT-DESC1-DE/EN in HTML Doku beim Einlasten nicht eingetragen
BT-10749		Screw Assemblies	CSV for UDFs missing
BT-10772		BCT Map	UNC-Pfade werde nicht unterstützt
BT-10771		BCT Map	Rename "Create CSV" to "Add Masterpart"
BT-10770		BCT Map	verstellen des aktiven Masterpart
BT-10724		Screw Assemblies	Pitch-Filter in Spreadsheet is not set correctly
BT-10723		Screw Assemblies	Screw Assembly Warnings (e.g Dia to big...)
BT-10990		BCT Toolbox	Tool-/Menubar nicht aktuell
BT-10999		3D-Pool	No warning message when triing to loading a part from a newer NX Version.
BT-10785		Screw Assemblies	Assembling of a clamp connection between two blocks
BT-10800	20060649	3D-Pool	3D Pool Teile verbauen über UG Native mit Leerzeichen im components-Pfad
BT-10945	20061184	3D-Pool	3D-Pool startet sporadisch nicht mehr
BT-10847	20060913	Screw Assemblies	Fehlermeldung weist auf falsche fehlende Datei hin
BT-10714	20060261	BCT Map	Variable im Mapping wird nicht richtig ausgewertet
BT-10813	20060765	BCT Map	keine eindeutige Fehlermeldung wenn Masterpart neuerer Version geladen werden soll
BT-10964	20061275	BCT Map	Masterparts mit zweitem Punkt in Dateinamen
BT-10829		3D-Pool Admin	Halbzeuge gehen nicht
BT-10840		3D-Pool	Freier HZ Parameter wird nicht als Teile Attribut gesetzt
BT-10777	20060536	Installation	*.bct Files werden als Virus erkannt
BT-10924		3D-Pool	Halbzeug in "Neues Teil" nicht möglich
BT-10857	20061021	3D-Pool	Start dauert bei sehr vielen 3D-Poolteilen sehr lange

BCT Engineering Package v9.0.0 (released on 2006-04-18)

Enhancements

ID	BCT Call ID	Category	Description
BT-10049		Installation	Fullscreen Installshield Window
BT-10303		3D-Pool Admin	bilder können nicht mehr gelöscht werden

Fixed issues

ID	BCT Call ID	Category	Description
BT-10690		Screw Assemblies	Layout für Parameternamen zu kurz
BT-10722		BCT Templates	MCs fail on Substitute of Template in Single Part
BT-10435	20050277	Other	Performance / Prozessorauslastung bei mehreren UG Instanzen
BT-10689	20060073	3D-Pool Admin	Baugruppen mit Varianten in 3D-Pool einlasten und weiterverwenden
BT-10718	20060275	Installation	BCT Toolbox ist fuer Grundinstallation BCT V9 zwingend noetig
BT-10460		3D-Pool	Layereinstellung ORIGINAL wird bei UDF-Verbau nicht uebernommen
BT-10694		IPT Features	LAYER Optionen beim Verbauen von UDF`S
BT-10573	20051380	3D-Pool	Teilefamilien mit BCT im Mischbetrieb TC/Nativ verwalten
BT-10634		3D-Pool Admin	siehe #0000831 die Dokumentation falls nicht vorhanden wird in Kleinschrift erstellt

BCT Engineering Package - Known Issues and Limitations

ID	BCT Call ID	Category	Description
BT-11996		3D-Pool Admin	Create documentation with .jts fails during import of Reuse Library Parts
BT-12813	BCT-101102	BCT Templates	BCT Templates without an UDF are just placed to "Absolute Origin" without positioning
BT-13937		3D-Pool Admin	Part/Supplier classification does not work for parts which are used in a BCT Template
BT-12298		Screw Assemblies	After substitute of a Screw Assembly via BCT Standard Enforcement dialog the UDF geometry is not updated (values are correct)
BT-12299		BCT Templates	Attribute mapping to attribute of non unique variant in BCT Template does not work

BCT EasyPlot

BCT EasyPlot v24R6 (released on 2024-11)

Fixed issues

ID	BCT Call ID	Category	Description

Enhancements

ID	BCT Call ID	Category	Description
Q-1293		Installation	Apply new release strategy for BCT installer v21R1
R-1668	009271		Add 4tier BCT Easyplot standalone client
BT-20787		Installation	Change BCT_EOMS_DIR default value for the BCT Installer v19

BCT EasyPlot v19.6 (released on 2021-03-25 (last official v19 version))

Fixed issues

ID	BCT Call ID	Category	Description
BT-21838		Portal Integration	BCT perspectives are not opening in TC 13.1 RAC
BT-21727	008252	Printing	Wrong or no stamping when printing a rotated PDF from Convert2PDF.exe
BT-22006		Portal Integration	BCT aClass/EasyPlot will repeat last send to when opening via button or menu
BT-22013		Installation	Convert2Pdf.exe is installed in Debug subfolder
BT-21765	008424	Printing	Printed drawing size is doubled as compared to same drawing printed in older version v17
BT-21961	008990	Printing	BCT Easyplot Performance is not good with higher resolution drawings
BT-22017		Search	Advanced search for classified objects fails if there's no access right to one or more classified revision

BCT EasyPlot v19.4 (released on 2020-11-27)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-21660		Installation	BCT v19 Installer shows TC10 as available TC Version
BT-21677	008075	GUI	Attributes preview window does not show dates correctly
BT-21762		Installation	BCT Easyplot v19 installer is missing the jar files

BCT EasyPlot v19.3 (released on 2020-09-25)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-21667	7974	Documentation	Dokumentation Bug - Customer missing hints to avoid errors during installation

BCT EasyPlot v19.2 (released on 2020-08-04)**Enhancements**

ID	BCT Call ID	Category	Description
BT-21618			Support TC13
R-1520			Support of Active Workspace 5.0

BCT EasyPlot v18.15 (released on 2020-08-04 (last official v18 version))**Fixed issues**

ID	BCT Call ID	Category	Description
BT-21050	005725	Web	Logfiles cannot be saved from BCT EasyPlot Web or BCT aClass Web
BT-21252		Portal Integration	Switching to BCT application does not change the context in Teamcenter rich client

BCT EasyPlot v18.14 (released on 2020-05-28)

Enhancements

ID	BCT Call ID	Category	Description
R-1466		Active Workspace	Support Active Workspace 4.3

Fixed issues

ID	BCT Call ID	Category	Description
BT-21135	006095	GUI	Status & object type are shown as internal values and not as display values
BT-21523			Convert2Pdf.exe is installed in Debug subfolder

BCT EasyPlot v18.13 (released on 2020-03-26)

Enhancements

ID	BCT Call ID	Category	Description
R-1465		Active Workspace	Support of Active Workspace 4.2 with BCT EasyPlot

Fixed issues

ID	BCT Call ID	Category	Description
BT-19721		Search	Teamcenter crashes when using the class browser in the classification search within advanced search
BT-16247		Server	The EasyPlot server crashes when some files are deleted from the print queue
BT-20712		Web	Don't require making changes to ActiveX execution settings in Internet Explorer
BT-21260	006599	GUI	Attributes do not show up for ItemRevisions
BT-21285	006703	GUI	Export by E-Mail attaches duplicate documents
BT-20889	005006	PrintingWeb	Local Print Buttons in preview window and clipboard are not working for webclient

BCT EasyPlot v18.12 (released on 2020-01-31)

Fixed issues

ID	BCT Call ID	Category	Description
BT-21216		Documentation	BCT AW Addons Documentation
BT-20989	005545	Web	BCT Send-To Web doesn't open BCT Easyplot for the second time
BT-21220		Stamping	BCT Easyplot does not read bl_quantity correctly

BCT EasyPlot v18.11 (released on 2019-11-28)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20917	005073	Printing	No printers were found when printing (happens randomly)
BT-21242		Portal Integration	BCT toolbar icons are disabled in TC 12, even though BCT menu entries work
BT-21203	006408	Printing	BCT EasyPlot server will print with delay if local time is later than that on client

BCT EasyPlot v18.9 (released on 2019-07-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20987	005472	Web	easypilot-web-attribut.html does not work for queries with spaces

BCT EasyPlot v18.8 (released on 2019-05-23)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20659	004351 005045		FlexLM named user license checkout always uses the OS user name

BCT EasyPlot v18.7 (released on 2019-03-28)**Enhancements**

ID	BCT Call ID	Category	Description
Q-910		Active Workspace	AW microservices should be deployable via WAR file on the Teamcenter application server

Fixed issues

ID	BCT Call ID	Category	Description
BT-19965		Installation	Uncertified BCT installer
BT-20628	004268	Web	Export Wizard does not show up in EasyPlot Web

BCT EasyPlot v17.0.14 (released on 2019-03-28)**Enhancements**

ID	BCT Call ID	Category	Description
Q-861		Active Workspace	Support Active Workspace 4.1

BCT EasyPlot v18.6 (released on 2019-01-31)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-20175	002962	Configuration	easyplot_client_shared.xml only allows attribute configuration for one item_type
BT-20551		Server	BCT EasyPlot server service stops immediately after the start

BCT EasyPlot v17.0.13 (released on 2019-01-31)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-20179	002983	Search	A search against dataset type is not possible in BCT EasyPlot

BCT EasyPlot v18.5 (released on 2018-11-22)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20419	003888	InstallationActive Workspace	TC12-microservices and AW40 files missing in BCT patch installer

BCT EasyPlot v17.0.11 (released on 2018-09-27)

Enhancements

ID	BCT Call ID	Category	Description
N-455		Active Workspace	Support Active Workspace 4.0

Fixed issues

ID	BCT Call ID	Category	Description
BT-20322	003363	Configuration	TC-Audit is not logging export through export assistant and when mailing exported files

BCT EasyPlot v17.0.10 (released on 2018-07-26)

Enhancements

ID	BCT Call ID	Category	Description
BT-19417	001639	Web	Change BCT Webclients login Header from PDM Addon to BCT Easyplot/BCT aClass with a BCT logo.
BT-20164	002924	Search	Advanced Search Item Type List is now sorted as [BCT_EASYPLOT_USE_ITEMTYPES] in bct_easyplot.ini or alphabetically if not configured

Fixed issues

ID	BCT Call ID	Category	Description
BT-20035	002507	Portal Integration	BCT Icons will be displayed multiple times in TC Portal in list of perspectives
BT-20096	002696	GUI	Extreme slow performance on sending drawings to clipboard
BT-19421	001633	Web	%TEMP% should be partially cleared when closing BCT EasyPlot Web
BT-20227	003154	Portal Integration	BCT Applications using Hiddenperspective pref comes back after a restart
BT-20234	003192	GUI	No. of copies option for All drawings is missing in the Print Dialog

BCT EasyPlot v18.2 (released on 2018-05-24)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-20029		Server	Printer warnings are displayed incorrectly in the server log

BCT EasyPlot v17.0.9 (released on 2018-05-24)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-19728		Search	FCC was not working for v1800 upwards

BCT EasyPlot v17.0.8 (released on 2018-03-29)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15638		Client	Watermark is not placed over the drawing in the preview window.
BT-20011		BCToogle	Autocompletion in column in BCToogle doesn't work for Autonomy 10 and later
BT-19617	001904	Printing	Documents on dependent Queues are printed before the last document of a BCT EasyPlot print job
BT-19651	001921	GUI	Change group does not work in ITK
BT-19423	001671	Printing	Print Local option only prints first page of the document and not all
BT-19966	002261	GUI	Clipboard is not sorted by position number in case bom view was not expanded before
BT-16531	BCT-123734	Web	Incorrect Watermark preview behavior in Easyplot webclient
BT-16532	000712	Web	Watermark does not appear at first start. Only the path appears
BT-19532	001753	Printing	Convert2PDF - PDF cannot be printed in PDF size A00
BT-19288	001255	GUI	No datasets are printed when nothing is selected in the clipboard

BCT EasyPlot v18.0 (released on 2018-02-01)

Enhancements

ID	BCT Call ID	Category	Description
BT-19454	001760	Installation	Automatically take care of copying latest jar (deleting old and adding/replacing new) during installation

Fixed issues

ID	BCT Call ID	Category	Description
BT-16284		Portal Integration	BCT Icons are not visible in toolbar in TC Portal after BCT Patch

BCT EasyPlot v17.0.7 (released on 2018-02-01)

Enhancements

ID	BCT Call ID	Category	Description
BT-19392		GUI	Expand/Collapse below in BOM window now only expands/collapses selected BOM line
N-345		Active Workspace	Support Active Workspace 3.4 for BCT EasyPlot
N-276		Active Workspace	Support both light and dark colour theme in Active Workspace

Fixed issues

ID	BCT Call ID	Category	Description
BT-16144		Server	Winpage size cannot be edited.
BT-19618		Installation	BCT Plugins are compiled with vc11
BT-19700		BCToogle	Sorting and searching by column in BCToogle doesn't work for Autonomy 10 and later

BCT EasyPlot v16.1.15 (released on 2017-11-02)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-16266		Printing	Convert2Pdf does not work correctly if Print Job Name is not configured/unique
BT-16584	000813	Printing	Dataset is not refreshed when it is sent to BCT EasyPlot clipboard
BT-19300	001280	GUI	Status column in search window does not show the values correctly when using column filter

BCT EasyPlot v17.0.5 (released on 2017-08-31)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-16589	IR000950	Server	Fix issues with communication with printer

BCT EasyPlot v16.1.14 (released on 2017-08-31)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-16544		Documentation	Virtual printer configuration parameter - inconsistency in configuration guide
BT-16137	000710 , 002292	Web	There's no automatic re-login when REST connection times out in pool manager
BT-16562	000796	GUI	BOM window is not sorted by find number
BT-16563	000918	GUI	Clipboard is not sorted by find number
BT-16632	001877	GUI	BCT_EASYPLOT_CLIPBOARD_SORT_KEEP_STRUCTURE should keep BOM line sort order

BCT EasyPlot v16.1.13 (released on 2017-06-28)**Enhancements**

ID	BCT Call ID	Category	Description
BT-16428		Server	Enhance performance when constructing BCT_EASYPLOT_PRINT_JOB_NAME_PATTERN with BOM line attributes
BT-16475		Documentation	The documentation should include the description for possible date formats
BT-16484	BCT-122975	Server	Enhance performance when printing Documents with BOMLine Stamps
R-722		Performance	Enhance performance when printing Documents with BOMLine Stamps

Fixed issues

ID	BCT Call ID	Category	Description
BT-16500	BCT-123678	Printing	Unable to print using Meta Printer when BCT_EASYPLOT_DISPLAY_DRAWING_FORMAT_IN_PRINTDIALOG=yes
BT-16489	BCT-123684	Printing	[BCT_EASYPLOT_PRINTER_QUEUE_DEPENDENCIES] doesn't work for windows versions other than WinXP/Win2003Server

BCT EasyPlot v16.1.12 (released on 2017-04-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-16312		Printing	New setting to avoid multiple copies of documents configured to be printed on all printers

Fixed issues

ID	BCT Call ID	Category	Description
BT-16306		Printing	Printing with a rotation and a colored stamp without Print Helper will paint the drawing in red
BT-16337		Printing	Convert2Pdf: Only accept document rotations of 0 or a multiple of 90
BT-16344		Stamping	Convert2Pdf: Stamp rotated and up/down scaled formats correctly
BT-16358		Stamping	Convert2Pdf: Cannot combine different FontStyles for stamps
BT-16391		Server	BCT EasyPlot Sever can not run as a service with "local system" account when print helper (convert2pdf) is used.
BT-16393		Server	Don't block BCT EasyPlot Server during convert2Pdf printing
BT-16359		Stamping	Convert2Pdf: Cannot use Underline or Strikeout FontStyles for stamps
BT-16362		Stamping	New positioning behavior for stamps
BT-16363		Stamping	Change offset direction for CENTER position to go right/up
BT-16360		Stamping	Convert2Pdf: Cannot use FontFamily for stamps
BT-16314		Stamping	Convert2Pdf: Stamping position differs depending on text length of stamp
BT-16427	BCT-122975	Server	PRINT_JOB_NAME_PATTERN construction doesn't skip BOM loading if no BOM keyword is used
BT-16442	BCT-123041	Printing	Convert2PDF print is not successfully after Adobe Reader DC update (2017.009.20044)
BT-16343		Stamping	Convert2Pdf: Invisible stamps for some PDFs with scanned Images
BT-16396	BCT-122829	Client	BCT EasyPlot Clipboard functionality "Context:Item:item_id" doesn't work.
BT-16295	BCT-122407	Printing	Tiffs can not be printed when print helper Convert2Pdf is used
BT-16291	BCT-122363	Stamping	Stamp position is wrong when PDF with 'Cross-Reference Streams' is printed and print helper Convert2Pdf is used

BCT EasyPlot v16.1.11 (released on 2017-02-02)

Enhancements

ID	BCT Call ID	Category	Description
BT-16310		Client	Performance enhancements when adding datasets to clipboard

Fixed issues

ID	BCT Call ID	Category	Description
BT-16269	BCT-122070	Installation	Ensure only the newest version of our BMIDE Templates are placed in BCT_EOMS_DIR
BT-15909	BCT-121787	Client	Clipboard filter does not match if brackets are contained in column value
BT-16252		Server	Plotting of restricted PDFs with BCT_EASYPLOT_PRINT_HELPER (convert2Pdf) fails
BT-16113	BCT-121532	Client	TC RAC freezes or crashes when EasyPlot Client loads Datasets of large assemblies to Clipboard

BCT EasyPlot v16.1.10 (released on 2016-12-01)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15908		Client	Attribute bl_level is not consistent across multilevel BOMs
BT-16236	BCT-121924	Documentation	TC v10.1.3 or later version is needed to deploy BCT_Exits BMIDE Template from BCT v17
BT-15400	BCT-116243	Client	starting EasyPlot Client should not open DOS shell
BT-16209	BCT-121532	Client	Performance enhancement in BOM resolving
BT-16099	BCT-121450	Client	EasyPlot doesn't display datasets of a BOM revision when the user doesn't have read access to a revision within BOM

BCT EasyPlot v17.0.0 (released on 2016-10-06)

Enhancements

ID	BCT Call ID	Category	Description
BT-16127		Active Workspace	Starting BCT EasyPlot print jobs in Active Workspace

BCT EasyPlot v16.1.9 (released on 2016-10-06)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16130		Client	Loading an external plot list as xml file crashes.
BT-16119		Client	EasyPlot Client crashes by printing a document that was copied by drag and drop.
BT-16108		Client	Cannot add multiple files of a dataset to the clipboard
BT-16073	BCT-121331	Installation	Error in Webclient Installation
BT-15896	BCT-119795	Client	Easyplot cannot open document in External Viewer when double click for second time

BCT EasyPlot v16.1.8 (released on 2016-08-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16034	BCT-120756	Client	BCT_EASYPLOT_PRINT_ALL_PRINTERS functionality: documents, that are printed on all printers, are scaled wrongly.
BT-15999		Configuration	easyplot-web.html includes a double definition for "var EASYPLOT_WEB_URL"

BCT EasyPlot v16.0.15 (released on 2016-08-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-16004		Client	Use attributes from selected (context) object for stamping
BT-15838	BCT-118935	Configuration	Allow to use BOM Line attributes for exported file name and job name

Fixed issues

ID	BCT Call ID	Category	Description
BT-15996		Client	Bomline attributes are empty by stamping related objects

BCT EasyPlot v16.1.7 (released on 2016-06-09)**Enhancements**

ID	BCT Call ID	Category	Description
BT-15861		Client	Print configured document (e.g. a "sorting sheet") on all involved printers and plotters

Fixed issues

ID	BCT Call ID	Category	Description
BT-15974	BCT-120393	Printing	convert2pdf.exe cannot write into Windows Registry on Server 2012 R2
BT-15926		Documentation	Export Mail missing in documentation

BCT EasyPlot v16.0.14 (released on 2016-06-09)**Enhancements**

ID	BCT Call ID	Category	Description
BT-15915		Printing	Formats should be read while using own settings without grouping the datasets first
BT-14988	BCT-113823	Configuration	Configurable file name for exported files

Fixed issues

ID	BCT Call ID	Category	Description
BT-15962		Server	Set BCT EasyPlot Server port with the windows services file does not work as documented
BT-15907	BCT-120129	Printing	Not all print jobs are sent to printer

BCT EasyPlot v16.1.6 (released on 2016-04-07)**Enhancements**

ID	BCT Call ID	Category	Description
BT-15845		Client	Filter array attributes in clipboard column filter
BT-15857		Client	Advanced sorting based on attributes
BT-15858		Client	Multilevel object path for resolving relations to find datasets
BT-15859		Client	Show values of related object properties in clipboard columns
BT-15860		Client	Assembly hierarchy path for stamp

Fixed issues

ID	BCT Call ID	Category	Description
BT-15830		Web	Changing user group back to default group does not work

BCT EasyPlot v16.0.13 (released on 2016-04-07)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15839		Documentation	Information about easyplot_client_shared.xml is missing in documentation

BCT EasyPlot v16.1.5 (released on 2016-02-04)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15634		Web	BCT EasyPlot Web support for TC 11.2 - requires bct_exits template update deploy

BCT EasyPlot v16.0.12 (released on 2016-02-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15716	BCT-117394	Printing	second print for NX Dataset from BCT EasyPlot does not work
BT-15756	BCT-118342	Printing	Only some files are printed not all

BCT EasyPlot v16.1.4 (released on 2015-11-05)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15715		Web	Wrong Help File Name in bct_easyplot_ws_de.html

BCT EasyPlot v16.0.11 (released on 2015-11-05)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15643	BCT-117721	Client	Problem with login when using a € (Euro sign) in password
BT-15686	BCT-117902	Server	Help -> Info contains incorrect OS for Windows Server 2012
BT-15696		Stamping	coordinate system in documentation is not correct

BCT EasyPlot v16.0.10 (released on 2015-09-10)

Enhancements

ID	BCT Call ID	Category	Description
BT-15572		Client	BCT EasyPlot Teamcenter PlugIn (4-Tier) uses Teamcenter File Client Cache (FCC) for file access
BT-15571		Stamping	BOM line stamp from part item assembly not added to design dataset

Fixed issues

ID	BCT Call ID	Category	Description
BT-15577	BCT-117312	Documentation	NOT up-to-date info does not use TC Attribute last_mod_date
BT-15590		Client	Dataset Type Selection list changed after doing a search

BCT EasyPlot v16.0.9 (released on 2015-07-09)**Enhancements**

ID	BCT Call ID	Category	Description
BT-15513		Web	BCT EasyPlot Web - Download files from the nearest FSC
BT-15545		Client	Convert PDF to tiff on client to benefit from FMS also for PDF files
BT-15447		Client	Support Part - Design Item Relation for resolving BOM structure

Fixed issues

ID	BCT Call ID	Category	Description
BT-15516		Printing	Convert2PDF does not support Acrobat Reader DC
BT-15505		Report Integration	TechDoc Bom page pdf can't be printed, pdf creation failed
BT-15500		Client	"Export to Excel" does not contain selected item, but only it's children
BT-15514		Printing	Convert2Pdf does not start Adobe for printing the file.
BT-15416	BCT-116336	GUI	Cannot move drawings in clipboard to a different format

BCT EasyPlot v16.0.8 (released on 2015-05-07)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15414		Server	BCT EasyPlot Server crashes when opening the print dialog

BCT EasyPlot v16.1.0 (released on 2015-03-26)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15403		Client	Opening the filter rule configuration dialog crashes.
BT-15354		Client	Save plotlist and load the plotlist again fails.
BT-15375		Client	Audit logging does not write events in Teamcenter
BT-14856		Client	The size from the Multiline field in the Search Window is not saved by closing EasyPlot
BT-14999		Configuration	Reload Printer config doesn't reload complete easyplot_printer.ini

BCT EasyPlot v16.0.7 (released on 2015-03-26)

Enhancements

ID	BCT Call ID	Category	Description
BT-15278	BCT-115637	Printing	Useful job names for printer queues

Fixed issues

ID	BCT Call ID	Category	Description
BT-15404		Client	Opening the filter rule configuration dialog crashes.
BT-15377		Client	Save plotlist and load the plotlist again fails.
BT-15376		Client	Audit logging does not write events in Teamcenter 10.1
BT-15002		Stamping	if SCALE=NO there is no stamp anymore
BT-14919	BCT-113510	Configuration	Incorrect display for preferred BOMView Type
BT-15427	BCT-116397	Client	Excel BOM Export Used In not working

BCT EasyPlot v16.0.6 (released on 2015-02-05)

Enhancements

ID	BCT Call ID	Category	Description
BT-15227	BCT-115111	Web	BCT EasyPlot Web does not end tc_server process when Internet Explorer window is closed

Fixed issues

ID	BCT Call ID	Category	Description
BT-15174		Documentation	Missing Information to delete easyplot_client.xml after upgrading from previous version
BT-15281	BCT-115362	Configuration	BCT Easyplot, filter definitions
BT-15283	BCT-115502	General	Release status is not getting updated in BCT EasyPlot when releasing the revision in the meantime in Teamcenter
BT-15263		Documentation	Installation of 2 BCT EasyPlot Server services

BCT EasyPlot v16.0.5 (released on 2014-12-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-15205	BCT-115089	General	Easyplot slow search performance

Fixed issues

ID	BCT Call ID	Category	Description
BT-14948		Client	Un-docking Preview Window changes preview picture
BT-15168		Documentation	Update "Parallel server installation on one system" in Configuration_BCT_EasyPlot
BT-15268		Stamping	BOM specific stamps do not work if BOM Line is send to clipboard
BT-15218	BCT-115180	GUI	Default search object for the advanced search wont change in the dropdown list
BT-15211	BCT-115153	GUI Interface	Column Filter Clearing not working
BT-15189	BCT-115044	Client	Sorting in the search window always sorts on the first column.
BT-15204	BCT-115095	General	Search Results not displaying all the values
BT-15230	BCT-115238	Installation	QtCore_vc8v4.dll is missing when starting easyplot_server_service.exe

BCT EasyPlot v15.1.10 (released on 2014-12-04)**Enhancements**

ID	BCT Call ID	Category	Description
BT-15021	BCT-114005	Portal Integration	Support of Teamcenter command suppression for BCT menu

Fixed issues

ID	BCT Call ID	Category	Description
BT-15237		Stamping	Sequence number stamp doesn't appear on plot

BCT EasyPlot v16.0.4 (released on 2014-10-09)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15145		Configuration	TechDoc URL should be taken from the bct_addons.ini
BT-14510		Web	Change Group/Role doesn't work
BT-15102	BCT-114402	Web	Watermark doesn't work in the Easyplot webclient for the first time.
BT-15105	BCT-114402	Configuration	Watermarking in black colour text shows as red colour

BCT EasyPlot v16.0.3 (released on 2014-08-07)

Enhancements

ID	BCT Call ID	Category	Description
BT-14984		Web	Hide "Change Group" as long as it does not work
BT-15016		GUI	Scale watermark to drawing area instead of whole preview window

Fixed issues

ID	BCT Call ID	Category	Description
BT-14857		Client	Chosen attribute in the search window is not saved by closing EasyPlot Client.
BT-15000	BCT-113863	Configuration	Custom attributes were not added to BCT EasyPlot TC Search Query - Query created with both internal and display name
BT-15044		Web	after starting BCT EasyPlot Web file "readme_gp1.template" is created on user's desktop
BT-15010	BCT-113925	Client	Shared setting by applying dataset selection in Search/Navigator window was not applied.
BT-15047	BCT-113918	Portal Integration	SendTo EasyPlot from Teamcenter does not work by performing the action for the first time in a TC session.

BCT EasyPlot v15.1.8 (released on 2014-08-07)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14959		Client	EasyPlot does not display the default revision rule

BCT EasyPlot v16.0.2 (released on 2014-06-12)

Enhancements

ID	BCT Call ID	Category	Description
BT-14975		Server	Use one value of an array attribute (first, last, nth) in stamps
BT-14928		GUI	enhanced formatting options for watermarks (based on batch print privilege): rich text and watermark alignment
BT-14860		GUI	Show only configured dataset types under item / revision in Navigator and Search window
BT-14909		GUI	define precedence for dataset types to be transferred to clipboard
BT-14705		Web	Start BCT EasyPlot Web via Weblink with "alternate ID"

Fixed issues

ID	BCT Call ID	Category	Description
BT-14778		Client	existing column filters in the clipboard are not applied for datasets added from the BOM View
BT-14922	BCT-113533	Web	PDF Drawing is not properly displayed in Preview window, it appears very small.
BT-14883		Installation	Missing sendto directory
BT-14923	BCT-113528	GUI	After clearing drawings in Search" and "Clipboard" window, searched drawing doesn't get cleared from "Preview" window.
BT-14977		GUI	After a search and all possible 'Send To' operations the first match should be selected in Search window
BT-14870	BCT-113300	General	Default values in Teamcenter Search are shown up as empty Search line in EasyPlot
BT-14885		Configuration	BOMFilter didn't work for Dataset:object_name
BT-14869	BCT-113298	General	Items with AlternateID not shown up correctly in Navigator and Search Window

BCT EasyPlot v16.0.1 (released on 2014-04-03)**Enhancements**

ID	BCT Call ID	Category	Description
BT-14832		Web	Launch BCT EasyPlot over a web link with the corresponding custom attribute
BT-14833		Client	Restrict printing by "Batch Print" privilege from Teamcenter Access Control List (ACL)
BT-14830		Client	Use the order of the given search for display in the Search Result
BT-12194		Web	Keeping track of all VIEW/EXPORT/PRINT events from the user

Fixed issues

ID	BCT Call ID	Category	Description
BT-14816		Installation	Wrong product is activated in web clients index.htm
BT-14779		GUI	Undocked windows remain open when closing BCT EasyPlot
BT-14854		Client	Starting EasyPlot client the first time from TC Portal after installation fails.
BT-14781		Client	EasyPlot client should notify if EasyPlot server is not reachable when printing

BCT EasyPlot v15.1.6 (released on 2014-04-03)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-14776		Client	Quick search in multiline field starts only with return not with enter on the numpad.
BT-14775		Installation	Webclient deletes bct_addons.ini, bct_easypplot.ini and bct_easypplot_printer.ini
BT-14690		Web	Only Partial Attributes are seen in the Listview
BT-14745		Client	Quick Search input is limited to 254 search terms

BCT EasyPlot v16.0.0 (released on 2014-02-27)**Enhancements**

ID	BCT Call ID	Category	Description
BT-13851	BCT-106805	Stamping	Use TrueTypeFont in BCT EasyPlot Stamps
BT-14274	BCT-109242	Client	Print same dataset in different formats
BT-14275	BCT-109274	Stamping	Date format of print_date is not customizable
BT-14710		GUI	Integrate Advanced Search Dialog as Tab in search area

Fixed issues

ID	BCT Call ID	Category	Description
BT-14774		Printing	Grid lines on printings
BT-13687		Configuration	Text in header of clipboard column is not displayed fully
BT-15664	BCT-117773	Client	Critical Error viewing second page of PDF Dataset

BCT EasyPlot v15.1.5 (released on 2014-01-30)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14645		Printing	Calls to custom converters contain slashes instead of backslashes
BT-14719		GUI	Reset User Interface does not reset thumbnail preview
BT-14649		Client	Critical error after adding an empty dataset to the clipboard
BT-14684		Client	Advanced Search with Attribute Class Name = * crashes EP Client
BT-14715		Web	File and Print Dialogs are not shown when using IE10 or IE11
BT-14712		Client	By Show/Hide/Dock the Thumbnail Preview is always cleared and loaded new
BT-14689		Client	Preview window displays drawings only partially
BT-14655		GUI	Enter Key in Search Input Field does not trigger Search
BT-14693		GUI	Docking/undocking from the BOM-Window loads the bomlines again

BCT EasyPlot v15.1.4 (released on 2013-11-21)

Enhancements

ID	BCT Call ID	Category	Description
BT-14631		Client	Multiple search strings in search window
BT-14632		Client	Load plot list from search window
BT-14633		Client	Local print from clipboard
BT-14630		Client	Thumbnail Preview to have a quick overview for all clipboard items

Fixed issues

ID	BCT Call ID	Category	Description
BT-14151		Portal Integration	Document how to hide BCT perspectives in TC Portal
BT-14563		Web	Datasetfilter has to be set every time when you start EasyPlot Web

BCT EasyPlot v15.1.3 (released on 2013-09-19)

Enhancements

ID	BCT Call ID	Category	Description
BT-14451	BCT-110703	Configuration	Configured default view type should not be selected if it is empty

Fixed issues

ID	BCT Call ID	Category	Description
BT-14423	BCT-110522	Configuration	DefaultChildProperties not recognized by BCT EasyPlot
BT-14504	BCT-111219	Web	Cursor jumps out of Search Box

BCT EasyPlot v15.1.2 (released on 2013-07-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14405		Installation	Installer BCT v15.1.1 removes %BCT_EOMS_DIR%\bct_plot\bin\windows\gs
BT-14429	BCT-110576	Portal Integration	Preview and export of dataset fails if original filename contains a "." (e.g. "assy.100.015.129.pdf") in 4-Tier
BT-14419	BCT-110476	Portal Integration	BCT Send-To cannot send Datasets to BCT Easyplot

BCT EasyPlot v15.0.6 (released on 2013-07-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-14403	BCT-110373	General	file path is stored in the zip archive when using the export function in BCT EasyPlot

Fixed issues

ID	BCT Call ID	Category	Description
BT-14402	BCT-110364	Printing	Error Page is printed out, also if no error occurs
BT-14410	BCT-110369	Printing	TEXT2PS.EXE not working inside 64 Bit environment
BT-14395	BCT-110322	Portal Integration	Drag and Drop Teamcenter navigator to BCT Perspectives does not work

BCT EasyPlot v15.0.5 (released on 2013-04-25)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-14334		Printing	Grid lines on printings
BT-14347		GUI	Only one BCT_EASYPLOT_RESOLVE_PSEUDO_FOLDER is considered per ItemType
BT-14346		Configuration	TOP stamps and TOP_QUANTITY_MULTIPLIER doesn't work with pseudo folders

BCT EasyPlot v15.1.0 (released on 2013-03-21)**Enhancements**

ID	BCT Call ID	Category	Description
BT-13846	BCT-106771	Client	setting to disable Print Log and Job Status windows
BT-13789		Client	Add information message box for empty search result (in addition to status message)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14153		Documentation	Document dependency between BCT EasyPlot Web and bct_exits in installation documentation
BT-14225		Documentation	Documentation about *_shared.xml is wrong

BCT EasyPlot v15.0.3 (released on 2013-01-17)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14248		Client	Easyplot Portal Client causes TC - Client to crash while trying to make a direkt print
BT-14179		Portal Integration	Restarting BCT EasyPlot in TC Portal crashes TC Portal
BT-14182	BCT-109249	Portal Integration	TC Portal Crash bei Restart der BCT EasyPlot Perspective
BT-14204	BCT-109251	GUI	Sort order isn't kept for correct column when view is scrolled
BT-14090		Web	Logging in and displaying BOM in BCT EasyPlot Web is slow

BCT EasyPlot v14.1.7 (released on 2013-01-17)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14203		GUI Interface	Typo in german tooltip, should be "Sortierreihenfolge wiederherstellen"
BT-14186	BCT-107676	Configuration	BOM Line attribute values not displayed

BCT EasyPlot v15.0.2 (released on 2012-10-25)

Enhancements

ID	BCT Call ID	Category	Description
BT-14170		Stamping	Stamp quantity from a BOM component to drawing

Fixed issues

ID	BCT Call ID	Category	Description
BT-14056		Printing	Convert2Pdf.exe stops working
BT-14171		GUI	Add To Clipboard should also resolve objects referenced by Pseudo Folders (relations)
BT-14055	BCT-107699	Printing	alternate PDF Print set different location for stamps
BT-13749		Client	gswin32c.exe crashed during PDF Preview

BCT EasyPlot v14.1.6 (released on 2012-10-25)**Enhancements**

ID	BCT Call ID	Category	Description
BT-14166		Server	List all installed Windows Printers with their supported formats including the WinPageSizes with "Info"
BT-14167		Server	Compute best WinPageSizes for each configured format of a EasyPlot Printer in Printer Configuration

Fixed issues

ID	BCT Call ID	Category	Description
BT-14138	BCT-108235	Web	bct_easyplot_printer.ini will not being synchronized locally
BT-14155		GUI	EasyPlot crashes when displaying corrupted TIFF
BT-14141		Configuration	EasyPlot Web needs to be started twice to reflect changes made in bct_easyplot.ini

BCT EasyPlot v15.0.1 (released on 2012-08-30)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-14065		Installation	Teamcenter is using our zip.exe

BCT EasyPlot v14.1.5 (released on 2012-08-30)

Enhancements

ID	BCT Call ID	Category	Description
BT-13919	BCT-107712	Configuration	Hide BCT Menus for certain user by using TC preference HIDDEN_COMMANDS
BT-13989		Configuration	External Send To BCT EasyPlot selects latest revision instead of configured revision

Fixed issues

ID	BCT Call ID	Category	Description
BT-14051	BCT-107689	GUI	Teamcenter Preference HiddenPerspectives does not work
BT-13875	BCT-106854	Portal Integration	Hide BCT perspectives
BT-13848	BCT-106775	Web	Readme template is not copied in %Temp%
BT-13938	BCT-107182	Client	Easyplot crashes if user has no write access to Dataset
BT-13947		Web	BCT EasyPlot Web cannot connect to BCT_EASYPLOT_SERVER
BT-13978	BCT-107393	Configuration	Setting BCT_EASYPLOT_LOCAL_PAGESIZE is not read correctly from INI (issues with lower case chars)
BT-13930		Server	BCT EasyPlot Server PDF Printing does not support multiple Pageformats on the same Printer
BT-13788	BCT-106757	Printing	Selection to print from preview window is not printed correctly
BT-14039	BCT-106757	Printing	Preview print thickens lines

BCT EasyPlot v15.0.0 (released on 2012-07-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-13293		GUI	BCT Easyplot does not support the new style item type display names
BT-14001		Configuration	External Send To BCT EasyPlot selects latest revision instead of configured revision
BT-13813	BCT-106539	Configuration	changes and updates for properties in bct_easyplot.ini
BT-13771	BCT-106352	Documentation	Configuration of stamping
BT-13756	BCT-106217	Configuration	Adding freetext in Stamp text

Fixed issues

ID	BCT Call ID	Category	Description
BT-13664		Documentation	Document Configuration_BCT_EasyPlot is not up to date
BT-13934		Portal Integration	After "BCT Send To -> BCT EasyPlot" object which was send is not selected
BT-13794	BCT-106453	GUI	Group ID should be displayed in clipboard
BT-13980	BCT-107182	Client	Easyplot crashes if user has no write access to Dataset
BT-13979	BCT-107393	Configuration	Setting BCT_EASYPLOT_LOCAL_PAGESIZE is not read correctly from INI (issues with lower case chars)
BT-13778	BCT-106352	Printing	Stamp FONTSIZE is not correctly interpreted as pt
BT-13777	BCT-106352	Printing	Stamp position (OFFSET_X and OFFSET_Y) is not correctly interpreted as mm
BT-13769	BCT-106352	Printing	two stamps can not be positioned close to each other (min distance is always height of font)
BT-13610		Configuration	EasyPlot Web needs to be started twice to reflect changes made in bct_easyplot.ini
BT-13758	BCT-106217	Configuration	Stamp Offset is not defined in millimeters
BT-14038	BCT-106757	Printing	Selection to print from preview window is not printed correctly

BCT EasyPlot v14.1.4 (released on 2012-06-01)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13836	BCT-106691	Client	after "BCT Send To -> BCT EasyPlot" a manual open of the BCT EasyPlot Portal perspective is necessary
BT-13822		Web	Printing did not work in EasyPlot WebClient
BT-13904		Client	BCT EasyPlot ITK does not display TIF Preview when SECURE_FILES is enabled in the bct_addons.ini
BT-13920		Installation	Error in installation log
BT-13784	BCT-106704	Web	EasyPlotWeb-Client doesn't save modified configuration in %APPDATA%\BCT\easyplot_client.xml

BCT EasyPlot v14.1.3 (released on 2012-03-22)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13759	BCT-106124 BCT-106036	Portal Integration	TC Portal crash
BT-13488		Client	Viewer does not recognize different file with same file name in Dataset
BT-13751		Client	If BOM Root has no dataset to plot, BOM Report is generated for first child with printable dataset
BT-13747		GUI Interface	Display string for ItemRevisions is without object_string ("0011334/A" instead of "0011334/A - TESTITEM")
BT-13745		Client	Export doesn't work (export wizard)
BT-13737		GUI Interface	if multiple objects are send with "Send To" from TC to EasyPlot, GUI on the right side isn't correct
BT-13753		Client	Attributes from additional Form (not Master Form) can be configured in with UI, but values are not displayed
BT-13766		Server	BCT EasyPlot Portal does not run in clustered BEA Weblogic environment
BT-13768	BCT-106342	Client	Item Revision Search query is not used
BT-13746		Web	BCT EasyPlot Web cannot checkout License when BCT_LICENSE_FILE is not set
BT-13607	BCT-105261	Printing	Lines on A2 printings

BCT EasyPlot v14.1.2 (released on 2012-01-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-13709		Client	BCT EasyPlot: Export one level of a BOM as Excel Report
BT-13499	BCT-104714	Client	Print data only from a certain Creation Date

Fixed issues

ID	BCT Call ID	Category	Description
BT-13661		Web	Wrong Help URL for EasyPlot Web
BT-13686		Client	Item Type "Document" is not displayed in Attribute Selection
BT-13710		Client	Autocompletion did not work correctly for BCToogle and Find Window
BT-13713		General	Fixed issue with search of items in classes
BT-13609		Configuration	Revision attributes of custom Item types created with BMIDE are not displayed

BCT EasyPlot v8.1.6 (released on 2012-01-23)

Enhancements

ID	BCT Call ID	Category	Description
BT-13702		Stamping	Allow to stamp attributes from top assembly to all sub assembly prints (keyword TOP in stamp definition)

BCT EasyPlot v14.1.1 (released on 2011-11-24)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13641		Client	UI for Filter Configuration does not allow to choose actions and filter rule junction correctly
BT-13615		Client	EasyPlot Clipboard AutoFilter not working
BT-13624		Web	Help in EasyPlot Web does not work
BT-13626		GUI	Keeping sort order doesn't work
BT-13358		GUI	When a multipaged document is displayed in the preview the page tabs are hidden after resizing the preview
BT-13606		Client	Quicksearch doesn't work correctly
BT-13608		Web	preview of PDFs in BCT EasyPlot Web does not work
BT-13604		Web	Some Dialogs are not translated in german in EasyPlot Web
BT-13603		Web	Removed Icons or Modified Teamcenter Icons are not synchronized correctly
BT-13614		Configuration	BCT_EASYPLOT_PRINT_NAMED_REFERENCES accepts only one Datasettype
BT-13611		Configuration	Datasettype filter is not applied for datasets directly referenced below items

BCT EasyPlot v14.0.5 (released on 2011-11-24)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13637	BCT-105366	Client	Filter is not applied to first BOM Line (root node)
BT-13538	BCT-104874	Client	PDF preview does not work if PDF filename contains spaces
BT-13552	BCT-104874	Client	Attributes are not displayed in multiple lines

BCT EasyPlot v14.1.0 (released on 2011-11-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-13180		GUI	Selecting the object type of the result objects in the EasyPlot extended search
BT-13077	BCT-102244	GUI Interface	disable Shell execute function in Clipboard
BT-13043	BCT-102115	Client	Extending the send-to menu for ds-handl., making it available from the clipboard and adding dataset specific handling on tc side

Fixed issues

ID	BCT Call ID	Category	Description
BT-13410		Server	BCT Easyplot Web/Portal crash when _FDIS Encoding is set
BT-13182		Configuration	Creating search queries should not be restricted to the DBA user but to all users in the DBA group in teamcenter
BT-13289		Configuration	The BCT_ADDON_ITEM_FORMS/BCT_ADDON_ITEM_FORM_TYPES settings are not documented well enough
BT-13288		Portal Integration	EasyPlot Portal crashes Teamcenter when no license could be checked out
BT-13341		Installation	No BCT_TC_WEB_TIER_URL asked for BCT EasyPlot installation
BT-13271		GUI	Adding a Plot-Object from a Dataset selected in the BCT EasyPlot Navigator results in a empty Plot-Object
BT-13526		GUI Interface	Drawings with no Datasets are not classified correctly in the "Dataset not found"-Format
BT-13273		GUI	Adding a Dataset from the Search Result View crashes the BCT EasyPlot client
BT-13278		GUI	Header columns in the BOM View do not fit their content
BT-13376		Client	BCT EasyPlot Web Client does not download the "bct_def"-directory
BT-13498		GUI	The column width of the search view should adapt not only to the initial object name but also when the object is expanded
BT-13537		GUI Interface	The attributes in the attribute preview of EasyPlot are not ordered according to the sort order in the attribute configuration
BT-12979		Web	BCT Easyplot Web doesn't display PDF Previews in default configuration
BT-13459	BCT-104479	Portal Integration	on start PortalClient deletes all files in %BCT_SHARED_SETTINGS_DIR%
BT-12915		GUI	Customize General Search in Navigator

BCT EasyPlot v14.0.3 (released on 2011-07-28)**Enhancements**

ID	BCT Call ID	Category	Description
BT-13339		General	EasyPlot performance issues (BOM View, Clipboard etc.)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13451		GUI	EasyPlot crashes while restoring the attribute order in the clipboard
BT-13405		Printing	Extern printing mechanism does not support complex stamps (via stampInfo.xml)

BCT EasyPlot v8.1.5 (released on 2011-06-16)**Enhancements**

ID	BCT Call ID	Category	Description
BT-13260		Client	Empty items in the EasyPlot clipboard should be listed in the error report

Fixed issues

ID	BCT Call ID	Category	Description
BT-13497		GUI	The item type selection combobox is partially visible in the attribute preview in the BCT EasyPlot client
BT-13024	BCT-102121	Server	No error and title pages are printed when printing via PJCL print mechanism in BCT EasyPlot

BCT EasyPlot v14.0.2 (released on 2011-05-26)

Enhancements

ID	BCT Call ID	Category	Description
BT-12821		Report Integration	Replacement of tags in the author/comments field of the BCT TechDoc Wizard with the corresponding Teamcenter attribute values

Fixed issues

ID	BCT Call ID	Category	Description
BT-13290		Documentation	The bct_easypilot_attributes.xml documentation is not correct
BT-13287		Configuration	The attribute configuration process in BCT EasyPlot is not documented well enough
BT-13291		Web	User defined Icons are not displayed in the BCT EasyPlot Web-Client
BT-13377		Client	BCT EasyPlot Web pollutes the customer specific icons for item types, dataset types...
BT-13313		Client	Attribute and Drawing Preview are not always displayed when an Item is selected in the BOM View
BT-13315		Report Integration	EasyPlot Client fails to open the report generated by the TechDoc-Wizard
BT-13302		GUI	The attribute preview does not work correctly in BCT EasyPlot

BCT EasyPlot v14.0.1 (released on 2011-03-31)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13305		Printing	Printing a Letter-Sized PDF File in via the external print Mechanism in BCT EasyPlot cuts off margins
BT-13285		Web	The EasyPlot Web/Portal Client is displayed even when the user failed to log in
BT-13294		Printing	Using Direct Print in BCT EasyPlot works by pure chance
BT-13299		Printing	Executing Print Jobs on Network Printers with the external Print Mechanism does not work
BT-13297		Printing	Printing Word/Excel Files via the external PDF print mechanism in BCT EasyPlot does not work

BCT EasyPlot v14.0.0 (released on 2011-02-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-12864		General	Displaying of PDF files in the preview window without converting them first to TIFF
BT-12850		General	Warn if second BOM is added to clipboard
BT-13101		GUI	Replace sort checkbox in the BCT EasyPlot client clipboard with a button that restores the original order of plot objects
BT-12808	BCT-100795	Client	Configure search to search by default for Item Revisions
BT-13083		GUI	Ungrouping Datasets in BCT EasyPlot should restore the adding order (important for BOMs)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13190		Portal Integration	Drag and Drop does not work
BT-13228		Client	Sending the same item multiple times from Teamcenter Portal to BCT EasyPlot results in multiple items in the search result view
BT-13119		GUI	Support Alternate IDs from Teamcenter
BT-13202		Stamping	Drawing stamps disappear when using SCALE_POSITION=yes and an angle rotation
BT-13220		Documentation	Documentation about stamp configuration is not complete (details on offset and rotation are missing)
BT-13218		Client	BCT Easyplot does not support Teamcenter SSO
BT-12883		GUI Interface	Sort order of plot items in the BCT EasyPlot clipboard is not restored on checking the sort check box

BCT EasyPlot v8.1.2 (released on 2010-11-09)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13050	BCT-102183	Documentation	Misspelling in Parametername
BT-13004	BCT-102021	Client	OutputSize of the created SSL file is not set correctly which makes printing the SSL file impossible
BT-12916		GUI	Advanced Search should by default be not docked
BT-13012	BCT-102026	Client	BCT EasyPlot crashes after a certain item was clicked in the Search View
BT-12981	BCT-101924	Client	Client gets time out if large CGM is converted
BT-13044		Printing	The alternative PDF-Print-Mechanism in BCT EasyPlot does not support PDF with more than one page
BT-13008		Server	Printing via the alternative pdf printing mechanism in BCT EasyPlot prints always only one copy
BT-13075		Client	BOM refresh does not work
BT-13078		GUI	Filters should not be applied on the root node in the bom view
BT-13031	BCT-102085	Printing	printing mulipage PDF file with the PDF function generates a single sheet output

BCT EasyPlot v8.1.1 (released on 2010-09-23)

Enhancements

ID	BCT Call ID	Category	Description
BT-12912	BCT-101552	GUI	Display BOM-Views depending on Dropdown menu

Fixed issues

ID	BCT Call ID	Category	Description
BT-12860		General	The extended search in BCT EasyPlot ignores group change
BT-12923		GUI	EasyPlot crashes after an empty item was added to the clipboard
BT-12896		Documentation	Documentation of easyplot_client_shared.xml is missing
BT-12922	BCT-101599	Portal Integration	com.bct.java.externals_8.0.0.0.jar hinders the user from logging in into Teamcenter-4Tier-Portal TC v8.1

BCT EasyPlot v8.1.0 (released on 2010-08-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-12561		GUI	PictuerFlow Integration für Clipboard-Content
BT-12545		Stamping	Stamp position "CENTER".
BT-12544		GUI	EasyPlot Portal (not ITK) switch group.
BT-12635		GUI	Column view in the print menu.
BT-12638		GUI	Quick Search field not only for ItemId
BT-12315		Stamping	Stamps dependent on the item type.
BT-12393		Client	Possibility to send items from BCToogle to the search window (not only to the clipboard).
BT-12560		Configuration	Extension of the internal viewer regarding further formats, urgently PDF.
BT-12752	BCT-100603	Client	No print output if dataset is configured twice.

Fixed issues

ID	BCT Call ID	Category	Description
BT-12712		Installation	Portal PlugIn Installation
BT-12614		Installation	Update of windows service for BCT EasyPlot fails
BT-12780	HS	Stamping	Stamp position is wrong in case of large pages sizes and a specific user scaling
BT-12859		GUI Interface	Two fields are overlapping each other in the search window.
BT-12746		Installation	PlugIn Properties not used
BT-12768		Printing	Print time of a job is ignored for PDF Printing .Net Tool
BT-12769		Printing	BCT_EASY_PLOT_DISABLE_COMPLETE_COPY_SET is not working for PDF Printing .Net Tool
BT-12767		Printing	Transparent Stamping for PDF Printing .Net Tool
BT-12770	BCT-100798	Server	Plot Process hangs if external converter does not generate a TIFF
BT-12751	BCT-100603	Installation	Windows-64bit Support unvollständig nach Installation von V8.0.1
BT-12799	BCT-101013	Printing	Stamp isn't rotated if plot gets rotated by 180 degrees.

BCT EasyPlot v8.0.3 (released on 2010-07-29)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12873	BCT-100600	GUI	object_name is displayed wrong with TC8.1 UA

BCT EasyPlot v8.0.0 (released on 2010-05-25)

Enhancements

ID	BCT Call ID	Category	Description
BT-12322		Client	einmal erstellt BOM-Filterregel kann nicht mehr gelöscht werden
BT-12268	20091141	Stamping	More than one Signoff name for Stamping
BT-12164		Configuration	"Apply" button in attribute selection window / change column size
BT-11730		Client	Drag & Drop from Navigator, Search and BOM to Clipboard should be implemented
BT-11703	UGS India Pvt Ltd	Stamping	Grafik als Stempel nutzen
BT-12489		GUI	Bedienung ohne Maus
BT-12408		GUI	UI enhancements
BT-12606	20100339	Printing	Druckausgabe blattweise
BT-12319		GUI	Druckbare Fehlerlist bei Drucklistenimport
BT-12336		GUI	Store last 10 searches
BT-11810		General	Status einblenden hinter Artikelanzeige
BT-12269	20091114	Server	Logfile of the printed jobs in Excel format
BT-12490		Configuration	Wrong warning message while leaving the paperformat (windows print dialog) with cancel
BT-12335		GUI	Support of several BOM-View Types
BT-12314		Stamping	Stempelung von Statustexten ohne EDS_MAP_STATUS Pref
BT-12195		Client	Suche in Stückliste

Fixed issues

ID	BCT Call ID	Category	Description
BT-12290		Web	Export-Assistent (ZIP) aus Clipboard unterstützt keine Sonderzeichen in Ordernamen
BT-12039	20090367	Printing	Stamp is defined after sheet size instead of after printing size
BT-12482		GUI	Autofilter im Clipboard aktivieren/deaktivieren
BT-12588	20100049	Printing	Easy Plot V8.0 RC1: Plotanzahl beim Drucken über Alternative PDF-Weg
BT-12521	20092371	GUI	Export to filesystem is not the same as the filtered clipboard content.
BT-11555		Client	Fehlermeldung bei fehlgeschlagenem login

BCT EasyPlot v8.0.2 (released on 2010-05-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-12701		Printing	Multiple stamp positions at the PDF Print Workaround.

Fixed issues

ID	BCT Call ID	Category	Description
BT-12697		Printing	Support MultiPage PDFs with different page sizes

BCT EasyPlot v8.0.1 (released on 2010-04-16)

Enhancements

ID	BCT Call ID	Category	Description
BT-12644		Printing	Convert2PDF Stamping Offset
BT-12603		General	FlexLM Lizenz

Fixed issues

ID	BCT Call ID	Category	Description
BT-12681		GUI	EasyPlot-Client im Portal wird als Child-Tab von 'Mein Teamcenter' geöffnet - dadurch reicht der Platz fürs GUI nicht.
BT-12615	20100417	GUI	Textfelder (Status) bekommen in der Attribut-Vorschau einen Scrollbalken, wenn der Text zu lang wird, Darstellung erfolgt recht
BT-12629		Client	Spaltenansicht im Suche-Fenster ist nicht in Ordnung
BT-12631		Client	Suche nach dem Status funktioniert nicht
BT-12630		Client	Datumfelder in der Global-Search werden falsch dargestellt
BT-12616		Web	Icons im Webclient sind nicht komplett
BT-12634		Stamping	Stempelposition variiert
BT-12624	20100462	Installation	Installationas Guide has screenshots which show version 7 / version 6

BCT EasyPlot v7.1.3 (released on 2010-02-11)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-12584		Installation	Invalid Ghostscript directory after update

BCT EasyPlot v7.1.1 (released on 2009-10-01)**Enhancements**

ID	BCT Call ID	Category	Description
BT-12231		GUI	Autofilter in EasyPlot Clipboard

Fixed issues

ID	BCT Call ID	Category	Description
BT-12403		Client	BCT TechDoc Wizard crashes in BCT EasyPlot Web

BCT EasyPlot v7.0.0 (released on 2009-06-09)

Enhancements

ID	BCT Call ID	Category	Description
BT-11648		Client	Resolve bill of materials while add to clipboard
BT-11646		Client	Plotten aus BAAN
BT-11608		Client	Suche über alle ItemTypen in Advanced Search
BT-11856		Web	PDF Preview in Adobe Acrobat Reader does not work if Memory Buffer is enabled
BT-11589		GUI	Wizard zu umständlich

Fixed issues

ID	BCT Call ID	Category	Description
BT-11619		General	"\" an TC_DATA in Startskript verursacht Tc Unified Login Probleme
BT-12162		Client	BCT Easyplot Portal(4Tier) is not part of the released BCT Easyplot Installer
BT-11696		Client	4-Tier Installer
BT-11905		Client	BCToogle - Teilanzahl der Suchergebnisse wird nicht angezeigt

BCT EasyPlot v6.1.1 (released on 2008-10-17)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11828		Server	EasyPlot server dies when stamps are given and debug enabled.
BT-11821		Web	Bei zusätzlich konfigurierten Formularfeldern in der Anzeige bleiben diese leer

BCT EasyPlot v6.0.0 (released on 2008-10-16)**Enhancements**

ID	BCT Call ID	Category	Description
BT-11398		Client	Attribut Anzeige in FindItem Window

Fixed issues

ID	BCT Call ID	Category	Description
BT-11480		Configuration	Advanced Search Fields configuration
BT-11506		Web	Printers in BCT easyplot web are not showing up all the time.
BT-11414		Stamping	Not-up-to-date Stempel
BT-11437		Server	Windows Dienst stoppen schlägt fehl, wenn 2 Server Instanzen laufen
BT-11486		Client	Prüfung TcEng Berechtigung, ob Objekt angezeigt werden darf!
BT-11523		Printing	Missing PlotData in PJCL Job

BCT EasyPlot v6.1.0 (released on 2008-08-26)

Enhancements

ID	BCT Call ID	Category	Description
BT-11509		Client	Export Assistent (Definition aus Konfiguration anzeigen)
BT-11433		Printing	Automatische Druckerkonfiguration
BT-11647		Client	Multiselect für "Senden an BCT TechDoc"
BT-11584		Client	Menge in BOMWindow anzeigen

Fixed issues

ID	BCT Call ID	Category	Description
BT-11578		Web	Web Client Installation
BT-11641		Client	After changing the load options the bill of material was not refreshed
BT-11558		Web	Dockable Widget Status wird nicht gespeichert
BT-11618		Client	Open via VIEWER_NAMED_REFERENCES opens only the last named reference of the dataset
BT-11554		Web	List BOM Performance
BT-11616		Client	Show warning for huge number of printings
BT-11746		Web	BCT_TECH_DOC Lizenz wird nicht über Web Service ausgecheckt
BT-11583		GUI	Menü "Send to TechDoc" sendet nur ein Item
BT-11624		Installation	2. Installation bricht ab
BT-11556		General	Installation - Auswahl der Teamcenter Version
BT-11635		Client	Button "Export in ein Verzeichnis" wird bei ändern der Gruppe nicht aktiv

BCT EasyPlot v6.0.6 (released on 2008-04-11)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11640		Web	Easypilot Web - Laderegel in Stückliste wird nicht korrekt berücksichtigt
BT-11592		GUI	Attributsanzeige von mehrzeiligen TCX-Attributen
BT-11582		Web	Menü TCX "Send to EasyPlot" sendet das selektierte Element nicht.

BCT EasyPlot v6.0.5 (released on 2008-03-10)

Enhancements

ID	BCT Call ID	Category	Description
BT-11536		Web	Toolsetting XML nicht mehr Bestandteil von cab-Datei

Fixed issues

ID	BCT Call ID	Category	Description
BT-11551		Web	angepasste Icons für den Itemtyp werden nicht über den Web Service geladen
BT-11561		Web	Dokumentation zur Installation von BCT Webservices fehlt
BT-11562		Web	BCT Webservices

BCT EasyPlot v5.1.3 (released on 2007-12-17)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11491		Printing	Mangelhafte Druckqualität bei PDF-Dokumenten mit Stempelung

BCT EasyPlot v5.1.2 (released on 2007-12-06)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11487		Web	If opens an item in the navigator it is possible that the wrong revId is displayed
BT-11347		Client	Filter Navigator content
BT-11373		Printing	Direct Print PDF: Adobe Reader wird nicht beedent,

BCT EasyPlot v5.1.0 (released on 2007-09-03)

Enhancements

ID	BCT Call ID	Category	Description
BT-10682		Client	Snapshot Auflösung in Stücklistenfenster (Task V5.1)
BT-11161		Client	Configuration for file open

Fixed issues

ID	BCT Call ID	Category	Description
BT-11341		Printing	Size in different format are different
BT-11259		Web	Open files in external viewer
BT-10919		Configuration	Einschränkung der auswählbaren Itemtypen (Task V5.0)
BT-11283		Web	Web Service kann unter Remotedesktopsitzung nicht als Dienst installiert werden
BT-11335		Web	Bei sehr langsamen TcEng Antwortzeiten unterbricht der Client die Verbindung

BCT EasyPlot v5.0.0 (released on 2007-02-13)

Enhancements

ID	BCT Call ID	Category	Description
BT-10796		Client	EasyPlot Filter auch für Navigator und Suchfenster (Task V5.0)
BT-10894		Client	Druck von Assembly Struktur ohne Zeichnungsplot (Task V5.0)
BT-10893		Client	Druck von Assembly Struktur enthält dopplete Dokumente (Tasks V5.0)
BT-10895		Client	Anzeige Anzahl Zeichnungen (Task V 5.0)
BT-11134		Client	Disable possibility for gloabal search
BT-10896		GUI	Anzahl der Seiten sollte im EasyPlot Druck-Dialog angezeigt werden. (Task V 5.0)
BT-10753		Printing	Baugruppenplotten (Task V5.0)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11258		Web	Fehlende TcEng 2005 Icons
BT-11142		Client	SendTo EasyPlot sendet aber es kommt nix an.
BT-11140		Client	Class Such-Attribute werden nicht gespeichert
BT-11146		Client	Testcase 1284 for build 200612151 fails
BT-10977		Printing	CGM2HPP Prbolem mit NX4 CGMs
BT-11133		Client	Spacer in Advanced Search Dialog

BCT EasyPlot v4.1.0 (released on 2006-09-21)

Enhancements

ID	BCT Call ID	Category	Description
BT-10873		Client	Dokumente aus Clipboard entfernen
BT-10697		General	Hilfe ist nicht im bct_help Verzeichnis
BT-10560		Configuration	generelle Installierbarkeit
BT-10653		Client	Kombination vom Laderegel und Filterregel (Task V4.1)
BT-10660		General	Handling der Form unter Datasets

Fixed issues

ID	BCT Call ID	Category	Description
BT-10790		Configuration	Port Einträge in bct_addons.ini
BT-10809		Client	Support von Datasets die unter einem Dataset referenziert sind.
BT-10976		Client	Auflösung von Datasets referenziert unter Dataset
BT-10917		Client	Abspeichern von Suchabfragen
BT-10916		Client	Portal Fenster verschwindet hinter anderen Fenstern
BT-10853		Client	Save advanced search
BT-10871		Client	Cursor bei Drag & Drop von Zeichnungen in andere Formate
BT-10921		Client	Itemtyp in Suchabfragefenster merken

BT-10952		Client	Export filenames with special characters
BT-10845		General	EasyPlot 4.1 RC1 bct_plot Verezeichnis zu BCT Products V9.1 RC1 unterschiedlich
BT-10808		Configuration	INI Einträge gehen beim Schreiben der bct_easyplot_printer.ini in einer bestimmten Konstellation verloren.
BT-10986		Server	Probleme beim Schreiben von CRI Job-files
BT-10936		Server	beim Start des Dienstes wird unterhalb vom BCT_EOMS_DIR die Datei easy_plot_server.xml geschrieben
BT-10855		General	Support for Subgroups
BT-10817		Client	Erweiterungen für Revisionsanzeige

BCT EasyPlot v4.0.0 (released on 2006-04-19)

Fixed issues

ID	BCT Call ID	Category	Description
BT-10587		Client	Doppelklick auf Worddataset öffnet Word nicht
BT-10811		Client	TcEng Konfigurationsregel "Latest by AlphaRev" wird falsch von TcEng interpretiert
BT-10721		Client	EasyPlot kann nicht mehr genutzt werden.
BT-10708		Client	Nicht Darstellung von ImanRelations wie z.B. Items über die Referenz im "based_on" Attribut

BCT EasyPlot v7.1.2 (released on 2006-04-18)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12499		Client	Dokument wird zwei mal geöffnet bei Doppelklick
BT-12467		Printing	Plotspooler Error-Handling
BT-12484		Web	Item Type Icons were not displayed if user executed advanced search for Revisions
BT-12396	20091547	Printing	scaling of plot does not work correct
BT-12450	20091945	Printing	Auf farbigen TIFFs fehlen im Ausdruck Details
BT-12476		Client	Autofilter is not cleared after Clipboard cleanup
BT-12486		Web	Some Formattributes are not displayed

BCT EasyPlot v7.0.3 (released on 2006-04-18)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-12287	20091166	Printing	Invalid Pagesize but log says successfully printed
BT-12337		Configuration	Filterregel (BOM:Level:1:stop) funktioniert nicht, wenn Selektion einer Stücklistenposition
BT-12281	20091169	Printing	Unknown Formats cannot be mapped to an other format by Drag & Drop
BT-12301		Client	TechDoc Wizard

BCT EasyPlot v7.1.0 (released on 2006-04-18)

Enhancements

ID	BCT Call ID	Category	Description
BT-12126		Configuration	Status-abhängiger Stempel auch für keinen Status. "In Arbeit"
BT-11814		General	Copy/Paste aus der Stückliste erweitern

Fixed issues

ID	BCT Call ID	Category	Description
BT-11739		Configuration	Keine Doku zu shared.xml
BT-12158		Web	TC Item Typ Icons werden nicht im Suchfenster angezeigt
BT-12230		Client	User Preferences werde nicht ausgelesen
BT-11617		Client	Report über erfolgreichen Druckauftrag
BT-12317		Printing	PDF wird nicht sauber gedruckt
BT-12255	20091084	Server	Rotation 180° leads to unfitting dimensions (A3)
BT-11974	20082325	Printing	format "unknown" won't get a stamp
BT-12376		Client	Item Type Item is selected also for different Item types
BT-11783		Client	Plotten von veralteten Indizes
BT-11720		Configuration	Attribute einer Klasse werden nicht vollständig geladen
BT-12154		Configuration	Form-Attribute werden nicht sofort beim Starten von EasyPlot richtig angezeigt
BT-12173		GUI Interface	Invalid Transfermode List in BCT TechDoc Wizard

BCT EasyPlot - Known Issues and Limitations

ID	BCT Call ID	Category	Description
BT-16377		Stamping	Convert2Pdf: Cannot use image stamps
BT-16378		Printing	Convert2Pdf: Does only support the fit scaling behavior but not auto
BT-16379		Stamping	Convert2Pdf: Does only support scaling after stamping - so stamp size and position is always scaled to new size
BT-16009		Configuration	BOM attributes with space (e.g. UG GEOMETRY) cannot be used for file pattern, job name and stamps
BT-19960	002219	Printing	Using Roll as paper format will not print the drawings in color, since Roll cannot be used in Convert2PDF
BT-20073	002633	Printing	PDFCreator rotates sheet automatically when using long dynamic stamps

BCT CheckIt

BCT CheckIt v25R2 (released on 2025-03-27)

Fixed issues

ID	BCT Call ID	Category	Description
BT-23212	3921760248	BCT CheckIt Designer	MultiTargetChecks - Parameter link to check origin remains
BT-23266			Data type and start object issues with the BCT CheckIt config

BCT CheckIt v25R1 (released on 2025-01-30)

Enhancements

ID	BCT Call ID	Category	Description
R-2232			BCT CheckIt - Add ability to use Add-On Syntax in parameters for CustomCheck

Fixed issues

ID	BCT Call ID	Category	Description
BT-23262		BCT CheckIt Designer	Getting reference property via addon syntax gets empty value
BT-23258	48875267300	Rules	BCT CheckIt continues to use the BOMView for a long time after applying "SetPropertyValue"
BT-23330			The start object for attributes was not always ItemRevision, some are on Item etc.

BCT CheckIt v24R6 (released on 2024-11)

Enhancements

ID	BCT Call ID	Category	Description
BT-23194			Backport of "Wrong Role" bug fix for Ariane
R-2206		Active Workspace	Support localization in BctValidateField(ActiveChecks)
R-2191		Active Workspace	Validate a value in field according to regular expression
R-2165			Adhoc checks in BCTCheckIt

Fixed issues

ID	BCT Call ID	Category	Description
BT-23073	2569469835		CheckIt handler shows error dialog when starting workflow when it shouldn't
BT-23219	6022469608	TC Webservice	rule checkWebserviceCall is not considering spaces in URL
BT-23224	9503628223	BCT CheckIt Designer	BCT CheckIt Designer BOM can no longer be deleted after CheckIt check
BT-23231			BCT CheckIt - Issue with not passed warnings in restcall rule
BT-23213	3922025713	Rules	SetPropertyValue not possible for BOM attributes as soon as the BOM view is closed
BT-23230		Active Workspace	BCT CheckIt check fails LinkState when MPP structure is created with effectivity group

BCT CheckIt v24R5 (released on 2024-09)

Enhancements

ID	BCT Call ID	Category	Description
R-2185		Active Workspace	Move manual trigger action button next to recheck and delete buttons
R-2195			Special keyword handling for release_status_list is now available as release_status_names to allow normal release_status_list behavior
R-2231			Custom check to support queries in Teamcenter

BCT CheckIt v24R4 (released on 2024-07)**Enhancements**

ID	BCT Call ID	Category	Description
R-2150		BCT CheckIt Designer	Add short explanatory text for empty areas
R-1529		BCT CheckIt Designer	Allow creation of new validation via button
R-2168			Support static closure rules in BOM and Collaboration Context collector

Fixed issues

ID	BCT Call ID	Category	Description
BT-23075		BCT CheckIt Designer	Prevent "Target from parent set" collector from being made reusable
BT-22875		BCT CheckIt Designer	AddonsSyntax collector fails when retrieving BOMLine from another BOMLine

BCT CheckIt v24R3 (released on 2024-05)**Enhancements**

ID	BCT Call ID	Category	Description
R-2130			Enable CheckIt handlers in AW Workflow Designer

Fixed issues

ID	BCT Call ID	Category	Description
BT-23068		Configuration	BctCheckIt fails to load the configuration in AW if validation desc is not base64
BT-23062	2487744151	Portal Integration	Objects cannot be copied in Workflow Designer in TC with BCT Environment

BCT CheckIt v24R2 (released on 2024-03)**Enhancements**

ID	BCT Call ID	Category	Description
BT-23008		GUI	Also display warnings (like BCT CheckIt Handler failure details) with action error message for workflows
R-2111			Retrieve current user session attributes with new addons syntax
R-2110		BCT CheckIt Designer	Assign BCT CheckIt Designer Group to a specific Teamcenter group/role should only affect UI and not workflow
R-1932		BCT CheckIt DesignerEventsRules	Query collector

Fixed issues

ID	BCT Call ID	Category	Description
BT-23021	2349970596	GUI	CheckIt v1 is not able to display an error message from the triggered workflow - "Invalid thread access"
BT-22998		Active Workspace	BCT CheckIt starts workflow with logged in group instead of current group of user in AW
BT-23040		Rules	Group by parameter doesn't work correctly in reusable MultiTargetChecks
BT-23017	2297225516	Active Workspace	Group and Role switch in AW has no affect on BCT CheckIt AW
BT-23046		BCT CheckIt Designer	Validations can't be deleted in BCT CheckIt Designer

BCT CheckIt v24R1 (released on 2024-01)

Enhancements

ID	BCT Call ID	Category	Description
R-2071		BCT CheckIt Designer	Add check to see if values in a target group are unique (operation for multiTargetCheck)
R-2072		BCT CheckIt Designer	Check if every distinct key has same corresponding value in target group (operation for multiTargetCheck)
R-2091		Active Workspace	Hide skipped targets from report in AW frontend
R-2069		Active Workspace	Manual triggering of actions: only execute actions if targets weren't modified after validation run
R-1935		BCT CheckIt Designer	At least one target in group passes attributeCheck (operation for multiTargetCheck)
R-2080		BCT CheckIt Designer	Capture response of URLResponseCheck for feedback to user
R-1441		Workflow Handler	Display workflow handler message during workflow start in BCT CheckIt in ActiveWorkspace
R-2055		Reports	Response from webservice call should be available for user

Fixed issues

ID	BCT Call ID	Category	Description
BT-22990			Infrequent random tcserver crash when checking out license
BT-22991		Rules	multiTargetChecks with invalid syntax for property will always pass
BT-22996			Workflow start failure not shown in RAC (when running Designer validations)
BT-23002		BCT CheckIt Designer	BCD: Dragging validations from one group to another duplicates them (temporarily)
BT-23013		BCT CheckIt Designer	Corrupt configuration when creating reusable and setting override property in same session

BCT CheckIt v23R6 (released on 2023-11-30)**Enhancements**

ID	BCT Call ID	Category	Description
R-1934		BCT CheckIt Designer	Add check to count target collector targets (operation for multiTargetCheck)
R-1751		BCT CheckIt Designer	Manual triggering of actions
R-2070		BCT CheckIt Designer	Add check to see if all values in a target group are equal (operation for multiTargetCheck)

Fixed issues

ID	BCT Call ID	Category	Description
BT-22968		BCT CheckIt Designer	Adding a Validation to a new Group causes "no name" issue
BT-22962			CheckIt license related log messages sometimes end up in TcToolbox log file
R-2075		Installation	Server Components Installer does not remove obsolete files from aw package
R-2073		Active Workspace	Buttons overlap report content in AW

BCT CheckIt v23R5 (released on 2023-09-28)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22950	1881063178		Executing dry run or checkWebservice in checkit crashes tcserver
BT-22953		GUI	Some PDQ translation files have incorrect name and can thus conflict with Solutions files
BT-22954		GUI	Result filter changes don't work in RAC BOM Reports with more than one BOM

BCT CheckIt v23R4 (released on 2023-08-22 (planned: 2023-07-27))**Enhancements**

ID	BCT Call ID	Category	Description
R-1981		Configuration	Addons syntax support NOT EQUAL (!=) in filters
R-2004		Active Workspace	Change UI labels for RAC and AW to new terminology
R-1999		Documentation	New configuration documentation for BctCheckIt
R-1969		Configuration	Addons syntax support NOT EQUAL (!=) in filters
R-1972		Configuration	Existence check should support multiple Addons Syntax
R-1702		BCT CheckIt Designer	Enhance ExistenceCheck to support OR ' ' operator

Fixed issues

ID	BCT Call ID	Category	Description
BT-22923		BCT CheckIt Designer	CheckItDesigner tile icon is not shown in AW
BT-22891		BCT CheckIt Designer	Reusable action can't be edited
BT-22890		BCT CheckIt Designer	Removing elements from target path in action will always remove last element
BT-22922		Active Workspace	Search in AW report is case-sensitive and doesn't consider all text

BCT CheckIt v23R2 (released on 2023-03-30)

Enhancements

ID	BCT Call ID	Category	Description
R-1941		Configuration	Possibility of reusing the complete validation by making root set reusable
R-1931		Configuration	Support (non-preferred) substitutes in BOM / Collaboration Context collector

Fixed issues

ID	BCT Call ID	Category	Description
BT-21774		Active Workspace	Open BCT CheckIt in My Favorites
BT-22494		BCT CheckIt Designer	Revision rule for loading ("Latest Working") and saving (configured) BCT CheckIt Designer configuration is inconsistent
BT-22664		Active Workspace	Document enabling of BCT CheckIt Designer Tile in AW
BT-22792	012307	GUI	BOM/Revision cannot be deleted after running CheckIt
BT-22889		BCT CheckIt Designer	Reusable set can't be unlinked if subset includes target path referring to reusable set ID
BT-22896		BCT CheckIt Designer	BCT CheckIt Designer: Error when unlinking reusable set when a check with a message is inside the set
BT-22914		GUI	Reusable sets are not shown in BCD

BCT CheckIt v23R1 (released on 2023-01-26)

Enhancements

ID	BCT Call ID	Category	Description
R-1900		Configuration	Add a search field for the target path dropdown
R-1911		BCT CheckIt Designer	Enable dry run for new action handling in BCT CheckIt Designer

Fixed issues

ID	BCT Call ID	Category	Description
BT-22861		BCT CheckIt Designer	"not wildcard" doesn't work correctly with multiple given values
BT-22837		Configuration	"not match regex" doesn't work with negative lookahead
BT-22863		Active WorkspaceGUI	Action errors are not shown in UI AW and RAC

BCT CheckIt v22R6 (released on 2022-11-24)**Enhancements**

ID	BCT Call ID	Category	Description
R-1881		BCT CheckIt Designer	Configuration to run validation on object creation
R-1747		BCT CheckIt Designer	New action handling framework
R-1897		BCT CheckIt Designer	Login to TC from BCT CheckIt Designer with browser locale

BCT CheckIt v22R5 (released on 2022-09-29)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22780		BCT CheckIt Designer	Designer: Reusable menu incorrectly creates scrollbar in sidebar header, making it hard to use
BT-22782		BCT CheckIt Designer	BCT CheckIt Designer: changing group of validation or order of validations in group is not saved
BT-22790		BCT CheckIt Designer	BCT CheckIt Designer: Cannot unlink reusable set when a check with a message is inside the set
BT-22791		BCT CheckIt Designer	BCT CheckIt Designer doesn't unlink messages when unlinking reusable check
BT-22787	012117	Documentation	TC Upgrade unable to locate feature if BCT AW Addons BMIDE is not deployed

BCT CheckIt v22R4 (released on 2022-07-28)

Enhancements

ID	BCT Call ID	Category	Description
R-1857			Possibility of running CheckIt from the command line
R-1371		BCT CheckIt Designer	Localize user facing text from BctCheckIt Designer
R-1806		GUI	Filter objects in AW CheckIt report based on input text

Fixed issues

ID	BCT Call ID	Category	Description
BT-22724		BCT CheckIt Designer	Cannot save validation description with non-Latin1 (e.g. Japanese, Greek...) characters
BT-22736		BCT CheckIt Designer	CheckItDesigner creates "No Name" validation when dragged in new group
BT-22926		Custom Plugins	BCT CheckIt post plugin Change owner and group throws an error
BT-22846	012600	Custom Plugins	BCT Approver Dialog lockup in Background

BCT CheckIt v22R3 (released on 2022-06-02)

Enhancements

ID	BCT Call ID	Category	Description
R-1785		Installation	Remove dependency of CheckIt to its Teamcenter datamodel
R-1328		BCT CheckIt Designer	Refresh page should not leave the current scope of configuration
R-1773		GUI	Show logged-in group and role information next to user id in BCD

Fixed issues

ID	BCT Call ID	Category	Description
BT-22612		BCT CheckIt Designer	BCD login button should be clicked twice when there are orphaned Ids in the configuration
BT-22647		BCT CheckIt Designer	Error after logout and login into CheckIt Designer "UUID not known to the server..."

BCT CheckIt v22R2 (released on 2022-03-31)

Enhancements

ID	BCT Call ID	Category	Description
R-1772			Document permissions on BCT CheckIt Item/Datasets and log error for ambiguous config files
R-1770		BCT CheckIt Designer	Import existing CheckIt configuration with merge capability
R-1162		BCT CheckIt Designer	Export BCT CheckIt configuration from BCD
R-1769		BCT CheckIt Designer	Import existing CheckIt configuration in BCD
R-1790		BCT CheckIt Designer	Validate packed BOM lines with CheckIt

Fixed issues

ID	BCT Call ID	Category	Description
BT-22544		BCT CheckIt Designer	Publish button in BCT CheckIt Designer is disabled even if the configuration is modified
BT-22589		Active Workspace	Wrong tooltip is shown for validations in Active workspace
BT-22603		Active Workspace	BCT CheckIt doesn't load rules in AW6
BT-22610		BCT CheckIt Designer	BCT CheckIt validation takes more time to run for non dba users

BCT CheckIt v22R1 (released on 2022-01-27)

Enhancements

ID	BCT Call ID	Category	Description
R-1758		GUI	Login into BctCheckIt Designer with specified group and role
R-1744		BCT CheckIt Designer	Assign BCT CheckIt Designer Group to a specific Teamcenter group/role

Fixed issues

ID	BCT Call ID	Category	Description
BT-22438	010339	BCT CheckIt Designer	No Name Validations are created and cannot be deleted

BCT CheckIt v21R4 (released on 2021-11-25)

Enhancements

ID	BCT Call ID	Category	Description
R-1732		BCT CheckIt Designer	BOMCollector and CCCollector should also collect GDELines added to the BOM
R-1710		BCT CheckIt Designer	Check previous/next revisions (checkItemRevStatus) in BCT CheckIt Designer
R-1712		BCT CheckIt Designer	Privilege check in BCT CheckIt Designer

Fixed issues

ID	BCT Call ID	Category	Description
BT-22354		BCT CheckIt Designer	Multiple workflows with the same target when validation is passed in CheckIt

BCT CheckIt v21R3 (released on 2021-09-30)

Enhancements

ID	BCT Call ID	Category	Description
BT-22325	010041	BCT CheckIt Designer	Enable use of BCT CheckIt Designer in IIS
R-1445		BCT CheckIt Designer	Set Property Value - action in BCT CheckIt Designer

Fixed issues

ID	BCT Call ID	Category	Description
BT-21699	009783	BCT CheckIt Designer	Publish broke in BCT CheckIt Designer Service if cookie can't be set
BT-22225		BCT CheckIt Designer	Not able to login to BCT Check IT Designer with https settings
BT-22324		Configuration	Add-Ons Syntax for REVRULE is not working with parentheses
BT-22287	009887	GUI	Workflow name dialog is shown when no workflow can be triggered

BCT CheckIt v21R2 (released on 2021-07-29)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22210	009660	Rules	Fetching locale-specific value doesn't work on non-localized property with localized LOV

BCT CheckIt v21R1 (released on 2021-06-10 (postponed from 2021-05-27))**Enhancements**

ID	BCT Call ID	Category	Description
R-1659		Configuration	Resolve Bill of Process (BOP) structure through Collaboration Context
Q-1293		Installation	Apply new release strategy for BCT installer v21R1
BT-20787		Installation	Change BCT_EOMS_DIR default value for the BCT Installer v19
R-1526		Rules	Support Teamcenter preferences with the BCT Add-Ons Syntax

Fixed issues

ID	BCT Call ID	Category	Description
BT-21771	008167		Running workflow actions in CheckIt sometimes results in an empty error dialog

BCT CheckIt v19.6 (released on 2021-03-25 (last official v19 version))**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22027		BCT CheckIt Designer	Changing condition operation on unsaved condition causes "NoName" issue in Designer

BCT CheckIt v19.4 (released on 2020-11-27)

Enhancements

ID	BCT Call ID	Category	Description
R-1571		Configuration	Run BCT CheckIt Designer Microservice with https protocol
R-1595	007875	Reports	Show Datasets in AW BCT CheckIt report
R-1594	007875	Active Workspace	Filter check results inside objects in AW
R-1558		GUIActive Workspace	Allow all Teamcenter object types to be checked by BCT CheckIt in Active Workspace
R-1629		Active Workspace	Create flat v1 AW report structure so all checked objects can be seen
BT-21714	007875	Active Workspace	It is not possible to filter results inside a check in BCT CheckIt AW

Fixed issues

ID	BCT Call ID	Category	Description
BT-21716	008191	GUI	Warnings in Log - Invalid setting - required format is not 'BCT_CHECKIT_CONF.[Group].[Role]'
BT-21741		BCT CheckIt Designer	BCT CheckIt Designer does not show error when publishing fails because of dataset access rights
BT-21696	008117	Active WorkspaceReports	BCT CheckIt Window in AW opens after being closed
BT-21683		Workflow Handler	If BCT CheckIt Handler is not configured correctly all checks are performed which are inside BCT CheckIt Dataset
BT-21139		Reports	Conditions are not shown in report even when availableInReport is true if objects have result SKIPPED
BT-21766	007875	Active Workspace	Show Datasets in AW BCT CheckIt report does not work in case of assembly for v2
BT-21783		BCT CheckIt Designer	BCT CheckIt Designer has encoding issues if Java default file encoding on system is not UTF-8
BT-21688		Active Workspace	Application.properties gets overwritten from the one in bct-checkit-service.jar
BT-21773		GUI	German Umlauts will not be displayed in Validation overview and for the checks

BCT CheckIt v19.3 (released on 2020-09-25)

Enhancements

ID	BCT Call ID	Category	Description
R-1435		Rules	Support BCT Add-Ons Syntax inside filter
R-1550		BCT CheckIt DesignerGUI	Allow all Teamcenter object types to be checked by BCT CheckIt in RAC
BT-20832		GUIRules	Allow ScheduleTask to be checked with BCT CheckIt
R-1457			Remove Old addons syntax in BCT CheckIt configuration
R-1551		Configuration	Start BCT CheckIt from Collaboration Context Object

Fixed issues

ID	BCT Call ID	Category	Description
BT-21659	007875	Reports	CheckIt Report in Active Workspace ignoreInReport="true" is ignored
BT-21667	7974	Documentation	Dokumentation Bug - Customer missing hints to avoid errors during installation

BCT CheckIt v19.2 (released on 2020-08-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-21618			Support TC13
R-1520			Support of Active Workspace 5.0

Fixed issues

ID	BCT Call ID	Category	Description
BT-21533		BCT CheckIt Designer	Workflow handler report does not show check failure message
BT-21581		BCT CheckIt Designer	Unlinking a large set causes issues when UUIDs are not fetched from microservice

BCT CheckIt v18.15 (released on 2020-08-04 (last official v18 version))

Enhancements

ID	BCT Call ID	Category	Description
R-1428		BCT CheckIt Designer	Visualize where reusable object (sets) are used
R-1493		BCT CheckIt Designer	Define Navigation for BCT CheckIt Designer reusable objects
R-1500		BCT CheckIt Designer	Rework reusable instance view
R-1234		BCT CheckIt Designer	Save configured set for reuse
R-1509		Licensing	Support NU Licenses for BCT CheckIt running in Active Workspace
R-1367		BCT CheckIt Designer	Add urlResponseCheck to BCT CheckIt Designer
R-1377		BCT CheckIt Designer	Add attributeDateCheck to BCT CheckIt Designer
R-1365		BCT CheckIt Designer	Add existenceCheck to BCT CheckIt Designer

Fixed issues

ID	BCT Call ID	Category	Description
BT-21605		Active Workspace	CheckItService in AW does not include BctCheckItService.exe

BCT CheckIt v19.1 (released on 2020-05-28)

Fixed issues

ID	BCT Call ID	Category	Description
BT-21485	007340	Reports	BCT CheckIt V19 - Report is still showing v18

BCT CheckIt v18.14 (released on 2020-05-28)**Enhancements**

ID	BCT Call ID	Category	Description
Q-851		Active Workspace	I want JniFlexlm.checkOut to support named user licenses
R-1089		BCT CheckIt Designer	Localize BCT CheckIt Designer UI (DE/EN)
R-1466		Active Workspace	Support Active Workspace 4.3
R-1322		BCT CheckIt Designer	Make BCT CheckIt Workflow Handler available for new configuration

Fixed issues

ID	BCT Call ID	Category	Description
BT-21486		Installation	BCT CheckIt would not start after updating to v18.12
BT-21492	007366	Configuration	Don't show info or warning messages in CheckIt error dialog

BCT CheckIt v18.13 (released on 2020-03-26)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-21450		BCT CheckIt Designer	Drag validation to other group is not working

BCT CheckIt v18.12 (released on 2020-01-31)

Enhancements

ID	BCT Call ID	Category	Description
R-1135		BCT CheckIt Designer	Show/hide hints for administrator in check parameter view
R-1425		BCT CheckIt Designer	Visualize where reusable object (actions) are used
R-1426		BCT CheckIt Designer	Save configured target collector for reuse
R-1427		BCT CheckIt Designer	Visualize where reusable object (target collector) are used
R-1420	005989	Workflow Handler	Display workflow handler message during workflow start in BCT CheckIt
BT-21165	006201	GUI	BCT CheckIt should not reset modifications to structure in user's session when executing a validation
R-1423		RulesCustom Plugins	BCT CheckIt C-API to integrate codeful checks
R-1238		BCT CheckIt Designer	Save configured action for reuse

Fixed issues

ID	BCT Call ID	Category	Description
BT-21216		Documentation	BCT AW Addons Documentation
BT-21062		GUI	The html BOM Report does not show a tree structure when more than one BOM item is selected

BCT CheckIt v18.11 (released on 2019-11-28)

Enhancements

ID	BCT Call ID	Category	Description
R-1384		Active Workspace	Support of Active Workspace 4.2 with BCT CheckIt
R-1237		BCT CheckIt Designer	Visualize where reusable object (checks) are used
R-1401		Configuration	Use Teamcenter revision rule inside BCT Add-Ons syntax to identify proper revision
R-1295		BCT CheckIt Designer	New Target Collectors to execute checks on related objects
R-1378		BCT CheckIt Designer	Execute triggerSingleWorkflow action created by BCT CheckIt Designer
R-1373		BCT CheckIt Designer	Define individual check as WARNING

Fixed issues

ID	BCT Call ID	Category	Description
BT-21010	005551 005827	Portal Integration	Customize Toolbar button is not clickable anymore when bct_def_dir is set
BT-20888	005197	Workflow Handler	BCT_CheckIt_RH does not show error message if job fails

BCT CheckIt v18.10 (released on 2019-09-26)**Enhancements**

ID	BCT Call ID	Category	Description
BT-21078		Installation	BCT CheckIt BMIDE template no longer imports OOTB rules and preferences for legacy xml handling
R-1363		Installation	Provide/Update BMIDE Template for BCT CheckIt to support the new configuration
R-1382		Installation	Update BMIDE Template for BCT software for new BMIDE structure introduced TC11.4
BT-12549		BCT CheckIt Designer	BCT CheckIt Designer to create BCT CheckIt validations using a graphical user interface

Fixed issues

ID	BCT Call ID	Category	Description
BT-21071		GUI	CheckIt Dialog shows an empty error message when it can't connect to the TcExits or can't get rules
BT-20866	005101	GUI	BCT CheckIt RAC UI does not retain location depending on where Teamcenter window is located
BT-20897	005187	GUI	Reduce initial height of CheckIt window

BCT CheckIt v18.9 (released on 2019-07-25)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-20933		Rules	When using comment inside "Import" statement, checkItChecks cannot be imported individually.

BCT CheckIt v18.8 (released on 2019-05-23)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20864		Workflow Handler	PDF Report is not attached when starting BCT CheckIt in a workflow
BT-20881		Reports	CheckItGroup appears in report as an error even if nothing was checked
BT-20798	004802	Rules	New addons syntax does not work for "attributeUniqueCheck"
BT-20659	004351 005045		FlexLM named user license checkout always uses the OS user name
BT-20735	004589	GUI	Delete buttons are missing in the BCT CheckIt window on 125% windows app scale

BCT CheckIt v18.7 (released on 2019-03-28)

Enhancements

ID	BCT Call ID	Category	Description
Q-910		Active Workspace	AW microservices should be deployable via WAR file on the Teamcenter application server

Fixed issues

ID	BCT Call ID	Category	Description
BT-16483		Rules	Button to reload CheckIt rules does not take effect
BT-19965		Installation	Uncertified BCT installer

BCT CheckIt v17.0.14 (released on 2019-03-28)

Enhancements

ID	BCT Call ID	Category	Description
Q-861		Active Workspace	Support Active Workspace 4.1

Fixed issues

ID	BCT Call ID	Category	Description
BT-20750	004599	Rules	CheckCheckmateResult does not load form instance before asking attribute

BCT CheckIt v18.6 (released on 2019-01-31)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-20687		Rules	ChildrenCheckedOutCheck follows all existing relations if a given relation doesn't exist
BT-20608		Events	Message events are not executed correctly when a CheckItCheck has more than one resulting object and the results for the objects differ

BCT CheckIt v17.0.13 (released on 2019-01-31)**Enhancements**

ID	BCT Call ID	Category	Description
R-1170		Workflow Handler	Workflow message - Show which BCT CheckIt validation that was executed

Fixed issues

ID	BCT Call ID	Category	Description
BT-20421		Active Workspace	Active Workspace loads checkit rules in wrong language
BT-20540		Workflow Handler	Sometimes Teamcenter server crashes in handler

BCT CheckIt v18.5 (released on 2018-11-22)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-20419	003888	InstallationActive Workspace	TC12-microservices and AW40 files missing in BCT patch installer

BCT CheckIt v17.0.12 (released on 2018-11-22)

Enhancements

ID	BCT Call ID	Category	Description
N-316		Active Workspace	Show skipped items in report for which no check could be executed due to rule configuration
BT-20485		Configuration	Removed deprecated feature "define workflow name via TC Preference BCT_CHECKIT_WFNAME_USE_OBJECT_STRING". Use workflowName parameter instead (R-1082)
R-1122		Rules	Support for referencers in new Add-Ons syntax with keyword REFBY
R-624		Rules	checkItemRevStatus - New parameter 'revisionsToCheck' defining the scope of which revisions to be checked
R-996		Rules	Support setting attributes with new Add-Ons syntax for setAttributeValue event
R-1082		Rules	Workflow events: new event parameter to define workflow name

Fixed issues

ID	BCT Call ID	Category	Description
BT-20435		Configuration	BOM Report is wrong for CheckItGroup level > -1
BT-20443		Rules	When using setAttributeValue event the workflow dialogue is shown
BT-20444		Rules	When using setAttributeValue event and write access is denied the workflow error message dialogue is shown
BT-20296	003355	Installation	BCT CheckIT BMIDE deployment fails on missing Checkit rules

BCT CheckIt v18.4 (released on 2018-09-27)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20351		Rules	BCT CheckIt rules aren't loaded correctly if local encoding for TC server is different from TC_CHARACTER_ENCODING_SET

BCT CheckIt v17.0.11 (released on 2018-09-27)

Enhancements

ID	BCT Call ID	Category	Description
N-455		Active Workspace	Support Active Workspace 4.0

Fixed issues

ID	BCT Call ID	Category	Description
BT-20375		Reports	Report shows Item even if all checks for it are set to ignoreInReport

BCT CheckIt v17.0.10 (released on 2018-07-26)

Enhancements

ID	BCT Call ID	Category	Description
R-660	BCT-121802	Rules	Show workflow messages to the user if workflow is started via a BCT CheckIt event (in background)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20035	002507	Portal Integration	BCT Icons will be displayed multiple times in TC Portal in list of perspectives
BT-20231	003184	Rules	Property values with closing parenthesis ")" are not properly retrieved

BCT CheckIt v17.0.9 (released on 2018-05-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-15249		Rules	Check if related object exist
R-965		Rules	Check existence of related object or attribute

Fixed issues

ID	BCT Call ID	Category	Description
BT-20102		Documentation	Rule checkBVRLastModDateAgainstDataset has missing values for operation
BT-20066	002297	Rules	Checking an assembly and a subassembly with the bomlineUniqueCheck leads to a crash

BCT CheckIt v17.0.8 (released on 2018-03-29)**Enhancements**

ID	BCT Call ID	Category	Description
N-303		Active Workspace	Combine BCT CheckIt rule selection and report in same tool and action command bar
N-329		Active Workspace	Add a "Re-check" button into BCT Checkit report

Fixed issues

ID	BCT Call ID	Category	Description
BT-19946		Reports	BCT CheckIt Report attached as PDF to workflow is not formatted properly

BCT CheckIt v18.0 (released on 2018-02-01)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-16284		Portal Integration	BCT Icons are not visible in toolbar in TC Portal after BCT Patch

BCT CheckIt v17.0.7 (released on 2018-02-01)

Enhancements

ID	BCT Call ID	Category	Description
N-325		Active Workspace	Show check statistics for BCT CheckIt run
N-276		Active Workspace	Support both light and dark colour theme in Active Workspace
N-344		Active Workspace	Support Active Workspace 3.4 for BCT CheckIt
R-988		Rules	object_type returns internal name for all types (previously only Item:object_type did so)
BT-19437	001714	Rules	Make sure checked-out status is updated for BCT CheckIt when objects have been modified in other Teamcenter sessions
R-961		Rules	Refresh objects before checking since they could have been modified in other Teamcenter sessions
R-979		Rules	Support new BCT addons syntax to follow relations to related revision via items_tag
R-921		Events	Use BOMLine:bl_parent to incorporate object string of parent item in message event
R-940		Rules	Filter sub-assemblies in CheckItGroup

Fixed issues

ID	BCT Call ID	Category	Description
BT-19389		Rules	Crash when configuring placeholder in message text without configuring applicable parameter
BT-19397		Reports	BOMLine attributes don't work in message for root object for bomComponentExistenceCheck outside of CheckItGroup
BT-19387		Reports	BOM Report for bomLineUniqueCheck shows BOMLine as failed in two subassemblies, even if check only failed in one
BT-19928		Rules	Issues with attributeDateCheck with precision "month" or "year"
BT-19579	001813	Reports	BCT Checkit throws an internal Error when a check is performed for a BOMLine where the user has no read permission on the ItemRevision

BCT CheckIt v17.0.6 (released on 2017-11-02)**Enhancements**

ID	BCT Call ID	Category	Description
N-131		Active Workspace	Select CheckIt Rule by user
N-158		Active Workspace	Reset CheckIt Result
N-290		Active Workspace	Include child status in checkit summary bar for filter
N-246		Active Workspace	Display detailed info for CheckIt rules
N-169		Active Workspace	Also display passed checks in report
N-259		Active Workspace	Colorized overall summary in the CheckIt report
N-249		Active Workspace	Show warning level of checks in CheckIt report
N-208		Active Workspace	Display CheckIt Report in AW3.3
N-267		Active Workspace	CheckIt rule errors should be highlighted specially
N-260		Active Workspace	CheckIt report indicates when items pass but children have errors
N-140		Active Workspace	Allow to trigger a Check in AW3.3

Fixed issues

ID	BCT Call ID	Category	Description
BT-16594	001163	GUI	Workflow parameters missing if using multiple post-plugins

BCT CheckIt v16.1.15 (released on 2017-11-02)

Enhancements

ID	BCT Call ID	Category	Description
R-914		Reports	Positive filter for checkbox in BCT CheckIt report (show instead hide)
R-912		Rules	Check properties of named references (ImanFile)
R-916		Reports	Improved performance in BCT CheckIt report when running checks against large assemblies
R-911		Reports	Passed checks are initially hidden in BCT CheckIt report
R-677		Rules	Check dataset text content
R-711		Rules	Recursive bom release by triggering events for passed sub-components that passed all checks

Fixed issues

ID	BCT Call ID	Category	Description
BT-16609		Documentation	Optimized documentation for checkIt events
BT-16263		Documentation	checkCheckmateResult always compares validation_date with last_mod_date
BT-16648		Rules	Boolean logic is wrong for attribute "processRelatedObjects" when used in a CheckItEvent
BT-19329		Configuration	The events inside a configured CheckItCheck are not executed from top to bottom
BT-16301		Reports	Honor ignoreNotPassed=true in BCT CheckIt BOM Report
BT-16435		Report	Hide only works correctly if the entire structure is expanded in BCT CheckIt BOM report
BT-19296		Reports	Not passed is overwritten by warning in BOM report
BT-16603		Reports	Assembly must show up as NOT_PASSED in BCT CheckIt report in case bomComponentAttributeCheck results in NOT_PASSED
BT-16661		Reports	"ignoreInReport" parameter is not applied to BCT CheckIt BOM report info panel
BT-16646		Reports	BOM report incorrect when using bomComponentAttributeCheck in CheckItGroup
BT-16633		Rules	bl_uom property cannot be used in bomComponentAttributeCheck
BT-16602		GUI	ignoreInReport="true" does not take effect in BOM report info panel
BT-16606		Rules	Message event in bomComponentAttributeCheck does not resolve BOMLine attribute values in message parameter

BCT CheckIt v16.1.14 (released on 2017-08-31)

Enhancements

ID	BCT Call ID	Category	Description
BT-16264		Rules	check against mod_date of UGMASTER and UGPART
R-676		Rules	Check against date value

Fixed issues

ID	BCT Call ID	Category	Description
BT-16561	IR000848	Documentation	'CheckItGroup' parameter 'ignoreRootOcc' is not documented
BT-16596		Documentation	classifiedCheck: "source" parameter missing in documentation
BT-16574	IR000760	Configuration	viewType is not reset between checks unless it's configured for next check
BT-16618		Rules	Support for translations of specific array values
BT-16617		Reports	Incorrect TC attribute configuration in rules now leads to error
BT-16619		Rules	Translations are now only used if they are approved or master
BT-16497	BCT-123715	Documentation	Documentation of in BCT CheckIt is not fully documented

BCT CheckIt v17.0.4 (released on 2017-06-28)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16468		Active Workspace	CheckIt report in AWC does not show assembly children
BT-16485	BCT-123661	Configuration	Parameter configPreferenceName not working for PostPlugin

BCT CheckIt v16.1.13 (released on 2017-06-28)**Enhancements**

ID	BCT Call ID	Category	Description
BT-15251		Rules	BomExistenceCheck - New parameter "checkChildrenExist" enables explicit checking for existing children of a BOM

Fixed issues

ID	BCT Call ID	Category	Description
BT-16482		Report	Multiple CheckItGroups within one CheckItSet result in wrong BOM Report
BT-16444		GUI	CheckIt crashes when the same Item is added twice via the GUI
BT-16509		Handler	Use standalone version of wkhtml2pdf so VC++ 2015 Runtime doesn't need to be installed
BT-16499	IR000604	Handler	BCT CheckIt Workflow Handler gives an error when attaching report
BT-16383		Rules	Wrong check result in bomLineUniqueCheck when using with ignoreRootOcc=false in CheckItGroup
BT-16506	BCT-123723	Rules	datasetAttributeCheck fails for datasets that are referenced by several revisions

BCT CheckIt v16.1.12 (released on 2017-04-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-16315		Handler	Optimize process time when BCT CheckIt Report is converted to PDF within a workflow by using new version of wkhtmltopdf.exe

Fixed issues

ID	BCT Call ID	Category	Description
BT-16070		Report	CheckIt Report expands wrong object in case sub-assembly exists more than one time on different seq no
BT-16058		GUI	Bom report does not show the root item and type in the header
BT-16400		Rules	Error messages in Teamcenter syslog when running attributeCheck is receiving empty values
BT-16384		Rules	bomLineUniqueCheck result is wrong in case uniqueKey=true is used and the quantity of an occurrence is >= 1
BT-16413		Rules	All Message events for related objects do show the message of the first checked object
BT-16431		Rules	Default value for "level" parameter is 0 instead of 1
BT-16418	BCT-122952	Configuration	\$(BOMViewRevision:is_precise) does not work in messageParam
BT-16412		Configuration	CheckIt report is not localized according to session language in 4-Tier environment
BT-16420	BCT-122954	Configuration	Error when resolving BOMs where level not -1
BT-16421		Configuration	Keyword BOMLine doesn't work in value parameter
BT-15835	BCT-118930	Report	Protocol shows item or revision or dataset icon depending on checked object
BT-16325		Rules	Workflow name set in CheckIt GUI message dialog is not used as workflow name
BT-16324		Rules	Selected revision appears in bomComponentAttributeCheck when check is failed
BT-16200	BCT-121805	Report	Display CheckIt Report before starting workflow

BCT CheckIt v17.0.2 (released on 2017-02-02)

Enhancements

ID	BCT Call ID	Category	Description
BT-16257		Active Workspace	BCT CheckIt Module support for Active Workspace 3.2

Fixed issues

ID	BCT Call ID	Category	Description
BT-16296		GUI	BOM Report does not show find numbers (sequence numbers)
BT-16297		GUI	Not all Report Info messages are shown when doing Bom checks for an item

BCT CheckIt v16.1.11 (released on 2017-02-02)

Enhancements

ID	BCT Call ID	Category	Description
BT-16249		Events	Remove SKIP_NEXT_CHECKS_FOR_CURRENT_OBJECT as it has the same functionality as SKIP_NEXT_CHECKS
BT-16118		Rules	Support checking of packed bomline attributes
BT-16011		Rules	assembly consistency check: sequence no should be same for all items with same item id within one assembly

Fixed issues

ID	BCT Call ID	Category	Description
BT-16300		Rules	When checking release_status_list the value must correspond to Teamcenter especially when revision is currently in workflow
BT-16290	BCT-122357	Rules	CheckIt "checkWebserviceCall" Check freezes TC RAC when performed for the second time in a RAC session

BCT CheckIt v16.1.10 (released on 2016-12-01)**Enhancements**

ID	BCT Call ID	Category	Description
BT-16218		Rules	New Keyword 'BOMViewRevision' to check BOM View Revision Attributes

Fixed issues

ID	BCT Call ID	Category	Description
BT-16227		Rules	only one TC-Attribute \$(...) is possible
BT-16185	BCT-121680	Report	Results with warnings and errors are always shown as warnings
BT-16008		Events	CheckItPostPlugin executed multiple times with the same object
BT-16184	BCT-121681	Rules	'\$(current_object_class):release_status' is not working as parameter for checks

BCT CheckIt v17.0.0 (released on 2016-10-06)**Enhancements**

ID	BCT Call ID	Category	Description
BT-16126		Active Workspace	Execution of BCT CheckIt in Active Workspace

BCT CheckIt v16.1.9 (released on 2016-10-06)

Enhancements

ID	BCT Call ID	Category	Description
BT-16586	IR000898	Configuration	CheckIt Reports - allow to display warnings and failed checks
BT-16109	BCT-121274	Report	BCT CheckIt Report dataset name without file extension
BT-16098		Handler	Extend BCT CheckIt rule and action handler to optionally display a warning message
BT-16032		Rules	New rule 'selectedObjectsAttributeCheck': allows to check if an attribute of all selected objects matches same criteria
BT-16030		Rules	New rule 'selectedObjectsAttributeEqualCheck': allows to check if an attribute value is equal for all selected objects

Fixed issues

ID	BCT Call ID	Category	Description
BT-16111		Handler	Parameter continuelfError does not work for BCT_checkit_RH
BT-16059		GUI	Bom checks for multiple items do not work correctly in the CheckIt GUI
BT-15953	BCT-120223	Events	License Check-In does not work correctly
BT-15901	BCT-119856	Report	BCT CheckIt Report - Hide Filters has incorrect behaviour
BT-15884	BCT-119654	Handler	BCT CheckIt Report attached as PDF to workflow is not formatted properly
BT-15872	BCT-119654	Handler	BCT Checkit action handler does not create relation between main and sub workflow
BT-15670		Report	Configuration iconNotPassed ignored in report
BT-14540	BCT-111467	Configuration	Rule parameter for operation "regex" is not case sensitive

BCT CheckIt v16.1.8 (released on 2016-08-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-16048		Rules	Allow more then one environment variable as value
BT-16046		Rules	Support "not match regex" operation

Fixed issues

ID	BCT Call ID	Category	Description
BT-15925		Rules	CheckItGroup parameter IgnoreRootOcc does not work in workflow handler

BCT CheckIt v16.1.7 (released on 2016-06-09)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15921	BCT-120079	Rules	Setting ignoreSelectedObjects does not work

BCT CheckIt v16.0.14 (released on 2016-06-09)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15930		Report	CheckItResultsStylesheet.xsl with fix for #6526 is not updated in bct_def

BCT CheckIt v16.1.6 (released on 2016-04-07)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15772	BCT-118454	Handler	Workflowhandler does not write date attributes when format does not match
BT-15871	BCT-119653	Events	Custom workflow name ignored if post plugins are activated

BCT CheckIt v16.0.12 (released on 2016-02-04)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15759	BCT-118292	GUI	rules are not updated after group change

BCT CheckIt v16.0.11 (released on 2015-11-05)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15606		Report	BOM structure in report cannot be expanded and collapsed
BT-15681	BCT-117862	API	installer does not update bct_checkit_api_vc10v160.lib

BCT CheckIt v16.0.10 (released on 2015-09-10)**Enhancements**

ID	BCT Call ID	Category	Description
BT-15600		GUI	Java 8 Support for BCT CheckIt report and BCT CheckIt info pages

Fixed issues

ID	BCT Call ID	Category	Description
BT-15353	BCT-116038	Rules	Memory leak during check of objects
BT-15410	BCT-116774	Report	In CheckIt Report umlauts are displayed incorrectly
BT-15339	BCT-116995	Configuration	empty BOMs causes empty CheckIt Reports
BT-15651	BCT-117688	GUI	BCT CheckIt GUI not displayed correctly with low screen Resolution

BCT CheckIt v16.0.9 (released on 2015-07-09)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15510	BCT-116930	Events	Release more than one Revision results in Teamcenter Crash
BT-15504	BCT-116988	Report	Report shows duplicate entries for Dataset checks in ItemRevision and Dataset block

BCT CheckIt v16.0.8 (released on 2015-05-07)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15398	BCT-116237	Report	Temporary BCT CheckIt report files are not removed on server

BCT CheckIt v16.1.0 (released on 2015-03-26)**Enhancements**

ID	BCT Call ID	Category	Description
BT-15352		Documentation	document version is not identifiable
BT-15309		Events	Event sendMailToExtern removed

BCT CheckIt v16.0.7 (released on 2015-03-26)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15338		Configuration	checkEvents.xml is not correct
BT-15386	BCT-116218	Handler	BCT CheckIt does not transfer workflow name reliably

BCT CheckIt v16.0.6 (released on 2015-02-05)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15312	BCT-115396	Handler	unable to write values in the revision form
BT-15322	BCT-115396	Handler	No error message shown / Report shows success although failed
BT-15330		Handler	Parameters 'subworkflow' and 'continueOnError' don't work
BT-15301		Rules	Wrong usage of parameter "value" in checkEnvironmentVariable and checkTeamcenterPreference checks

BCT CheckIt v16.0.5 (released on 2014-12-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15126		Documentation	Message Types need to be describe more precisely
BT-15152		Documentation	Missing documentation where to put custom item images used in report
BT-15187		Handler	BCT CheckIt Rule Handler returns EPM_nogo even if workflow path was set to false
BT-15122		Rules	Webservice REST response not properly processed, leads in no data received
BT-14931		Report	Info button in BOM CheckIt report inactive for passed checks
BT-15183		Handler	BCT_checkit_AH causes sometimes teamcenter server crash
BT-15171		API	BCT CheckIt API doesn't load configuration plugins
BT-15206		Rules	bomComponentAttributeCheck ignores ignoreSelectedObjects setting

BCT CheckIt v16.0.4 (released on 2014-10-09)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15114		Rules	CheckWebserviceCall: Parameters cannot be variables
BT-15125		Documentation	Checkit Rule "checkAClassUsabilityStatus" appears twice in configuration guide
BT-15100		Documentation	It's no more necessary to create BCT_CheckIt Item and import OOTB-Checks
BT-15153		Configuration	BCT CheckIt Rule Handler does not return EPMGo when Workflow Path is set to false
BT-15139		Configuration	datasetExistenceCheck documentation doesn't contain all configuration parameters
BT-15144	BCT-114739	Rules	parameters for ChildrenCheckedOutCheck not documented
BT-15097		Documentation	BCT CheckIt Reports and Infopage needs Java 7 Update 45
BT-15123		Events	Only attribute name should be passed to workflow events with attached forms

BCT CheckIt v16.0.3 (released on 2014-08-07)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15061		Events	Teamcenter site preference BCT_CHECKIT_WFNAME_USE_OBJECT_STRING missed in documentation
BT-14906		Documentation	checkItemRevStatus description is wrong
BT-14958	BCT-113295	Documentation	CheckItGroup Parameters description missing
BT-15048		GUI	CheckIt Info window doesnt work with TC10.1
BT-15043	BCT-114100	GUI	Object Name missing for Workflow Task
BT-15093		Events	Use only attribute name and not the complete BCT AddOns (ItemRevision:attribute) syntax for workflow events with attached forms
BT-15064		Events	Workflow events not executed for type ALL_PASSED if notPassedAsWarning="true" AND ignoreNotPassed="true" is set
BT-15088		Rules	Potential tcserver crash when using custom BCT CheckIt rules plugins
BT-15092		Rules	\$(current_object_class) should return Item, ItemRevision and Dataset
BT-15057		Rules	Dry-run mode not working for some events (e.g. SKIP_NEXT_CHECKS) if notPassedAsWarning="true" AND ignoreNotPassed="true" is set

BCT CheckIt v16.0.2 (released on 2014-06-12)

Enhancements

ID	BCT Call ID	Category	Description
BT-14972		Rules	Provide a CheckIt Rule to trigger a REST web service call and check the json result
BT-14887	BCT-113295	Events	Update BCTCheckIt.xsd to not validate CheckItEvent id
BT-14868	BCT-113273	Configuration	BCT CheckIt work dir should be defineable

Fixed issues

ID	BCT Call ID	Category	Description
BT-14943		Rules	Bad performance when executing BCT CheckIt checks
BT-14873	BCT-113272	Events	length appears as ";o" in message text of attributeLengthCheck
BT-14871		GUI	BCT CheckIt Reports still shows version 16.0.0
BT-14936		GUI	Change group after restart TC causes error
BT-14933		GUI	Help Buitton doesn't start CheckIt Help
BT-14890		Configuration	bctcheckit_preferences.xml is not uptodate
BT-14939		Rules	Slow check performance when using BctCheckItGroup configuration
BT-14942		Report	Object string missing for additionally checked objects
BT-14940		Events	Overwritten Parameters ignored for imported events
BT-14969		Events	Message events that reuse global defined ones will not be executed
BT-14967		Rules	notPassedAsWarning parameter will be ignored
BT-14874	BCT-113322	Events	TriggerWorkflow does not run for a normal call if availableInDryRun="false" is set

BCT CheckIt v15.1.7 (released on 2014-06-12)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14866		Rules	attributeUniqueCheck should not accept zero result

BCT CheckIt v16.0.1 (released on 2014-04-03)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14835		GUI	The Checkit report is not displayed
BT-14820		Configuration	BCT CheckIt BMIDE Templates > BCT_CHECKIT_CONF.** Preference points to wrong item
BT-14858	BCT-113210	Events	CheckIt Report-Window only contains URL, results are not being displayed

BCT CheckIt v15.1.6 (released on 2014-04-03)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14743	BCT-112568	Events	setAttributeValue Event is not executed in Workflow

BCT CheckIt v16.0.0 (released on 2014-02-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-14388			Attach CheckIt report to workflow
BT-14394			Report should reflect BOM-structure
BT-14487		Events	Provide parameter to define ConfigurationRule for replaceAttachedItemWithRevision for triggerWorkflow events
BT-14397		Events	Parameter for Workflow Name
BT-14389		Rules	Rule for BCT aClass usability status
BT-14445	BCT-110764	GUI	Allow Drag and Drop from Rich Client to CheckIt dialog
BT-14444	BCT-110788	GUI	Button to reload CheckIt rules
BT-14441		GUI	Removing items / item revisions from the BCT CheckIt list
BT-13861		GUI	BCT CheckIt protocol: filter (hide/show) passed and not passed items
BT-13869		GUI	BCT CheckIt protocol: show display name in protocol instead of internal name
BT-14399		GUI	Start BCT CheckIt Help from BCT CheckIt Wizard
BT-13842		Events	childrenCheckedOutCheck: error message can not be configured
BT-13844		Rules	childrenPermissionCheck: Error Message in report not configurable
BT-13046		GUI	Interactive Report
BT-13860		Rules	Apply checks on a set of objects collected by a relation or BOM view

BT-14515	BCT-111395	Rules	Add parameters to childrenCheckedOutCheck and childrenPermissionCheck rule for relation types and object types
BT-14211	BCT-107534	Configuration	Customize BOM Line Error Message
BT-14440	BCT-110789	GUI	Support HTML syntax for rule description
BT-13494		GUI	Columns in the CheckIt Dialog should be resizable and stored for the next session
BT-14486	BCT-111096	Configuration	New Parameters for all triggerWorkflow events: replaceAttachedRevisionWithItem, removeAttachedRevision

Fixed issues

ID	BCT Call ID	Category	Description
BT-13841		Rules	childrenCheckedOutCheck: only Item Revision is shown in Report if it is checked out, but no checked out datasets

BCT CheckIt v15.1.3 (released on 2013-09-19)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14499		Rules	checkRelatedComponents rule ignores operation parameter
BT-14500		Rules	checkRelatedComponents rule interprets empty relatedObjectClass parameter as valid
BT-14539	BCT-111385	Rules	bomComponentAttributeCheck ignores revisionRule parameter when BOM is precise

BCT CheckIt v15.1.2 (released on 2013-07-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-14378	BCT-110076	Events	Max length of workflow name should be configurable

Fixed issues

ID	BCT Call ID	Category	Description
BT-14400		GUI	Sendto BCT CheckIt is missing in context menu
BT-14391		Rules	bomComponentAttributeCheck Rule > always empty value for property ItemRevision:process_stage

BCT CheckIt v15.0.6 (released on 2013-07-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14392		Rules	bomComponentAttributeCheck: includeFilter does not work with empty attribute values or \$(empty) keyword

BCT CheckIt v15.0.5 (released on 2013-04-25)

Enhancements

ID	BCT Call ID	Category	Description
BT-13017	BCT-102949	Events	Attach error report as reference to BCT CheckIt workflow task (if error occurred)

BCT CheckIt v15.1.0 (released on 2013-03-21)**Enhancements**

ID	BCT Call ID	Category	Description
BT-12707		Rules	Date comparison, e.g. assembly release_date should be newer than component last modification date

Fixed issues

ID	BCT Call ID	Category	Description
BT-13359		GUI	Display error message if Teamcenter configuration is invalid
BT-13858		Documentation	Document difference between BCT_CheckIt_AH and BCT_CheckIt_RH

BCT CheckIt v15.0.3 (released on 2013-01-17)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-13992		Rules	CheckRelatedComponents should process all referenced object, not only datasets
BT-13993		Rules	Dataset Existence Check PASSED Events werden nicht durchgeführt, nur NOT_PASSED

BCT CheckIt v14.1.7 (released on 2013-01-17)**Enhancements**

ID	BCT Call ID	Category	Description
BT-14221		Rules	Allow OR option for excludeFilter in "bomComponentAttributeCheck" Rule

BCT CheckIt v14.1.6 (released on 2012-10-25)**Enhancements**

ID	BCT Call ID	Category	Description
BT-13898		Rules	Support for Teamcenter Multilanguage fields
BT-14159		Events	Add ItemRevision as workflow target even if Item was selected

Fixed issues

ID	BCT Call ID	Category	Description
BT-13966		Rules	Parameters for imported rules are not working

BCT CheckIt v15.0.1 (released on 2012-08-30)**Enhancements**

ID	BCT Call ID	Category	Description
BT-13865		Documentation	Documentation for Regular Expression syntax (Perl-dialect)

BCT CheckIt v15.0.0 (released on 2012-07-20)**Enhancements**

ID	BCT Call ID	Category	Description
BT-13547		GUI	Disable Primary BCT applications via TC preference

BCT CheckIt v14.1.4 (released on 2012-06-01)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13855		Rules	classifiedCheck checks only Item Revision, not Item
BT-13880		GUI	Don't display workflow events dialog if no events are available
BT-13809		Rules	childrenPermissionCheck: Check of attached datasets is not working
BT-13881	BCT-106755	GUI	Edit workflowname in BCT CheckIt rule window
BT-13469		GUI	If the group/role preference in TC does not specify a correct CheckIt config there are too many (confusing) error messages

BCT CheckIt v14.1.3 (released on 2012-03-22)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13181	BCT-102952	GUI	BCT CheckIt causes a Teamcenter error.

BCT CheckIt v14.0.6 (released on 2012-02-22)

Enhancements

ID	BCT Call ID	Category	Description
BT-13714		API	Add parameter to define workflow job name in BCT CheckIt API
BT-13712		Events	Possibility to start subworkflows instead of workflows
BT-14537		Configuration	Use environment variables for item_id when importing rules
BT-13599	BCT-102945	Configuration	Edit workflowname in BCT CheckIt rule window
BT-13662	BCT-105406	Rules	Skip selected components for bomComponentAttributeCheck

Fixed issues

ID	BCT Call ID	Category	Description
BT-13883		Events	attachItemRevision parameter is ignored by triggerWorkflow and triggerWorkflowAttachForm events
BT-13885		Events	Objects from useCheckResultsForChildren not passed correctly to workflow events

BCT CheckIt v14.1.1 (released on 2011-11-24)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12901		Configuration	Update Configuration documentation
BT-13583		Configuration	Teamcenter preference for CheckIt (BCT_CHECKIT_CONF) should not contain dots in group/role

BCT CheckIt v14.1.0 (released on 2011-11-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-13087		Configuration	Use imported rules at the check "bomComponentAttributeCheck".
BT-13088		Configuration	CheckIt Rules should only apply on specific ItemTypes

Fixed issues

ID	BCT Call ID	Category	Description
BT-13112		Events	No error message when starting the workflow but it is not available.

BCT CheckIt v14.0.4 (released on 2011-09-29)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13399	BCT-104197	Configuration	Even with the result 'error' the prompt to execute the attached workflow is shown
BT-13366		Rules	The checkItemRevStatus Check in BCT CheckIt cannot access the release_status attribute

BCT CheckIt v14.0.3 (released on 2011-07-28)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13398	BCT-104196	Configuration	The specified parameter "revisionRule" is ignored in bomComponentAttributeCheck
BT-13397	BCT-104195	Configuration	syntax \$(current_object_class) is not evaluated
BT-13400	BCT-104198	Rules	rule ChildrenCheckedOut does not work correctly
BT-13408		Events	triggerWorkflowAttachForm failes with internal error if parameter "attachItemRevision" is used
BT-13396	BCT-104194	Configuration	The keyword \$(current_object_type) is not replaced correctly in CheckIt

BCT CheckIt v14.0.2 (released on 2011-05-26)

Enhancements

ID	BCT Call ID	Category	Description
BT-12736		Rules	New check: checkEnvironmentVariable
BT-13323	BCT-103893	Rules	New check: checkItemRevStatus

Fixed issues

ID	BCT Call ID	Category	Description
BT-13343		Events	BCT_CheckIt_AH does not start WF Events
BT-13284	BCT-103496	Events	Check triggerSingleWorkflow collects all WF objects for the same Event ID
BT-13328	BCT-103889	Configuration	RB TC CheckIt configuration plugin don't parse ItemRevision- and Dataset-Forms attributes
BT-13322	BCT-103894	Configuration	RB TC Handler log4cxx name cannot be used in log4cxx.properties
BT-13326	BCT-103891		Added BCT CheckIt API documentation and example usage
BT-13330	BCT-103888	Configuration	Variable "\$(current_object_type)" gets the translated object_type
BT-13331	BCT-103887		Duplicate information about registering BCT modules in TAO window

BCT CheckIt v14.0.0 (released on 2011-02-24)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13018		GUI	Row titles overwritten by EasySwap
BT-12993		GUI	Scrollbar outside the tab content
BT-13192		Rules	Ruletree is processed breadth-first instead of depth-first

BCT CheckIt v8.0.5 (released on 2011-01-27)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13127		GUI	CheckIt license not checked in correctly

BCT CheckIt v8.1.3 (released on 2011-01-27)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13237		Events	Workflow events will be ignored if they are defined as global events
BT-13114		Events	setAttributeValue event do not replace \$(...) variables
BT-13113		Events	Report is not displayed before starting workflow events (TC 2007.1)
BT-13176		Events	Workflows will be executed if check result = ERROR
BT-13186		Rules	Check for owning_site attribute returns empty string
BT-13172		Rules	First submitted view_type parameter in BOM checks will be used for the current session
BT-13175		Rules	Only last check is executed when importing checks and overwriting parameters

BCT CheckIt v8.0.4 (released on 2010-11-25)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-12968		GUI	License is not checked in when closing CheckIt GUI

BCT CheckIt v8.1.2 (released on 2010-11-09)**Enhancements**

ID	BCT Call ID	Category	Description
BT-12852		Events	Display report before calling events (e.g. starting workflows)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12991			Item type information not displayed in report
BT-12992			Display item in Navigator (from report) works only once in IE 6
BT-12994		GUI	Radiobuttons inside tab not aligned on top
BT-12995		GUI	Report is not displayed after check before starting events

BCT CheckIt v8.1.0 (released on 2010-08-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-12566		Events	Event for writing attributes.
BT-12546		Configuration	Group checks in categories.
BT-12063		Configuration	Open Parts from Report in Tc Navigator
BT-12547		GUI	Display additional infos for a CheckIt Rule in the Selection Dialog
BT-12529		Rules	Check for various BOM types.
BT-12530		Rules	Checking of not MasterForm forms.
BT-12531		Rules	Check for referenced items/revisions.
BT-12677		GUI	CheckIt: Icon definition for not passed CheckIt Checks with Error, Warning or Info Icons.

Fixed issues

ID	BCT Call ID	Category	Description
BT-12693		GUI	BCT SendTo Menue im TcPortal UA 8
BT-12862		Rules	bomComponentExistenceCheck returns wrong result if no bom exists
BT-12439		Configuration	CheckIt error messages for attributes => Solve attribute names via TextServer.
BT-12861		GUI	Item selection in the CheckIt dialog.
BT-12495		Events	Parameter passing at messages in GlobalEvents.
BT-12494		Configuration	Option to overwrite parameters of imported CheckIt rules
BT-12777		Events	CheckIt Workflow Call failed with long item names

BCT CheckIt v8.0.3 (released on 2010-07-29)

Enhancements

ID	BCT Call ID	Category	Description
BT-12797		Events	ALL_PASSED flag for Events
BT-12795		Rules	bct_teamcenter_rule_plugin: Use BOM Component values as attribute in bomComponentAttributeCheck
BT-12798		Rules	Unique check of an Teamcenter Attribute

BCT CheckIt v8.0.0 (released on 2010-05-25)

Enhancements

ID	BCT Call ID	Category	Description
BT-12543		Configuration	CheckResult should not be displayed in report

Fixed issues

ID	BCT Call ID	Category	Description
BT-12437			Change CheckIt dialog ("Check failed" = > change to: "Check not passed")
BT-12440			Translation of check names does not work
BT-12496		GUI	Word-wrap in error list in report.

BCT CheckIt v8.0.2 (released on 2010-05-20)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12763		Rules	Fix problems with reading Multisite data
BT-12762		Rules	Fix related to SKIP_NEXT_CHECKS_FOR_CURRENT_OBJECT skips wrong objects
BT-12761		Rules	Change SKIP_NEXT_CHECK behaviour of v8.0.1 to v8.0 behavior and implement the new behavior in SKIP_NEXT_CHECKS_

BCT CheckIt v8.0.1 (released on 2010-04-16)**Enhancements**

ID	BCT Call ID	Category	Description
BT-12438		Configuration	"Traffic light" illustration instead of PASSED and NOT_PASSED in the GUI.
BT-12640		Rules	Comparison with current time and current date.
BT-12516		Rules	Check on item level.

BCT CheckIt v7.1.2 (released on 2006-04-18)**Enhancements**

ID	BCT Call ID	Category	Description
BT-12441			Initial Start should not read in all XMLs because it causes long loading times for BCT CheckIt.

Fixed issues

ID	BCT Call ID	Category	Description
BT-12471			If the bct_tc_toolbox.dll is loaded and BCT CheckIt is activated the TC server will crash on login.

BCT CheckIt - Known Issues and Limitations

ID	BCT Call ID	Category	Description
BT-19363		Active Workspace	Update tooltipster theme immediately when the CheckIt rule panel is already opened by switching the theme in AW
BT-21228		BCT CheckIt Designer	BCT CheckIt Designer is not working in Internet Explorer
BT-20797	004826, 012167	GUI	BCT CheckIt fails to start if a "ß" is used in the CDATA file name
BT-21583		BCT CheckIt Designer	Incorrect breadcrumb order
BT-21580		BCT CheckIt Designer	Deleting an unlinked Reusable Set causes "No Name"
BT-22908		Active Workspace	Fontawesome is not displayed correctly in AW6.2
BT-22974	2001095329	Installation	bct_checkit.jar needs to be removed to deactivate BCT CheckIt in RAC
BT-22916			Windows Server 2016 is no longer supported for CheckIt and TcToolbox

BCT TC Toolbox

BCT TC Toolbox v25R2 (released on 2025-03-27)

Enhancements

ID	BCT Call ID	Category	Description
R-2243		Configuration	Enhancement for BCT TC Toolbox: Calculation RuntimeProperty with flexible formula based on source properties

BCT TC Toolbox v24R6 (released on 2024-11)

Enhancements

ID	BCT Call ID	Category	Description
R-2191		Active Workspace	Validate a value in field according to regular expression
R-1430		Dispatcher	(bct_translators) Provide a single BCT Dispatcher Module translator for Solid Edge and NX

BCT TC Toolbox v24R5 (released on 2024-09)

Enhancements

ID	BCT Call ID	Category	Description
R-2190		Configuration	Support latest AddOns Syntax in TcToolbox where "extended" syntax is supported
R-2183		Configuration	Add support for new AddOnsSyntax in all places where only old AddOnsSyntax is supported in Toolbox
R-2195			Special keyword handling for release_status_list is now available as release_status_names to allow normal release_status_list behavior
R-2142		Configuration	Access rule bypass functionality for Active Workspace
R-1874			Bypass functionality for Active Workspace

BCT TC Toolbox v24R3 (released on 2024-05)**Enhancements**

ID	BCT Call ID	Category	Description
R-2131			Enable TcToolbox handlers in AW Workflow Designer
BT-23037	013323	Item Rename	Enhance ItemRename in AW to support LOV attached to Item Name and Desc field

Fixed issues

ID	BCT Call ID	Category	Description
BT-23069		Configuration	Issue in BctRevisionHistory RTP across a reference and using @last_mod_user.user_id
BT-23062	2487744151	Portal Integration	Objects cannot be copied in Workflow Designer in TC with BCT Environment

BCT TC Toolbox v24R2 (released on 2024-03)**Enhancements**

ID	BCT Call ID	Category	Description
R-2054			Create AW component for ItemRename functionality
R-2111			Retrieve current user session attributes with new addons syntax
BT-22979		Attribute Writer Handler	BCT_ATTRIBUTE_WRITER Extract also username, not only user_id
R-2123		Item Rename	Item Rename in AW should always give user popup feedback

Fixed issues

ID	BCT Call ID	Category	Description
BT-22848	011622	Dispatcher	(nx_dispatcher) NXtopdfdirect creates a pdf which hides a custom symbol

BCT TC Toolbox v24R1 (released on 2024-01)**Enhancements**

ID	BCT Call ID	Category	Description
R-2096		Attribute Writer Handler	Support new Add-Ons syntax in BCT_ATTRIBUTE_WRITER (in addition to old)

Fixed issues

ID	BCT Call ID	Category	Description
BT-22990			Infrequent random tcserver crash when checking out license

BCT TC Toolbox v23R6 (released on 2023-11-30)**Enhancements**

ID	BCT Call ID	Category	Description
R-2053			Expose ItemRename functionality as json service through the PDQ exits

Fixed issues

ID	BCT Call ID	Category	Description
BT-22962			CheckIt license related log messages sometimes end up in TcToolbox log file
BT-21354	008852 1844085582	TC Forms	TC RAC copy paste menu/buttons get disabled after switching IRMF BCT-form tabs
BT-22972	2043966523	Revise Exits	Warning message related to bct_tc_toolbox.ini

BCT TC Toolbox v23R4 (released on 2023-08-22 (planned: 2023-07-27))**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22924			BCT RAC Stylesheet plugin is not loaded

BCT TC Toolbox v23R1 (released on 2023-01-26)

Fixed issues

ID	BCT Call ID	Category	Description
BT-22769	011944	TC Forms	bctTextField attributes cannot be copied

BCT TC Toolbox v22R6 (released on 2022-11-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-22009		InstallationReports	BCT TechDoc server should be shipped with latest version - ActiveMQ 5.16.1 (Jan 20, 2021)
R-1894		BOM Counter	Support latest addons syntax along with old for bomcounter

Fixed issues

ID	BCT Call ID	Category	Description
BT-22821		Dispatcher	separtostep Dispatcher Modul cannot load the translated .step file to teamcenter
BT-22801		Documentation	Manual install step in docu says: set classpath=%classpath%; %HOME%\lib\commons-i...
BT-22824		BOM Counter	Bomcounter result dialog will not pop up when it is executed from BCT menu

BCT TC Toolbox v22R5 (released on 2022-09-29)

Enhancements

ID	BCT Call ID	Category	Description
R-1784			Support SmartURL in AW Toolbox
BT-22805		Dispatcher	Dispatcher Module Upgrade SE_Assembly2JT
R-1885		Installation	Add SmartURL to TcToolbox installer

Fixed issues

ID	BCT Call ID	Category	Description
BT-22787	012117	Documentation	TC Upgrade unable to locate feature if BCT AW Addons BMIDE is not deployed

BCT TC Toolbox v22R4 (released on 2022-07-28)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22683	011475	BOM Counter	Translation error in BCT BOM-Counter
BT-22745		Dispatcher	SE Dispatcher Modules crashes
BT-22747		Dispatcher	Handling of bad characters and file extensions in file names

BCT TC Toolbox v22R3 (released on 2022-06-02)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22630	011338	Dispatcher	BCT setodxfdirect Dispatcher Module crashes

BCT TC Toolbox v22R2 (released on 2022-03-31)**Enhancements**

ID	BCT Call ID	Category	Description
BT-22570		Dispatcher Request Handler	Enable feedback should work for Autocad translators(TCAA, TCAI)

Fixed issues

ID	BCT Call ID	Category	Description
BT-22228		Documentation	setopdfdirect and setotiffdirect undocumented parameter -saveas

BCT TC Toolbox v21R4 (released on 2021-11-25)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22353		Runtime Properties	Month names are not localized for TC session locale in revision history RTP with target-date-format
BT-22422		Dispatcher	nxtodxf Dispatcher Translator Module doesn't create output
BT-22416	012405	Dispatcherpart2raster	Part2Raster Name too long - NX process gets killed and dataset stays checked out

BCT TC Toolbox v21R3 (released on 2021-09-30)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22265		Dispatcher Request Handler	TcToolbox EnableFeedback doesn't work when directory doesn't exist for log file

BCT TC Toolbox v21R2 (released on 2021-07-29)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-22260		Installation	Unpack installer with "/extract" does not copy common files

BCT TC Toolbox v21R1 (released on 2021-06-10 (postponed from 2021-05-27))

Enhancements

ID	BCT Call ID	Category	Description
Q-1293		Installation	Apply new release strategy for BCT installer v21R1
R-1686	008588	Change Document Extension	BCT Change Document Extension should allow additional criteria other than Itemtype
BT-20787		Installation	Change BCT_EOMS_DIR default value for the BCT Installer v19

Fixed issues

ID	BCT Call ID	Category	Description
BT-22064	009307	Dispatcher	The part2raster.exe is not signed
BT-22123		Attribute Copy	CopyAttributes doesn't work in RAC TC13.1
BT-22167			TC Portal shows error message if RTPs are configured for properties that don't exist

BCT TC Toolbox v19.6 (released on 2021-03-25 (last official v19 version))

Fixed issues

ID	BCT Call ID	Category	Description
BT-21838		Portal Integration	BCT perspectives are not opening in TC 13.1 RAC
BT-21865		Attribute Check HandlerAttribute Writer HandlerDispatcher Request HandlerNotify Handler	Workflow handlers from Toolbox don't load if Toolbox Runtime Properties are enabled
BT-21807	008629	Dispatcher	Dispatcher Modules fail when object_string contains " "

BCT TC Toolbox v19.5 (released on 2021-01-28)**Enhancements**

ID	BCT Call ID	Category	Description
R-1630	008479	Dispatcher Request Handler	Add argument to BCT Dispatcher Request handler to allow EnableFeedback to only continue for certain states
R-1645		Dispatcher	Enhancement for Enablefeedback for Dispatchers
BT-21778	008479	Notify Handler	Toolbox - EnableFeedback Handler needs enhancement in its functionality

BCT TC Toolbox v19.4 (released on 2020-11-27)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-21571	7598	Command Line Tools	Command line tool "Query" not working for date field for which no values are given
BT-21759	008381	Dispatcher	NX2PDF result is inverted for "Shaded Geometry as Wireframe" NX Setting
BT-21608		Reports	BCT Reports does not work with Java 11

BCT TC Toolbox v19.3 (released on 2020-09-25)**Enhancements**

ID	BCT Call ID	Category	Description
R-1556		Portal Integration	BCT-Attach-Primary-Objects should be available in BCT TC Toolbox

Fixed issues

ID	BCT Call ID	Category	Description
BT-21667	7974	Documentation	Dokumentation Bug - Customer missing hints to avoid errors during installation

BCT TC Toolbox v19.2 (released on 2020-08-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-21618			Support TC13

Fixed issues

ID	BCT Call ID	Category	Description
BT-21496	007389	Dispatcher Request Handler	BCT TC Toolbox - BCT_CreateTranslationRequest_AH enable Feedback only once possible

BCT TC Toolbox v18.15 (released on 2020-08-04 (last official v18 version))

Fixed issues

ID	BCT Call ID	Category	Description
BT-21251	006573	Item Rename	BCT Item Rename - if only description is renamed - item rev is not renamed
BT-21188	006302	Item Rename	BCT Item Rename not working if revision has GDEbvr

BCT TC Toolbox v19.1 (released on 2020-05-28)

Enhancements

ID	BCT Call ID	Category	Description
R-1498		Dispatcher	Include more final states for EnableFeedback to continue

BCT TC Toolbox v18.14 (released on 2020-05-28)

Fixed issues

ID	BCT Call ID	Category	Description
BT-21332	006751	ConfigurationReports	parameter.xml contains name of the person as author and not the user id

BCT TC Toolbox v19.0 (released on 2020-03-26)**Enhancements**

ID	BCT Call ID	Category	Description
R-1463		Dispatcher	New Enable Feedback functionality for any Dispatcher Modules
BT-20924	005289	Configuration	EnableFeedback Handler for nrtvpdirect Module

BCT TC Toolbox v18.13 (released on 2020-03-26)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-21440	007093	Attribute Copy	BCT Copy - Paste Attributes not working for Integer LOVs
BT-21207	006406	Runtime PropertiesDocumentation	BCT RuntimeProperty BctFormatValue documentation omits that it only works with string properties

BCT TC Toolbox v18.12 (released on 2020-01-31)**Enhancements**

ID	BCT Call ID	Category	Description
R-1442		New Dataset Name	Error message during item creation out of NX if no BCT TC Toolbox license is available

Fixed issues

ID	BCT Call ID	Category	Description
BT-21276		Portal Integration	Some BCT Plugins not loaded in TC 12.3., BCT Menu not displayed

BCT TC Toolbox v18.11 (released on 2019-11-28)

Enhancements

ID	BCT Call ID	Category	Description
R-1403		Change Document Extension	Don't abort item revision creation when no BCT TC Toolbox License is available

Fixed issues

ID	BCT Call ID	Category	Description
BT-21124	006119	TC Forms	Forms remain checked out when using Dataset Summary Tab
BT-20899	005176	Change Document Extension	Creating an Item from NX (BCT_CHANGE_DOCUMENT), creates double change documents
BT-20783	004514	Attribute Copy	BCT Item Attribute Copy is throwing error when using localized batch LOV
BT-21010	005551 005827	Portal Integration	Customize Toolbar button is not clickable anymore when bct_def_dir is set

BCT TC Toolbox v18.10 (released on 2019-09-26)

Enhancements

ID	BCT Call ID	Category	Description
R-1382		Installation	Update BMIDE Template for BCT software for new BMIDE structure introduced TC11.4

Fixed issues

ID	BCT Call ID	Category	Description
BT-21003		TC Forms	LOVs/Combo boxes are not getting disabled when the form is checked-in in dataset tabs
BT-20895		TC Forms	When using bctTextField, it is not possible to adjust the Field Width of the sty...

BCT TC Toolbox v18.9 (released on 2019-07-25)

Enhancements

ID	BCT Call ID	Category	Description
I-635			Destination persistent property gets updated every time when source runtime property gets modified and has non-empty value

Fixed issues

ID	BCT Call ID	Category	Description
BT-20907			Make sure to check state of the object before calling refresh_and_unlock method from AOMLocker
BT-20963		Runtime Properties	BCT Runtime Property method BctFormatValue evaluates to 0.00

BCT TC Toolbox v18.8 (released on 2019-05-23)

Enhancements

ID	BCT Call ID	Category	Description
BT-20878		TC Forms	Allow users to disable mainTab in the bctDataset stylesheet element(Summary tab)
I-443		TC Forms	Dataset TAB (SWT)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20659	004351 005045		FlexLM named user license checkout always uses the OS user name
BT-20743	004606	Licensing	No Message appears when no TC Toolbox license is available

BCT TC Toolbox v18.7 (released on 2019-03-28)

Enhancements

ID	BCT Call ID	Category	Description
I-284		Runtime Properties	Add new parameter "fallback_value" to BctAskPropertyValue
I-442			RTP source-item-id support in BctAskPropertyValue (Rohmaterial)
I-281		Runtime Properties	Add new RTP BctJoinPropertyValues which allows to do something like "he>xxnge>"
I-441			Revise/SaveAs-Exit

Fixed issues

ID	BCT Call ID	Category	Description
BT-20792		Reports	BCT Reports does not create a Report when executed a second time in TC 11.6/12.1 with 4tier
BT-19965		Installation	Uncertified BCT installer

BCT TC Toolbox v18.6 (released on 2019-01-31)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20382		Configuration	BctRevisionHistory source definition should use AddOns-Syntax

BCT TC Toolbox v18.5 (released on 2018-11-22)

Enhancements

ID	BCT Call ID	Category	Description
BT-19393		Runtime Properties	BCTRevisionHistory should support user_name or user_id
BT-20009	002399	Licensing	BCT Toolbox Licence for Teamcenter Consumer User to attend in WF
BT-19331	001376	Configuration	BCT BomCounter is only configurable for one property, need 5 counters

BCT TC Toolbox v17.0.12 (released on 2018-11-22)

Enhancements

ID	BCT Call ID	Category	Description
I-308		BOM Counter	enhance BCT BOM-Counter to support more than one attribute configuration
I-439	002399	Licensing	Remove BCT Toolbox Licence check for Teamcenter Consumer User to attend in WF

Fixed issues

ID	BCT Call ID	Category	Description
BT-20354		Runtime Properties	TC10 RAC crashes when RTPs are active

BCT TC Toolbox v18.4 (released on 2018-09-27)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20268	003274	Dispatcher	sePart2Step crashes and blocks the dispatcher
BT-20302		Notify Handler	"<" & ">" are not shown correct in the email notification
BT-20083		Configuration	BCT_NEW_DATASET_NAME doesn't work if attribute is empty

BCT TC Toolbox v18.3 (released on 2018-07-26)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20150		Dispatcherpart2raster	NX Dispatcher Modules don't work with UGMASTER
BT-20022		Item Rename	BCT_ITEMRENAME_CONF_excludedRelations is ignored for Forms

BCT TC Toolbox v17.0.10 (released on 2018-07-26)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-20035	002507	Portal Integration	BCT Icons will be displayed multiple times in TC Portal in list of perspectives

BCT TC Toolbox v18.2 (released on 2018-05-24)**Enhancements**

ID	BCT Call ID	Category	Description
I-318		TC Forms	Button to call URL / EXE with parameters

BCT TC Toolbox v17.0.8 (released on 2018-03-29)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-19307	001247	Notify Handler	BCT Notify Handler Email multiplied attributes
BT-19956		Reports	TechDoc can not handle view types where the display name differs from the internal name
BT-19440		Runtime Properties	BCT RTP causes workflow errors

BCT TC Toolbox v18.0 (released on 2018-02-01)**Enhancements**

ID	BCT Call ID	Category	Description
BT-19454	001760	Installation	Automatically take care of copying latest jar (deleting old and adding/replacing new) during installation

Fixed issues

ID	BCT Call ID	Category	Description
BT-16284		Portal Integration	BCT Icons are not visible in toolbar in TC Portal after BCT Patch

BCT TC Toolbox v17.0.7 (released on 2018-02-01)

Enhancements

ID	BCT Call ID	Category	Description
I-306		Notify Handler	Add Attachments in BCT Notify Email

Fixed issues

ID	BCT Call ID	Category	Description
BT-16647		Documentation	Documentation of BCT TC Forms BCTHidden is not clear
BT-19382	001856	TC Forms	TC Portal Crash when double click on a TC Form including BCT Beans

BCT TC Toolbox v17.0.6 (released on 2017-11-02)

Enhancements

ID	BCT Call ID	Category	Description
I-305		Notify Handler	Support any Business Type with new Addons Syntax
I-315		Runtime Properties	allow alphanumerical sorting in BctCollectPropertyValue and BctCollectPropertyValues
BT-16643		Notify Handler	Only Item, ItemRevision and Dataset can be used for attribute configuration
BT-16638		Notify Handler	Support \$PROCESSOWNER as receipt in Notify Handler

Fixed issues

ID	BCT Call ID	Category	Description
BT-19266		Configuration	RTP "BctRevisionHistory" can cause a crash in Teamcenter if misconfigured. (e.g....
BT-19306	001302	Configuration	"Umlaute" (äüö) in BCT Notify Handler - Subject

BCT TC Toolbox v16.1.15 (released on 2017-11-02)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16519		Runtime Properties	BCT RTP causes workflow errors

BCT TC Toolbox v17.0.5 (released on 2017-08-31)

Enhancements

ID	BCT Call ID	Category	Description
I-287		Runtime Properties	new BCT Runtime Property: BctRevisionHistory

Fixed issues

ID	BCT Call ID	Category	Description
BT-16478		Installation	BCT Server Components patched to 17.0.3 - BCT_AWC_Addons doesn't install
BT-16527		Runtime Properties	Global defined BCT Runtime Properties could lead to BMIDE deploy errors

BCT TC Toolbox v16.1.14 (released on 2017-08-31)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16559	IR000790	TC Forms	is not shown anymore
BT-16487		BCT Dispatcher Module	Enable feedback has no effect when using 3rd-party dispatcher modules, e. g. TCAA or TCAI with TC11.2
BT-16511		TC Forms	does not work

BCT TC Toolbox v17.0.4 (released on 2017-06-28)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16455	BCT-123113	BCT Dispatcher Module	Dispatcher dataset upload failes when owning_user SOA policy is not configured properly

BCT TC Toolbox v16.1.13 (released on 2017-06-28)**Enhancements**

ID	BCT Call ID	Category	Description
BT-16471		BCT Notify	Ignore new line in subject when using TC attributes content

Fixed issues

ID	BCT Call ID	Category	Description
BT-16480		TC Forms	display forms with double click doesn't work anymore
BT-16463	BCT-000493	BCT Notify	Handler multiplies attribute values for target ItemRevision if Dataset(s) are also given with parameter -object

BCT TC Toolbox v17.0.3 (released on 2017-04-27)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-16353		BCT Notify	Workflow aborts if optional paramaters -cc and -bcc are given but empty
BT-16319		BCT Notify	Provide AWC Link to Item/Item Revision in addition to Datasetlinks
BT-16414		BCT Notify	Handler throws error if parameter RAC- or WEB-Link is not set or set to yes

BCT TC Toolbox v16.1.12 (released on 2017-04-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-16040		Item Rename	Use the DB stored localizations for ID, Name and Description
BT-16302	BCT-122383	BCT Notify	Add configuration option for SMTP Server timeout
BT-14865		Item Rename	New configuration parameters for enabling/disabling input fields

Fixed issues

ID	BCT Call ID	Category	Description
BT-16389		Documentation	BCT Report workflow handler parameter "tcLanguageList" in is wrong in documentation, must be e.g. "es_ES" instead "es"
BT-16415		BCT Notify	Handler multiplies attribute values for target ItemRevision if Dataset(s) are also given with parameter -object
BT-16318		BCT Dispatcher Module	nxtopdfdirect dispatcher produced empty PDFs
BT-16316		Runtime Properties	BctPreSaveAction causes "Instance locked" error while trying to checkin the ItemRevision
BT-16194		TC Forms	TC Portal Crash when double click on a TC Form including BCT Beans
BT-15851		BCT Dispatcher Module	Generation of one PDF for each page of a multi page NX Drawing
BT-16385		BCT Dispatcher Module	Modules LOG shows TC Password as cleartext

BCT TC Toolbox v16.1.11 (released on 2017-02-02)

Enhancements

ID	BCT Call ID	Category	Description
BT-16223		BCT Notify	Allow to specify persons related to an Item for BCT Notify recipient argument
BT-16243		BCT Notify	Add parameter -to (equal to -recipient), -cc and -bcc
BT-15882		BCT Notify	Add link to view object in AWC in e-mail created by BCT Notify Handler
BT-16395		BCT Notify	Allow to use any Teamcenter attribute in E-Mail subject and bod using BCT Add-Ons Syntax

Fixed issues

ID	BCT Call ID	Category	Description
BT-15460		Handler	BCT_ATTRIBUTE_CHECK only works in the start section

BCT TC Toolbox v16.1.10 (released on 2016-12-01)

Enhancements

ID	BCT Call ID	Category	Description
BT-16235		Handler	Add new handler to delete relations: BCT_DeleteRelation_AH

Fixed issues

ID	BCT Call ID	Category	Description
BT-16082	BCT-121377	Runtime Properties	BctAskLatestStatus shows internal Status name

BCT TC Toolbox v17.0.0 (released on 2016-10-06)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16045		Runtime Properties	Rename typo in RTP configuration from 'methode' into 'method'
BT-16101	BCT-121452	BCT Item Attribute Copy	Support copy attributes of type 'date'
BT-15694		BCT Dispatcher Module	Missing nextpdfdirect/nextotiffdirect module stylesheet configuration for UGMASTER

BCT TC Toolbox v16.1.9 (released on 2016-10-06)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15966		BCT Dispatcher Module	setopdfdirect Dispatcher sometimes generating empty PDFs
BT-15794	BCT-118602	BCT Translator	Error Message is thrown with no detailed information if an attribute is empty

BCT TC Toolbox v16.1.8 (released on 2016-08-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-16054		Runtime Properties	New RTP methods 'BctCollectPropertyValues' and 'BctCollectPropertyValues' to collect values

Fixed issues

ID	BCT Call ID	Category	Description
BT-15993		Installation	REPLACE_WITH_TC_ROOT REPLACE_WITH_TC_DATA is replaced too often on install

BCT TC Toolbox v16.1.7 (released on 2016-06-09)

Enhancements

ID	BCT Call ID	Category	Description
BT-15977		TC Checkin	CheckIn Exit: check-in post action to trigger a workflow

Fixed issues

ID	BCT Call ID	Category	Description
BT-15940	BCT-120189	BCT Notify	BCT_NOTIFY Handler does not write the signoff comments into e-mail

BCT TC Toolbox v16.0.13 (released on 2016-04-07)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15653		Documentation	Add bct_addons.ini configuration for each TC Toolbox module
BT-15827		Documentation	Wrong TC preference documentation for TC Forms

BCT TC Toolbox v16.1.5 (released on 2016-02-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15640		TC Forms	BCTTableLOV Bean cannot display Array properties

BCT TC Toolbox v16.0.12 (released on 2016-02-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15687		TC Forms	BCT Form Rendering Stylesheets causing a high CPU usage
BT-15741	BCT-118260	BCT Reports	DatasetNamePattern parameter in report configuration ignored

BCT TC Toolbox v16.0.11 (released on 2015-11-05)**Enhancements**

ID	BCT Call ID	Category	Description
BT-15721		Handler	Add argument -ViewType to BCT_setBomPrecise_AH to only affect views of given ViewType

BCT TC Toolbox v16.0.10 (released on 2015-09-10)**Enhancements**

ID	BCT Call ID	Category	Description
BT-15552		BOM Counter	Consider weight from assembly itself in BOM Counter

BCT TC Toolbox v16.0.9 (released on 2015-07-09)**Enhancements**

ID	BCT Call ID	Category	Description
BT-15550		BOM Counter	BOM Counter should filter items according to a regex or fix value
BT-15529		Handler	BOM Counter aborts if value is not a valid double

Fixed issues

ID	BCT Call ID	Category	Description
BT-15507		BCT Reports	BCT Reports shows quantity 1 if TC Bom Occurrence has quantity 0
BT-15509	BCT-116926	Runtime Properties	Solid Edge error message appears if BCT RTP are active
BT-15515	BCT-116958	Runtime Properties	Runtime Properties not working with Complex Property
BT-15549		BOM Counter	BOM Counter ignores bl_quantity=0
BT-15484	BCT-116640	Documentation	Documentation of BCT_RemoveObjects_AH is missing

BCT TC Toolbox v16.0.8 (released on 2015-05-07)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15454		BCT Dispatcher Module	NullPointerException when Dispatcher SOA-Policy is set
BT-15299	BCT-115578	TC Forms	If several Datasets with the same name exist on a ItemRevision, only one of them is shown
BT-15475		BCT Reports	BCT_techdoc_AH doesn't work without a BOMView
BT-15457		Documentation	Bomcounter only sums up per BOM Level in if using BOMCOUNTER_SOURCE and BOMCOUNTER_DEST
BT-15336		TC Forms	UGPART-Attr Form will not be displayed as separate tab every time

BCT TC Toolbox v16.1.0 (released on 2015-03-26)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15373		Documentation	wrong documentation for bct_appserver installation

BCT TC Toolbox v16.0.7 (released on 2015-03-26)

Enhancements

ID	BCT Call ID	Category	Description
BT-15364		Runtime Properties	New BCT Runtime Property: BctAskLatestStatus

Fixed issues

ID	BCT Call ID	Category	Description
BT-15357		Documentation	Documentation mention that it is possible to "join" Runtimeproperties
BT-15421		BCT Dispatcher Module	Dispatcher continue workflow functionality doesnt work when dispatcher run as windows service
BT-15374		Documentation	no information how to configure BCT_TechDoc_AH Handler
BT-15306	BCT-115544	Change Document	Template Datasets are not copied when creating new Items
BT-15355	BCT-116127	Runtime Properties	Create new Dataset fails if "Runtimes Properties" is activated for properties that are used for an Complex Property
BT-15385	BCT-116213	TC Forms	readOnly attributes are writeable if form is checked out
BT-15244		Handler	BCT_AttrWriter_AH: Error Message if Property Constant Modifiable=read

BCT TC Toolbox v16.0.6 (released on 2015-02-05)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15279		Runtime Properties	BctAskPropertyValue returns error code if the source attribute is empty
BT-15298	BCT-115556	New Dataset Name	New Dataset Name field is grayed out
BT-15305	BCT-115534	New Dataset Name	BCT New Dataset Name causes NX error
BT-15331	BCT-115885	BCT Dispatcher Module	java.lang.NullPointerException with BCT TaskPrep class
BT-15267	BCT-115394	TC Forms	opening form belonging to different group causes error message
BT-15302		Documentation	BCT_CreateTranslationRequest -EnableFeedback Documentation is missing
BT-15266		Runtime Properties	BctAskPropertyValue does not work in BOMLine Attributes

BCT TC Toolbox v15.1.11 (released on 2015-02-05)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15289		Portal Integration	Hiding menu entries via bct_addons.ini does not work

BCT TC Toolbox v16.0.5 (released on 2014-12-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15200		BCT Dispatcher Module	Dispatcher crashes if sending a second object
BT-15228		BCT Dispatcher Module	SOA-Policy is not used when Dispatcher Continue Workflow functionality is used
BT-15238		BCT Dispatcher Module	Remove DispatcherRequest from Workflow does not work
BT-15133		Handler	Handler and Revise Exits causes CXPOM_wrong_class error if BCT TC Toolbox license is not available
BT-15220		BCT Reports	JAVA_OPTS settings from standalone.conf.bat will be ignored if JBoss runs as service
BT-15265	BCT-115393	TC Forms	when form is checked out, it is not editable in the viewer tab
BT-15154		Runtime Properties	RTP Reports ERROR if Attribute was not found on RevisionMaster
BT-15192	BCT-114994	BCT Dispatcher Module	SEtoPDF Dispatcher Client crashes if sending a second object
BT-15262	BCT-115359	TC Forms	BCT TC Forms not displayed in TC10.1

BCT TC Toolbox v15.1.10 (released on 2014-12-04)

Enhancements

ID	BCT Call ID	Category	Description
BT-14937		Handler	BCT_Notify_AH should support Teamcenter address lists with email addresses

BCT TC Toolbox v16.0.4 (released on 2014-10-09)

Enhancements

ID	BCT Call ID	Category	Description
BT-14480		BOM Counter	BOM Counter should use Teamcenter Config Rule for resolving BOM
BT-15004		BCT Dispatcher Module	Possibility to write additional arbitrary attributes to jobfile when using dispatcher modules for NX

Fixed issues

ID	BCT Call ID	Category	Description
BT-14875		BCT Reports	JBoss EAP 6.x as Windows Service - Please consult the documentation
BT-15103		Documentation	setting environment variables in Jboss startscript

BCT TC Toolbox v16.0.2 (released on 2014-06-12)

Enhancements

ID	BCT Call ID	Category	Description
BT-14886		TC Forms	Datasets displayed in Pseudofolders are not visible in Revision Master Form

Fixed issues

ID	BCT Call ID	Category	Description
BT-14944		BCT Dispatcher Module	nxtotiff translation module creates corrupt TIF (in Teamcenter)
BT-14916		BCT Dispatcher Module	After Installation of BCT DispatcherClient extension, DC can't run as Windows service
BT-14878		TC Forms	BCTTableLOV cannot be used on suggestive LOV

BCT TC Toolbox v15.1.7 (released on 2014-06-12)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-14934		TC Forms	With two dataset-forms, the "Read-Only" watermark is "shadowed"
BT-14904	BCT-113462	Handler	TKF extention for BCT_Notify_AH hides Filepath while Richclient URL is suppressed
BT-14888	BCT-113364	Item Rename	BCT ItemRename fails if at least one of the Item Revisions has a release status

BCT TC Toolbox v16.0.1 (released on 2014-04-03)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-14848		BCT Reports	UI elements of BCT Reports Wizard appear twice in wizard
BT-14836		Handler	BCT_CreateTranslationRequest_AH throws error message if object for translation doesn't exist
BT-14831		Documentation	Faulty link in the documentation
BT-14824	BCT-113017	TC Forms	opening a form causes TC Exception error

BCT TC Toolbox v15.1.6 (released on 2014-04-03)

Enhancements

ID	BCT Call ID	Category	Description
BT-14767		Handler	Custom Link for BCT-Notify
BT-14800	BCT-112826	Handler	Error message : Sending Handler in Workflow

Fixed issues

ID	BCT Call ID	Category	Description
BT-14810		Installation	Only copy patched JAR files to %TC_PORTAL_ROOT%\plugins
BT-14818		TC Revise	Revise/Save As aborts if TC Revise starts a workflow with BCT_AttrWriter_AH handler
BT-14819		Runtime Properties	Revise/Save As fails if Runtime Properties are activated
BT-14807	BCT-112859	New Dataset Name	name only editable after second try
BT-14808	BCT-112863	Handler	Configured Teamcenter attribute is being checked for "\$not_empty" even though the attribute is not empty
BT-14751		TC Forms	element doesn't open dataset-forms for editing
BT-14773	BCT-112738	TC Forms	GUI elements activated when checking out
BT-14911	BCT-113483	Portal Integration	Changing "Session settings" show unconfigured options in BCT menu

BCT TC Toolbox v16.0.0 (released on 2014-02-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-13892		BCT Reports	Name of dataset needs to be configurable
BT-14035		BCT Reports	Upgrade to JBoss EAP 6.1 (JBoss 7.2)
BT-13739		TC Forms	Support other forms elements
BT-13635		BCT Reports	Name of generated report (PDF file) and dataset should be the same as BOM View Revision Name
BT-13634		BCT Reports	Parameter to pass BOMView Type to reports workflow handler

Fixed issues

ID	BCT Call ID	Category	Description
BT-14574		Documentation	Dokumentation zu den Dispatcher-Modulen ist teilweise zu umständlich und falsch
BT-14369		BCT Reports	Default value for "Catalog.type" in the bct_reports_config.properties file is ignored
BT-14476		Runtime Properties	Change license check from OS User to TeamCenter User
BT-14183		Handler	BCT TC Toolbox license checkout in 4-tier environment with wrong user name

BCT TC Toolbox v15.1.5 (released on 2014-01-30)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14676		BCT Dispatcher Module	Undocumented TRANSLATOR_ARGS
BT-14678		BCT Dispatcher Module	Missing example for SOA-Policy
BT-14677		BCT Dispatcher Module	TRANSLATOR_ARGS ohne Zugewiesenem Wert führen zu Abbruch

BCT TC Toolbox v15.0.9 (released on 2014-01-30)

Enhancements

ID	BCT Call ID	Category	Description
BT-14714		Installation	Include the full set of BCT BMIDE templates in the patch installer

Fixed issues

ID	BCT Call ID	Category	Description
BT-14651		Handler	Missing HTML template for BCT-Notify-AH handler
BT-14556		Installation	Patch-Installer extrahiert die Tc-10.1 Binaries, aber nicht die BMIDE-Templates

BCT TC Toolbox v15.1.4 (released on 2013-11-21)

Enhancements

ID	BCT Call ID	Category	Description
BT-14557		Installation	Im BCT TC-Toolbox BMIDE-Projekt fehlen die Vorlagen-Dateien zur Installation

Fixed issues

ID	BCT Call ID	Category	Description
BT-14650		Documentation	Missing documentation for BCT-Notify-AH handler
BT-14575		BCT Dispatcher Module	Dispatcher Preferences not valid for TC10.1
BT-14513		TC Forms	Meldung über nicht ausgefüllte Pflichtfelder zeigt nur den internen Datenbanknamen des Attributs
BT-14512		TC Forms	Element zeigt keine UGPartAttr an
BT-14558		Runtime Properties	Changes to the definition file demand a rebuild of the client and server cache.
BT-14576		BCT Dispatcher Module	Wrong value when retrieving BCT_MODULE_DIR environment variable

BCT TC Toolbox v15.0.8 (released on 2013-11-21)

Enhancements

ID	BCT Call ID	Category	Description
BT-14511		TC Forms	Schreibgeschützte Felder können nicht markiert werden

Fixed issues

ID	BCT Call ID	Category	Description
BT-14544	BCT-111415	Portal Integration	com.bct.eisenmann.tcportal_1.0.0.jar error when selecting remote object in structure management
BT-14545	BCT-111429	Portal Integration	Portal overlay causes error in structure manager for remote items

BCT TC Toolbox v15.1.3 (released on 2013-09-19)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14481	BCT-111069	BOM Counter	BomCounter is not available for Item and Item Revision
BT-14479	BCT-111069	Item Rename	If Item ID exists Item Name is not reverted

BCT TC Toolbox v15.0.7 (released on 2013-09-19)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14482		BCT Reports	BCT_DEF_DIR paths in the bct_reports_config.properties and possibly at other places are wrong
BT-14452		Handler	In Rich Client TC Toolbox checks named user licenses with os user, workflow handlers check for TC user
BT-14456		Item Rename	Only relations of type IMAN_specification, IMAN_manifestation and IMAN_master_form should be considered

BCT TC Toolbox v15.0.6 (released on 2013-07-04)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-14413	BCT-110428	Item Rename	Hidden Master Forms will not be renamed

BCT TC Toolbox v15.0.5 (released on 2013-04-25)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-14351		BCT Reports	The function to clean the ReportsWorkingDIR doesn't work anymore.
BT-14209		BCT Reports	Default values for "RevisionRule" in the bct_reports_config.properties file are ignored

BCT TC Toolbox v15.1.0 (released on 2013-03-21)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-14239		Documentation	Installation of BCT BMIDE Template for BCT Toolbox not necessary
BT-14110		Installation	All submodules of the BCT TC Toolbox need to be inactive after installation
BT-14196		Installation	Examples in INI-files should be out commented!
BT-14143		BCT Dispatcher Module	scripts of dispatcher modules don't return proper exit code
BT-14251		BCT Dispatcher Module	several services exist in DispatcherClient, but Translators are missing

BCT TC Toolbox v15.0.3 (released on 2013-01-17)

Enhancements

ID	BCT Call ID	Category	Description
BT-14184		Portal Integration	Checkout TC Toolbox license according to user level (for Author and not for Consumer)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14244		Installation	Setting BCT_NEW_DATASET_NAME is missing in bct_addons.ini
BT-14192		BCT Dispatcher Module	Translator package for BctWrapper contains a typo
BT-14193		BCT Dispatcher Module	Dispatcher NX modules read a false parameter when -output_dir is not set

BCT TC Toolbox v15.0.2 (released on 2012-10-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14173		Portal Integration	It's not possible to change given name of new specifications in NX, if bct_tc_toolbox_exits.dll is loaded in tcserver
BT-14137		Installation	Binaries copied to wrong directory %BCT_EOMS_DIR/windows
BT-14140		BCT Reports	The included fop.jar is still from the FOP version 0.20.5

BCT TC Toolbox v14.1.6 (released on 2012-10-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14113	BCT-108152	Item Rename	BCT New Dataset Name does not work without "NotApplySyntaxWhenRegex" in Configuration
BT-14092	BCT-107985	TC Revise	Save as triggers post actions
BT-14135		Runtime Properties	BctAskPropertyValue is only working for Datasets

BCT TC Toolbox v15.0.1 (released on 2012-08-30)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13733		BCT Reports	Pasting text from PDF reports contains wrong characters
BT-14108	BCT-108053	Documentation	BCT Copy Attributes / BCT Paste Attributes is not in the documentation

BCT TC Toolbox v14.1.5 (released on 2012-08-30)

Enhancements

ID	BCT Call ID	Category	Description
BT-14057		Item Rename	Item Rename does not handle multiselection
BT-13479		Portal Integration	Automatically assign names for new datasets according to naming rules
BT-13987	BCT-107204	Item Rename	Rename Item into an existing ID

Fixed issues

ID	BCT Call ID	Category	Description
BT-13971		Item Rename	Using the keyboard to select the LOV value raises an error
BT-13617	BCT-107314	BCT Reports	BCT TechDoch Handler kills tcserver.exe
BT-14026		Portal Integration	Teamcenter Client goes down when using Paste Attributes module
BT-13969		BCT Dispatcher Module	Creation of PDFs fails if ItemId contains empty spaces

BCT TC Toolbox v15.0.0 (released on 2012-07-20)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13896		Documentation	Outdated documentation about how to install JBoss as a service
BT-13884		Installation	Extra component for BCT Reports

BCT TC Toolbox v14.1.4 (released on 2012-06-01)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13856		Item Rename	Named References do not change the name although they are configured in the Preferences
BT-13893		BCT Reports	Import of reports to TC is only possible if BCT TechDoc is activated
BT-13882		Item Rename	Configuration of named references to exclude should be done by reference type

BCT TC Toolbox v14.1.3 (released on 2012-03-22)

Enhancements

ID	BCT Call ID	Category	Description
BT-13742		Item Rename	Dataset and NamedReferences configuration
BT-13508		Change Document	Document is not attached if "Save as" functionality is used in Teamcenter Portal
BT-13734		Portal Integration	Inform Portal user if no Toolbox license is available
BT-13752		Item Rename	If an LOV is attached to item name, then the LOV should be displayed
BT-13721		Item Rename	Field "Description" can not be changed with Item Rename

Fixed issues

ID	BCT Call ID	Category	Description
BT-13738		BCT Dispatcher Module	Custom-Attributes won't be exported to dispatcher_job.xml anymore
BT-13765	BCT-106306	Item Rename	Item Rename works only for Item Type "Item"
BT-13717		Change Document	Allow attachment of new Change Document to each Revision (in combination with DeepCopyRule 'cut').
BT-13735	BCT-106320	Change Document	Changedocument is not created if a new item is created based on an existing item with "Save As"

BCT TC Toolbox v14.1.2 (released on 2012-01-27)**Enhancements**

ID	BCT Call ID	Category	Description
BT-13585		Portal Integration	recursive rename of item

BCT TC Toolbox v14.1.1 (released on 2011-11-24)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-13631		Change Document	BCT_CHANGE_DOCUMENT_DATASET_SUFFIX doesn't accept empty setting
BT-13630		Change Document	Name of created change document is wrong
BT-13636		Installation	Missing gswin32c.exe after installation
BT-13574		Runtime Properties	RTP doesn't work with Item/ItemRevision subclasses

BCT TC Toolbox v14.1.0 (released on 2011-11-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-13442		BCT Dispatcher Module	Document customization required by BCT Dispatcher in default SOA policy
BT-13487		BCT Dispatcher Module	Filenames of named references in result datasets should be composed of datasetname instead of job id

Fixed issues

ID	BCT Call ID	Category	Description
BT-13444		Documentation	Wrong PATH extension in installation documentation
BT-13402		Installation	Base-Installer creates wrong dispatcher/dispatcher directory
BT-13414		Installation	no documentation on BCT Application Server
BT-13014		Handler	BOM Counter doesn't work.
BT-13480		Portal Integration	BCT Teamcenter Revise Exits: "BCT Teamcenter SaveAs Post Action" verwendet Template von Revise
BT-13352		BCT Dispatcher Module	Provide module to convert ME10-Drawings to PDF (mitopdfdirect)
BT-13489		Handler	Easyswap does not work when BCT TcToolBox is registered
BT-13485		BCT Dispatcher Module	BCT_CreateTranslationRequest_AH creates only one translation job for multiple datasets.
BT-13557		BCT Dispatcher Module	example missing how to use custom specific load options with NX module
BT-13440		Installation	nxtopdfdirect.bat and nextotiffdirect.bat call part2raster.exe with without %BCT_NX_BIN_SUFFIX%

BCT TC Toolbox v14.0.3 (released on 2011-07-28)

Enhancements

ID	BCT Call ID	Category	Description
BT-13495		Change Document	BCT ChangeDocument Extension is not triggered for Item creation

Fixed issues

ID	BCT Call ID	Category	Description
BT-13475		Change Document	BCT Change Document Extension does not work with TC 8.3.2
BT-13439		BCT Dispatcher Module	Default configuration of BCT Dispatcher Modules does not match ootb Teamcenter installation
BT-13496		Change Document	Change Docuemnt Extension is not triggered when BCT_TC_REVISE is activated

BCT TC Toolbox v14.0.1 (released on 2011-03-31)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13246		Installation	Error translation files not updated (BCT Teamcenter Server Components)
BT-13262		Installation	BCT Application Server should not be needed to install BCT TC Toolbox (only if BCT Reports will be used)
BT-13264		Installation	Installation of BCT Reports only not possible (BCT Teamcenter Productivity Suite)
BT-13146		Installation	No JBoss Application Server is copied if just BCT TC Toolbox is selected

BCT TC Toolbox v14.0.0 (released on 2011-02-24)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13244		Installation	bct_tc_toolbox.ini created in wrong directory
BT-13185		Installation	Enable BCT Applications for TC Toolbox in Tc Portal
BT-13145		Installation	Wrong expansion of PATH environment variable

BCT TC Toolbox v8.1.3 (released on 2011-01-27)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13013		Handler	BCT_AttrWriter_AH does not work with Post Action of Revise Exits

BCT TC Toolbox v8.1.0 (released on 2010-08-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-12683		BCT Translator	Wrong order of menu entries with Teamcenter 8.1 UA

BCT TC Toolbox v7.0.0 (released on 2009-06-09)

Enhancements

ID	BCT Call ID	Category	Description
BT-11845		BCT Translator	Extension for the entry of a further revision master form attribute (translation key).

BCT TC Toolbox - Known Issues and Limitations

ID	BCT Call ID	Category	Description
BT-15363		Runtime Properties	Display Names can not be configured in 'bct_teamcenter_runtime_properties.xml' since TC9.1 - they must be configured in BMIDE instead.
BT-13857	BCT-106634	Change Item Type	Change Item Type doesn't work if Storage Class of source item type and Storage Class of destination item type are different
BT-22916			Windows Sever 2016 is no longer supported for CheckIt and TcToolbox

BCT CenterPoint

BCT CenterPoint v18.15 (released on 2020-08-04 (last official v18 version))

Fixed issues

ID	BCT Call ID	Category	Description
BT-21484		API	Performance is slow for getChildrenFromBOMLineMultiLevel

BCT CenterPoint v18.13 (released on 2020-03-26)

Fixed issues

ID	BCT Call ID	Category	Description
BT-21452	007141	API	BCT Centerpoint - Timeout Problem with BCT Centerpoint Webservices

BCT CenterPoint v18.11 (released on 2019-11-28)

Enhancements

ID	BCT Call ID	Category	Description
R-1395		API	Provide functionality to generate both Hierarchical and flat JSON by BctCenterPoint method getChildrenFromBOMLineMultiLevel

BCT CenterPoint v17.0.14 (released on 2019-03-28)

Enhancements

ID	BCT Call ID	Category	Description
BT-16517		Common	Show different named referenced types of the same dataset in ImageViewer Webpart
BT-19605	001891		Extended API Call to define BOM level

BCT CenterPoint v17.0.13 (released on 2019-01-31)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20589		GUI	Option "Show Configured Revision" is not taken into account in Image Viewer Webpart
BT-20588		GUI	Selected Item Revision in Image Viewer Webpart does not match shown revision in viewer

BCT CenterPoint v17.0.11 (released on 2018-09-27)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-20380		GUI	Switch between revisions not possible if Image Viewer called with item id

BCT CenterPoint v17.0.7 (released on 2018-02-01)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-19604	001888		Preview-Webpart menu does not include "Show Preview"
BT-19602	001886		Mouse cursor doesn't change over preview image
BT-19603	001887		Clipboard Webpart content not scrollable

BCT CenterPoint v17.0.6 (released on 2017-11-02)**Enhancements**

ID	BCT Call ID	Category	Description
BT-19374		GUI	Provide configuration option to open BOM for image viewer

Fixed issues

ID	BCT Call ID	Category	Description
BT-19298		API	Special characters not displayed correctly
BT-19367		API	BOM is incomplete if attribute value contains ';' or '='

BCT CenterPoint v16.1.14 (released on 2017-08-31)

Enhancements

ID	BCT Call ID	Category	Description
BT-16526		Common	Disable BOM line in Assembly WebPart in case of undefined revision
BT-16516		Common	Allow Webpart depended configuration of user pools

Fixed issues

ID	BCT Call ID	Category	Description
BT-16515		Common	Support of Webpart interactions in SharePoint 2016
BT-16518		Common	Action drop down menu opens borderless and transparent in SharePoint 2013 and 2016

BCT CenterPoint v16.1.13 (released on 2017-06-28)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16514		Installation	CenterPoint WebService returns a 404 not found error (Global.asax file is missing)

BCT CenterPoint v16.1.10 (released on 2016-12-01)

Enhancements

ID	BCT Call ID	Category	Description
BT-16380		Common	Support for TC 11.2

Fixed issues

ID	BCT Call ID	Category	Description
BT-16191		Documentation	Update documentation to use SharePoint Management Shell instead of Windows Powershell.
BT-16192		Documentation	Update supported SharePoint version in documentation

BCT CenterPoint v16.0.13 (released on 2016-04-07)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15900		Common	PDF preview image takes the original one created
BT-15718	BCT-118011	Common	Cannot expand large assemblies

BCT CenterPoint v16.0.11 (released on 2015-11-05)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15733		Common	BCT Tiff Viewer does not accept "Print" and "Print Area" action
BT-15698	BCT-118014	Common	Image Viewer cannot have multiple items selected in a DropDownList

BCT CenterPoint v16.0.7 (released on 2015-03-26)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15360		Documentation	Documentation should include some examples for configuring "Displayname in BCT Centerpoint Webpart"

BCT CenterPoint v16.0.6 (released on 2015-02-05)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15304		Common	PDFs with extension ".PDF" (in uppercase letters) are not shown in preview webpart

BCT CenterPoint v16.0.5 (released on 2014-12-04)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15196	BCT-115161	Common	PDF Preview not working inside BOM structure webpart
BT-15197	BCT-115162	Common	Clipboard items from the BOM webpart only shows the icon
BT-15198	BCT-115163	Common	Documents with "Umlauts" do not work in Image Viewer webpart
BT-15231		Common	Preview Webpart attributes will only display Item Attributes from the main search and revision attributes from the BOM search
BT-15232		Common	Viewer Webpart just shows Attributes depending on input Element level
BT-15234		Common	Incorrect loading of PDF Datasets in Imageviewer while "show configured revision" is deactivated

BCT CenterPoint v16.0.4 (released on 2014-10-09)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-14882	BCT-113361	Installation	Web Part Error

BCT CenterPoint v16.0.3 (released on 2014-08-07)**Enhancements**

ID	BCT Call ID	Category	Description
BT-14290		Common	Optionally hide reference types in ImageViewer webpart (e.g. PDF:PDF_Reference)
BT-14291		Common	Separator for configurable name in BCT Centerpoint Webpart

Fixed issues

ID	BCT Call ID	Category	Description
BT-14900	BCT-113378	Common	While enabling PDFPreview the PreviewWebPart is not able to get the generated PDFPreviewImage
BT-14899		Common	ImageViewer Dataset ComboBox does not work for Datasets with the same Teamcenter Relation

BCT CenterPoint v16.0.2 (released on 2014-06-12)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14901		Documentation	SharePoint Administration Service should be running while trying to deploy a solution

BCT CenterPoint v16.0.0 (released on 2014-02-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-13411		Common	Setting to only find and display highest revision or released revisions

BCT CenterPoint v15.1.5 (released on 2014-01-30)

Enhancements

ID	BCT Call ID	Category	Description
BT-14675	BCT-112165	Common	Texts and messages are in german and not localizable

BCT CenterPoint v15.0.0 (released on 2012-07-20)

Enhancements

ID	BCT Call ID	Category	Description
BT-13729		Common	Clipboard just shows IDs
BT-13233		Common	Hide revision selection in BOM and Image Preview Webpart
BT-13232		Common	Displayable names for Assembly Webpart
BT-13374		Common	BCT CenterPoint must support the Teamcenter WebTier
BT-13141	BCT-102570	Common	"Save As" for PDFs

Fixed issues

ID	BCT Call ID	Category	Description
BT-13730		Common	Changeable column width in BOM view

BCT CenterPoint v14.1.3 (released on 2012-03-22)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-13720		Common	Display different preview images for search and image viewer webpart
BT-13719		Common	Open DWG Files in BCT CenterPoint

BCT CenterPoint v8.1.4 (released on 2011-03-31)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-13362		Common	Revisionselector shows highest Revision instead of configured revision

BCT CenterPoint v14.0.0 (released on 2011-02-24)**Enhancements**

ID	BCT Call ID	Category	Description
BT-12771		Common	Multipage Tiff Documents are not supported

BCT CenterPoint v8.1.0 (released on 2010-08-20)**Enhancements**

ID	BCT Call ID	Category	Description
BT-12776		Common	MS Office Documents cannot be opened with BCT CenterPoint

BCT CenterPoint v7.0.1 (released on 2009-03-29)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-12168		Common	Updated dataset version wasn't displayed.

BCT BI-Reports

BCT BI-Reports v24R1 (released on 2024-01)

Enhancements

ID	BCT Call ID	Category	Description
BT-19589			Discontinue BI-Reports

BCT BI-Reports v18.10 (released on 2019-09-26)

Enhancements

ID	BCT Call ID	Category	Description
R-1382		Installation	Update BMIDE Template for BCT software for new BMIDE structure introduced TC11.4

BCT BI-Reports v18.6 (released on 2019-01-31)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20560		Indexer	BCT BI-Reports can't load schedules

BCT BI-Reports v16.1.13 (released on 2017-06-28)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16476	BCT-123565	Reports Server	Indexer aborts with "Fatal error detected" after retrieving Schedule information

BCT BI-Reports v16.1.10 (released on 2016-12-01)

Enhancements

ID	BCT Call ID	Category	Description
BT-16197		Installation	Add configuration files for solr 5.1.0

BCT BI-Reports v17.0.0 (released on 2016-10-06)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15632		Reports Portal	Support for TC 11.2

BCT BI-Reports v16.1.5 (released on 2016-02-04)**Enhancements**

ID	BCT Call ID	Category	Description
BT-15749		Report - Workplace KPI	Indexing Schedule data in Solr for faster report generation

Fixed issues

ID	BCT Call ID	Category	Description
BT-15442		Report - Ressource Load Overview	Resource Values for report Resource Load Overview are wrong
BT-15596		Installation	default config files has to be removed from war-file

BCT BI-Reports v16.0.1 (released on 2014-04-03)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-14823		Installation	Installer does not copy the BI Reports Help

BCT BI-Reports v16.0.0 (released on 2014-02-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-14728		Report - Workplace KPI	Workplace KPI: Overview about currently running projects with calculated Key Performance Indicators.
BT-14727		Report - Ressource Load Overview	Resource Load Overview: Gives an overview about the utilization commulated across all projects.
BT-14724		Report - Big Picture	Big Picture: Overview of several projects or detailed view of a project in gantt diagram.
BT-14723		Report - Cockpit	Cockpit: Provides a highlevel graphical overview about running projects.
BT-14726		Report - Gate Progress Dashboard	Gate Progress Dashboard: Comparison of the gate tasks of your schedule to the active baseline schedule.

BCT BI-Reports - Known Issues and Limitations

ID	BCT Call ID	Category	Description
BT-22269			Resource Load Report is not working
BT-19734		General	Filtering with user name, group name or discipline does not work with spaces

BCT IcoSync

BCT IcoSync v19.6 (released on 2021-03-25 (last official v19 version))

Enhancements

ID	BCT Call ID	Category	Description
R-1653			Ability to create weblinks as class documentation

BCT IcoSync v18.12 (released on 2020-01-31)

Fixed issues

ID	BCT Call ID	Category	Description
BT-21268	006665	General	Adding multiple weblinks to one instance is not possible

BCT IcoSync v18.5 (released on 2018-11-22)

Enhancements

ID	BCT Call ID	Category	Description
R-1154	003468	Cadenas Classification	Support for automatic classification of CADENAS reuse library parts with BCT aClass and BCT IcoSync

BCT IcoSync v17.0.7 (released on 2018-02-01)

Fixed issues

ID	BCT Call ID	Category	Description
BT-19735		General	Issues when setting status on item form/revision/revision form if revision/item is classified

BCT IcoSync v16.1.12 (released on 2017-04-27)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16367		Documentation	Some parameters like -export_folder in the documentation have an en-dash instead of a hyphen-minus

BCT IcoSync v16.1.11 (released on 2017-02-02)**Enhancements**

ID	BCT Call ID	Category	Description
BT-16270		BctIcoSync	Support for explicitly setting encoding of files
BT-14960	BCT-113618	General	Delete classification instances
BT-14765		BctIcoSync	Export classification data for specific classes
BT-14764		BctIcoSync	Export classification data for a given list of parts

Fixed issues

ID	BCT Call ID	Category	Description
BT-16240		Documentation	Mistakes in German translation of documentation

BCT IcoSync v16.0.12 (released on 2016-02-04)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15790		BctIcoSync	BCT IcoSync crashes when header contains more columns than first line in csv

BCT IcoSync v16.0.7 (released on 2015-03-26)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15370		BctIcoSync	-m flag to allow multi classification doesn't work

BCT IcoSync v16.0.4 (released on 2014-10-09)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15090		Documentation	instance update to update array attribute values not documented

BCT IcoSync v15.1.7 (released on 2014-06-12)

Enhancements

ID	BCT Call ID	Category	Description
BT-14853		BctIcoSync	Support for adding/replacing/deleting WebLinks on instances

BCT IcoSync v16.0.1 (released on 2014-04-03)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14812		Documentation	Installation chapter should be removed from Help

BCT IcoSync v15.1.6 (released on 2014-04-03)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14748	BCT-112635	BctIcoSync	Empty last value is ignored if second to last value is in quotes

BCT IcoSync v16.0.0 (released on 2014-02-27)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15684	BCT-117879	BctIcoSync	IcoSync returns error for parts with usability status set
BT-14749	BCT-112635	BctIcoSync	Empty last value is ignored if second to last value is in quotes

BCT IcoSync v15.1.5 (released on 2014-01-30)

Enhancements

ID	BCT Call ID	Category	Description
BT-14659		BctIcoSync	validate LOV values from csv before using them to create/update instances

Fixed issues

ID	BCT Call ID	Category	Description
BT-14658		BctIcoSync	'-enforce mandatory attribute' cannot delete ICO without mandatory attributes if access rights are missing

BCT IcoSync v15.0.9 (released on 2014-01-30)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-14711		BctlcoSync	Setting attributes on multiple instances with same id in same class

BCT IcoSync v15.0.8 (released on 2013-11-21)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-14622	BCT-111993	BctlcoSync	When several icos with same ID exist and no class is given, only the first one is updated (several times)

BCT IcoSync v15.1.2 (released on 2013-07-04)**Enhancements**

ID	BCT Call ID	Category	Description
BT-14426		BctlcoSync	Support for mandatory attribute values

Fixed issues

ID	BCT Call ID	Category	Description
BT-14425	BCT-110537	BctlcoSync	Add -status_on_instance parameter to always write status on instance even when linked with item

BCT ME10-Manager

BCT ME10-Manager v22R2 (released on 2022-03-31)

Fixed issues

ID	BCT Call ID	Category	Description
BT-22527	010757		CMD window appears with newer version of ME10 Manager and should not be visible to the customer

BCT ME10-Manager v21R2 (released on 2021-07-29)

Fixed issues

ID	BCT Call ID	Category	Description
BT-22260		Installation	Unpack installer with "/extract" does not copy common files

BCT ME10-Manager v21R1 (released on 2021-06-10 (postponed from 2021-05-27))

Enhancements

ID	BCT Call ID	Category	Description
Q-1293		Installation	Apply new release strategy for BCT installer v21R1

BCT ME10-Manager v19.5 (released on 2021-01-28)

Fixed issues

ID	BCT Call ID	Category	Description
BT-21678		Search	Dataset queries in ME10Manager no longer work

BCT ME10-Manager v19.3 (released on 2020-09-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-21667	7974	Documentation	Dokumentation Bug - Customer missing hints to avoid errors during installation

BCT ME10-Manager v18.13 (released on 2020-03-26)

Enhancements

ID	BCT Call ID	Category	Description
R-1402		Installation	BCT ME10-Manager - Support for Teamcenter 12

Fixed issues

ID	BCT Call ID	Category	Description
BT-21202	006407	GUI	Cannot change Teamcenter user group

BCT ME10-Manager v18.10 (released on 2019-09-26)

Enhancements

ID	BCT Call ID	Category	Description
R-1382		Installation	Update BMIDE Template for BCT software for new BMIDE structure introduced TC11.4

BCT ME10-Manager v17.0.14 (released on 2019-03-28)

Fixed issues

ID	BCT Call ID	Category	Description
BT-20491	003950	General	Existing PDF is not updated on save
BT-20453		General	BCT ME10-Manager switches BCT_EOMS_LANG=en

BCT ME10-Manager v17.0.10 (released on 2018-07-26)

Fixed issues

ID	BCT Call ID	Category	Description
BT-19916	002113	General	Cannot add object in newly created TC Folder without restarting TC and ME10 Manager

BCT ME10-Manager v18.0 (released on 2018-02-01)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16284		Portal Integration	BCT Icons are not visible in toolbar in TC Portal after BCT Patch

BCT ME10-Manager v16.1.14 (released on 2017-08-31)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16536	BCT-122853	ME10	Item Revision Master Form is locked and can not be edited in Portal after Item has been created in ME10-Manager

BCT ME10-Manager v16.1.13 (released on 2017-06-28)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16495	BCT-123716	ME10	WF attributes (job.signoff.user_name an job.signoff.date) cannot be mapped to ME10 with TC 11.2
BT-16447		CreateImage Server	ERROR message on console - Parameter format not correct

BCT ME10-Manager v16.1.12 (released on 2017-04-27)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16382	BCT-122663	ME10	New items created by using BCT-RENAME in ME10 are not referenced in configured new stuff folder

BCT ME10-Manager v16.1.10 (released on 2016-12-01)

Fixed issues

ID	BCT Call ID	Category	Description
BT-16239	BCT-121947	General	Error Message "pure virtual function call" when opening ME10-Manager twice from ME10

BCT ME10-Manager v16.0.15 (released on 2016-08-04)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-16039	BCT-120834	Documentation	Add custom frames description is missing in the english documentation

BCT ME10-Manager v16.1.7 (released on 2016-06-09)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15890	BCT-119733	General	BCT_ME10MANAGER_REVISION_HISTORY_MAPPING would not appear in the Mapping Info (CTRL+SHIFT+F10)

BCT ME10-Manager v16.1.4 (released on 2015-11-05)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-15692		Portal Integration	ME10 Manager SendTo menu entry is in a Teamcenter 64bit environment not available

BCT ME10-Manager v16.1.0 (released on 2015-03-26)**Enhancements**

ID	BCT Call ID	Category	Description
BT-15911		ME10	Support of ME10 version 19 (Creo Elements/Direct Drafting 19.0)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14877		Documentation	me10manager_shared.xml not documented
BT-15257		Configuration	Adapt BCT_ME10MANAGER_PSVIEW_TYPE to OOTB Teamcenter datamodel

BCT ME10-Manager v16.0.7 (released on 2015-03-26)

Enhancements

ID	BCT Call ID	Category	Description
BT-15333	BCT-115917	CreateImage Server	ME10-Manager CIS does not find existing TC item

BCT ME10-Manager v16.0.5 (released on 2014-12-04)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15178		Documentation	Update supported ME10 versions in Installation Documentation
BT-15261		ME10	Save from ME10 not working with Creo Elements v18.1
BT-15259		ME10	Unable to save DatasetForm values when DatasetForm is not UGPART-ATTR
BT-15254	BCT-115291	Installation	ssleay_vc8.dll and libeay_vc8.dll missing
BT-15246		Documentation	Documentation has broken links

BCT ME10-Manager v15.1.9 (released on 2014-10-09)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15110		General	tonewtiff.exe fails for users without windows administration rights (hardcoded TEMP-path "C:\")

BCT ME10-Manager v16.0.3 (released on 2014-08-07)

Fixed issues

ID	BCT Call ID	Category	Description
BT-15059	BCT-114190	Search	ME10 Manager Search Queries are not working

BCT ME10-Manager v15.1.7 (released on 2014-06-12)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14941		Configuration	Ini-Setting BCT_ME10MANAGER_DISPLAY_CHECKIN_DIALOG_AT_EXIT = yes has no effect

BCT ME10-Manager v16.0.0 (released on 2014-02-27)

Enhancements

ID	BCT Call ID	Category	Description
BT-14107		General	Support of ME10 V18.1 (Creo Elements / Designer Drafting)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14549		Configuration	Fehlerhafter Eintrag in der ADD_ON.MAC

BCT ME10-Manager v15.0.8 (released on 2013-11-21)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14488	BCT-111075	GUI	TC Autologin didn't work for ME10 Manager Portal

BCT ME10-Manager v15.1.3 (released on 2013-09-19)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14070		ME10 API	WF attributes cannot be mapped to ME10

BCT ME10-Manager v15.0.7 (released on 2013-09-19)**Enhancements**

ID	BCT Call ID	Category	Description
BT-14478	BCT-110420	GUI	Allow viewing of TIFs and PDFs in datasets displayed through a Dataset Search

Fixed issues

ID	BCT Call ID	Category	Description
BT-14490	BCT-111146	ME10	Cannot create Tiff with BCT v15 HPGL2TIF.MAC
BT-14414	BCT-110380	GUI	Preview Image is not adapted to the available size of the preview window

BCT ME10-Manager v15.1.2 (released on 2013-07-04)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-14370		ME10	ME10 Item is not referenced in New Stuff Folder after save

BCT ME10-Manager v15.1.0 (released on 2013-03-21)**Enhancements**

ID	BCT Call ID	Category	Description
BT-14295		GUI	Option to suppress Dataset Check-In Dialog when closing ME10-Manager

Fixed issues

ID	BCT Call ID	Category	Description
BT-13666		ME10	GIF generation fails due to missing '\' in %BCT_EOMS_PLOT_DIR%

BCT ME10-Manager v15.0.3 (released on 2013-01-17)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14189	BCT-108562	General	Att Mapping: Different forms - Same relation
BT-14175	BCT-108531	GUI	Attributes from Master Form can be configured in with UI, but values are not displayed
BT-14152		ME10 API	DXF-option during save does not import Named Reference

BCT ME10-Manager v15.0.2 (released on 2012-10-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14074		ME10	BCT menu entries for New UI (Windows) only in german available
BT-14073		ME10	With Windows GUI, modified frame definitions will not be read/updated by the system (Logical Table in ME10)

BCT ME10-Manager v14.1.6 (released on 2012-10-25)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14187	BCT-108531	Configuration	Attribute names not displayed translated

BCT ME10-Manager v15.0.1 (released on 2012-08-30)

Fixed issues

ID	BCT Call ID	Category	Description
BT-14050		Installation	Missing BMIDE Templates
BT-14064		Documentation	Wrong supported versions mentioned in help

BCT ME10-Manager v15.0.0 (released on 2012-07-20)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13667		Documentation	Update printer configuration chapter in installation documentation

BCT ME10-Manager v14.1.3 (released on 2012-03-22)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13750		ME10	Saved Queries cannot be created when Forms via special relations are used
BT-13699		Configuration	Attributes from additional Form (not Master Form) can be configured in with UI, but values are not displayed
BT-13701		Configuration	Specific Item Type can not be selected for creating a new Item in ME10
BT-13700		Configuration	ME10-Manager crashes when creating Search-Query

BCT ME10-Manager v14.0.5 (released on 2011-11-24)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13570		General	During creation of ME10PART in the UI with RMB the configured suffix won't be used

BCT ME10-Manager v14.1.0 (released on 2011-11-24)

Fixed issues

ID	BCT Call ID	Category	Description
BT-13621		Installation	BMIDE template ME10 manager is missing
BT-13622		General	During creation of ME10PART in the UI with RMB the configured suffix won't be used
BT-13484		Configuration	ME10 dataset name isn't created properly.
BT-13378		GUI	The navigator view displays the object_name with invalid characters.

BCT ME10-Manager v8.1.5 (released on 2011-06-16)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-13503		General	Setting the Format/Maßstab attribute in ME10Manager always brings up an error message

BCT ME10-Manager v14.0.2 (released on 2011-05-26)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-13356		General	ME10-Manager does not store extra storeable types correctly

BCT ME10-Manager v14.0.1 (released on 2011-03-31)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-13276		Installation	com.bct.java.externals_XXXX.jar causes a crash of the NEVA browser

BCT ME10-Manager v14.0.0 (released on 2011-02-24)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-13054		Installation	Missing BMIDE Templates in ME10-Installer

BCT ME10-Manager v8.1.3 (released on 2011-01-27)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-13216		ME10	Wrong ME10-Macros were shipped with v8.1.x

BCT ME10-Manager v8.1.0 (released on 2010-08-20)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12870		Installation	Command line parameter "/extract= " does not extract anything

BCT ME10-Manager v8.0.0 (released on 2010-05-25)

Enhancements

ID	BCT Call ID	Category	Description
BT-12491	20092187	General	Teamcenter Express is missing as prerequisite in documentation

BCT ME10-Manager v8.0.1 (released on 2010-04-16)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12617		GUI	ME10-Manager can not be re-opened in Teamcenter Portal v8.0.1 and v8.1

BCT ME10-Manager v7.1.3 (released on 2010-02-11)

Fixed issues

ID	BCT Call ID	Category	Description
BT-12583		Installation	Invalid Ghostscript directory after update

BCT ME10-Manager v7.0.0 (released on 2009-06-09)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11976		ME10	No TIFF/PDF generation on Vista 64bit
BT-12005		CreateImage Server	me10_manager_cis.exe loads ini-files only from %IMAN_LOCAL%
BT-12088		GUI	Unusable application state if login was canceled (ActiveX in Tc Portal)

BCT ME10-Manager v6.0.0 (released on 2008-10-16)**Enhancements**

ID	BCT Call ID	Category	Description
BT-11064		Configuration	Configuration of UI is stored user dependent

Fixed issues

ID	BCT Call ID	Category	Description
BT-11499		ME10 API	ME10 API is not using the INI for the port setting

BCT ME10-Manager v6.1.0 (released on 2008-08-26)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-11599		Configuration	In bct_me10manager.ini configured preview named reference is not used
BT-11789		General	-install parameter writes wrong path with slashes into registry
BT-11743		ME10	timeout takes too long if BCT Portal Plugin has no user information

BCT ME10-Manager v5.2.1 (released on 2007-10-31)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-11416		GUI	Crash with LOVs without description
BT-11420		GUI	Crash with UGPreview

BCT ME10-Manager v5.2.0 (released on 2007-05-23)**Enhancements**

ID	BCT Call ID	Category	Description
BT-11269		GUI	Display of LOVs is not as in Teamcenter (TcEng 2005)

Fixed issues

ID	BCT Call ID	Category	Description
BT-11305		General	Deletion of ME10-Datasets fails

BCT ME10-Manager v5.0.1 (released on 2007-03-25)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-11268		GUI	Display of datasets with relation IMAN_Manifestation

BCT ME10-Manager v5.0.0 (released on 2007-02-13)**Enhancements**

ID	BCT Call ID	Category	Description
BT-10920		Configuration	Restriction of selectable Item Types through customization
BT-10652		General	manual naming of datasets in ME10

Fixed issues

ID	BCT Call ID	Category	Description
BT-10940		ME10	No ME10PART dataset can be created if environment variable TEMP is without trailing "\"

BCT ME10-Manager v4.1.0 (released on 2006-09-21)

Enhancements

ID	BCT Call ID	Category	Description
BT-10688		GUI	Drag and Drop in TcEng Portal

Fixed issues

ID	BCT Call ID	Category	Description
BT-10789		Configuration	allow port entries in bct_addons.ini
BT-10910		General	No meaningful error message when login fails
BT-10852		Configuration	ME10 Datasettype setting is also used for named_ref
BT-10854		GUI	TcEng Portal SendTo problem
BT-10735		GUI	Wrong dataset is selected in UI after saving in ME10
BT-10709		General	Owning user can not be mapped to drawing title block
BT-10969	20061293	General	From is missing when creating ME10Part dataset via TcEng Portal
BT-11001	20061473	GUI	Integrate numerical attributes
BT-10747		Search	Search for datum fields doesn't work as expected
BT-10745		Search	Search for owner is searching by name and not by id if set to search by id
BT-10775		General	After changing attribute values in ME10-Manager they are not displayed in TcEng Portal
BT-10869	20061013	ME10 API	'Load direct' loads wrong revision

BCT ME10-Manager v4.0.0 (released on 2006-04-19)

Fixed issues

ID	BCT Call ID	Category	Description
BT-10782	20060562	Configuration	Error when creating TIFF with ME10-Manager 4.0.0.1

BCT ME10-Manager v7.1.2 (released on 2006-04-18)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-12470	20091977	ME10	ME10 Manager with Windows-UI: second save fails or neutral formats (TIFF/PDF) corrupt

BCT ME10-Manager v7.1.0 (released on 2006-04-18)**Fixed issues**

ID	BCT Call ID	Category	Description
BT-12303		ME10 API	ImageMagic is missing in installer package
BT-12156		ME10 API	'Load direct' loads nothing or wrong drawing
BT-12155		ME10 API	RAHMEN.DAT is not used when using Windows-UI

BCT ME10-Manager - Known Issues and Limitations

ID	BCT Call ID	Category	Description
BT-19736		General	BCT ME10-Manager not working in v18.0.0 - use v17.0.x version instead

BCT TechDoc

BCT TechDoc v24R2 (released on 2024-03)

Enhancements

ID	BCT Call ID	Category	Description
BT-22999	2193286735 2163982183 2416288278	Installation	BCT server components + BCT BMIDE (Exits + Inspector) for Linux compatible with Tc2312 and Deployment center 2312

BCT TechDoc v23R5 (released on 2023-09-28)

Enhancements

ID	BCT Call ID	Category	Description
BT-22320			(STAEDTLER) Bereitstellung NX Nummerngenerator und kundenspez. Report für BCT TechDoc

BCT TechDoc v23R1 (released on 2023-01-26)

Enhancements

ID	BCT Call ID	Category	Description
BT-22574	010904	Installation	UGII_ROOT_DIR obsoleted since NX 11

BCT TechDoc v22R6 (released on 2022-11-24)

Enhancements

ID	BCT Call ID	Category	Description
BT-22818		NX Integration	Support new NX Version (NX 2212)
BT-22009		InstallationReports	BCT TechDoc server should be shipped with latest version - ActiveMQ 5.16.1 (Jan 20, 2021)

Fixed issues
